

CHAPTER.....

AN ACT relating to public welfare; revising the manner in which the Director of the Department of Health and Human Services determines whether a community is at-risk for purposes of provisions relating to family resource centers; requiring a family resource center to obtain input from certain elected officials when creating an action plan; requiring a case manager at a family resource center to collect and analyze data to monitor the performance of certain responsibilities by members of families receiving services from the family resource center; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law defines the term “family resource center” as a facility within an at-risk community where families may obtain: (1) an assessment of their eligibility for social services; (2) social services; and (3) referrals to obtain social services from other service agencies or organizations. (NRS 430A.040) **Section 1** of this bill requires the Director of the Department of Health and Human Services, when determining whether a community is “at-risk,” to consider the number of families in the community who are at imminent risk of homelessness in addition to the number of families in the community who are transient. **Section 2** of this bill clarifies that a family resource center is a facility where families may obtain social services directly from the center.

Before a family resource center may obtain a grant from the Director, existing law requires the family resource center to create an action plan which must be approved by the Director. Such an action plan must be developed with input from members of the family resource center council, an organization of community members who assist and advise the family resource center. (NRS 430A.045, 430A.120, 430A.140) **Sections 3 and 4** of this bill require the family resource center also to develop the plan with input from local and state elected officials who represent the geographic area in which the family resource center is located when creating the action plan.

Existing law requires a case manager to develop a plan with each family that seeks services from a family resource center and requires that the plan specify the responsibilities the family members must fulfill to remain eligible for services. (NRS 430A.170) **Section 5** of this bill requires the case manager to collect and analyze data to monitor the performance of these responsibilities by the family members.
