If the amount of grants awarded under this program exceeds the amount of funds allocated under this act for this program, then there is appropriated from the General Fund for the 2020-2021 fiscal year to the Department of Revenue an amount equal to the amount of grants awarded under this program less the amount of funds allocated under this section from the Coronavirus Relief Fund for this program.

In such circumstances, the Department may also reissue the grant to the individual by virtue of a check mailed to the address on the individual's 2019 State income tax return. Grants issued by checks will be mailed to the address on the individual's 2019 State income tax return unless an updated address is available or the address

"EMERGENCY GRANTS FOR MILK PRODUCERS

"SECTION 4.15.(a) Findings. – The General Assembly finds that the COVID-19 emergency has resulted in serious and substantial impacts on the food supply chain, including the State's dairy industry. Dairy producers and processors in the State lost more than half of their market with COVID-19 related shutdowns of the school systems and food service industries. This resulted in milk being dumped and a devastating decrease in milk pay prices, which were already at a historical low. The additional bottlenecks caused by shutdowns in the meat processing plants and lack of facilities to process dairy animals for beef left producers with no

income options from the sale of cows culled from their herds. The General Assembly further finds that financial assistance to these producers is necessary in order to reduce disruptions in the supply chain for fresh dairy products and to help dairy producers in the State stay in business.

"SECTION 4.15.(b) Allocation of Funds. – The funds allocated in this act to the Department of Agriculture and Consumer Services for emergency support of milk producers shall be allocated by the Department to the North Carolina Dairy Stabilization and Growth Fund to provide grants as specified in subsection (c) of this section to compensate eligible dairy producers for losses incurred as a result of the collapse in dairy prices due to the COVID-19 pandemic or to improve the resiliency and adaptability of the dairy supply chain to future pandemics. These funds may only be used for purposes consistent with the Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments provided by the United States Department of the Treasury or with any subsequent act of Congress.

Applicants awarded grants shall enter into an agreement with the Office. The agreement shall contain all of the elements outlined in G.S. 143B-1373(d) and any other provisions the Office may require. The Office may also cancel an agreement if the grant recipient reduces or proposes to reduce the scope of the project to the extent that the reduction would result in either a lower score and reduced ranking for funding consideration or the amount of State matching funds the project would receive.
- (10) In addition to the base speed multiplier formula provided in G.S. 143B-1373(g)(6), projects that will provide a minimum download speed of 200 megabits per second and a minimum upload speed of 20 megabits per second (200:20 Mbps), or greater, shall have a score multiplier of two points.

GREAT ACT REVISIONS

SECTION 3.14.(a) G.S. 143B-1373 reads as rewritten:

"§ 143B-1373. Growing Rural Economies with Access to Technology (GREAT) program.

(a) As used in this section, the following definitions apply:

- (1) Agriculture. – Activities defined in G.S. 106-581.1.
- (2) Broadband service. – For the purposes of this section, terrestrially deployed Internet access service with transmission speeds of at least ~~10~~25 megabits per second (Mbps) download and at least ~~one megabit~~3 megabits per second upload (~~10:1~~)(25:3).

(2a) Business. – Any lawful trade, investment, or other purpose or activity, whether or not conducted or undertaken for profit. The term also includes community anchor points, agricultural operations, and agricultural processing facilities.

...

(6) Eligible project. – An eligible project is a discrete and specific project located in an unserved area of an economically distressed county seeking to provide broadband service to homes, businesses, and community anchor points not currently served. Eligible projects do not include middle mile, backhaul, and other similar projects not directed at broadband service to end users. If a contiguous project area crosses from one eligible county into one or more eligible adjacent counties, for the purposes of this section, the project shall be deemed to be located in the county where the greatest number of unserved households are proposed to be served. To qualify for an award under this section, no more than an incidental number of households or businesses, not to exceed ten percent (10%) of the total households or businesses within the boundaries of the project area submitted by the applicant, may have terrestrially deployed Internet access service with transmission speeds greater than 10 Mbps download and 1 Mbps upload.

...

(9) Infrastructure costs. – Costs directly related to the construction of broadband infrastructure for the extension of broadband service for an eligible project, including installation, acquiring or updating easements, backhaul infrastructure, and testing costs. The term also includes engineering and any other costs associated with securing a lease to locate or collocate infrastructure on public or private property or structures, but not including the actual monthly lease payment. The term does not include overhead or administrative costs.

...

(14) Unserved area. – A designated geographic area that is presently without access to broadband service, as defined in this section, offered by a wireline or fixed wireless provider. Areas where a private provider has been designated to receive funds through other State or federally funded programs designed specifically for broadband deployment shall be considered served if such funding is intended to result in construction of broadband in the area within 18 months.

(15) Unserved household or business. – A household or business that does not presently have access to broadband service, as defined in this subsection.

...

(d) Applications for grants will be submitted at times designated by the Secretary and will include, at a minimum, the following information:

...

(5) An illustration or description of the area to be served, ~~identifying the number of homes, businesses, community anchor points, agricultural operations, or agricultural processing facilities~~ homes and businesses that will have access to broadband as a result of the project, including any available addresses, or other identifying information satisfactory to the Office, for the foregoing. In the event that the Office is unable to identify the proposed project area with specificity, the Office may require the applicant to submit additional information. If construction of the proposed project would result in the provision of broadband service to areas that are not eligible for funding, those ineligible areas should be identified in the application along with the eligible areas.

...

- (11) For the proposed area to be served, the infrastructure cost per household or business for the project.

...

(e) Applications shall be made publicly available by posting on the Web site of the Department of Information Technology for a period of at least 30 days prior to award. During the 30-day period, any interested party may submit comments to the Secretary concerning any pending application. A provider of broadband services may submit a protest of any application on the grounds the proposed project covers an area that is not an eligible area under this section. Protests shall be submitted in writing, accompanied by all relevant supporting documentation, and shall be considered by the Office in connection with the review of the application. Upon submission of evidence satisfactory to the Office that the proposed project area includes prospective broadband recipients that are served, as measured using a methodology satisfactory to the Office, the Office may work with an applicant to amend an application to reduce the number of unserved prospective broadband recipients in the project area to reflect an accurate level of current broadband service. The Office may revise application scores in accordance with amended ~~applications~~ applications; however, the Office may reject any amended application resulting in a lower application score to the extent that the lower score would have impacted the ranking of the application in the initial scoring process. For applications with filed protests, the Secretary shall issue a written decision to the protesting party at least 15 days prior to the approval of that application. Following a protest that is granted for a portion of the application, the Office may release to an applicant the locations or areas declared ineligible. The information released to the applicant is not a public record, as that term is defined under G.S. 132-1, and shall remain confidential. Any provider submitting a protest shall verify that the information in the protest is accurate and that the protest is submitted in good faith. The Office may deny any protest or application that contains inaccurate information.

As a means of resolving a protest, the Office may utilize speed tests to determine if the protested area or individual households or businesses currently have access to broadband service as defined in this section. The Department shall publish the speed test methodology it uses to assess speed levels pursuant to this section. All decisions regarding the speed test to be utilized and the manner by which the speed tests are applied shall be made by the Secretary or the Secretary's designee.

...

(g) Applications shall be scored based upon a system that awards a single point for criteria considered to be the minimum level for the provision of broadband service with additional points awarded to criteria that exceed minimum levels. The Office shall score project applications in accordance with the following:

...

- (4) Unserved businesses. – The Office shall give additional points to projects that will provide broadband service to unserved businesses located within the eligible economically distressed county, as determined by the most recent data published by the Federal Communications Commission or any other information available to the Office. Points shall be given to projects that serve unserved businesses within the project area as follows:
- a. Projects proposing to serve between 1 and 4 businesses shall receive 1 point.
 - b. Projects proposing to serve between 5 and 10 businesses shall receive 2 points.
 - c. Projects proposing to serve either (i) more than 10 businesses or (ii) ~~an agricultural operation, agricultural processing facility, or a business~~ with 31 or more full-time employees shall receive 3 points.

- (5) Cost per ~~household~~—household or business. – The Office shall give additional points to projects that minimize the infrastructure cost of the proposed project per ~~household~~, household or business, based upon information available to the Office. Points shall be given to projects based upon the estimated cost per household or business as follows:

a. For projects proposed in the Piedmont or Coastal Plain Regions:

Est. Cost per Household <u>Household/Business</u>	Partnership Using	Private Provider
	Infrastructure	Only
Up to \$1,700	4	9

<u>\$3,801-4,300</u>	<u>1</u>	<u>6</u>

- (6) Base speed multiplier. – Projects that will provide minimum download and minimum upload speeds shall have the aggregate points given under subdivisions (1) through (5) of this subsection multiplied by a factor at the level indicated in the table below:

Minimum Download: Minimum Upload	Score Multiplier
At least 10:1 Mbps. up to 25:3 Mbps.	0.95
25:3 Mbps. up to 100:10 Mbps.	1.35
100:10 Mbps. or greater <u>up to 200:20 Mbps.</u>	1.75
<u>200:20 Mbps. or greater.</u>	<u>2.00</u>

...

(i) Applications receiving the highest score shall receive priority status for the awarding of grants pursuant this section. Applicants awarded grants pursuant to this section shall enter into an agreement with the Office. The agreement shall contain all of the elements outlined in subsection (d) of this section and any other provisions the Office may require. The agreement shall contain a provision governing the time line and minimum requirements and thresholds for disbursement of grant funds measured by the progress of the project. Grant funds shall be disbursed only upon verification by the Office that the terms of the agreement have been fulfilled according to the progress milestones contained in the agreement. At project completion, the grant recipient shall certify and provide to the Office evidence consistent with Federal Communications Commission attestation that either speeds greater than those identified in the application guidelines or the proposed upstream and downstream broadband speeds identified in the application guidelines, and for which a base speed multiplier was awarded pursuant to subdivision (6) of subsection (g) of this section, are available throughout the project area prior to any end user connections. A single grant award shall not exceed two million dollars (\$2,000,000). No more than one grant may be awarded per fiscal year for a project in any one eligible economically distressed county; except that if funds remain available after all top scoring projects have been awarded a grant, then the next highest scoring

projects may be awarded a grant even if the project is located in a county where a grant has been awarded in that fiscal year provided the total award associated with that county does not exceed two million dollars (\$2,000,000) in that fiscal year.

No more than one-third of the funds appropriated to the fund established in subsection (b) of this section shall be disbursed for projects located in a development tier two county.

(j) Grant recipients are required to provide matching funds based upon the application scoring pursuant to this section in the following minimum amounts:

Greater than 12.0 points, but less than 17.5 points	50%
17.5 points, up to 22.0 points	45%
Greater than 22.0 points	35%

Up to fifty percent (50%) of matching funds paid by the grant recipient may be comprised of third-party funding ~~and including funds from~~ other grant programs. Funds from the Universal Service Fund, or Connect America Phase II Fund-Fund shall not be used for any portion of the required matching funds. Any other current or future federal funds may be used, including any future phase of the Connect America Fund, for the required matching funds within the parameters of this program.

...

(n) Grant recipients shall submit to the Office an annual report for each funded project for the duration of the agreement. The report shall include a summary of the items contained in the grant agreement and level of attainment for each and shall also include (i) the number of ~~households, businesses, agriculture operations, and community anchor points~~ households and businesses that have broadband access as a result of the project; (ii) the percentage of end users in the project area who have access to broadband service and actually subscribe to the broadband service; and (iii) the average monthly subscription cost for broadband service in the project area.

(o) The Department of Information Technology shall submit an annual report to the Joint Legislative Oversight Committee for Information Technology and the Fiscal Research Division on or before September 1. The report shall contain at least all of the following:

- (1) The number of grant projects applied for and the number of grant agreements entered into.

SECTION 3.14.(b) G.S. 143B-1373(a)(5), as amended by Section 2 of S.L. 2019-230, reads as rewritten:

"(5) Eligible economically distressed county. – A county designated as a development tier one or tier two area, as defined in ~~G.S. 143B-473.08~~ G.S. 143B-437.08. For the purposes of this section, the tier designation that is in effect as of the beginning of a fiscal year shall be applied for all grants awarded for that fiscal year."

SECTION 3.14.(c) Subsection (b) of this section is effective when it becomes law and applies to applications submitted on or after July 1, 2019.

SECTION 3.14.(d) Notwithstanding the grant amount limitations in G.S. 143B-1373, the Department shall provide a supplementary grant award of fifteen thousand dollars (\$15,000) from the Growing Rural Economies with Access to Technology Fund for each grant project awarded during the 2020-2021 fiscal year that has also received a grant from the Federal Communications Commission Rural Digital Opportunity Fund Auction Phase I.

SECTION 3.14.(e) G.S. 143B-1373(l) reads as rewritten:

"(l) A-The Office may cancel an agreement and the grant recipient shall forfeit the amount of the grant received if it fails to perform, in material respect, the obligations established in the agreement. The Office may also cancel an agreement if the grant recipient reduces or proposes to reduce the scope of the project to the extent that the reduction would result in either a lower score and reduced ranking for funding consideration or the amount of State matching funds the project would receive. Grant recipients that fail to provide the minimum advertised connection speed for which a reduction in matching funds was applied shall forfeit that amount. A grant recipient that forfeits amounts disbursed under this section is liable for the amount disbursed plus interest at the rate established under G.S. 105-241.21, computed from the date of the disbursement. The number of subscribers that subscribe to broadband services offered by the provider in the project area shall not be a measure of performance under the agreement for the purposes of this subsection. Within 60 days of the cancellation of the agreement for failure to perform, the Office may conduct a special application period. The Office may select a new grant recipient, in accordance with this section, to complete a project that is substantially similar in location and scope to the project described in the cancelled agreement. The portions of any new project selected that are identical to the project described in the cancelled agreement shall not be subject to the protest period described in subsection (e) of this section."

SECTION 3.14.(f) Subsection (e) of this section is effective July 1, 2019, and applies to agreements entered into on or after that date.
