12 **Section 2.** Section 17-7-111, MCA, is amended to read:

13 **"17-7-111. Preparation of state budget -- agency program budgets -- form distribution and**
14 **contents.** (1) (a) To prepare a state budget, the executive branch, the legislature, and the citizens of the state
15 need information that is consistent and accurate. Necessary information includes detailed disbursements by fund
16 type for each agency and program for the appropriate time period, recommendations for creating a balanced
17 budget, and recommended disbursements and estimated receipts by fund type and fund category.

18 (b) Subject to the requirements of this chapter, the budget director and the legislative fiscal analyst shall
19 by agreement:

20 (i) establish necessary standards, formats, and other matters necessary to share information between
21 the agencies and to ensure that information is consistent and accurate for the preparation of the state's budget;
22 and

23 (ii) provide for the collection and provision of budgetary and financial information that is in addition to or
24 different from the information otherwise required to be provided pursuant to this section.

25 (2) In the preparation of a state budget, the budget director shall, not later than the date specified in
26 17-7-112(1), distribute to all agencies the proper forms and instructions necessary for the preparation of budget
27 estimates by the budget director. These forms must be prescribed by the budget director to procure the
28 information required by subsection (3). The forms must be submitted to the budget director by the date provided
29 in 17-7-112(2), or the agency's budget is subject to preparation based upon estimates as provided in 17-7-112(5).
30 The budget director may refuse to accept forms that do not comply with the provisions of this section or the

1 instructions given for completing the forms.

2 (3) Subject to subsections (7) and (8), the agency budget request must set forth a balanced financial plan
3 for the agency completing the forms for each fiscal year of the ensuing biennium. The plan must consist of:

4 (a) a consolidated agency budget summary of funds subject to appropriation, as provided in 17-8-101,
5 for the current base budget expenditures, including statutory appropriations, and for each present law adjustment
6 and new proposal request setting forth the aggregate figures of the full-time equivalent personnel positions (FTE)
7 and the budget, showing a balance between the total proposed disbursements and the total anticipated receipts,
8 together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted
9 with the corresponding figures for the last-completed fiscal year and the fiscal year in progress;

10 (b) a schedule of the actual and projected receipts, disbursements, and solvency of each fund for the
11 current biennium and estimated for the subsequent biennium;

12 (c) a statement of the agency mission and a statement of goals and objectives for each program of the
13 agency. The goals and objectives must include, in a concise form, sufficient specific information and quantifiable
14 information to enable the legislature to formulate an appropriations policy regarding the agency and its programs
15 and to allow a determination, at some future date, on whether the agency has succeeded in attaining its goals
16 and objectives.

17 (d) actual FTE and disbursements for the completed fiscal year of the current biennium, estimated FTE
18 and disbursements for the current fiscal year, and the agency's request for the ensuing biennium, by program;

19 (e) actual disbursements for the completed fiscal year of the current biennium, estimated disbursements
20 for the current fiscal year, and the agency's recommendations for the ensuing biennium, by disbursement
21 category;

22 (f) for agencies with more than 20 FTE, a plan to reduce the proposed base budget for the general
23 appropriations act and the proposed state pay plan to 95% of the current base budget or lower if directed by the
24 budget director. Each agency plan must include base budget reductions that reflect the required percentage
25 reduction by fund type for the general fund and state special revenue fund types. Exempt from the calculations
26 of the 5% target amounts are legislative audit costs, administratively attached entities that hire their own staff
27 under 2-15-121, and state special revenue accounts that do not transfer their investment earnings or fund
28 balances to the general fund. The plan must include:

29 (i) a prioritized list of services that would be eliminated or reduced;

30 (ii) for each service included in the prioritized list, the savings that would result from the elimination or

1 reduction; and

2 (iii) the consequences or impacts of the proposed elimination or reduction of each service.

3 (g) a reference for each new information technology proposal stating whether the new proposal is
4 included in the approved agency information technology plan as required in 2-17-523;

5 (h) energy cost saving information as required by 90-4-616; and

6 (i) other information the budget director feels is necessary for the preparation of a budget.

7 (4) The budget director shall prepare and submit to the legislative fiscal analyst in accordance with
8 17-7-112:

9 (a) detailed recommendations for the state long-range building program. Each recommendation must
10 be presented by institution, agency, or branch, by funding source, with a description of each proposed project.

11 (b) a statewide project budget summary as provided in 2-17-526;

12 (c) the proposed pay plan schedule for all executive branch employees at the program level by fund, with
13 the specific cost and funding recommendations for each agency. Submission of a pay plan schedule under this
14 subsection is not an unfair labor practice under 39-31-401.

15 (d) agency proposals for the use of cultural and aesthetic project grants under Title 22, chapter 2, part
16 3, the renewable resource grant and loan program under Title 85, chapter 1, part 6, the reclamation and
17 development grants program under Title 90, chapter 2, part 11, and the treasure state endowment program under
18 Title 90, chapter 6, part 7.

19 (5) The board of regents shall submit, with its budget request for each university unit in accordance with
20 17-7-112, a report on the university system bonded indebtedness and related finances as provided in this
21 subsection (5). The report must include the following information for each year of the biennium, contrasted with
22 the same information for the last-completed fiscal year and the fiscal year in progress:

23 (a) a schedule of estimated total bonded indebtedness for each university unit by bond indenture;

24 (b) a schedule of estimated revenue, expenditures, and fund balances by fiscal year for each outstanding
25 bond indenture, clearly delineating the accounts relating to each indenture and the minimum legal funding
26 requirements for each bond indenture; and

27 (c) a schedule showing the total funds available from each bond indenture and its associated accounts,
28 with a list of commitments and planned expenditures from the accounts, itemized by revenue source and project
29 for each year of the current and ensuing bienniums.

30 (6) (a) The department of revenue shall make Montana individual income tax information available by

1 removing names, addresses, and social security numbers and substituting in their place a state accounting record
 2 identifier number. Except for the purposes of complying with federal law, the department may not alter the data
 3 in any other way.

4 (b) The department of revenue shall provide the name and address of a taxpayer on written request of
 5 the budget director when the values on the requested return, including estimated payments, are considered
 6 necessary by the budget director to properly analyze state revenue and are of a sufficient magnitude to materially
 7 affect the analysis and when the identity of the taxpayer is necessary to evaluate the effect of the return or
 8 payments on the analysis being performed.

9 (7) (a) The department of public health and human services' budget request for the 2013 biennium must
 10 identify changes necessary to reduce the 2013 biennium expenditures to the level funded in the general
 11 appropriations act. The department may include changes such as reducing administrative costs, developing more
 12 cost-efficient methods to deliver services, limiting the number of medicaid services that adults may receive,
 13 changing medicaid services included in the Montana medicaid state plan, changing eligibility or level-of-care
 14 requirements for medicaid waiver services, limiting or changing services that are fully state-funded, or
 15 implementing other initiatives that reduce state funds. Achieving the necessary general fund reduction in the 2013
 16 biennium budget request may not include shifting costs to state special revenue funds.

17 (b) The department of public health and human services shall prepare a work plan with goals,
 18 milestones, and measures to guide its review of alternatives to identify, evaluate, and select initiatives to reduce
 19 ongoing state spending in its 2013 biennium budget submission. The department shall submit the work plan,
 20 goals, milestones, and measures to the legislative finance committee at its first meeting after the adjournment
 21 of the 2009 legislative session for its review and comment. The department shall provide an update of its budget
 22 reduction for review and comment at each legislative finance committee meeting in a format developed with and
 23 agreed upon by the committee.

24 (8) Each agency budget request for the 2013 biennium must include the adjustments to present law base
 25 specified in ~~17-7-102(10)(b)~~ 17-7-102(13)(b)."

26

27 **Section 3.** Section 17-7-131, MCA, is amended to read:

28 **"17-7-131. Legislative action -- ending fund balance.** (1) The presiding officers of the house of
 29 representatives and of the senate shall promptly refer the budgets and budget bills to the proper committees. The
 30 budget bill for the maintenance of the agencies of state government and the state institutions must be based upon

1 the budget and proposed budget bill submitted at the request of the governor. The legislature may amend the
 2 proposed budget bill, but it may not amend the proposed budget bill so as to affect either the obligations of the
 3 state or the payment of any salaries required to be paid by the constitution and laws of the state.

4 (2) The adopted budget must be limited so that a positive ending general fund balance exists at the end
 5 of the biennium for which funds are appropriated.

6 (3) When possible, the adopted budget should be limited so that the ending fund balance of the general
 7 fund is greater than or equal to the amount of the operating reserve."

8

9 **Section 4.** Section 17-7-140, MCA, is amended to read:

10 **"17-7-140. Reduction in spending -- conditional transfer authority.** (1) (a) As the chief budget officer
 11 of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue.
 12 Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking
 13 into account the criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that
 14 ensures that the projected ending general fund balance for the biennium will be at least:

15 (i) 3.5% of all general fund appropriations for the biennium prior to ~~October~~ June of the year preceding
 16 a legislative session;

17 (ii) 3% of all general fund appropriations for the biennium in June of the year preceding a legislative
 18 session;

19 ~~(ii)(iii)~~ (iii) 1.875% of all general fund appropriations for the biennium in October of the year preceding a
 20 legislative session;

21 ~~(iii)(iv)~~ (iv) 1.25% of all general fund appropriations for the biennium in January of the year in which a
 22 legislative session is convened; and

23 ~~(iv)(v)~~ (v) 0.625% of all general fund appropriations for the biennium in March of the year in which a
 24 legislative session is convened.

25 (b) An agency may not be required to reduce general fund spending for any program, as defined in each
 26 general appropriations act, by more than 10% during a biennium. Departments or agencies headed by elected
 27 officials or the board of regents may not be required to reduce general fund spending by a percentage greater
 28 than the percentage of general fund spending reductions required for the total of all other executive branch
 29 agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that
 30 the appropriation item may not be reduced by more than 10%.

1 (c) The governor shall direct agencies to manage their budgets in order to reduce general fund
2 expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall
3 direct each agency to analyze the nature of each program that receives a general fund appropriation to determine
4 whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending
5 on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning
6 and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The report must be
7 submitted in an electronic format. The office of budget and program planning shall review each agency's analysis,
8 and the budget director shall submit to the governor a copy of the office of budget and program planning's
9 recommendations for reductions in spending. The budget director shall provide a copy of the recommendations
10 to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall
11 provide the legislative fiscal analyst with any proposed changes to the recommendations. The recommendations
12 must be provided in an electronic format. The legislative finance committee shall meet within 20 days of the date
13 that the proposed changes to the recommendations for reductions in spending are provided to the legislative
14 fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the
15 proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative
16 finance committee. The committee may make recommendations concerning the proposed reductions in spending.
17 The governor shall consider each agency's analysis and the recommendations of the office of budget and
18 program planning and the legislative finance committee in determining the agency's reduction in spending.
19 Reductions in spending must be designed to have the least adverse impact on the provision of services
20 determined to be most integral to the discharge of the agency's statutory responsibilities.

21 (2) Reductions in spending for the following may not be directed by the governor:

- 22 (a) payment of interest and principal on state debt;
23 (b) the legislative branch;
24 (c) the judicial branch;
25 (d) the school BASE funding program, including special education;
26 (e) salaries of elected officials during their terms of office; and
27 (f) the Montana school for the deaf and blind.

28 (3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the
29 budget director to the governor, by which the projected ending general fund balance for the biennium is less than:

- 30 (i) 5% of the general fund appropriations for the second fiscal year of the biennium prior to October of

1 the year preceding a legislative session;

2 (ii) 1.875% in October of the year preceding a legislative session;

3 (iii) 1.25% in January of the year in which a legislative session is convened; and

4 (iv) 0.625% in March of the year in which a legislative session is convened.

5 (b) In determining the amount of the projected general fund budget deficit, the budget director shall take
6 into account revenue, established levels of appropriation, anticipated supplemental appropriations for school
7 equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount statutorily
8 appropriated in 10-3-312, and anticipated reversions.

9 (c) For purposes of determining the amount of the projected general fund budget deficit if the governor
10 has mandated reductions pursuant to this section, the budget director must also take into account the cash
11 balances from conditional transfers made pursuant to subsections (5) through (9) and reductions in general fund
12 expenditures previously directed by the governor, in addition to those items listed in subsection (3)(b).

13 (4) If the budget director determines that an amount of actual or projected receipts will result in an
14 amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227,
15 the budget director shall notify the revenue and transportation interim committee of the estimated amount. Within
16 20 days of notification, the revenue and transportation interim committee shall provide the budget director with
17 any recommendations concerning the amount. The budget director shall consider any recommendations of the
18 revenue and transportation interim committee prior to certifying a projected general fund budget deficit to the
19 governor.

20 (5) If the budget director certifies a projected general fund budget deficit, the governor may authorize
21 conditional transfers to the general fund from certain accounts as set forth in subsections (6) through (9).

22 (6) The amount of conditional transfers the governor may authorize is based on the total percentage of
23 reductions to general fund expenditures identified by the governor.

24 (a) For spending reductions equal to 1% of the total general fund appropriations for the second fiscal
25 year of the biennium, the governor may authorize \$1 of conditional transfers for each \$1 of reductions.

26 (b) For the second 1% of spending reductions, the governor may authorize \$2 of conditional transfers
27 for each \$1 of reduction.

28 (c) For any additional spending reductions, the governor may authorize \$4 of conditional transfers for
29 each \$1 of reduction.

30 (d) The maximum amount of conditional transfers the governor may authorize under this section is 4.5%

1 of the general fund appropriations for the second fiscal year of the biennium.

2 (7) The governor may authorize conditional transfers from the following accounts in the following priority:

3 (a) From the long-range building program account, established in 17-7-205. The amount of funds
4 available for a conditional transfer from this account is limited to the sum of the budget stabilization reserve plus
5 the amount of funds that have not been encumbered and will not be expended in the next 18 months.

6 (b) From the fire suppression account established in 76-13-150. The amount of funds available for a
7 conditional transfer from this account is limited to the amount of the fund balance in excess of the current year
8 anticipated expenditures plus 150% of the 7-year average annual expenditure from the account.

9 (c) From any other account in the state special revenue fund type or the capital projects fund type as
10 described in 17-2-102, only if the monthly cash balance of the account has exceeded \$2 million for the past 24
11 consecutive months and the accrued expenditures for the account do not reduce its cash balance to less than
12 \$2 million.

13 (i) If the governor authorizes a conditional transfer from an account other than the long-range building
14 program account or the fire suppression account, the governor must select accounts that do not retain their own
15 interest when possible.

16 (ii) The amount of a conditional transfer from an account in the state special revenue fund type or the
17 capital projects fund type, as described in 17-2-102, may not cause cash shortages in the next 18 months.

18 (8) (a) A conditional transfer made pursuant to this section must be recorded in the state accounting
19 records. Except as provided in subsection (8)(b), funds transferred as a conditional transfer do not bear interest.

20 (b) If a conditional transfer to the general fund is made from a fund that retains its own interest, except
21 a conditional transfer from the long-range building program account established in 17-7-205 or the fire
22 suppression account established in 76-13-150, it shall be returned with interest at a rate established by the state
23 treasurer based on the estimated interest rate the funds would have earned if the funds had not been
24 conditionally transferred.

25 (9) If a conditional transfer is made from an account under this section and a transfer back to that
26 account equal to the amount of the transfer is not made prior to the time the legislature convenes, the legislature
27 must act to authorize the conditional transfer as a permanent transfer, reimburse the account from which the
28 conditional transfer was made, in full or in part, or take other actions to eliminate the conditional transfer."
