10 Be it enacted by the people of the State of Nebraska,

1 Section 1. Section 68-1501, Reissue Revised Statutes of Nebraska, is
2 amended to read:

3 68-1501 Sections 68-1501 to 68-1519 and section 4 of this act shall
4 be known and may be cited as the Disabled Persons and Family Support Act.

5 Sec. 2. Section 68-1502, Reissue Revised Statutes of Nebraska, is
6 amended to read:

7 68-1502 The Legislature finds and declares that:

8 (1) The family is vital to the fundamental development of each
9 person in the State of Nebraska;

10 (2) A growing number of families are searching for ways to provide
11 supports for disabled family members in the home rather than placing them
12 in state or private institutional or residential facilities;

13 (3) Employable disabled persons should be encouraged to engage in
14 employment and ultimately become self-supporting;

15 (4) Necessary services should be available to families caring for a
16 disabled family member so that disabled persons may remain in the home,
17 obtain employment if possible, and maintain a more independent form of
18 living;

19 (5) Families that have children with disabilities should have access
20 to supports and services that allow the family members to maintain
21 employment, including a pathway to eligibility under the medical
22 assistance program for the child with disabilities that does not consider
23 parental income and provides long-term services and supports, such as
24 respite, specialized child care, and home modifications;

25 (6) Necessary services should be available for a child with
26 disabilities so that the child with disabilities may access early
27 intervention services and other medically necessary services, the child
28 may remain in the child's home, the family unit may remain intact, and
29 the family caregiver may maintain employment;

30 (7) (5) The State of Nebraska should make every effort to preserve
31 the family unit, to ensure insure that decisions of providing for a

1 disabled person are based on the best interests of the disabled person
2 and the family, and to provide services to disabled persons which promote
3 independent living and employability; ~~and~~

4 (8) The State of Nebraska should make every effort to preserve a
5 family unit with a child with disabilities, to ensure that decisions of
6 providing for a child with disabilities are based on the best interests
7 of the child and the family, and to ensure that services are provided
8 that promote independent living, family-centered care, and choice;

9 (9) ~~(6)~~ The State of Nebraska should promote cost-effective health
10 care alternatives for disabled persons and should maximize state funding
11 to ensure adequate health care supports and services are available for
12 children with disabilities and their families; -

13 (10) The informal supports of family caregivers are the backbone of
14 the system of long-term care services and the assistance provided by
15 family to a family unit is critical to the financial well-being of the
16 state because such assistance helps to defer more costly institutional or
17 residential placement;

18 (11) A child with disabilities often needs support after school and
19 during the evening, weekend, and summer time or other school breaks, in
20 order to maximize the opportunities for socialization and community
21 integration and to allow family caregivers to work and access
22 socialization and community integration;

23 (12) Early intervention (a) has been shown to help a child with a
24 developmental delay or at risk of a developmental delay to acquire living
25 skills, (b) is a recognized public health approach that helps to ensure
26 that a child has access to services and supports to help the child
27 acquire living skills and increase the likelihood that the child will
28 eventually be self-sufficient or have less dependency on state services,
29 and (c) is a least costly approach for use of limited state and federal
30 resources; and

31 (13) A family support waiver under the medical assistance program is

1 one method of supplementing the continuum of developmental disability
2 services and other state programming for children with disabilities,
3 remediates current program gaps, decreases the state's current waiting
4 list for home and community-based services, and offers a pathway for
5 children with disabilities to gain access to the medical assistance
6 program and long-term services and supports.

7 Sec. 3. Section 68-1503, Reissue Revised Statutes of Nebraska, is
8 amended to read:
