BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

NEW SECTION. **Section 1. Definitions.** For the purposes of [this act], the following definitions apply:

- (1) "Chief information officer" has the meaning provided in 2-17-506.
- (2) "Department" means the department of administration.
- (3) "Information technology" has the meaning provided in 2-17-506.
- (4) "Information technology capital project" means a group of interrelated information technology activities that are planned and executed in a structured sequence to create a unique product or service.
- (5) "LRITP" means the long-range information technology program account in the capital projects fund type.

NEW SECTION. **Section 2. Appropriations and authorizations.** (1) All business application systems

1 funded under this section must have a plan approved by the chief information officer for the design, definition,  
 2 creation, storage, and security of the data associated with the application system. The security aspects of the plan  
 3 must address but are not limited to authentication and granting of system privileges, safeguards against  
 4 unauthorized access to or disclosure of sensitive information, and, consistent with state records retention policies,  
 5 plans for the removal of sensitive data from the system when it is no longer needed. It is the intent of this  
 6 subsection that specific consideration be given to the potential sharing of data with other state agencies in the  
 7 design, definition, creation, storage, and security of the data.

8 (2) Funds may not be released for a project until the chief information officer and the budget director  
 9 approve the plans described in subsection (1).
