Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Section 144.030, RSMo, is repealed and one new
2 section enacted in lieu thereof, to be known as section 144.030,
3 to read as follows:

144.030. 1. There is hereby specifically exempted
2 from the provisions of sections 144.010 to 144.525 and from
3 the computation of the tax levied, assessed or payable
4 pursuant to sections 144.010 to 144.525 such retail sales as
5 may be made in commerce between this state and any other
6 state of the United States, or between this state and any
7 foreign country, and any retail sale which the state of
8 Missouri is prohibited from taxing pursuant to the
9 Constitution or laws of the United States of America, and
10 such retail sales of tangible personal property which the
11 general assembly of the state of Missouri is prohibited from
12 taxing or further taxing by the constitution of this state.

13 2. There are also specifically exempted from the
14 provisions of the local sales tax law as defined in section
15 32.085, section 238.235, and sections 144.010 to 144.525 and
16 144.600 to 144.761 and from the computation of the tax
17 levied, assessed or payable pursuant to the local sales tax

18 law as defined in section 32.085, section 238.235, and
19 sections 144.010 to 144.525 and 144.600 to 144.745:

20 (1) Motor fuel or special fuel subject to an excise
21 tax of this state, unless all or part of such excise tax is
22 refunded pursuant to section 142.824; or upon the sale at
23 retail of fuel to be consumed in manufacturing or creating
24 gas, power, steam, electrical current or in furnishing water
25 to be sold ultimately at retail; or feed for livestock or
26 poultry; or grain to be converted into foodstuffs which are
27 to be sold ultimately in processed form at retail; or seed,
28 limestone or fertilizer which is to be used for seeding,
29 liming or fertilizing crops which when harvested will be
30 sold at retail or will be fed to livestock or poultry to be
31 sold ultimately in processed form at retail; economic
32 poisons registered pursuant to the provisions of the
33 Missouri pesticide registration law, sections 281.220 to
34 281.310, which are to be used in connection with the growth
35 or production of crops, fruit trees or orchards applied
36 before, during, or after planting, the crop of which when
37 harvested will be sold at retail or will be converted into
38 foodstuffs which are to be sold ultimately in processed form
39 at retail;

40 (2) Materials, manufactured goods, machinery and parts
41 which when used in manufacturing, processing, compounding,
42 mining, producing or fabricating become a component part or
43 ingredient of the new personal property resulting from such
44 manufacturing, processing, compounding, mining, producing or
45 fabricating and which new personal property is intended to
46 be sold ultimately for final use or consumption; and
47 materials, including without limitation, gases and
48 manufactured goods, including without limitation slagging
49 materials and firebrick, which are ultimately consumed in

50 the manufacturing process by blending, reacting or
51 interacting with or by becoming, in whole or in part,
52 component parts or ingredients of steel products intended to
53 be sold ultimately for final use or consumption;

54 (3) Materials, replacement parts and equipment
55 purchased for use directly upon, and for the repair and
56 maintenance or manufacture of, motor vehicles, watercraft,
57 railroad rolling stock or aircraft engaged as common
58 carriers of persons or property;

59 (4) Replacement machinery, equipment, and parts and
60 the materials and supplies solely required for the
61 installation or construction of such replacement machinery,
62 equipment, and parts, used directly in manufacturing,
63 mining, fabricating or producing a product which is intended
64 to be sold ultimately for final use or consumption; and
65 machinery and equipment, and the materials and supplies
66 required solely for the operation, installation or
67 construction of such machinery and equipment, purchased and
68 used to establish new, or to replace or expand existing,
69 material recovery processing plants in this state. For the
70 purposes of this subdivision, a "material recovery
71 processing plant" means a facility that has as its primary
72 purpose the recovery of materials into a usable product or a
73 different form which is used in producing a new product and
74 shall include a facility or equipment which are used
75 exclusively for the collection of recovered materials for
76 delivery to a material recovery processing plant but shall
77 not include motor vehicles used on highways. For purposes
78 of this section, the terms motor vehicle and highway shall
79 have the same meaning pursuant to section 301.010. For the
80 purposes of this subdivision, subdivision (5) of this
81 subsection, and section 144.054, as well as the definition

82 in subdivision (9) of subsection 1 of section 144.010, the
83 term "product" includes telecommunications services and the
84 term "manufacturing" shall include the production, or
85 production and transmission, of telecommunications
86 services. The preceding sentence does not make a
87 substantive change in the law and is intended to clarify
88 that the term "manufacturing" has included and continues to
89 include the production and transmission of
90 "telecommunications services", as enacted in this
91 subdivision and subdivision (5) of this subsection, as well
92 as the definition in subdivision (9) of subsection 1 of
93 section 144.010. The preceding two sentences reaffirm
94 legislative intent consistent with the interpretation of
95 this subdivision and subdivision (5) of this subsection in
96 *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d
97 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v.*
98 *Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), and
99 accordingly abrogates the Missouri supreme court's
100 interpretation of those exemptions in *IBM Corporation v.*
101 *Director of Revenue*, 491 S.W.3d 535 (Mo. banc 2016) to the
102 extent inconsistent with this section and *Southwestern Bell*
103 *Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc
104 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*,
105 182 S.W.3d 226 (Mo. banc 2005). The construction and
106 application of this subdivision as expressed by the Missouri
107 supreme court in *DST Systems, Inc. v. Director of Revenue*,
108 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v.*
109 *Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and
110 *Southwestern Bell Tel. Co. v. Director of Revenue*, 182
111 S.W.3d 226 (Mo. banc 2005), is hereby affirmed. Material
112 recovery is not the reuse of materials within a
113 manufacturing process or the use of a product previously

114 recovered. The material recovery processing plant shall
115 qualify under the provisions of this section regardless of
116 ownership of the material being recovered;

117 (5) Machinery and equipment, and parts and the
118 materials and supplies solely required for the installation
119 or construction of such machinery and equipment, purchased
120 and used to establish new or to expand existing
121 manufacturing, mining or fabricating plants in the state if
122 such machinery and equipment is used directly in
123 manufacturing, mining or fabricating a product which is
124 intended to be sold ultimately for final use or
125 consumption. The construction and application of this
126 subdivision as expressed by the Missouri supreme court in
127 *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo.
128 banc 2001); *Southwestern Bell Tel. Co. v. Director of*
129 *Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern*
130 *Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo.
131 banc 2005), is hereby affirmed;

132 (6) Tangible personal property which is used

134 or assembling of products sold to the United States
135 government or to any agency of the United States government;

136 (7) Animals or poultry used for breeding or feeding
137 purposes, or captive wildlife;

138 (8) Newsprint, ink, computers, photosensitive paper

156 processing or fabricating of the product, or a material
157 recovery processing plant as defined in subdivision (4) of
158 this subsection, in facilities owned or leased by the
159 taxpayer, if the total cost of electrical energy so used
160 exceeds ten percent of the total cost of production, either
161 primary or secondary, exclusive of the cost of electrical
162 energy so used or if the raw materials used in such
163 processing contain at least twenty-five percent recovered
164 materials as defined in section 260.200. There shall be a
165 rebuttable presumption that the raw materials used in the
166 primary manufacture of automobiles contain at least twenty-
167 five percent recovered materials. For purposes of this
168 subdivision, "processing" means any mode of treatment, act

170 reduce them to a different state or thing, including
171 treatment necessary to maintain or preserve such processing
172 by the producer at the production facility;
