Description of fiscal impact: HB 270 extends the sunset date to June 30, 2027, for transfers from the general fund to the Natural Resource Operations state special revenue account.

FISCAL ANALYSIS

Assumptions:

1. Existing statute authorizes the transfers through June 30, 2027. HB 270 extends the sunset through FY 2027.
2. Appropriations from the account fund the following state functions in state agencies:
 - i. DNRC: Grant accounting; internal controls; financial and legal review; tracking and records management; accrual and accounts payable for the Renewable Resource Grants (HB 6) and the Resource Development Grants (HB 7); and funding for operations of the Flathead Basin Commission and the non-point source pollution projects they are currently working on.
 - ii. MUS: Operational funding for the Montana Bureau of Mines and Geology
 - iii. DEQ: Operations and administrative costs of the Mining Bureau in the Air, Energy, and Mining Division.
3. Expenditures from the account are funded each biennium in HB 2.
4. Transfers are made each fiscal year from the general fund to the account based upon the appropriations in HB 2 less any unencumbered fund balance and less the revenue received from other sources. The anticipated deficit in the account requiring a general fund transfer is estimated to be \$1,000,000 in FY 2027.
