HOUSE BILL 7 1 2 50TH LEGISLATURE - STATE OF NEW MEXICO - FIRST SESSION, 2011 3 INTRODUCED BY Luciano "Lucky" Varela 5 6 7 8 9 AN ACT 10 MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW. 11 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO: 12 13 Section 1. SHORT TITLE.--This act may be cited as the "General Appropriation Act of 2011". Section 2. DEFINITIONS.--As used in the General Appropriation Act of 2011: A. "agency" means an office, department, agency, institution, board, bureau, commission, 15 court, district attorney, council or committee of state government; 16 B. "efficiency" means the measure of the degree to which services are efficient and 17 productive and is often expressed in terms of dollars or time per unit of output; 18 C. "explanatory" means information that can help users to understand reported performance 19 measures and to evaluate the significance of underlying factors that may have affected the reported 20 information; 21 D. "federal funds" means any payments by the United States government to state government or 22 agencies except those payments made in accordance with the federal Mineral Lands Leasing Act; 23 E. "full-time equivalent" or "FTE" means one or more authorized positions that alone or 24 together receives or receive compensation for not more than two thousand eighty-eight hours worked in 25

- fiscal year 2012. The calculation of hours worked includes compensated absences but does not include overtime, compensatory time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;
- F. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal Mineral Lands Leasing Act receipts and those payments made in accordance with the federal block grant and the federal Workforce Investment Act, but excludes the general fund operating reserve, the appropriation contingency fund, the tax stabilization reserve and any other fund, reserve or account from which general appropriations are restricted by law;
- G. "interagency transfers" means revenue, other than internal service funds, legally transferred from one agency to another;
 - H. "internal service funds" means:
- (1) revenue transferred to an agency for the financing of goods or services to another agency on a cost-reimbursement basis; and
- (2) balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2011;
 - I. "other state funds" means:
- (1) nonreverting balances in agency accounts, other than in internal service funds accounts, appropriated by the General Appropriation Act of 2011;
- (2) all revenue available to agencies from sources other than the general fund, internal service funds, interagency transfers and federal funds; and
 - (3) all revenue, the use of which is restricted by statute or agreement;
 - J. "outcome" means the measure of the actual impact or public benefit of a program;
- K. "output" means the measure of the volume of work completed or the level of actual services or products delivered by a program;
- L. "performance measure" means a quantitative or qualitative indicator used to assess a program;

- M. "quality" means the measure of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a program;
- N. "revenue" means all money received by an agency from sources external to that agency, net of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or as agent or trustee for other governmental entities or private persons; and
 - O. "target" means the expected level of performance of a program's performance measures. Section 3. GENERAL PROVISIONS.--
 - A. Amounts set out under column headings are expressed in thousands of dollars.
- B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" are intergovernmental transfers and do not represent a portion of total state government appropriations. All information designated as "Total" or "Subtotal" is provided for information and amounts are not appropriations.
- C. Amounts set out in Section 4 of the General Appropriation Act of 2011, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2012 for the objects expressed.
- D. Unexpended balances in agency accounts remaining at the end of fiscal year 2011 shall revert to the general fund by October 1, 2011, unless otherwise indicated in the General Appropriation Act of 2011 or otherwise provided by law.
- E. Unexpended balances in agency accounts remaining at the end of fiscal year 2012 shall revert to the general fund by October 1, 2012, unless otherwise indicated in the General Appropriation Act of 2011 or otherwise provided by law.
- F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of

any operating budget reduced pursuant to this subsection.

- G. Except as otherwise specifically stated in the General Appropriation Act of 2011, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2012. If any other act of the first session of the fiftieth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2011 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.
- H. The department of finance and administration will regularly consult with the legislative finance committee staff to compare fiscal year 2012 revenue collections with the revenue estimate. If the analyses indicate that revenues and transfers to the general fund are not expected to meet appropriations, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.
- I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds or payments into revolving funds exceeds specifically appropriated amounts may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated.
- J. Pursuant to Section 6-4-2 NMSA 1978, federal funds received during fiscal year 2012 and not specifically appropriated shall be subject to future appropriation by the legislature provided, however, that an agency may request a budget increase during fiscal year 2012 from the state budget division if the agency submits documentation to the state budget division and to the legislative finance committee showing that all of the following five requirements have been met:
- (1) the requested budget increase is for federal funds the amount of which could not have been reasonably anticipated or known during the first session of the fiftieth legislature and,

therefore, could not have been requested by the agency or appropriated by the legislature;

- (2) the federal law authorizing the disbursement of the federal funds to the state requires the funds to be expended for specific programs or specific governmental functions without leaving a policy choice to the state of how the funds are to be expended;
- (3) the state has no discretion as to the programs or governmental functions for which the federal funds will be expended;
- (4) the executive branch has had no input into the selection of the programs or governmental functions for which the federal funds are required to be expended; and
- (5) due to the emergency nature of the purpose of the federal funds or the likelihood that the federal funds will be unavailable in the future, the funds need to be budgeted and expended before the second session of the fiftieth legislature.
- K. For fiscal year 2012, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2011 or another act of the first session of the fiftieth legislature provides for additional employees.
- L. Except for gasoline credit cards used solely for operation of official vehicles, telephone credit cards used solely for official business and procurement cards used as authorized by Section 6-5-9.1 NMSA 1978, none of the appropriations contained in the General Appropriation Act of 2011 may be expended for payment of agency-issued credit card invoices.
- M. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2011 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.
- N. For the purpose of administering the General Appropriation Act of 2011, the state of New Mexico shall follow the modified accrual basis of accounting for governmental funds in accordance with

0ther

Intrn1 Svc

The purpose of the interstate stream compact compliance and water development program is to provide resolution of federal and interstate water issues and to develop water resources and stream systems for the people of New Mexico so they can have maximum sustained beneficial use of available water resources.

Appropriations:

(a)	Personal services and								
	employee benefits	2,294.7	75.0	1,140.6	215.7	3,726.0			
(b)	Contractual services		32.0	5,052.0	61.0	5,145.0			
(c)	Other		13.0	3,720.1	80.6	3,813.7			

Authorized FTE: 47.00 Permanent; 4.00 Term

The internal service funds/interagency transfers appropriations to the interstate stream compact compliance and water development program of the state engineer include one million six hundred seventynine thousand one hundred dollars (\$1,679,100) from the improvement of Rio Grande income fund and seven million two hundred sixty-two thousand eight hundred dollars (\$7,262,800) from the irrigation works construction fund.

The internal service funds/interagency transfers appropriations to the interstate stream compact compliance and water development program of the state engineer include seven hundred eighty-eight thousand five hundred dollars (\$788,500) from revenue received under the emergency drought water agreement and the conservation water agreement.

The internal service funds/interagency transfers appropriation to the interstate stream compact compliance and water development program of the state engineer includes one hundred thousand dollars (\$100,000) from the game protection fund for Ute dam operations. Any unexpended balances remaining at the end of fiscal year 2012 from this appropriation shall revert to the game protection fund.

The internal service funds/interagency transfer appropriation to the interstate stream compact compliance and water development program of the state engineer in the other category includes eighty-two

Item Fund Funds Agency Trnsf Funds Total/Target

thousand three hundred dollars (\$82,300) from the game protection fund for Eagle Nest dam operation. Any unexpended balances remaining at the end of fiscal year 2012 from this appropriation shall revert to the game protection fund.

The appropriations to the interstate stream compact compliance and water development program of the state engineer include (1) one million nine hundred thousand dollars (\$1,900,000) to (a) match seventeen and one-half percent of the cost of work undertaken by the United States army corps of engineers pursuant to the Federal Water Resources Development Act of 1986, provided that no amount of this appropriation shall be expended for any project unless the appropriate acequia system or community ditch has agreed to provide seven and one-half percent of the cost from any source other than the irrigation works construction fund or improvement of Rio Grande fund and provided that no more than two hundred fifty thousand dollars (\$250,000) shall be allocated to one acequia per fiscal year; and (b) for the construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state through the interstate stream commission 80/20 program, provided that not more than one hundred twenty thousand dollars (\$120,000) of this appropriation shall be used for any one community ditch and that the state funds up to three hundred thousand dollars (\$300,000) for engineering services for approved acequia projects.

The interstate stream commission's authority to make loans for irrigation improvements includes five hundred thousand dollars (\$500,000) for loans to acequia, irrigation and conservancy districts. The interstate stream commission's authority also includes five hundred thousand dollars (\$500,000) for loans to irrigation districts, conservancy districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements.

The interstate stream commission's authority to make loans from the irrigation works construction fund includes two million dollars (\$2,000,000) for irrigation districts, acequias, conservancy districts and soil and water conservation districts for purchase and installation of meters and measuring equipment. The maximum loan term is five years.

18	CORRECTIONS DEPARTMENT:						

CORRECTIONS DEPARTMENT:

(1) Inmate management and control:

The purpose of the inmate management and control program is to incarcerate in a humane, professionally sound manner offenders sentenced to prison and to provide safe and secure prison operations. This includes quality hiring and in-service training of correctional officers, protecting the public from escape risks and protecting prison staff, contractors and inmates from violence exposure to the extent possible within budgetary resources.

PUBLIC EDUCATION DEPARTMENT:

Item

The purpose of the public education department is to provide a public education to all students. The secretary of public education is responsible to the governor for the operation of the department. It is the secretary's duty to manage all operations of the department and to administer and enforce the laws with which the secretary or the department is charged. To do this, the department is focusing on leadership and support, productivity, building capacity, accountability, communication and fiscal responsibility.

I. OTHER EDUCATION

5	public education department m	ay allocate amounts to	one or more	regional education	on cooperati	ive provided

allocation from the five hundred sixty-seven thousand two hundred dollar (\$567,200) appropriation. The public education department may allocate amounts to one or more regional education cooperative provided that the regional education cooperative's application has adequately justified a need for the allocation, and the department finds that the regional education cooperative has submitted timely quarterly financial reports, is in compliance with state and federal financial reporting requirements, including annual audit requirement pursuant to the Audit Act, and is otherwise financially stable. The public education department shall not make an allocation to a regional education cooperative that is not in compliance with the Audit Act.

The general fund appropriation to the public education department for the pre-kindergarten program and the kindergarten-three-plus program shall be used only for direct instruction, transportation and approved administrative costs.

Any unexpended balances in the special appropriations to the public education department remaining at the end of fiscal year 2012 from appropriations made from the general fund shall revert to the general fund.

Subtotal [14,077.0] 14,077.0

PUBLIC SCHOOL FACILITIES AUTHORITY:

The purpose of the program is to oversee public school facilities in all eighty-nine school districts ensuring correct and prudent planning, building and maintenance using state funds and ensuring adequacy of all facilities in accordance with public education department approved educational programs.

14		J. HIGH	ER EDUCATION				

On approval of the higher education department, the state budget division of the department of finance and administration may approve increases in budgets of agencies, in this section, with the exception of the policy development and institutional financial oversight program of the higher education department, whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended balances remaining at the end of fiscal year 2012 shall not revert to the general fund.

HIGHER EDUCATION DEPARTMENT:

- (1) Policy development and institutional financial oversight:
- The purpose of the policy development and institutional financial oversight program is to provide a 25

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary of public education shall establish a preliminary unit value to establish budgets for the 2011-2012 school year and then, upon verification of the number of units statewide for fiscal year 2012 but no later than January 31, 2012, the secretary of public education may adjust the program unit value.

The secretary of public education, in collaboration with the department of finance and administration, office of education accountability, shall ensure all teachers have been evaluated under the tiered licensure evaluation system and have the professional competencies of the appropriate level. The secretary of public education shall withhold from the public school distribution funding for the minimum salary of any teacher who has not been evaluated.

The secretary of public education, in collaboration with the department of finance and

After considering those elementary physical education programs eligible for state financial support and the amount of state funding available for elementary physical education, the secretary of public education shall annually determine the programs and the consequent number of students in elementary physical education that will be used to calculate the number of elementary physical education program units.

For the 2011-2012 school year, the state equalization distribution includes sufficient funding for school districts to implement a new formula-based program. Those districts shall use current year membership in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et. seq., and formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended balances in the authorized distributions remaining at the end of fiscal year 2012 from appropriations made from the general fund shall revert to the general fund.
