EXPLANATION - Matter in bolded italics is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to public schools; establishing when written authorization is required to be obtained from the parent or guardian of a pupil before a public school allows certain surveys, analyses and evaluations to be administered to the pupil; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing federal and state law requires a public school to obtain the written consent of a pupil who is an adult or emancipated minor or the parent or guardian of a pupil who is an unemancipated minor before requiring the pupil to participate in a survey, analysis or evaluation that is designed to elicit certain potentially sensitive information. (20 U.S.C. § 1232h; NRS 392.029) This bill further prohibits a public school from administering or allowing the administration of a survey, analysis or evaluation to an unemancipated pupil that is designed to elicit information concerning the personal health and welfare or private family matters of the pupil, unless the school obtains written consent from the parent or guardian of the pupil. However, this bill allows a public school to administer or allow the administration of such a survey, analysis or evaluation to a pupil without written consent if: (1) the pupil is allowed to remain anonymous; (2) participation is voluntary; and (3) certain other requirements are met.
