| 20 | "15-1-121. Entitlement share payment purpose appropriation. (1) As described in 15-1-120(3). |
| 21 | each local government is entitled to an annual amount that is the replacement for revenue received by local |
| 22 | governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant |
| 23 | to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later |
| 24 | enactments, were consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other |
| 25 | revenue in the state treasury with each local government's share. The reimbursement under this section is |
| 26 | provided by direct payment from the state treasury rather than the ad hoc system that offset certain state |
| 27 | payments with local government collections due the state and reimbursements made by percentage splits, with |
| 28 | a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending |
| 29 | a portion to other local governments. The amount calculated pursuant to this subsection, as adjusted pursuant |
| 30 | to subsection (3)(a)(i), is each local government's base entitlement share. The department shall estimate the total |

| 1 | amount of revenue that each local government rec | ceived from the fo | llowing sources for the fiscal year ending June |
|----|--|-------------------------------|---|

| 11 | (2) (a) From the amounts estimated in subsection (1) for each county government, the department shall |
| 12 | deduct fiscal year 2001 county government expenditures for district courts, less reimbursements for district court |
| 13 | expenses, and fiscal year 2001 county government expenditures for public welfare programs to be assumed by |
| 14 | the state in fiscal year 2002. |
| 15 | (b)<u>(</u>3) The <u>total</u> amount estimated pursuant to subsections (1) and (2)(a) received by each local |
| 16 | government in fiscal year 2010 as an entitlement share payment under this section is the base component for |
| 17 | the fiscal year 2011 distribution, and in each subsequent year the prior year entitlement share payment, including |
| 18 | any reimbursement payments received pursuant to subsection (7), is each local government's base year |
| 19 | component. The sum of all local governments' base year components is the base fiscal year entitlement share |
| 20 | pool. For the purpose of calculating the sum of all local governments' base year components, the base year |
| 21 | component for a local government may not be less than zero. |
| 22 | (3)(4) (a) The base year entitlement share pool must be increased annually by a growth rate as provided |
| 23 | for in this subsection (3) (4). The amount determined through the application of annual growth rates is the |
| 24 | entitlement share pool for each fiscal year. By October 1 of each even-numbered year, the department shall |
| 25 | calculate the growth rate of the entitlement share pool for each year of the next biennium in the following manner: |
| 26 | (i) Before applying the growth rate for fiscal year 2007 to determine the fiscal year 2007 entitlement share |
| 27 | payments, the department shall subtract from the fiscal year 2006 entitlement share payments the following |
| 28 | amounts: |

| 2 | (ii)(i) The department shall calculate the average annual growth rate of the Montana gross state product, |
| 3 | as published by the bureau of economic analysis of the United States department of commerce, for the following |
| 4 | periods: |
| 5 | (A) the last 4 calendar years for which the information has been published; and |
| 6 | (B) the 4 calendar years beginning with the year before the first year in the period referred to in |
| 7 | subsection (3)(a)(ii)(A). |
| 8 | (iii)(ii) The department shall calculate the average annual growth rate of Montana personal income, as |
| 9 | published by the bureau of economic analysis of the United States department of commerce, for the following |
| 10 | periods: |
| 11 | (A) the last 4 calendar years for which the information has been published; and |
| 12 | (B) the 4 calendar years beginning with the year before the first year in the period referred to in |
| 13 | subsection (3)(a)(iii)(A). |
| 14 | (b) (i) The entitlement share pool growth rate for the first <u>each</u> year of the biennium must be the following |
| 15 | percentage of the average of the growth rates calculated in subsections (3)(a)(ii)(B) (4)(a)(i) and (3)(a)(iii)(B) |
| 16 | <u>(4)(a)(ii)</u> : |
| 17 | (A)(i) for counties, 54%; |
| 18 | (B)(ii) for consolidated local governments, 62%; and |
| 19 | (C)(iii) for incorporated cities and towns, 70%. |
| 20 | (ii) The entitlement share pool growth rate for the second year of the biennium must be the following |
| 21 | percentage of the average of the growth rates calculated in subsections (3)(a)(ii)(A) and (3)(a)(iii)(A): |
| 22 | (A) for counties, 54%; |
| 23 | (B) for consolidated local governments, 62%; and |
| 24 | (C) for incorporated cities and towns, 70%. |
| 25 | (4)(5) As used in this section, "local government" means a county, a consolidated local government, an |
| 26 | incorporated city, and an incorporated town. A local government does not include a tax increment financing |
| 27 | district provided for in subsection (6) (8). For purposes of calculating the base year component for a county or |
| 28 | consolidated local government, the department shall include the revenue listed in subsection (1) for all special |

share pool to each special district within the county or consolidated local government in a manner that reasonably
 reflects each special district's loss of revenue sources listed in subsection (1) for which reimbursement is provided
 in this section.

(5)(6) (a) The entitlement share pools calculated in this section and the block grants funding provided
for in subsection (6) (8) are statutorily appropriated, as provided in 17-7-502, from the general fund to the
department for distribution to local governments. Each local government is entitled to a pro rata share of each
year's entitlement share pool based on the local government's base component in relation to the base year
entitlement share pool. The distributions must be made on a quarterly basis.

9 (b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year
and the entitlement share pool in the previous fiscal year. For the purposes of subsection (5)(b)(ii)(A), a county
with a negative base year component has a base year component of zero. The growth factor in the entitlement
share must be calculated separately for:

13 (A) counties;

14 (B) consolidated local governments; and

15 (C) incorporated cities and towns.

16 (ii) In each fiscal year, the growth amount for counties must be allocated as follows:

17 (A) 50% of the growth amount must be allocated based upon each county's percentage of the base prior

18 fiscal year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's
population bears to the state population not residing within consolidated local governments as determined by the
latest interim year population estimates from the Montana department of commerce as supplied by the United
States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated asfollows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's
 percentage of the base prior fiscal year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local
government's population bears to the state's total population residing within consolidated local governments as
determined by the latest interim year population estimates from the Montana department of commerce as
supplied by the United States bureau of the census.

1

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

2 (A) 50% of the growth amount must be allocated based upon each incorporated city's or town's
3 percentage of the base prior fiscal year entitlement share pool for all incorporated cities and towns; and

- (B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's
 population bears to the state's total population residing within incorporated cities and towns as determined by the
 latest interim year population estimates from the Montana department of commerce as supplied by the United
 States bureau of the census.
- 8 (v) In each fiscal year, the amount of the entitlement share pool not represented by <u>before</u> the growth 9 amount <u>or adjustments made under subsection (7) are applied</u> is <u>to be</u> distributed to each local government in 10 the same manner as the entitlement share pool was distributed in the prior fiscal year.
- 11 (7) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section,

12 the department shall determine the reimbursement amount as provided in the enactment and add the appropriate

13 amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal

14 year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool.

15 The ratio of each local government's distribution from the entitlement share pool must be recomputed to

16 determine each local government's ratio to be used in the subsequent year's distribution determination under

17 <u>subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A).</u>

18 (6)(8) (a) If a tax increment financing district was not in existence during the fiscal year ending June 30, 19 2000, then the tax increment financing district is not entitled to any block grant funding. If a tax increment 20 financing district referred to in subsection (6)(b) (8)(b) terminates, then the block grant funding for the district 21 provided for in subsection (6)(b) (8)(b) terminates.

(b) One-half of the payments provided for in this subsection (6)(b) (8)(b) must be made by November
30 and the other half by May 31 of each year. Subject to subsection (6)(a) (8)(a), the entitlement share for tax
increment financing districts is as follows:

8 (7)(9) The estimated base fiscal year entitlement share pool and any subsequent entitlement share pool
 9 for local governments do not include revenue received from tax increment financing districts, from countywide
 10 transportation block grants, or from countywide retirement block grants.

(8) (a) If revenue that is included in the sources listed in subsections (1)(b) through (1)(o) is significantly
 reduced, except through legislative action, the department shall deduct the amount of revenue loss from the
 entitlement share pool beginning in the succeeding fiscal year and the department shall work with local
 governments to propose legislation to adjust the entitlement share pool to reflect an allocation of the loss of
 revenue.

(b) For the purposes of subsection (8)(a), a significant reduction is a loss that causes the amount of
 revenue received in the current year to be less than 95% of the amount of revenue received in the base year.

(9)(10) A three-fifths vote of each house <u>of the legislature</u> is required to reduce the amount of the
 entitlement share calculated pursuant to subsections (1) through (3) (4).

(10)(11) When there has been an underpayment of a local government's share of the entitlement share
 pool, the department shall distribute the difference between the underpayment and the correct amount of the
 entitlement share. When there has been an overpayment of a local government's entitlement share, the local
 government shall remit the overpaid amount to the department.

(11)(12) A local government may appeal the department's estimation of the base year component, the
 entitlement share pool growth rate, or a local government's allocation of the entitlement share pool, according
 to the uniform dispute review procedure in 15-1-211.

(12)(13) A payment required pursuant to this section may not be offset by a debt owed to a state agency
 by a local government in accordance with Title 17, chapter 4, part 1."

| 22 | of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 |

| 24 | number of mills required to generate the amount of property tax actually assessed in the governmental unit in the |
| 25 | prior year based on the current year taxable value, less the current year's value of newly taxable property, plus |
| 26 | one-half of the average rate of inflation for the prior 3 years. |

| 21 | (b) A governmental entity that does not impose the maximum number of mills authorized under |

the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority
carried forward may be imposed in a subsequent tax year.

| 3 | the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor. |
| 4 | (2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional |
| 5 | levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly |
| 6 | taxable property. |
| 7 | (3) (a) For purposes of this section, newly taxable property includes: |
| 8 | (i) annexation of real property and improvements into a taxing unit; |
| 9 | (ii) construction, expansion, or remodeling of improvements; |
| 10 | (iii) transfer of property into a taxing unit; |
| 11 | (iv) subdivision of real property; and |

| 18 | (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or |
| 19 | (iii) the termination of a tax increment financing district. |
| 20 | (b) If a tax increment financing district terminates prior to the certification of taxable values as required |
| 21 | in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment |
| 22 | financing district terminates. If a tax increment financing district terminates after the certification of taxable values |
| 23 | as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year. |
| 24 | (c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was |
| 25 | constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current |

1 SECTION 8. SECTION 20-9-630, MCA, IS AMENDED TO READ: 2 "20-9-630. School district block grants. (1) (a) The office of public instruction shall provide a block 3 grant to each school district based on: 4 (i) the revenue received by each district in fiscal year 2001 from vehicle taxes and fees, corporate license 5 taxes paid by financial institutions, aeronautics fees, state land payments in lieu of taxes, and property tax 6 reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999; and 7 (ii) any reimbursement to be made to a school district pursuant to subsection (2). 8 (b) Block grants must be calculated using the electronic reporting system that is used by the office of 9 public instruction and school districts. The electronic reporting system must be used to allocate the block grant 10 amount into each district's budget as an anticipated revenue source by fund. 11 (c) With the exception of vehicle taxes and fees, the office of public instruction shall use the amount 12 actually received from the sources listed in subsection (1)(a) in fiscal year 2001 in its calculation of the block grant 13 for fiscal year 2002 budgeting purposes. For vehicle taxes and fees, the office of public instruction shall use 14 93.4% of the amount actually received in fiscal year 2001 in calculating the block grant for fiscal year 2002. 15 (2) If the fiscal year 2003 appropriation provided in section 248(1), Chapter 574, Laws of 2001, is 16 insufficient to fund the school district block grants in fiscal year 2003 at the fiscal year 2002 level, the office of 17 public instruction shall prorate the block grants to meet the remaining appropriation. School districts shall 18 anticipate the prorated block grant amounts provided by the office of public instruction in their budgets for fiscal 19 vear 2003. 20 (2) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section, 21 the office of public instruction shall determine the reimbursement amount as provided in the enactment and add 22 the appropriate amount to block grant distributions under this section. The total of reimbursement distributions 23 made pursuant to this subsection in a fiscal year must be added to all other distributions to the school district in 24 the fiscal year to determine the distribution for the subsequent fiscal year. The block grant percentage increases 25 in subsections (4)(a) through (4)(c) do not apply to reimbursements made under this subsection for the fiscal year 26 of the first reimbursement but do apply to the block grant amounts in subsequent fiscal years that incorporate 27 reimbursements added in previous fiscal years. For the purpose of this subsection, the fiscal year of the first 28 reimbursement does not include the fiscal year in which the reimbursement under [section 3(3)(b)] is made. 29 (3) Each year, 70% of each district's block grant must be distributed in November and 30% of each 30 district's block grant must be distributed in May at the same time that guaranteed tax base aid is distributed.
