3. If a licensee wishes to conduct operations other than those listed on an existing license, the licensee may make an application to the commissioner for a license to conduct additional operations. If the commissioner finds the additional operations are in conformance with North Dakota laws and the rules of the commissioner, the commissioner shall approve them.

Information gained through the use of a release is confidential. The

commissioner may furnish information obtained through the use of the records release to any state agency and to any prosecutorial official requiring the information for use in performing official duties.

4.1-25-04. Financial condition - Assurance of prompt payment.

Each applicant for a license under section 4.1-25-02 who intends to purchase milk from dairy producers shall satisfy the department that the financial condition of the applicant is adequate to assure prompt payment to the dairy producers for purchased milk.

Each applicant for a license under section 4.1-25-02 who purchases milk from a dairy producer annually shall file with the department an audited financial statement prepared by an independent certified public accountant or licensed public accountant in accordance with generally accepted accounting practices and principles, verified by the accountant as accurately representing business operations and financial conditions of the applicant for which the statement is rendered, prepared as of the close of the most recent fiscal year of the applicant. In lieu of filing an audited financial statement, an applicant may file other forms of security as provided in section 4.1-25-06. All audited financial statements must be reviewed by the Bank of North Dakota. All statements under this section are confidential and not open for public inspection. The department may require additional statements to be audited by a certified public accountant or a licensed public accountant.

4.1-25-06. Surety bond, trustee agreement, or other security or assurances.

If it appears the financial condition of any applicant or licensee who purchases milk from a dairy producer is not adequate to reasonably assure payment to dairy producers when due for the milk to be purchased, or in lieu of annually filing with the department an audited financial statement as required in section 4.1-25-05, the department shall require from an applicant or licensee security or other assurances in one of the following forms:

1. The filing of a surety bond acceptable to the department. The amount of the surety bond must be determined on the basis of average purchases of milk from dairy producers during the previous year. If payment for milk purchased from dairy producers is made on a weekly basis, the amount of the surety bond must be at least in an amount equal to the average weekly purchases of milk. If payment for milk purchased from dairy producers is made on a semimonthly basis, the amount of the surety bond must be at least in an amount equal to the average semimonthly purchases of milk. If the period of payment for milk purchased from dairy producers is made on a basis involving periods of time greater than semimonthly, the amount of the surety bond must be at least in an amount equal to the average purchases of milk for that greater period of time. The amount of the bond for each period of payment must also include an amount equal to at least the average purchases for three days following the close of the period of payment. The amount of the surety bond of any licensee who pays assignments to creditors of a producer of milk at a lesser frequency than the licensee pays the producer must also include an amount equal to the value of assignments from the prior payment period. The commissioner must be named as obligee, but the bond or draft must be held for the purpose of protecting, and for the benefit of, any dairy producer, and the full and complete payment to that dairy producer for all milk purchased by the licensee. The aggregate liability of the bonding company or the department to all dairy producers may not exceed the amount of the bond.
2. Providing an amount of protection for dairy producers equal to the amount of protection provided in subsection 1. The security must be held by the department solely for the protection of dairy producers, in one or more of the following forms:
 - a. Cash deposited with a bank or trust company and held under an escrow agreement with the department;

- b. Bonds of the United States deposited with the department;
 - c. Stocks, bonds, or other marketable securities at current market values, which have regularly reported quotations, deposited with the department; or
 - d. A certified bank draft, certified check, irrevocable letter of credit, or certificate of deposit held in favor of the department.
3. The filing of an agreement providing complete control over all manufactured or processed milk and dairy products by a trustee to be selected at least annually by the dairy producers. The trustee shall file a trustee's bond and contracts signed by the owner or operator and the purchaser of the dairy products requiring that payment for all dairy products sold be made to the trustee. The trustee shall maintain a separate bank account for that purpose and at least annually shall render a true and correct account of trustee dealings to the department and to the dairy producers.

4.1-25-07. Financial basis for license - Statement to producer - Notification to department.

All milk purchasers licensed under section 4.1-25-02 shall inform producers of the financial basis on which the license was issued, including the type and amount of security, if any, filed under section 4.1-25-06, by an annual written statement to each producer. A person may not receive milk that will increase the amount due and accrued beyond the amount represented as a basis for the issuance of a license without first notifying the department.

4.1-25-08. Additional security.

When the department determines the value of milk purchased or received from producers has increased or an increase reasonably may be anticipated, so the total amount of security does not comply with the amount required by subsection 1 or 2 of section 4.1-25-06, the department shall require additional security to afford producers the protection intended by section 4.1-25-06. The department may suspend or revoke any license if the licensee fails to provide the additional security required by the department under this section.

4.1-25-09. Filing of security before license year.

An applicant or licensee shall file bonds or other security for the license year with the department by the first day of June immediately preceding the beginning of each license year. If an applicant or licensee fails to file a surety bond or other security by July first of the license year and has not been relieved from filing a surety bond or other security, the department shall notify producers that the applicant or licensee has not filed any security or made other provisions for assuring payments for milk purchases for the license year.

4.1-25-10. Failure to file security - Notice to producers.

1. If an applicant or licensee fails to file a surety bond or other security within the time fixed by section 4.1-25-09 or fails to comply with a demand for additional security, the department shall publish in newspapers having circulation in the areas where the producers whose milk is sold or delivered to the applicant or licensee reside, a notice stating:
- a. The department made a demand for additional security from the applicant or licensee;
 - b. The applicant or licensee has failed to comply;
 - c. The department does not have on file a surety bond or other security as demanded; and
 - d. Adequate security to protect producers may not be available to them.

2. In addition to a published notice to producers, the department shall send, by registered mail, a copy of the notice to each producer delivering milk to the applicant or licensee as determined from available records. The notice must be addressed to the producer's last-known address.

4.1-25-11. Out-of-state dealers, processors, or producers not exempt.

Sections 4.1-25-04 through 4.1-25-13 apply to all milk purchasers licensed under section 4.1-25-02 doing business in this state. The protection to producers afforded by sections 4.1-25-04 through 4.1-25-13 is available to the producers of any state selling milk to any licensee licensed under section 4.1-25-02, but the surety bond or other security required by sections 4.1-25-06 and 4.1-25-08 is payable only for the benefit of producers who are located within this state.

4.1-25-12. Entry, inspection, and investigation.

Authorized representatives of the department may enter, at reasonable hours, places of business where a licensee or license applicant maintains books, papers, accounts, records, or other documents related to the production, storage, processing, manufacturing, or sale of dairy products. The commissioner may subpoena, and the commissioner's authorized representative may inspect, audit, and make copies of relevant books, papers, records, accounts, or other documents of persons doing business with licensees. Any information gained by the department or by the commissioner under this section is confidential and may be used only for the administration of this chapter. The department or the commissioner may divulge the information when testifying in any departmental administrative hearing, in a duly noticed proceeding before the milk marketing board, or in any court proceeding in which the department or the commissioner is a party. This chapter does not prevent the department or the commissioner from using the information to compile or disseminate general statistical data so long as the data does not reveal individual information for any licensee or license applicant.

The commissioner may subpoena and take the testimony under oath of persons believed by the commissioner to have information needed in administering and enforcing this chapter.

4.1-25-13. Records and reports.

Licensees shall maintain the records the commissioner deems necessary to assure the financial condition of the licensee is adequate to assure prompt payment to producers.

4.1-25-14. Department to become trustee upon default in required security.

If a licensee defaults on any of the required security provisions, the licensee is deemed to be insolvent for purposes of this chapter. The claim for relief for damages and the amount recovered in any action for the conversion of milk or milk products, purchased by the licensee while the license is in effect, and the assets of the licensee not subjected to any claim in federal bankruptcy court by a secured or general creditor within four months of the appointment of the department as trustee under this chapter, constitute a trust fund in the hands of the department for all persons having a claim for relief against the licensee on the required security.

4.1-25-15. Application by department for appointment of trustee - Hearing - Appointment.

Upon the insolvency of a licensee as defined in section 4.1-25-14, the department shall apply to the district court of the county in which the licensee maintains its principal place of business for the appointment of the department as trustee. Upon notice to the licensee as the court prescribes, but not exceeding ten days, or upon waiver of such notice in writing by the licensee, the court shall proceed to hear and determine the application. If it appears to the court the licensee is insolvent within the meaning of this chapter and it is in the best interest of persons holding claims against the licensee that the department execute the trust, the court shall issue an order appointing the department as a trustee, without bond, and the department shall proceed in the manner set out in this chapter without further direction from the court.

4.1-25-16. Notice to file claims - When claims barred.

The department, as trustee, shall notify all persons having claims against the licensee personally by certified mail to file the claims with the department. Any person who fails to file a claim with the department and to surrender any receipts obtained from the licensee within thirty days after receiving notice is barred from pursuing the claim in any fund marshalled by the department as prescribed in this chapter. The department may proceed as prescribed by law when all producers have responded to the notification.

4.1-25-17. Remedy of claimants - Separate action by claimant permissible.

A claimant has no separate claim for relief against the required security of a licensee unless the department fails or refuses to apply for appointment as trustee under this chapter. Any claimant, either independently or in conjunction with other claimants, may pursue concurrently with the department any other remedy the claimant or claimants may have against the licensee, or against the property of the licensee, for the whole of their claim or claims or for any deficiency that occurs after payments have been made from the trust fund.

4.1-25-18. Appeal or compromising of action by department.

The department may prosecute an action for any claims arising under this chapter in any court, may appeal from any adverse judgment to the courts of last resort, and may settle and compromise the action whenever it is in the best interests of the claimants. Upon payment to the department of the amount of any compromise, or of the full amount of any required security, the department may exonerate the person compromising or paying from further liability growing out of the action.

4.1-25-19. Claims collections to be deposited in Bank of North Dakota.

All money collected and received by the department as trustee must be deposited in the Bank of North Dakota.

4.1-25-20. Trust fund report - Notice to claimants - Approving or modifying report.

Upon recovery of the trust fund, or so much as is possible to recover, or as is necessary to pay all outstanding claims, the department shall file a report in court showing the amount payable upon each claim, after recognizing any proper liens, pledges, assignments, or deductions with legal interest. If the fund proves insufficient to redeem all claims in full, the fund must be prorated among the claimants in a manner the department deems fair and equitable. Once the report is received from the department, the court shall notify all claimants by mail to appear on a day fixed in the notice and show cause why the report should not be approved and the funds distributed as outlined in the report. Upon such hearing the court shall approve or modify the report as justice may require and shall issue an order directing the distribution of the fund and discharging the department as trustee.

4.1-25-21. Attorney general to represent department and may employ assistants - Department need not pay court costs.

The attorney general shall represent the department in any action or proceeding brought under section 4.1-25-14, and may employ outside legal assistance when necessary. The attorney general may deduct the expense of retaining outside legal assistance from the trust fund. The department is not required to pay any filing fee or other court cost or disbursement in connection with an application for appointment as trustee or with any action brought under section 4.1-25-14 when the fee, cost, or disbursement accrues to the state or to a county of the state.

4.1-25-22. License needed to sample, haul, or test - Training - Examination - Term - Fee.

A person may not sample, haul, or test milk or milk products for the purpose of determining the value or grade without obtaining a license from the department. In case of illness or necessary absence, a licensee may appoint a substitute for a period not to exceed six days in one calendar year.

unless specific approval for a longer period is obtained from the commissioner. The licensee is responsible for the acts of the substitute. An applicant shall file an application with the department stating the type of sampling, hauling, or testing for which the applicant wishes to be licensed. Before a license is issued, the applicant shall receive training in the sampling of milk or milk products as may be required by the department, and shall pass a written examination prepared and administered by the department. The applicant must show knowledge of the requirements of this chapter and must prove by actual demonstration that the applicant is competent and qualified to perform each type of sampling and testing listed on the application. The commissioner shall issue a license which states the types of sampling, hauling, or testing for which the applicant is qualified. Additions may be added to the application form and license, without charge, after the license has been issued, upon the request of the licensee, after receiving additional training and passing the required examinations. Examinations must be given by the department at times and places as the department shall determine. A licensee is not required to take additional examinations when renewing a license unless required by the commissioner. All testers and samplers shall attend a training session sponsored by the department every two years. Retraining or retesting or both may be required when the commissioner reasonably determines it to be necessary. Licenses issued under this section expire on December thirtieth of each year. Testers' licenses must be posted conspicuously in the licensee's place of operation, and are not transferable. Samplers' licenses must be carried by the sampler at all times during sampling activities and are not transferable. The annual license fee is ten dollars. A five dollar penalty fee is applied if renewals are not paid by January thirty-first.

4.1-25-23. Commissioner to investigate complaint.

When an emergency exists requiring immediate action to protect the public health and safety, without notice or hearing, the commissioner may issue an order reciting the existence of the emergency and requiring action be taken to protect the public health and safety. Notwithstanding any provision of this chapter, the order is effective immediately, but on application to the department an interested person must be afforded a hearing before the department within ten days. On the basis of the hearing, the emergency order must be continued, modified, or revoked within thirty days after the hearing.

4.1-25-26. Sampling and testing procedures - Equipment - Supplies.

The laboratory procedures, equipment, chemicals, and other apparatus or substances used in the sampling, hauling, or testing of milk or milk products must conform to those described in the Standard Methods, a copy of which must be kept on file in the department. Each sample so forwarded must include an affidavit from the buyer or prospective buyer, stating that the sample was taken in compliance with the provisions of section 4.1-25-27, and the statement must contain all information required in section 4.1-25-43, except that the signature of the seller is not required. The commissioner may suspend or revoke a license issued under this chapter for failure to pay a civil penalty within thirty days after a final determination is made that the civil penalty is owed.
