CHAPTER.....

AN ACT relating to pharmacy; requiring certain pharmacies to provide certain information regarding a prescription in a language other than English under certain circumstances; requiring such pharmacies to post notice of the rights of a patient to request information in language other than English; providing immunity from civil liability to a pharmacy or employee for injuries resulting from the translation of such information by a third party under certain circumstances; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law authorizes the State Board of Pharmacy to regulate the practice of pharmacy and the sale and dispensing of poisons, drugs, chemicals and medicines. (NRS 639.070) Existing law prescribes requirements for labeling containers for prescription drugs. (NRS 639.2801) This bill requires each pharmacy, except for an institutional pharmacy, to provide the specific directions for use required to be included on the label of a prescription drug in English and, upon request of a prescribing practitioner, patient or an authorized representative of a patient, any language prescribed by regulations adopted by the Board. This bill provides that if a pharmacy enters into a contract with a third party for the translation of the information required to be provided by the pharmacy, the pharmacy and any employee of the pharmacy are not liable in any civil action for any injury resulting from the translation by the third party which is not the result of negligence, recklessness or deliberate misconduct of the pharmacy or employee. Finally, this bill requires a pharmacy subject to this requirement to post in a conspicuous place: (1) notice of the rights of a patient to request information in a language other than English; and (2) a list of every language in which such information may be made available.
