SUMMARY—Revises provisions relating to public works. (BDR 28-738)

FISCAL NOTE: Effect on Local Government: No.

Effect on the State: Yes.

EXPLANATION - Matter in bolded italics is new; matter between brackets fomitted material; is material to be omitted.

AN ACT relating to public works; revising certain definitions relating to the payment of wages for public works; providing that the Labor Commissioner may impose an administrative penalty against a person for the commission of an offense; revising provisions governing the determination of a prevailing wage in each county; specifying that certain provisions governing the payment of prevailing wages do not apply to a school district, a charter school or the Nevada System of Higher Education; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:** 

Existing law sets forth general provisions applicable to public works, including provisions requiring the payment of prevailing wages for public works projects. (NRS 338.010-338.090) Existing law requires the Labor Commissioner to annually survey contractors and to determine a prevailing wage for each county. (NRS 338.030) Sections 4 and 8 of this bill require the Director of the Department of Employment, Training and Rehabilitation, rather than the Labor Commissioner, to make that determination. Section 1 of this bill requires the Labor Commissioner to develop and carry out methods to encourage and promote contractors to submit surveys for use in the Director's determination of the prevailing wage. Section 7 of this bill requires the Director of the Department of Business and Industry to include on the Internet website maintained by the Department information which encourages and promotes contractors to submit those surveys.

Sections 2 and 3 of this bill provide that each instance of failing to pay prevailing wages and other benefits to one or more workers on a public work

15 constitutes an "offense" by the contractor. **Section 2** also amends the definition of "wages" to specify that only bona fide fringe benefits which directly benefit a worker are included in the definition of wages.

Existing law also provides specifically that any contract for construction work of the Nevada System of Higher Education for which the estimated cost exceeds \$100,000 requires the payment of prevailing wages even if the construction work does not qualify as a public work. (NRS 338.075) **Section 9** of this bill eliminates the requirement that the Nevada System of Higher Education pay prevailing wages on certain construction work that does not qualify as a public work. **Section 6** of this bill excludes from the prevailing wage requirement: (1) any contract for a public work to which a school district, a charter school or the Nevada System of Higher Education is a party; and (2) a public work of, or constructed by, a school district, a charter school or the Nevada System of Higher Education.
