Sixty-fifth Legislative Assembly of North Dakota

HOUSE BILL NO. 1144

Introduced by

Representatives Keiser, Mock, Seibel

Senators Armstrong, Kreun, Oban

- 1 A BILL for an Act to create and enact chapter 49-22.1 and section 49-22-08.2 of the North
- 2 Dakota Century Code, relating to gas and liquid energy conversion, gas and liquid transmission
- 3 facility siting and combining application; to amend and reenact sections 11-09.1-04, 17-05-09,
- 4 and 32-15-21, subsection 18 of section 38-08-02, sections 49-07-01.1, 49-21.1-01.1, 49-22-03,
- 5 49-22-04, 49-22-05.1, 49-22-07, 49-22-07.2, subsection 1 of section 49-22-08, sections

6 49-22-08.1, 49-22-09, 49-22-09.1, 49-22-14, 49-22-16, 49-22-17, 49-22-19, 49-22-20, and

7 49-22-21, subdivision e of subsection 1 of section 49-22-22, subsection 2 of section 49-22-22,

8 subsection 1 of section 54-17.7-08, and section 61-24.3-03 of the North Dakota Century Code,

- 9 relating to energy conversion and transmission facility siting; to repeal sections 49-22-01,
- 10 49-22-02, and 49-22-16.3 of the North Dakota Century Code, relating to energy conversion
- 11 short title, energy conversion statement of policy, and route adjustment before or during
- 12 construction for gas or liquid transmission line; to provide a continuing appropriation; and to
- 13 provide a penalty.

14 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 11-09.1-04 of the North Dakota Century Code isamended and reenacted as follows:

17 11-09.1-04. Ratification by majority vote - Supersession of existing charter and
 18 conflicting state laws - Filing of copies of new charter.

If a majority of the qualified electors voting on the charter at the election vote in favor of the home rule charter, it is ratified and becomes the organic law of the county on the first day of January or July next following the election, and extends to all its county matters. The charter and the ordinances made pursuant to the charter in county matters must be liberally construed to supersede within the territorial limits and jurisdiction of the county any conflicting state law except for any state law as it applies to cities or any power of a city to govern its own affairs,

1	without	the consent of the governing body of the city. The charter may not authorize the						
2	enactme	ent of ordinances to diminish the authority of a board of supervisors of a township or to						
3	change the structure of township government in any organized civil township, without the							
4	consent	of the board of supervisors of the township. No ordinance of a home rule county shall						
5	superse	de sectionsections 49-22-16 and 49-22.1-08. One copy of the charter as ratified and						
6	approve	d must be filed with the secretary of state; one with the recorder for the county, unless						
7	the boar	d of county commissioners designates a different official; and one with the auditor of the						
8	county t	o remain as a part of its permanent records. Courts shall take judicial notice of the						
9	charter.							
10	SEC	CTION 2. AMENDMENT. Section 17-05-09 of the North Dakota Century Code is						
11	amende	d and reenacted as follows:						
12	17-0	05-09. Public service commission jurisdiction and consultation.						
13	1.	The authority and the transmission facilities built under this chapter, until sold or						
14		disposed of by the authority, are exempt from the provisions of title 49 except for						
15		chapterchapters 49-22 and 49-22.1. Upon sale or disposal by the authority,						
16		transmission facilities built under this chapter are subject to the provisions of title 49.						
17	2.	The authority shall consult with the public service commission with respect to the rates						
18		charged by the authority for use of its transmission facilities and such rates must						
19		thereafter be considered just and reasonable in proceedings before the public service						
20		commission pursuant to section 49-05-06.						
21	3.	The authority shall conduct its activities in consultation with transmission providers,						
22		wind interests, the lignite research council, and other persons having relevant						
23		expertise.						
24	SEC	CTION 3. AMENDMENT. Section 32-15-21 of the North Dakota Century Code is						
25	amende	d and reenacted as follows:						
26	32-1	5-21. Power of court.						
27	1.	The court shall have power:						
28		a. To regulate and determine the place and manner of making connections and						
29		crossings, or of enjoying the common use mentioned in subsection 6 of section						
30		32-15-04.						

1		b. To hear and determine all adverse or conflicting claims to the property sought to						
2		be condemned and to the damages for the property.						
3		c. To determine the respective rights of different parties seeking condemnation of						
4		the same property.						
5	2.	Notwithstanding any other provision of law, if a route permit is required under						
6		chapterchapters 49-22 or 49-22.1, the court may order the taking by eminent domain						
7		conditioned on the receipt of the route permit.						
8	SEC	TION 4. AMENDMENT. Subsection 18 of section 38-08-02 of the North Dakota						
9	Century	Code is amended and reenacted as follows:						
10	18.	"Underground gathering pipeline" means an underground gas or liquid pipeline with						
11		associated above ground equipment which is designed for or capable of transporting						
12		crude oil, natural gas, carbon dioxide, or water produced in association with oil and						
13		gas which is not subject to chapter 49-2249-22.1. As used in this subsection,						
14		"associated above ground equipment" means equipment and property located above						
15		ground level, which is incidental to and necessary for or useful for transporting crude						
16		oil, natural gas, carbon dioxide, or water produced in association with oil and gas from						
17	a production facility. As used in this subsection, "equipment and property" includes a							
18		pump, a compressor, storage, leak detection or monitoring equipment, and any other						
19		facility or structure.						
20	SEC	TION 5. AMENDMENT. Section 49-07-01.1 of the North Dakota Century Code is						
21	amende	and reenacted as follows:						
22	49-(7-01.1. Violation of statute, commission order, or commission rule - Assessmen						
23	of civil	enalty.						
24	Any	person who violates any statute, commission order, or commission rule which applies						
25	to matte	s within the authority of the commission under chapters 8-08, 8-09, 8-10, 24-09, 32-2						
26	and 51-	5.1, titles 60 and 64, and title 49 except for chapters 49-22 <u>, 49-22.1,</u> and 49-23, shall						
27	in additi	n to any other penalty provided, beis subject to a civil penalty of not to exceed five						
28	thousan	dollars. A violation occurring under chapter 49-23, in addition to any other penalty, is						
29	subject	a civil penalty not to exceed twenty-five thousand dollars. The commission shall						
30	develop	policies for the assessment of penalties under chapter 49-23 which will take into						
31	conside	ation the severity of damages and the conduct of the offender. The civil penalty may b						

1	compror	nised by the commission. The amount of the penalty when finally determined or	agreed						
2	upon in compromise, if not paid, may be recovered in a civil action in the courts of this state.								
3	SECTION 6. AMENDMENT. Section 49-21.1-01.1 of the North Dakota Century Code is								
4	amende	d and reenacted as follows:							
5	49-2	21.1-01.1. Electricity transmission and distribution lines - Differentiation.							
6	Exc	ept for purposes of transmission facility siting under chapterchapters 49-22 and 4	<u>49-22.1,</u>						
7	and reg	ulatory accounting including the determination of the demarcation between feder	al and						
8	state jur	isdiction over transmission in interstate commerce and local distribution, for purp	oses of						
9	this title	and chapter 57-33.2, lines designed to operate at a voltage of 41.6 kilovolts or n	nore are						
10	transmis	sion lines, and lines designed to operate at a voltage less than 41.6 kilovolts are	;						
11	distribut	ion lines.							
12	SEC	CTION 7. AMENDMENT. Section 49-22-03 of the North Dakota Century Code is							
13	amende	d and reenacted as follows:							
14	49-2	22-03. Definitions.							
15	In th	is chapter, unless the context or subject matter otherwise requires:							
16	1.	"Certificate" means the certificate of site compatibility or the certificate of corrid	or						
17		compatibility issued under this chapter.							
18	2.	"Commission" means the North Dakota public service commission.							
19	3.	"Construction" includes any clearing of land, excavation, or other action that wo	buld						
20		affect the environment of the site after April 9, 1975, but does not include activity	ties:						
21		a. Conducted wholly within the geographic location for which a utility has pre	viously						
22		obtained a certificate or permit under this chapter, or on which a facility wa	is						
23		constructed before April 9, 1975, if:							
24		(1) The activities are for the construction of the same type of facility as the	ne						
25		existing type of facility as identified in a subdivision of subsections 5	or 12 of						
26		this section and the activities are:							
27		(a) Within the geographic boundaries of a previously issued certific	cate or						
28		permit;							
29		(b) For an <u>electric</u> energy conversion facility constructed before Ap	oril 9,						
30		1975, within the geographic location on which the facility was b	ouilt; or						

1			(C)	For	a <u>an electric</u> transmission facility constructed before April 9, 1975,
2				with	nin a width of three hundred fifty feet [106.68 meters] on either side
3				of t	he centerline;
4		(2)	Exc	ept as	s provided in subdivision b, the activities do not affect any known
5			excl	usion	or avoidance area;
6		(3)	The	activ	ities are for the construction:
7			(a)	Of	a new <u>electric</u> energy conversion facility;
8			(b)	Of	a new gas, liquid, or electric transmission facility;
9			(C)	Toi	improve the existing <u>electric</u> energy conversion facility or gas,
10				liqu	id, or electric transmission facility; or
11			(d)	Toi	increase or decrease the capacity of the existing <u>electric</u> energy
12				cor	version facility or gas, liquid, or electric transmission facility; and
13		(4)	Befo	ore co	onducting any activities, the utility certifies in writing to the
14			com	missi	ion that:
15			(a)	The	e activities will not affect any known exclusion or avoidance area;
16			(b)	The	e activities are for the construction:
17				[1]	Of a new <u>electric</u> energy conversion facility;
18				[2]	Of a new gas, liquid, or electric transmission facility;
19				[3]	To improve the existing <u>electric</u> energy conversion or gas, liquid,
20					or electric transmission facility; or
21				[4]	To increase or decrease the capacity of the existing <u>electric</u>
22					energy conversion facility or gas, liquid, or electric transmission
23					facility; and
24			(C)	The	e utility will comply with all applicable conditions and protections in
25				sitir	ng laws and rules and commission orders previously issued for any
26				par	t of the facility.
27	b.	Oth	erwise	e qua	lifying for exclusion under subdivision a, except that the activities
28		are	expe	cted t	o affect a known avoidance area and the utility before conducting
29		any	activi	ties:	
30		(1)	Cert	tifies i	in writing to the commission that:
31			(a)	The	e activities will not affect any known exclusion area;

1				(b)	The	activities are for the construction:
2					[1]	Of a new <u>electric</u> energy conversion facility;
3					[2]	Of a new gas, liquid, or electric transmission facility;
4					[3]	To improve the existing <u>electric</u> energy conversion facility or gas,
5						liquid, or electric transmission facility; or
6					[4]	To increase or decrease the capacity of the existing <u>electric</u>
7						energy conversion facility or gas, liquid, or electric transmission
8						facility; and
9				(C)	The	utility will comply with all applicable conditions and protections in
10					sitin	g laws and rules and commission orders previously issued for any
11					part	of the facility;
12			(2)	Notif	ies th	e commission in writing that the activities are expected to impact
13				an a	voida	nce area and provides information on the specific avoidance area
14				expe	ected	to be impacted and the reasons why impact cannot be avoided;
15				and		
16			(3)	Rece	eives	the commission's written approval for the impact to the avoidance
17				area	, base	ed on a determination that there is no reasonable alternative to the
18				expe	ected	impact. If the commission does not approve impacting the
19				avoi	dance	e area, the utility must obtain siting authority under this chapter for
20				the a	affecte	ed portion of the site or route. If the commission fails to act on the
21				notif	icatio	n required by this subdivision within thirty days of the utility's filing
22				the r	otific	ation, the impact to the avoidance area is deemed approved.
23		C.	Incid	dent to	o preli	minary engineering or environmental studies.
24	4.	"Co	rridor	" mea	ns the	e area of land in which a designated route may be established for
25		a <u>an</u>	elect	<u>ric</u> tra	nsmis	ssion facility.
26	5.	" En	ergy <u>E</u>	ectric	c ener	gy conversion facility" means any plant, addition, or combination
27		of p	lant a	nd ad	dition	, designed for or capable of:
28		a.	Gen	eratic	n by v	wind energy conversion exceeding one-half megawatt of
29			elec	tricity	or	
30		b.	Gen	eratio	n by a	any means other than wind energy conversion exceeding fifty
31			meg	jawatt	s of e	lectricity ;

1		c. Manufacture or refinement of one hundred million cubic feet [2831684.66 cubic-
2		meters] or more of gas per day, regardless of the end use of the gas;
3		d. Manufacture or refinement of fifty thousand barrels [7949.36 cubic meters] or-
4		more of liquid hydrocarbon products per day; or
5		e. Enrichment of uranium minerals.
6	6.	"Electric transmission facility" means an electric transmission line and associated
7		facilities with a design in excess of one hundred fifteen kilovolts. "Electric transmission
8		facility" does not include:
9		a. A temporary electric transmission line loop that is:
10		(1) Connected and adjacent to an existing electric transmission facility that was
11		sited under this chapter;
12		(2) Within the corridor of the sited facility and does not cross known exclusion
13		or avoidance areas; and
14		(3) In place for less than one year; or
15		b. An electric transmission line that is less than one mile [1.61 kilometers] long.
16	<u>7.</u>	"Facility" means an electric energy conversion facility, electric transmission facility, or
17		both.
18	7.<u>8.</u>	"Permit" means the permit for the construction of aan electric transmission facility
19		within a designated corridor issued under this chapter.
20	<u>8.9.</u>	"Person" includes any individual, firm, association, partnership, cooperative,
21		corporation, limited liability company, or any department, agency, or instrumentality of
22		a state or of the federal government, or any subdivision thereof.
23	9.<u>10.</u>	"Power emergency" means an electric transmission line and associated facilities that
24		have been damaged or destroyed by natural or manmade causes resulting in a loss of
25		power supply to consumers of the power.
26	10.<u>11.</u>	"Route" means the location of aan electric transmission facility within a designated
27		corridor.
28	11<u>12.</u>	"Site" means the location of an electric energy conversion facility.
29	12.	"Transmission facility" means any of the following:
30		a. An electric transmission line and associated facilities with a design in excess of
31		one hundred fifteen kilovolts. "Transmission facility" does not include:

1			(1)	A ten	porary transmission line loop that is:
2				(a)	Connected and adjacent to an existing transmission facility that was-
3					sited under this chapter;
4				(b)	Within the corridor of the sited facility and does not cross known
5					exclusion or avoidance areas; and
6				(c)	In place for less than one year; or
7			(2)	A trar	nsmission line that is less than one mile [1.61 kilometers] long.
8		b.	A ga	is or lie	quid transmission line and associated facilities designed for or capable
9			of tra	anspol	ting coal, gas, liquid hydrocarbons, liquid hydrocarbon products, or-
10			carb	on dio	xide. This subdivision does not apply to:
11			(1)	An oi	l or gas pipeline gathering system;
12			(2)	A pip	eline with an outside diameter of four and one-half inches [11.43-
13				centii	meters] or less that will not be trenched and will be plowed in with a
14				powe	r mechanism having a vertical knife or horizontally directionally drilled,
15				and i	s associated facilities; or
16			(3)	A pip	eline that is less than one mile [1.61 kilometers] long.
17			For	purpos	ses of this chapter, a gathering system includes the pipelines and
18			asse	ociated	I facilities used to collect oil from the lease site to the first pipeline-
19			stora	age sit	e where pressure is increased for further transport, or pipelines and
20			asso	ociated	I facilities used to collect gas from the well to the gas processing facility
21			at w	hich e	nd-use consumer-quality gas is produced, with or without the addition
22			of oc	dorant	-
23		c.	A liq	uid tra	nsmission line and associated facilities designed for or capable of
24			trans	sportin	g water from or to an energy conversion facility.
25	13.	"Util	ity" m	eans	any person engaged in and controlling the generation, manufacture,
26		refir	emer	nt, or t	ransmission of electric energy, gas, liquid hydrocarbons, or liquid
27		hydı	rocart	oon pr	oducts, including electric power generation or transmission, coal-
28		gas i	ficatio	on, coa	al liquefaction, petroleum refinement, uranium enrichment, and the
29		tran	smiss	sion of	coal, gas, liquid hydrocarbons, or liquid hydrocarbon products, <u>electric</u>
30		gen	eratio	n, the	transmission of electric energy, or the transmission of water from or to
31		any	elect	<u>ric</u> ene	ergy conversion facility.

1 SECTION 8. AMENDMENT. Section 49-22-04 of the North Dakota Century Code is

2 amended and reenacted as follows:

3 **49-22-04.** Ten-year plans - Contents.

Each utility that owns or operates, or plans within the next ten years to own, operate, or
start construction on any facility shall develop a ten-year plan as specified in this section and
submit the plan to the commission. Each utility shall file an updated plan on or before July first
of each even-numbered year after the year of its initial submission. The ten-year plan may be
appropriate portions of a single regional plan or may be jointly prepared and submitted by two
or more utilities and must contain the following information:

- A description of the general location, size, and type of all facilities to be owned or
 operated by the utility during the ensuing ten years, as well as those facilities to be
 removed from service during the ten-year period.
- An identification of the location of the tentative preferred site for all <u>electric</u> energy
 conversion facilities and the tentative location of all <u>electric</u> transmission facilities on
 which construction is intended to be commenced within the ensuing five years and
 such other information as may be required by the commission. The site and corridor
 identification shall be made in compliance with the criteria published by the
 commission pursuant to section 49-22-05.1.
- A description of the efforts by the utility to coordinate the plan with other utilities so as
 to provide a coordinated regional plan for meeting the utility needs of the region.
- A description of the efforts to involve environmental protection and land-use planning
 agencies in the planning process, as well as other efforts to identify and minimize
 environmental problems at the earliest possible stage in the planning process.
- A statement of the projected demand for the service rendered by the utility for the
 ensuing ten years and the underlying assumptions for the projection, with that
 information being as geographically specific as possible, and a description of the
 manner and extent to which the utility will meet the projected demands.
- 6. Any other relevant information as may be requested by the commission. Upon receipt
 of the ten-year plans the commission shall proceed to assess the impact of the
 development proposed within the state to ensure that energy conversion facilities and

transmission facilities will be sited in an orderly manner compatible with environmental
 preservation and efficient use of resources.

3 SECTION 9. AMENDMENT. Section 49-22-05.1 of the North Dakota Century Code is
4 amended and reenacted as follows:

5 **49-22-05.1. Exclusion and avoidance areas - Criteria.**

6 The commission shall develop criteria to be used in identifying exclusion and avoidance 7 areas and to guide the site, corridor, and route suitability evaluation and designation process. 8 Except for electric transmission lines in existence before July 1, 1983, areas within five hundred 9 feet [152.4 meters] of an inhabited rural residence must be designated avoidance areas. This 10 criterion does not apply to a water pipeline. The five hundred foot [152.4 meter] avoidance area 11 criteria for an inhabited rural residence may be waived by the owner of the inhabited rural 12 residence in writing. The criteria may also include an identification of impacts and policies or 13 practices which may be considered in the evaluation and designation process.

SECTION 10. AMENDMENT. Section 49-22-07 of the North Dakota Century Code is
 amended and reenacted as follows:

16 **49-22-07. Certificate of site compatibility or route permit required.**

- A utility may not begin construction of an <u>electric</u> energy conversion facility or <u>an</u>
 <u>electric</u> transmission facility in the state without first having obtained a certificate of site
 compatibility or a route permit from the commission pursuant to this chapter. The
 facility must be constructed, operated, and maintained in conformity with the certificate
 or permit and any terms, conditions, or modifications of the certificate or permit. A
 certificate or permit may be transferred, subject to the approval of the commission, to
 any person who agrees to comply with its terms, conditions, and modifications.
- 24 2. If a power emergency exists which necessitates the relocation of a portion of an
 25 electric transmission line and associated facilities from the designated route, the
 26 owner of the line shall give telephonic notice to the commission in advance of the
 27 relocation. The line may then be relocated to restore power as soon as practicable.
 28 After the line has been relocated, the owner shall file with the commission a request to
- approve the relocated route.

30 SECTION 11. AMENDMENT. Section 49-22-07.2 of the North Dakota Century Code is
 31 amended and reenacted as follows:

1	49-22-07	2. Waiver of procedures and time schedules.					
2	Any utility which proposes to construct an <u>electric</u> energy conversion facility or aan electric						
3	transmission facility within the state may make an application to the commission for a waiver of						
4	any of the pro	ocedures or time schedules set forth in this chapter or in the rules adopted					
5	pursuant to th	is chapter. The commission, after hearing and upon a finding that the proposed					
6	facility is of su	uch length, design, location, or purpose that it will produce minimal adverse effects,					
7	or, after heari	ng and upon a finding that a demonstrable emergency exists which requires					
8	immediate co	nstruction and that adherence to the procedures and time schedules would					
9	jeopardize the	e utility's system, may issue an order waiving specified procedures and time					
10	schedules rec	quired by this chapter or by the rules adopted pursuant to this chapter, including,					
11	but not limited	d to, applications, notices, and hearings, and may forthwith issue a certificate of					
12	site compatib	ility, a certificate of corridor compatibility, or a route permit, with such conditions as					
13	the commission	on may require.					
14	SECTION	12. AMENDMENT. Subsection 1 of section 49-22-08 of the North Dakota					
15	Century Code	e is amended and reenacted as follows:					
16	1. An a	application for a certificate shall <u>must</u> be in such form as the commission may					
17	pres	cribe, containing the following information:					
18	a.	A description of the size and type of facility.					
19	b.	A summary of any studies which have been made of the environmental impact of					
20		the facility.					
21	С.	A statement explaining the need for the facility.					
22	d.	An identification of the location of the preferred site for any electric energy					
23		conversion facility.					
24	e.	An identification of the location of the preferred corridor for any electric					
25		transmission facility.					
26	f.	A description of the merits and detriments of any location identified and a					
27		comprehensive analysis with supporting data showing the reasons why the					
28		preferred location is best suited for the facility.					
29	g.	A description of mitigative measures that will be taken to minimize all foreseen					
30		adverse impacts resulting from the location, construction, and operation of the					
31		proposed facility.					

1		h.	An evaluation of the proposed site or corridor with regard to the applicable	
2			considerations set out in section 49-22-09 and the criteria established pursuant	to
3			section 49-22-05.1.	
4		i.	Such other information as the applicant may consider relevant or the commission	on
5			may require.	
6	SEC	СТІО	N 13. AMENDMENT. Section 49-22-08.1 of the North Dakota Century Code is	
7	amende	d and	d reenacted as follows:	
8	49-2	22-08	.1. Application for a permit - Notice of filing - Amendment - Designation of a	3
9	route.			
10	1.	An	application for a route permit for aan electric transmission facility within a	
11		des	ignated corridor shall<u>must</u> be filed no later than two years after the issuance of th	ne
12		cert	ificate and shall<u>must</u> be in such form as the commission may prescribe, containi	ng
13		the	following information:	
14		a.	A description of the type, size, and design of the proposed facility.	
15		b.	A description of the location of the proposed facility.	
16		C.	An evaluation of the proposed route with regard to the applicable consideration	s
17			set out in section 49-22-09 and the criteria established pursuant to section	
18			49-22-05.1.	
19		d.	A description of mitigative measures that will be taken to minimize all foreseen	
20			adverse impacts resulting from the location, construction, and operation of the	
21			proposed facility.	
22		e.	A description of the right-of-way preparation and construction and reclamation	
23			procedures.	
24		f.	A statement setting forth the manner in which:	
25			(1) The utility will inform affected landowners of easement acquisition, and	
26			necessary easement conditions and restrictions.	
27			(2) The utility will compensate landowners for easements, without reference to	о
28			the actual consideration to be paid.	
29		g.	Such other information as the utility may consider relevant or the commission	
30			may require.	

1	2.	After determining that the application is complete, the commission shall serve a notice
2		of filing of the application on such persons and agencies that the commission may
3		deem appropriate and shall publish a notice of filing of the application in the official
4		newspaper of each county in which any portion of the designated corridor is located.
5	3.	A copy of the application shall be furnished to any person or agency, upon request to
6		the commission within thirty days of either service or publication of the notice of filing.
7	4.	An application for an amendment of a permit shall be in such form and contain such
8		information as the commission shall prescribe.
9	5.	The commission shall designate a route for the construction of aan electric
10		transmission facility following the study and hearings provided for in this chapter. This
11		designation shall be made in accordance with the evidence presented at the hearings,
12		an evaluation of the information provided in the application, the criteria established
13		pursuant to section 49-22-05.1, and the considerations set out in section 49-22-09 in a
14		finding with reasons for the designation, and shall be made in a timely manner no later
15		than six months after the filing of a completed application. The time for designation of
16		a route may be extended by the commission for just cause. The failure of the
17		commission to act within the time limit provided in this section shall not operate to
18		divest the commission of jurisdiction in any permit proceeding. Upon designation of a
19		route the commission shall issue a permit to the applicant with such terms, conditions,
20		or modifications deemed necessary.
21	SEC	TION 14. Section 49-22-08.2 of the North Dakota Century Code is created and enacted
22	as follow	/S:
23	<u>49-2</u>	2-08.2. Combining application.
24	<u>A ut</u>	ility may file a separate application for a certificate or a permit, or combined into one
25	<u>applicati</u>	<u>on.</u>
26	SEC	TION 15. AMENDMENT. Section 49-22-09 of the North Dakota Century Code is
27	amende	d and reenacted as follows:
28	49-2	2-09. Factors to be considered in evaluating applications and designation of
29	sites, co	orridors, and routes.
30	The	commission shall be guided by, but is not limited to, the following considerations, where
31	applicab	le, to aid the evaluation and designation of sites, corridors, and routes:

1	1.	Available research and investigations relating to the effects of the location,					
2		construction, and operation of the proposed facility on public health and welfare,					
3		natural resources, and the environment.					
4	2.	The effects of new electric energy conversion and electric transmission technologies					
5		and systems designed to minimize adverse environmental effects.					
6	3.	The potential for beneficial uses of waste energy from a proposed electric energy					
7		conversion facility.					
8	4.	Adverse direct and indirect environmental effects which that cannot be avoided should					
9		the proposed site or route be designated.					
10	5.	Alternatives to the proposed site, corridor, or route which are developed during the					
11		hearing process and which minimize adverse effects.					
12	6.	Irreversible and irretrievable commitments of natural resources should the proposed					
13		site, corridor, or route be designated.					
14	7.	The direct and indirect economic impacts of the proposed facility.					
15	8.	Existing plans of the state, local government, and private entities for other					
16		developments at or in the vicinity of the proposed site, corridor, or route.					
17	9.	The effect of the proposed site or route on existing scenic areas, historic sites and					
18		structures, and paleontological or archaeological sites.					
19	10.	The effect of the proposed site or route on areas which are unique because of					
20		biological wealth or because they are habitats for rare and endangered species.					
21	11.	Problems raised by federal agencies, other state agencies, and local entities.					
22	SEC	TION 16. AMENDMENT. Section 49-22-09.1 of the North Dakota Century Code is					
23	amende	d and reenacted as follows:					
24	49-2	2-09.1. Approval of hydroelectric transmission facilities by legislative assembly					
25	required	1.					
26	Afte	r compliance with the applicable requirements of this chapter, any hydroelectric					
27	transmis	sion facility that transmits hydroelectric power produced outside the United States, and					
28	which cr	osses any portion of this state, must have the approval of the legislative assembly by					
29	concurrent resolution. A person may not begin construction of a hydroelectric transmission						
30	facility in this state that which transmits hydroelectric power produced outside the United States,						
31	or exercise the right of eminent domain in connection with such construction, without first having						

complied with this chapter and obtained the approval of the legislative assembly. This section
 shalldoes not apply to any electric transmission facility for which a route permit and certificate of
 corridor compatibility has been issued prior to July 1, 1985, or any extension thereof issued

4 after July 1, 1985.

5 SECTION 17. AMENDMENT. Section 49-22-14 of the North Dakota Century Code is
6 amended and reenacted as follows:

7

49-22-14. Advisory committees - Appointment - Compensation.

8 The commission may appoint one or more advisory committees to assist it in carrying out its 9 duties under this chapter. Committees appointed to evaluate sites or corridors considered for 10 designation shallmust be composed of as many persons as may be appointed by the 11 commission, but shallmust include a majority of public representatives; at least one 12 representative from the state department of agriculture, a public or municipally owned utility, a 13 private investor-owned utility, and a cooperatively owned utility; and one representative from 14 each county and city in which an electric energy conversion facility or electric transmission 15 facility is proposed to be located. Members of advisory committees shallare entitled to be 16 reimbursed, within the limits of legislative appropriations, for any necessary expenses in the 17 amounts provided by law for state officials.

18 SECTION 18. AMENDMENT. Section 49-22-16 of the North Dakota Century Code is
19 amended and reenacted as follows:

49-22-16. Effect of issuance of certificate or permit - Local land use, zoning, or
building rules, regulations, or ordinances - State agency rules.

- The issuance of a certificate of site compatibility or a route permit shall, subject to
 subsections 2 and 3, be the sole site or route approval required to be obtained by the
 utility.
- A certificate of site compatibility for an <u>electric</u> energy conversion facility shall not
 supersede or pre-empt any local land use, zoning, or building rules, regulations, or
 ordinances and no site shall be designated which violates local land use, zoning, or
 building rules, regulations, or ordinances. A permit for the construction of <u>aan electric</u>
 transmission facility within a designated corridor may supersede and pre-empt any
 local land use, zoning, or building rules, regulations, or ordinances upon a finding by
- 31 the commission that such rules, regulations, or ordinances, as applied to the proposed

- route, are unreasonably restrictive in view of existing technology, factors of cost or
 economics, or needs of consumers regardless of their location. Without such a finding
 by the commission, no route shall be designated which violates local land use, zoning,
 or building rules, regulations, or ordinances.
- Utilities subject to this chapter shall obtain state permits that may be required to
 construct and operate <u>electric</u> energy conversion facilities and <u>electric</u> transmission
 facilities. A state agency in processing a utility's facility permit application shall be
 bound to the decisions of the commission with respect to the site designation for the
 <u>electric</u> energy conversion facility or the corridor or route designation for the <u>electric</u>
 transmission facility and with respect to other matters for which authority has been
 granted to the commission by this chapter.
- 12 4. No site or route shall be designated which violates the rules of any state agency. A 13 state agency with jurisdiction over any aspect of a proposed facility shall present the 14 position of the agency at the public hearing on an application for a certificate, a permit. 15 or a waiver, which position shall clearly state whether the site, corridor, or route being 16 considered for designation will be in compliance with such agency's rules. For 17 purposes of this chapter it shall be presumed that a proposed facility will be in 18 compliance with a state agency's rules if such agency fails to present its position on 19 the proposed site, corridor, or route at the appropriate public hearing.

SECTION 19. AMENDMENT. Section 49-22-17 of the North Dakota Century Code is
 amended and reenacted as follows:

22 **49-22-17**. Improvement of sites or locations.

23 Utilities which that have acquired an electric energy conversion facility site or electric 24 transmission line route in accordance with the provisions of this chapter may proceed to 25 construct or improve such site or route for the intended purposes at any time, subject to 26 subsections 2 and 3 of section 49-22-16; provided, that if such construction and improvement 27 commences more than four years after a certificate or permit for the site or route has been 28 issued, then the utility must certify to the commission that such site or route continues to meet 29 the conditions upon which the certificate of site compatibility or electric transmission facility 30 construction permit was issued.

2 amended and reenacted as follows: 3 49-22-19. Hearing - Judicial review. 4 Any party aggrieved by the issuance of a certificate of site compatibility or <u>electric</u> . 5 transmission facility construction permit from the commission, certification of continuing 6 suitability filed by a utility with the commission, or promulgation of a final order by the 7 commission, may request a rehearing by the commission. The hearing shallmust be conducted 8 pursuant to chapter 28-32. There shall-beig a right of appeal to the district court from any 9 adverse ruling by the commission. 10 SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is 11 amended and reenacted as follows: 12 49-22-20. Revocation or suspension of certificate or permit. 13 A certificate of site compatibility or permit for the construction of a <u>an electric</u> transmission 14 facility may be revoked or suspended for: 15 1. Any material false statement in the application or in accompanying statements or 16 studies required of the applicant. 17 2. Failure to comply with the certificate or permit or any terms, conditions, or 18 modifications contained therein. 19 3. Violation of	1	SEC	CTION 20. AMENDMENT. Section 49-22-19 of the North Dakota Century Code is						
4 Any party aggreved by the issuance of a certificate of site compatibility or <u>electric</u> . 5 transmission facility construction permit from the commission, certification of continuing 6 suitability filed by a utility with the commission, or promulgation of a final order by the 7 commission, may request a rehearing by the commission. The hearing shall <u>must</u> be conducted 8 pursuant to chapter 28-32. There shall beig a right of appeal to the district court from any 9 adverse ruling by the commission. 10 SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is 11 amended and reenacted as follows: 12 49-22-20. Revocation or suspension of certificate or permit. 13 A certificate of site compatibility or permit for the construction of <u>an electric</u> transmission 14 facility may be revoked or suspended for: 15 1. Any material false statement in the application or in accompanying statements or 16 studies required of the applicant. 17 2. Failure to comply with the certificate or permit or any terms, conditions, or 18 notifications contained therein. 19 3. Violation of the provisions of this chapter or rules or regulations issued pursuant to this 10 anterter by the commission.	2	amended and reenacted as follows:							
 transmission facility construction permit from the commission, certification of continuing suitability filed by a utility with the commission, or promulgation of a final order by the commission, may request a rehearing by the commission. The hearing shallmust be conducted pursuant to chapter 28-32. There shall beigs a right of appeal to the district court from any adverse ruling by the commission. SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is amended and reenacted as follows: 49-22-20. Revocation or suspension of certificate or permit. A certificate of site compatibility or permit for the construction of a<u>an electric</u> transmission facility may be revoked or suspended for: 1. Any material false statement in the application or in accompanying statements or studies required of the applicant. 2. Failure to comply with the certificate or permit or any terms, conditions, or modifications contained therein. 3. Violation of the provisions of this chapter or rules or regulations issued pursuant to this chapter by the commission. 4. A determination by a district court pursuant to section 49-22-16.1. SECTION 22. AMENDMENT. Section 49-22-21 of the North Dakota Century Code is amended and reenacted as follows: 49-22-21. Penalties. 1. Any person required by this chapter to have a certificate or permit who willfully begins construction of an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A	3	49-2	49-22-19. Hearing - Judicial review.						
 suitability filed by a utility with the commission, or promulgation of a final order by the commission, may request a rehearing by the commission. The hearing shallmust be conducted pursuant to chapter 28-32. There shall beig a right of appeal to the district court from any adverse ruling by the commission. SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is amended and reenacted as follows: 49-22-20. Revocation or suspension of certificate or permit. A certificate of site compatibility or permit for the construction of a<u>an electric</u> transmission facility may be revoked or suspended for: 1. Any material false statement in the application or in accompanying statements or studies required of the applicant. 2. Failure to comply with the certificate or permit or any terms, conditions, or modifications contained therein. 3. Violation of the provisions of this chapter or rules or regulations issued pursuant to this chapter by the commission. 4. A determination by a district court pursuant to section 49-22-16.1. SECTION 22. AMENDMENT. Section 49-22-21 of the North Dakota Century Code is amended and reenacted as follows: 49-22-21. Penalties. 1. Any person required by this chapter to have a certificate or permit who willfully begins construction of an electric energy conversion facility or electric transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an electric energy conversion facility or electric transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	4	Any	party aggrieved by the issuance of a certificate of site compatibility or electric						
 commission, may request a rehearing by the commission. The hearing shallmust be conducted pursuant to chapter 28-32. There shall beig a right of appeal to the district court from any adverse ruling by the commission. SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is amended and reenacted as follows: 49-22-20. Revocation or suspension of certificate or permit. A certificate of site compatibility or permit for the construction of aan electric transmission facility may be revoked or suspended for: 1. Any material false statement in the application or in accompanying statements or studies required of the applicant. Failure to comply with the certificate or permit or any terms, conditions, or modifications contained therein. Violation of the provisions of this chapter or rules or regulations issued pursuant to this chapter by the commission. A determination by a district court pursuant to section 49-22-16.1. SECTION 22. AMENDMENT. Section 49-22-21 of the North Dakota Century Code is amended and reenacted as follows: 49-22-21. Penalties. Any person required by this chapter to have a certificate or permit who willfully begins construction of an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or electric transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	5	transmis	ssion facility construction permit from the commission, certification of continuing						
 pursuant to chapter 28-32. There shall beig a right of appeal to the district court from any adverse ruling by the commission. SECTION 21. AMENDMENT. Section 49-22-20 of the North Dakota Century Code is amended and reenacted as follows: 49-22-20. Revocation or suspension of certificate or permit. A certificate of site compatibility or permit for the construction of a<u>an electric</u> transmission facility may be revoked or suspended for: Any material false statement in the application or in accompanying statements or studies required of the applicant. Failure to comply with the certificate or permit or any terms, conditions, or modifications contained therein. Violation of the provisions of this chapter or rules or regulations issued pursuant to this chapter by the commission. A determination by a district court pursuant to section 49-22-16.1. SECTION 22. AMENDMENT. Section 49-22-21 of the North Dakota Century Code is amended and reenacted as follows: 49-22-21. Penalties. A determination by a district court pursuant to section 49-22-16.1.						
 49-22-21. Penalties. 1. Any person required by this chapter to have a certificate or permit who willfully begins construction of an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	22	SEC	CTION 22. AMENDMENT. Section 49-22-21 of the North Dakota Century Code is						
 Any person required by this chapter to have a certificate or permit who willfully begins construction of an electric energy conversion facility or electric transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an electric energy conversion facility or electric transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	23	amende	ed and reenacted as follows:						
 construction of an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	24	49-2	22-21. Penalties.						
 without previously securing a certificate or permit as prescribed by this chapter, or who willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	25	1.	Any person required by this chapter to have a certificate or permit who willfully begins						
 willfully constructs, operates, or maintains an <u>electric</u> energy conversion facility or <u>electric</u> transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	26		construction of an electric energy conversion facility or electric transmission facility						
 electric transmission facility other than in compliance with the certificate or permit and any terms, conditions, and modifications contained therein is guilty of a class A 	27		without previously securing a certificate or permit as prescribed by this chapter, or who						
30 any terms, conditions, and modifications contained therein is guilty of a class A	28		willfully constructs, operates, or maintains an electric energy conversion facility or						
	29		electric transmission facility other than in compliance with the certificate or permit and						
31 misdemeanor.	30		any terms, conditions, and modifications contained therein is guilty of a class A						
	31		misdemeanor.						

1	2.	Any person who willfully violates any regulation issued or approved pursuant to this
2		chapter or who willfully falsifies, tampers with, or renders inaccurate any monitoring
3		device or method required to be maintained under this chapter shall be guilty of a
4		class A misdemeanor.
5	3.	Any person who willfully engages in any of the following conduct shall beis subject to a
6		civil penalty of not to exceed ten thousand dollars for each such violation for each day
7		that suchthe violations persist, except that the maximum penalty may not exceed two
8		hundred thousand dollars for any related series of violations:
9		a. Begins construction of an <u>electric</u> energy conversion facility or aan electric
10		transmission facility without having been issued a certificate or permit pursuant to
11		this chapter.
12		b. Constructs, operates, or maintains an <u>electric</u> energy conversion facility or a <u>an</u>
13		electric transmission facility other than in compliance with the certificate or permit
14		and any terms, conditions, or modifications contained therein.
15		c. Violates any provision of this chapter or any rule adopted by the commission
16		pursuant to this chapter.
17		d. Falsifies, tampers with, or renders inaccurate any monitoring device or method
18		required to be maintained pursuant to a certificate or permit issued pursuant to
19		this chapter.
20		The civil penalty provided for in this subsection may be compromised by the
21		commission. The amount of the penalty when finally determined or agreed upon in
22		compromise shall <u>must</u> be deposited in the general fund and, if not paid, may be
23		recovered in a civil action in the courts of the state.
24	4.	Notwithstanding any other provision of this chapter, the commission may, by injunctive
25		procedures, without bond or other undertaking, may proceed against any person who
26		willfully engages in any conduct described in subsection 3. No liability shall accrue to
27		the commission or its authorized representative in proceeding against any person
28		pursuant to this section.
29	SEC	TION 23. AMENDMENT. Subdivision e of subsection 1 of section 49-22-22 of the North
30	Dakota (Century Code is amended and reenacted as follows:

17.0563.01000

- e. An applicant certifying to the commission under subsection 3 of section 49-22-03
 or obtaining siting authority under subdivision b of subsection 2 or subdivision c
 of subsection 4 of section 49-22-16.3, shall pay an amount to be determined by
 the commission to cover anticipated expenses of processing the application.
 SECTION 24. AMENDMENT. Subsection 2 of section 49-22-22 of the North Dakota
- 6 Century Code is amended and reenacted as follows:
- 7 At the request of the commission and with the approval of the emergency commission, 2. 8 the applicant shall pay such additional fees as are reasonably necessary for 9 completion of the electric energy conversion facility site, electric transmission facility 10 corridor, or electric transmission facility route evaluation and designation process by 11 the commission. In no event shall the The application fee under subsection 1 and any 12 additional fees required of the applicant under this subsection may not exceed an 13 amount equal to one thousand dollars for each one million dollars of investment in a 14 proposed energy conversion facility or ten thousand dollars for each one million dollars 15 of investment in a proposed electric transmission facility.
- SECTION 25. Chapter 49-22.1 of the North Dakota Century Code is created and enacted
 as follows:

18 49-22.1-01. Definitions.

- 19 In this chapter, unless the context or subject matter otherwise requires:
- <u>"Certificate" means the certificate of site compatibility or the certificate of corridor</u>
 <u>compatibility issued under this chapter.</u>
- 22 <u>2.</u> <u>"Commission" means the North Dakota public service commission.</u>
- 23 3. "Construction" includes any clearing of land, excavation, or other action that would
 24 affect the environment of the site after April 9, 1975, but does not include activities:
- a. <u>Conducted wholly within the geographic location for which a utility has previously</u>
 obtained a certificate or permit under this chapter, or on which a facility was
 <u>constructed before April 9, 1975, if:</u>
- 28 (1) The activities are for the construction of the same type of facility as the
 29 existing type of facility as identified in subsection 5 or 12 and the activities
 30 are:

1		<u>(a)</u>	Within the geographic boundaries of a previously issued certificate or
2			permit;
3		<u>(b)</u>	For a gas or liquid energy conversion facility constructed before
4			April 9, 1975, within the geographic location on which the facility was
5			<u>built; or</u>
6		<u>(c)</u>	For a gas or liquid transmission facility constructed before April 9,
7			1975, within a width of three hundred fifty feet [106.68 meters] on
8			either side of the centerline;
9	<u>(2)</u>	Exce	ept as provided in subdivision b, the activities do not affect any known
10		excl	usion or avoidance area;
11	<u>(3)</u>	The	activities are for the construction:
12		<u>(a)</u>	Of a new gas or liquid energy conversion facility;
13		<u>(b)</u>	Of a new gas or liquid transmission facility;
14		<u>(c)</u>	To improve the existing gas or liquid energy conversion facility, or gas
15			or liquid, transmission facility; or
16		<u>(d)</u>	To increase or decrease the capacity of the existing gas or liquid
17			energy conversion facility or gas or liquid transmission facility; and
18	<u>(4)</u>	<u>Befo</u>	pre conducting any activities, the utility certifies in writing to the
19		<u>com</u>	mission that:
20		<u>(a)</u>	The activities will not affect any known exclusion or avoidance area;
21		<u>(b)</u>	The activities are for the construction:
22			[1] Of a new gas or liquid energy conversion facility;
23			[2] Of a new gas or liquid transmission facility;
24			[3] To improve the existing gas or liquid energy conversion or gas or
25			liquid transmission facility; or
26			[4] To increase or decrease the capacity of the existing gas or liquid
27			energy conversion facility or gas or liquid transmission facility;
28			and
29		<u>(c)</u>	The utility will comply with all applicable conditions and protections in
30			siting laws and rules and commission orders previously issued for any
31			part of the facility.

1		<u>b.</u>	<u>Oth</u>	erwise	e qua	lifying for exclusion under subdivision a, except that the activities
2			are	expe	cted to	o affect a known avoidance area and the utility before conducting
3			<u>any</u>	activi	ties:	
4			(1)	<u>Cer</u>	tifies i	n writing to the commission:
5				<u>(a)</u>	The	activities will not affect any known exclusion area;
6				<u>(b)</u>	The	activities are for the construction:
7					[1]	Of a new gas or liquid energy conversion facility;
8					[2]	Of a new gas or liquid transmission facility;
9					<u>[3]</u>	To improve the existing gas or liquid energy conversion facility or
10						gas or liquid facility; or
11					[4]	To increase or decrease the capacity of the existing gas or liquid
12						energy conversion facility or gas or liquid transmission facility;
13						and
14				<u>(c)</u>	The	utility will comply with all applicable conditions and protections in
15					<u>sitir</u>	ng laws and rules and commission orders previously issued for any
16					part	t of the facility;
17			<u>(2)</u>	<u>Noti</u>	fies th	ne commission in writing that the activities are expected to impact
18				<u>an a</u>	voida	nce area and provides information on the specific avoidance area
19				<u>exp</u>	ected	to be impacted and the reasons why impact cannot be avoided;
20				and		
21			<u>(3)</u>	<u>Rec</u>	eives	the commission's written approval for the impact to the avoidance
22				area	a, bas	ed on a determination that there is no reasonable alternative to the
23				<u>exp</u>	ected	impact. If the commission does not approve impacting the
24				<u>avoi</u>	dance	e area, the utility must obtain siting authority under this chapter for
25				the a	affect	ed portion of the site or route. If the commission fails to act on the
26				notif	ficatio	n required by this subdivision within thirty days of the utility's filing
27				the	notific	ation, the impact to the avoidance area is deemed approved.
28		<u>C.</u>	<u>Inci</u>	dent t	o prel	iminary engineering or environmental studies.
29	<u>4.</u>	<u>"Co</u>	orrido	r" mea	ans th	e area of land in which a designated route may be established for
30		<u>a g</u>	as or	liquid	trans	mission facility.

1	<u>5.</u>	<u>"Fa</u>	<u>cility"</u>	means a gas or liquid energy conversion facility, gas or liquid transmission			
2		<u>faci</u>	<u>lity, o</u>	<u>r both.</u>			
3	<u>6.</u>	<u>"Ga</u>	'Gas or liquid energy conversion facility" means any plant, addition, or combination of				
4		plai	nt and	addition, designed for or capable of:			
5		<u>a.</u>	Mar	nufacture or refinement of one hundred million cubic feet [2831684.66 cubic			
6			<u>met</u>	ers] or more of gas per day, regardless of the end use of the gas;			
7		<u>b.</u>	Mar	nufacture or refinement of fifty thousand barrels [7949.36 cubic meters] or			
8			mor	<u>e of liquid hydrocarbon products per day; or</u>			
9		<u>C.</u>	<u>Enr</u>	ichment of uranium minerals.			
10	<u>7.</u>	<u>"Ga</u>	as or I	iquid transmission facility" means any of the following:			
11		<u>a.</u>	<u>A ga</u>	as or liquid transmission line and associated facilities designed for or capable			
12			<u>of tr</u>	ansporting coal, gas, liquid hydrocarbons, liquid hydrocarbon products, or			
13			<u>cart</u>	oon dioxide. This subdivision does not apply to:			
14			<u>(1)</u>	An oil or gas pipeline gathering system;			
15			<u>(2)</u>	A pipeline with an outside diameter of four and one-half inches			
16				[11.43 centimeters] or less which will not be trenched and will be plowed in			
17				with a power mechanism having a vertical knife or horizontally directionally			
18				drilled, and its associated facilities; or			
19			<u>(3)</u>	A pipeline that is less than one mile [1.61 kilometers] long. For purposes of			
20				this chapter, a gathering system includes the pipelines and associated			
21				facilities used to collect oil from the lease site to the first pipeline storage			
22				site where pressure is increased for further transport, or pipelines and			
23				associated facilities used to collect gas from the well to the gas processing			
24				facility at which end-use consumer-quality gas is produced, with or without			
25				the addition of odorant.			
26		<u>b.</u>	<u>A lic</u>	quid transmission line and associated facilities designed for or capable of			
27			<u>tran</u>	sporting water from or to an energy conversion facility.			
28	<u>8.</u>	<u>"Pe</u>	rmit"	means the permit for the construction of a gas or liquid transmission facility			
29		<u>with</u>	nin a d	designated corridor issued under this chapter.			

1	<u>9.</u>	"Person" includes any individual, firm, association, partnership, cooperative,				
2		corporation, limited liability company, or any department, agency, or instrumentality of				
3		a state or of the federal government, or any subdivision thereof.				
4	<u>10.</u>	"Route" means the location of a gas or liquid transmission facility within a designated				
5		<u>corridor.</u>				
6	<u>11.</u>	"Site" means the location of a gas or liquid energy conversion facility.				
7	<u>12.</u>	"Utility" means any person engaged in and controlling the generation, manufacture,				
8		refinement, or transmission of gas, liquid hydrocarbons, or liquid hydrocarbon				
9		products, including coal gasification, coal liquefaction, petroleum refinement, uranium				
10		enrichment, and the transmission of coal, gas, liquid hydrocarbons, or liquid				
11		hydrocarbon products, or the transmission of water from or to any gas or liquid energy				
12		conversion facility.				
13	<u>49-</u>	22.1-02. Exclusion and avoidance areas - Criteria.				
14	The commission shall develop criteria to be used in identifying exclusion and avoidance					
15	areas and to guide the site, corridor, and route suitability evaluation and designation process.					
16	Except for oil and gas transmission lines in existence before July 1, 1983, areas within five					
17	hundred feet [152.4 meters] of an inhabited rural residence must be designated avoidance					
18	areas. This criterion does not apply to a water pipeline. The five hundred foot [152.4 meter]					
19	avoidance area criteria for an inhabited rural residence may be waived by the owner of the					
20	inhabited rural residence in writing. The criteria also may include an identification of impacts and					
21	policies	or practices which may be considered in the evaluation and designation process.				
22	<u>49-</u> 2	22.1-03. Certificate of site compatibility or route permit required.				
23	<u>A ut</u>	ility may not begin construction of a gas or liquid energy conversion facility or gas or				
24	liquid tra	ansmission facility in the state without first having obtained a certificate of site				
25	<u>compati</u>	bility or a route permit from the commission pursuant to this chapter. The facility must be				
26	<u>construc</u>	cted, operated, and maintained in conformity with the certificate or permit and any terms,				
27	<u>conditio</u>	ns, or modifications of the certificate or permit. A certificate or permit may be				
28	transfer	red, subject to the approval of the commission, to any person who agrees to comply				
29	with its t	erms, conditions, and modifications.				

1	49-22.1-	04. Waiver of procedures and time schedules.				
2	<u>Any utilit</u>	y that proposes to construct a gas or liquid energy conversion facility or a gas or				
3	liquid transm	liquid transmission facility within the state may make an application to the commission for a				
4	waiver of any	waiver of any of the procedures or time schedules set forth in this chapter or in the rules				
5	adopted pursuant to this chapter. The commission, after hearing and upon a finding that the					
6	proposed fac	ility is of a length, design, location, or purpose that it will produce minimal adverse				
7	effects, or, af	ter hearing and upon a finding that a demonstrable emergency exists which				
8	requires imm	nediate construction and that adherence to the procedures and time schedules				
9	would jeopar	dize the utility's system, may issue an order waiving specified procedures and time				
10	schedules re	quired by this chapter or by the rules adopted pursuant to this chapter, including				
11	applications,	notices, and hearings, and may forthwith issue a certificate of site compatibility, a				
12	certificate of	corridor compatibility, or a route permit, with such conditions as the commission				
13	<u>may require.</u>					
14	49-22.1-	05. Application for a certificate - Notice of filing - Amendment - Designation of				
15	<u>a site or cor</u>	<u>ridor.</u>				
16	<u>1. An</u>	application for a certificate must be in the form prescribed by the commission				
17	con	taining the following information:				
18	<u>a.</u>	A description of the size and type of facility.				
19	<u>b.</u>	A summary of any studies that have been made of the environmental impact of				
20		the facility.				
21	<u>C.</u>	A statement explaining the need for the facility.				
22	<u>d.</u>	An identification of the location of the preferred site for any gas or liquid energy				
23		conversion facility.				
24	<u>e.</u>	An identification of the location of the preferred corridor for any gas or liquid				
25		transmission facility.				
26	<u>f.</u>	A description of the merits and detriments of any location identified and a				
27		comprehensive analysis with supporting data showing the reasons why the				
28		preferred location is best suited for the facility.				
29	<u>g.</u>	A description of mitigative measures that will be taken to minimize all foreseen				
30		adverse impacts resulting from the location, construction, and operation of the				
31		proposed facility.				

	0	
1		h. An evaluation of the proposed site or corridor with regard to the applicable
2		considerations set out in section 49-22.1-08 and the criteria established pursuant
3		to section 49-22.1-02.
4		i. Any other information as the applicant considers relevant or the commission may
5		require.
6	<u>2.</u>	After determining the application is complete, the commission shall serve a notice of
7		filing of the application on those persons and agencies the commission deems
8		appropriate and shall publish a notice of filing of the application in the official
9		newspaper of each county in which any portion of the site or corridor is proposed to be
10		located.
11	<u>3.</u>	A copy of the application must be furnished to any person or agency, upon request to
12		the commission within thirty days of either service or publication of the notice of filing.
13	<u>4.</u>	An application for an amendment of a certificate must be in the form and contain the
14		information as the commission prescribes.
15	<u>5.</u>	The commission may designate a site or corridor for a proposed facility following the
16		study and hearings provided for in this chapter. Any designation must be made in
17		accordance with the evidence presented at the hearings, an evaluation of the
18		information provided in the application, the criteria established pursuant to section
19		49-22.1-02, and the considerations set out in section 49-22.1-08 in a finding with
20		reasons for the designation, and must be made in a timely manner no later than six
21		months after the filing of a completed application for a certificate of site compatibility or
22		no later than three months after the filing of a completed application for a certificate of
23		corridor compatibility. The time for designation of a site or corridor may be extended by
24		the commission for just cause. The failure of the commission to act within the time
25		limits provided in this section does not operate to divest the commission of jurisdiction
26		in any certification proceeding. The commission shall indicate the reasons for any
27		refusal of designation. Upon designation of a site or corridor, the commission shall
28		issue a certificate of site compatibility or a certificate of corridor compatibility with the
29		terms, conditions, or modifications deemed necessary.

1	<u>49-2</u>	<u>2.1-06</u>	6. Ap	oplication for a permit - Notice of filing - Amendment - Designation of a
2	<u>route.</u>			
3	<u>1.</u>	<u>An a</u>	oplic	ation for a route permit for a gas or liquid transmission facility within a
4		<u>desig</u>	inate	ed corridor must be filed no later than two years after the issuance of the
5		<u>certif</u>	icate	e and must be in the form the commission prescribes, containing the following
6		inforr	natio	on:
7		<u>a.</u>	A de	escription of the type, size, and design of the proposed facility.
8		<u>b.</u>	A de	escription of the location of the proposed facility.
9		<u>C.</u>	An e	evaluation of the proposed route with regard to the applicable considerations
10			set o	out in section 49-22.1-08 and the criteria established pursuant to section
11			<u>49-2</u>	22.1-02.
12		<u>d.</u>	A de	escription of mitigative measures that will be taken to minimize all foreseen
13			advo	erse impacts resulting from the location, construction, and operation of the
14			prop	posed facility.
15		<u>e.</u>	A de	escription of the right-of-way preparation and construction and reclamation
16			proc	cedures.
17		<u>f.</u>	A st	atement setting forth the manner in which:
18		9	(1)	The utility will inform affected landowners of easement acquisition, and
19				necessary easement conditions and restrictions.
20		9	(<u>2)</u>	The utility will compensate landowners for easements, without reference to
21				the actual consideration to be paid.
22		<u>g.</u>	Any	other information the utility considers relevant or the commission requires.
23	<u>2.</u>	<u>After</u>	dete	ermining the application is complete, the commission shall serve a notice of
24		<u>filing</u>	of th	ne application on those persons and agencies the commission deems
25		appro	opria	ate and shall publish a notice of filing of the application in the official
26		news	рар	er of each county in which any portion of the designated corridor is located.
27	<u>3.</u>	<u>A cop</u>	by of	f the application must be furnished to any person or agency, upon request to
28		<u>the c</u>	omn	nission within thirty days of either service or publication of the notice of filing.
29	<u>4.</u>	<u>An a</u>	oplic	ation for an amendment of a permit must be in the form and contain the
30		<u>inforr</u>	natio	on the commission prescribes.

1	<u>5.</u>	The commission shall designate a route for the construction of a gas or liquid								
2		transmission facility following the study and hearings provided for in this chapter. This								
3		designation must be made in accordance with the evidence presented at the hearings,								
4		an evaluation of the information provided in the application, the criteria established								
5		pursuant to section 49-22.1-02, and the considerations set out in section 49-22.1-05 in								
6	a finding with reasons for the designation, and must be made in a timely manner no									
7		later than six months after the filing of a completed application. The time for								
8		designation of a route may be extended by the commission for just cause. The failure								
9		of the commission to act within the time limit provided in this section does not operate								
10		to divest the commission of jurisdiction in any permit proceeding. Upon designation of								
11		a route the commission shall issue a permit to the applicant with the terms, conditions,								
12		or modifications deemed necessary.								
13	<u>49-</u>	22.1-07. Combining application.								
14	<u>A ut</u>	ility may file a separate application for a certificate or a permit, or combined into one								
15	applicat	ion.								
	49-22.1-08. Factors to be considered in evaluating applications and designation of									
16	<u>49-</u> 2	22.1-08. Factors to be considered in evaluating applications and designation of								
16 17		22.1-08. Factors to be considered in evaluating applications and designation of orridors, and routes.								
	<u>sites, c</u>	• •								
17	<u>sites, c</u> <u>The</u>	orridors, and routes.								
17 18	<u>sites, c</u> <u>The</u>	orridors, and routes.

The effects of new gas or liquid energy conversion and gas or liquid transmission. technologies and systems designed to minimize adverse environmental effects. The potential for beneficial uses of waste energy from a proposed gas or liquid energy. conversion facility.								
 17 18 19 20 21 22 23 24 25 26 27 	sites, c The applicat 1. 2. <u>3.</u>	orridors, and routes. e commission is guided by, but is not limited to, the following considerations, when ole, to aid the evaluation and designation of sites, corridors, and routes: Available research and investigations relating to the effects of the location, construction, and operation of the proposed facility on public health and welfare, natural resources, and the environment. The effects of new gas or liquid energy conversion and gas or liquid transmission. technologies and systems designed to minimize adverse environmental effects. The potential for beneficial uses of waste energy from a proposed gas or liquid energy. conversion facility. Adverse direct and indirect environmental effects that cannot be avoided should the								

17.0563.01000

1	<u>6.</u>	Irreversible and irretrievable commitments of natural resources should the proposed
2		site, corridor, or route be designated.
3	<u>7.</u>	The direct and indirect economic impacts of the proposed facility.
4	<u>8.</u>	Existing plans of the state, local government, and private entities for other
5		developments at or in the vicinity of the proposed site, corridor, or route.
6	<u>9.</u>	The effect of the proposed site or route on existing scenic areas, historic sites and
7		structures, and paleontological or archaeological sites.
8	<u>10.</u>	The effect of the proposed site or route on areas that are unique because of biological
9		wealth or because the site or route is a habitat for rare and endangered species.
10	<u>11.</u>	Problems raised by federal agencies, other state agencies, and local entities.
11	<u>49-2</u>	22.1-09. Public hearings - Notice.
12	<u>1.</u>	The commission shall hold a public hearing in each county in which any portion of a
13		site, corridor, or route is proposed to be located in an application for a certificate or a
14		permit. At the public hearing, any person may present testimony or evidence relating
15		to the information provided in the application, the criteria developed pursuant to
16		section 49-22.1-02, and the factors to be considered pursuant to section 49-22.1-08.
17		When more than one county is involved, the commission may hold a consolidated
18		hearing in one or more of the affected counties. A hearing for any county may not be
19		consolidated if five or more affected landowners in that county file a petition with the
20		commission within ten days of the publication of the notice of hearing.
21	<u>2.</u>	The commission is not required to hold a public hearing on an application for the
22		transfer of a certificate or a permit, or an application for a waiver of procedures and
23		time schedules, but shall publish a notice of opportunity for a public hearing in the
24		official newspaper of each county in which any portion of the facility or the proposed
25		site, corridor, or route is located. If requested by any interested person and good
26		cause has been shown therefor, the commission shall hold a public hearing. If more
27		than one county is involved, the commission may hold a consolidated hearing in one
28		or more of the affected counties.
29	<u>3.</u>	One or more public hearings must be held at a location or locations determined by the
30		commission concerning the following matters:

1		<u>a.</u>	A substantial or material change in the criteria established pursuant to section			
2			49-22.1-02.			
3		<u>b.</u>	A substantial or material change in the rules adopted pursuant to section			
4			<u>49-22.1-16.</u>			
5		<u>C.</u>	The revocation or suspension of a certificate or permit.			
6	<u>4.</u>	<u>Noti</u>	ce of a public hearing must be given by the commission by service on those			
7		pers	sons the commission deems appropriate and twice by publication, once at least			
8		<u>twer</u>	nty days before the hearing and a second time within twenty days before the			
9		<u>hear</u>	ring. Notice of a public hearing and notice of opportunity for a public hearing on an			
10		<u>appl</u>	lication for a certificate, a permit, a transfer, or a waiver must be given at the			
11		<u>expe</u>	ense of the applicant. In an emergency the commission may notice a hearing upon			
12		less	than twenty days.			
13	<u>49-2</u>	2.1-1	0. Advisory committees - Appointment - Compensation.			
14	The	comr	mission may appoint one or more advisory committees to assist it in carrying out its			
15	duties under this chapter. Committees appointed to evaluate sites or corridors considered for					
16	<u>designat</u>	<u>ion m</u>	nust be composed of as many persons as may be appointed by the commission,			
17	but must include a majority of public representatives; at least one representative from the state					
18	department of agriculture, a public or municipally owned utility, a private investor-owned utility,					
19	and a cooperatively owned utility; and one representative from each county and city in which a					
20	gas or liquid energy conversion facility or gas or liquid transmission facility is proposed to be					
21	located.	Mem	bers of advisory committees are entitled to be reimbursed, within the limits of			
22	<u>legislativ</u>	<u>e ap</u>	propriations, for any necessary expenses in the amounts provided by law for state			
23	officials.					
24	<u>49-2</u>	2.1-1	1. Cooperation with state and federal agencies.			
25	The	comr	mission may, and is encouraged to, cooperate with and receive and exchange			
26	technica	l infoi	rmation and assistance from and with any department, agency, or officer of any			
27	state or	of the	e federal government to eliminate duplication of effort, to establish a common			
28	database	<u>e, or f</u>	for any other purpose relating to the provisions of this chapter.			

1	49-22.1-12. Effect of issuance of certificate or permit - Local land use, zoning, or							
2	building rules, regulations, or ordinances - State agency rules.							
3	<u>1.</u>	The issuance of a certificate of site compatibility or a route permit is, subject to						
4		subsections 2 and 3, the sole site or route approval required to be obtained by the						
5		<u>utility.</u>						
6	<u>2.</u>	A certificate of site compatibility for an energy conversion facility does not supersede						
7		or pre-empt any local land use; zoning; or building rules, regulations, or ordinances,						
8		and a site may not be designated which violates local land use; zoning; or building						
9		rules, regulations, or ordinances. A permit for the construction of a gas or liquid						
10		transmission facility within a designated corridor may supersede and pre-empt any						
11		local land use; zoning; or building rules, regulations, or ordinances, upon a finding by						
12		the commission that the rules, regulations, or ordinances, as applied to the proposed						
13		route, are unreasonably restrictive in view of existing technology, factors of cost or						
14		economics, or needs of consumers regardless of their location. Without that finding by						
15		the commission, a route may not be designated which violates local land use; zoning;						
16		or building rules, regulations, or ordinances.						
17	<u>3.</u>	Utilities subject to this chapter shall obtain state permits that may be required to						
18		construct and operate gas or liquid energy conversion facilities and gas or liquid						
19		transmission facilities. A state agency in processing a utility's facility permit application						
20		is bound to the decisions of the commission with respect to the site designation for the						
21		gas or liquid energy conversion facility or the corridor or route designation for the gas						
22		or liquid transmission facility and with respect to other matters for which authority has						
23		been granted to the commission by this chapter.						
24	<u>4.</u>	A site or route may not be designated which violates the rules of any state agency. A						
25		state agency with jurisdiction over any aspect of a proposed facility shall present the						
26		position of the agency at the public hearing on an application for a certificate, a permit,						
27		or a waiver, which position must clearly state whether the site, corridor, or route being						
28		considered for designation will be in compliance with the agency's rules. For purposes						
29		of this chapter it is presumed a proposed facility will be in compliance with a state						
30		agency's rules if that agency fails to present its position on the proposed site, corridor,						
31		or route at the appropriate public hearing.						

1	49-22.1-13. Unfair tactics in acquiring land or easements for a facility - Court action -				
2	2 <u>Cancellation of easement - Penalty.</u>				
3	<u>1.</u>	Any person employed by a public utility to acquire easements for a facility subject to			
4		this chapter may not use any harassment, threat, intimidation, misrepresentation,			
5		deception, fraud, or other unfair tactics to induce the owner of the land to be affected			
6		by the facility to grant or agree to any easements.			
7	<u>2.</u>	If at least five landowners aggrieved by the conduct of a person or persons, acting on			
8		behalf of the same utility, acquiring easements for a site or route of a facility allege use			
9		of harassment, threat, intimidation, misrepresentation, deception, fraud, or other unfair			
10		tactics by the person or persons acquiring or attempting to acquire the easement, an			
11		action may be brought in the appropriate district court.			
12	<u>3.</u>	Upon a determination by the court that a person employed by the utility used			
13		harassment, threat, intimidation, misrepresentation, deception, fraud, or other unfair			
14		tactics in acquiring or attempting to acquire an easement from at least five separate			
15		landowners, the court, by order, shall declare the easements void and may order any			
16		compensation paid therefor returned to the offending utility, or allow the landowner to			
17		retain the compensation, or award to the landowner up to three times the amount of			
18		the compensation involved as damages, punitive or compensatory. The court shall			
19		award costs and reasonable attorney's fees to the plaintiff if the court rules in favor of			
20		the plaintiff.			
21	<u>4.</u>	Upon a determination by the court that the utility involved did knowingly allow,			
22		encourage, or operate in active consort or participation with a person utilizing an unfair			
23		tactic, the court shall cause a copy of its memorandum opinion or order to be filed with			
24		the commission.			
25	<u>5.</u>	Upon receiving a copy of a memorandum opinion or order issued by a district court			
26		pursuant to this section, the commission may revoke or suspend the permit issued			
27		with respect to the route affecting the aggrieved landowners. If a permit has not been			
28		issued with respect to a site or route affecting the aggrieved landowners, the			
29		commission may refuse to issue a permit for such portion of the route.			

1	<u>49-22.1-14. Route adjustment before or during construction for gas or liquid</u>						
2	transmission line.						
3		<u>1.</u>	Before or during construction, a utility, without any action by the commission, may				
4			<u>adju</u>	<u>ist the</u>	e route of a gas or liquid transmission line within the designated corridor if,		
5			<u>befc</u>	ore co	nducting any construction activities associated with the adjustment, the utility		
6			<u>files</u>	files with the commission certification and supporting documentation that:			
7			<u>a.</u>	<u>The</u>	construction activities will be within the designated corridor;		
8			<u>b.</u>	<u>The</u>	construction activities will not affect any known exclusion or avoidance areas		
9				<u>with</u>	in the designated corridor; and		
10			<u>C.</u>	<u>The</u>	utility will comply with the commission's order, laws, and rules designating		
11				the o	corridor and designating the route.		
12		<u>2.</u>	<u>Befo</u>	ore or	during construction, a utility may adjust the route of a gas or liquid		
13			<u>tran</u>	smiss	sion line within the designated corridor that may affect an avoidance area if,		
14			<u>befc</u>	ore co	nducting any construction activities associated with the adjustment, the		
15			<u>utilit</u>	<u>y:</u>			
16			<u>a.</u>	<u>Files</u>	s with the commission certification and supporting documentation that:		
17				(1)	The construction activities are within the designated corridor;		
18				<u>(2)</u>	The construction activities will not affect any known exclusion areas within		
19					the designated corridor;		
20				<u>(3)</u>	The construction activities are expected to impact an avoidance area with a		
21					specific description of the avoidance area expected to be impacted:		
22				<u>(4)</u>	Each owner of real property on which the adjustment is to be located and		
23					any applicable governmental entity with an interest in the same adjustment		
24					area do not oppose the adjustment, unless the utility previously received		
25					authorization from the commission for the impact to the avoidance area;		
26				<u>(5)</u>	For an impact for which the utility does not already have approval or has not		
27					filed the approval in paragraph 4, the utility has good cause and a specific		
28					reason to impact the avoidance area, and a reasonable alternative does not		
29					exist; and		
30				<u>(6)</u>	The utility will comply with the commission's order, laws, and rules		
31					designating the corridor and designating the route.		

1		<u>b.</u>	<u>Rec</u>	eives the commission's written authorization that the utility may impact the
2			avoi	idance area. If the commission does not authorize the impact to the
3			avoi	idance area, the utility must obtain siting authority for the affected portion of
4			<u>the</u>	route adjustment. If the commission fails to act within ten working days of
5			rece	pipt of the utility's filing of the certification and supporting documentation under
6			<u>sub</u>	division a of subsection 2, the route adjustment is deemed approved.
7	<u>3.</u>	<u>Bef</u>	ore or	r during construction, a utility, without any action by the commission, may
8		<u>adjı</u>	ust the	e route of a gas or liquid transmission line outside the designated corridor if,
9		bef	ore co	onducting any construction activities associated with the adjustment, the
10		<u>utili</u>	<u>ty:</u>	
11		<u>a.</u>	<u>File</u>	s with the commission certification and supporting documentation that:
12			<u>(1)</u>	The construction activities will not affect any known exclusion or avoidance
13				areas:
14			<u>(2)</u>	The route outside the corridor is no longer than one and one-half miles
15				[2.41 kilometers];
16			<u>(3)</u>	The utility will comply with the commission's order, laws, and rules
17				designating the corridor and designating the route; and
18			<u>(4)</u>	Each owner of real property on which the adjustment is to be located and
19				any applicable governmental entity with an interest in the same adjustment
20				area do not oppose the adjustment.
21		<u>b.</u>	<u>File</u>	s detailed field studies indicating exclusion and avoidance areas for an area
22			ence	ompassing the route outside the designated corridor equal to the length of the
23			<u>adju</u>	istment of the proposed corridor.
24	<u>4.</u>	<u>Bef</u>	ore or	r during construction, a utility may adjust the route of a gas or liquid
25		transmission line outside the designated corridor that may affect an avoidance area if,		
26		bef	ore co	onducting any construction activities associated with the adjustment, the
27		<u>utili</u>	t <u>y:</u>	
28		<u>a.</u>	File	s with the commission certification and supporting documentation that:
29			<u>(1)</u>	The construction activities will not affect any known exclusion areas;
30			<u>(2)</u>	The construction activities are expected to impact an avoidance area with a
31				specific description of the avoidance area expected to be impacted;

1		<u>(3)</u>	The utility has good cause and a specific reason to impact the avoidance	
2			area, and a reasonable alternative does not exist;	
3		<u>(4)</u>	The route outside the corridor is no longer than one and one-half miles	
4			[2.41 kilometers]:	
5		<u>(5)</u>	The utility will comply with the commission's order, laws, and rules	
6			designating the corridor and designating the route; and	
7		<u>(6)</u>	Each owner of real property on which the adjustment is to be located and	
8			any applicable governmental entity with an interest in the same adjustment	
9			area do not oppose the adjustment.	
10	<u>b.</u>	File	s detailed field studies indicating exclusion and avoidance areas for an area	
11		enc	ompassing the route outside the designated corridor equal to the length of the	
12		<u>adjı</u>	ustment of the proposed corridor.	
13	<u>C.</u>	Rec	eives the commission's written authorization that the utility may impact the	
14		avo	idance area. If the commission does not authorize the impact to the	
15		avo	idance area, the utility must obtain siting authority for the affected portion of	
16		<u>the</u>	route adjustment. If the commission fails to act within ten working days of	
17		rece	eipt of the utility's filing of the certification and supporting documentation under	
18		<u>sub</u>	divisions a and b of subsection 4, the route adjustment is deemed approved.	
19	<u>5. Tr</u>	<u>ne com</u>	mission is not required to hold a public hearing or publish a notice of	
20	ot	oportun	ity for a public hearing for any route adjustment under this section.	
21	<u>49-22.1</u>	-15. In	nprovement of sites or locations.	
22	<u>Utilities</u>	that ha	ave acquired a gas or liquid energy conversion facility site or gas or liquid	
23	<u>transmissio</u>	n line r	oute in accordance with this chapter may proceed to construct or improve	
24	such site or	route f	for the intended purposes at any time, subject to subsections 2 and 3 of	
25	section 49-2	22.1-12	2; provided, that if the construction and improvement commences more than	
26	four years after a certificate or permit for the site or route has been issued, the utility must			
27	certify to the commission that the site or route continues to meet the conditions upon which the			
28	certificate o	of site c	ompatibility or gas or liquid transmission facility construction permit was	
29	issued.			

1	49-22.1-16. Rules and regulations.				
2	The commission shall adopt rules in conformity with this chapter and prescribe methods				
3	and pro	and procedures required therewith.			
4	<u>49-2</u>	22.1-17. Hearing - Judicial review.			
5	<u>Any</u>	party aggrieved by the issuance of a certificate of site compatibility or gas or liquid			
6	<u>transmis</u>	ssion facility construction permit from the commission, certification of continuing			
7	<u>suitabilit</u>	ty filed by a utility with the commission, or promulgation of a final order by the			
8	<u>commis</u>	sion, may request a rehearing by the commission. The hearing must be conducted			
9	pursuan	t to chapter 28-32. There is a right of appeal to the district court from any adverse ruling			
10	by the commission.				
11	<u>49-2</u>	22.1-18. Revocation or suspension of certificate or permit.			
12	<u>A ce</u>	ertificate of site compatibility or permit for the construction of a gas or liquid transmission			
13	<u>facility n</u>	nay be revoked or suspended for:			
14	<u>1.</u>	Any material false statement in the application or in accompanying statements or			
15		studies required of the applicant.			
16	<u>2.</u>	Failure to comply with the certificate or permit or any terms, conditions, or			
17		modifications contained in the certificate or permit.			
18	<u>3.</u>	Violations of this chapter or rules adopted pursuant to this chapter by the commission.			
19	<u>4.</u>	A determination by a district court pursuant to section 49-22.1-13.			
20	<u>49-2</u>	22.1-19. Penalties.			
21	<u>1.</u>	Any person required by this chapter to have a certificate or permit who willfully begins			
22		construction of a gas or liquid energy conversion facility or gas or liquid transmission			
23		facility without previously securing a certificate or permit as prescribed by this chapter,			
24		or who willfully constructs, operates, or maintains a gas or liquid energy conversion			
25		facility or gas or liquid transmission facility other than in compliance with the certificate			
26		or permit and any terms, conditions, and modifications contained in the certificate or			
27		permit is guilty of a class A misdemeanor.			
28	<u>2.</u>	Any person who willfully violates any regulation issued or approved pursuant to this			
29		chapter or who willfully falsifies, tampers with, or renders inaccurate any monitoring			
30		device or method required to be maintained under this chapter is guilty of a class A			
31		misdemeanor.			

1	<u>3.</u>	<u>An</u> y	person who willfully engages in any of the following conduct is subject to a civil			
2		per	penalty of not to exceed ten thousand dollars for each violation for each day the			
3		<u>viol</u>	ations persist, except the maximum penalty may not exceed two hundred thousand			
4		<u>doll</u>	ars for any related series of violations:			
5		<u>a.</u>	a. Begins construction of a gas or liquid energy conversion facility or a gas or liquid			
6			transmission facility without having been issued a certificate or permit pursuant to			
7			this chapter.			
8		<u>b.</u>	Constructs, operates, or maintains a gas or liquid energy conversion facility or a			
9			gas or liquid transmission facility other than in compliance with the certificate or			
10			permit and any terms, conditions, or modifications contained therein.			
11		<u>C.</u>	Violates any provision of this chapter or any rule adopted by the commission			
12			pursuant to this chapter.			
13		<u>d.</u>	Falsifies, tampers with, or renders inaccurate any monitoring device or method			
14			required to be maintained pursuant to a certificate or permit issued pursuant to			
15			this chapter.			
16	<u>4.</u>	<u>The</u>	e civil penalty provided for in subsection 3 may be compromised by the			
17		commission. The amount of the penalty when finally determined or agreed upon in				
18		<u>con</u>	compromise must be deposited in the general fund and, if not paid, may be recovered			
19		<u>in a</u>	civil action in the courts of the state.			
20	<u>5.</u>	Notwithstanding any other provision of this chapter, the commission may, by injunctive				
21		procedures, without bond or other undertaking, proceed against any person that				
22		willfully engages in any conduct described in subsection 3. No liability may accrue to				
23		the commission or its authorized representative in proceeding against any person				
24		pur	suant to this section.			
25	5 49-22.1-20. Siting process expense recovery - Deposit in special fund - Continuing					
26	6 <u>appropriation.</u>					
27	<u>1.</u>	<u>Eve</u>	ery applicant under this chapter shall pay to the commission an application fee:			
28		<u>a.</u>	An applicant for a certificate of site compatibility shall pay an amount equal to five			
29			hundred dollars for each one million dollars of investment in the facility.			
30		<u>b.</u>	An applicant for a certificate of corridor compatibility shall pay an amount equal to			
31			five thousand dollars for each one million dollars of investment in the facility.			

1		<u>C.</u>	An applicant for a waiver shall pay the amount that would be required for an			
2			application for a certificate of site or corridor compatibility for the proposed facility.			
3			If a waiver is not granted for a proposed facility, the application fee paid must be			
4			allowed as a credit against fees payable under this section in connection with an			
5			application under this chapter for a certificate or permit for the proposed facility.			
6		<u>d.</u>	An applicant for a transfer of a certificate or permit shall pay an amount to be			
7			determined by the commission to cover anticipated expenses of processing the			
8			application.			
9		<u>e.</u>	An applicant certifying to the commission under subsection 3 of section			
10			49-22.1-01 or obtaining siting authority under subdivision b of subsection 2 or			
11			subdivision c of subsection 4 of section 49-22.1-14, shall pay an amount to be			
12			determined by the commission to cover anticipated expenses of processing the			
13			application.			
14		<u>f.</u>	The application fee under subdivision a, b, or c may not be less than ten			
15			thousand dollars nor more than one hundred thousand dollars.			
16	<u>2.</u>	<u>At t</u>	he request of the commission and with the approval of the emergency commission,			
17		<u>the</u>	applicant shall pay any additional fees as are reasonably necessary for completion			
18		<u>of th</u>	of the gas or liquid energy conversion facility site, gas or liquid transmission facility			
19		<u>corr</u>	idor, or gas or liquid transmission facility route evaluation and designation process			
20		<u>by t</u>	by the commission. The application fee under subsection 1 and any additional fees			
21		requ	uired of the applicant under this subsection may not exceed an amount equal to			
22		one	thousand dollars for each one million dollars of investment in a proposed energy			
23		<u>con</u>	version facility or ten thousand dollars for each one million dollars of investment in			
24		<u>a pr</u>	oposed gas or liquid transmission facility.			
25	<u>3.</u>	<u>A si</u>	ting process expense recovery fund is established in the state treasury. The			
26		<u>con</u>	mission shall deposit payments received under subsections 1 and 2 in the siting			
27		proc	cess expense recovery fund. All moneys deposited in the fund are appropriated on			
28		<u>a co</u>	ontinuing basis to the commission to pay expenses incurred in the siting process.			
29		<u>The</u>	commission shall specify the time and method of payment of any fees and shall			
30		<u>refu</u>	ind the portion of fees collected under subsections 1 and 2 which exceeds the			
31		<u>exp</u>	enses incurred for the evaluation and designation process.			

1 <u>49-22.1-21. Safety.</u>

2 <u>Every utility that owns or operates electric generation of any size for the primary purpose of</u>

3 resale shall comply with the standards of the national electrical safety code in effect at the time

- 4 of construction of the generation.
- 5 SECTION 26. AMENDMENT. Subsection 1 of section 54-17.7-08 of the North Dakota
- 6 Century Code is amended and reenacted as follows:
- Until sold or disposed of by the authority, the authority and the pipeline facilities built
 under this chapter are exempt from the provisions of title 49 except for
- 9 chapterchapters 49-22 and 49-22.1 and sections 49-02-01.2 and 49-07-05.1. Upon
- sale or disposal by the authority, pipeline facilities built under this chapter are subject
 to the provisions of title 49.

SECTION 27. AMENDMENT. Section 61-24.3-03 of the North Dakota Century Code is
 amended and reenacted as follows:

14 **61-24.3-03.** Authorization of southwest pipeline project.

15 The preliminary designs for a water supply facility for supplementation of the water 16 resources of a portion of the area of North Dakota south and west of the Missouri River for 17 multiple uses, as set forth in the engineering preliminary design final report for the southwest 18 pipeline project, state water commission project no. 1736, dated September 1982, are hereby 19 confirmed and approved, under the designation of the southwest pipeline project, and the 20 construction of the southwest pipeline project shall be initiated and completed by the state water 21 commission substantially in accordance with plan B of the engineering preliminary design final 22 report, state water commission project no. 1736, dated September 1982, except as otherwise 23 specifically provided in this chapter. The commission shall have the authority to eliminate the 24 construction of any primary or secondary transmission mains which are part of plan B of the 25 engineering preliminary design final report if the water user entities to be served by the primary 26 or secondary transmission mains do not execute water service contracts for the purchase of a 27 sufficient quantity of water, as determined by the commission, to justify the construction of the 28 primary or secondary transmission mains. ChapterChapters 49-22 and 49-22.1 shall not apply 29 to this chapter. The right of way is hereby given, dedicated, and set apart, to locate, construct, 30 and maintain such works over and through any of the lands which are or may be the property of 31 the state.

- 1 SECTION 28. REPEAL. Sections 49-22-01, 49-22-02, and 49-22-16.3 of the North Dakota
- 2 Century Code are repealed.
