

Introduced by

Energy and Natural Resources Committee

(At the request of the Department of Environmental Quality)

1 A BILL for an Act to amend and reenact section 23.1-08-04 and subsection 2 of section  
2 23.1-08-08 of the North Dakota Century Code, relating to coal combustion residuals and  
3 disposal of wind turbine blades; and to declare an emergency.

4 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

5 **SECTION 1. AMENDMENT.** Section 23.1-08-04 of the North Dakota Century Code is  
6 amended and reenacted as follows:

7 **23.1-08-04. Coal combustion residuals - Present use and disposal deemed**  
8 **acceptable.**

9 Notwithstanding any other provision of law, the legislative assembly deems the present use  
10 and disposal of coal combustion residuals to be acceptable and that present regulation allows  
11 for the beneficial use of coal combustion residuals in concrete, for other construction  
12 applications, and for other innovative uses and allows for safe disposal without coal combustion  
13 residuals being regulated as a hazardous waste. For purposes of regulating coal combustion  
14 residuals, the term "ground water" means water below the land surface in a zone of saturation.  
15 If a federal law or regulation is adopted pertaining to the use and disposal of coal combustion  
16 residuals, this section does not prohibit the state from seeking state primacy of the federal  
17 program.

18 **SECTION 2. AMENDMENT.** Subsection 2 of section 23.1-08-08 of the North Dakota  
19 Century Code is amended and reenacted as follows:

20 2. Except as provided in subsection 3, a person may not place in municipal waste or  
21 discard or dispose of in a landfill lead-acid batteries, used motor oil, wind turbine  
22 blades, or major appliances.

23 **SECTION 3. EMERGENCY.** Section 1 of this Act is declared to be an emergency measure.
