**Legislative Counsel’s Digest:**

Existing law authorizes the Department of Motor Vehicles to issue special license plates that encourage the donation of human organs. (NRS 482.37905) Under existing law, certain special license plates, including special license plates that encourage the donation of human organs, are subject to a limitation of the number of separate designs of special license plates which the Department may issue at any one time. (NRS 482.367008) **Section 1** of this bill exempts the special license plates that encourage the donation of human organs from the limitation on the number of separate designs of special license plates which the Department may issue at any one time.

Existing law authorizes the Department to issue special license plates recognizing: (1) current or former employment as a professional full-time salaried firefighter; and (2) current or former service as a volunteer firefighter. Existing law requires an application for the issuance or renewal of such special license plates to include documentation providing reasonable proof of the applicant’s eligibility to receive the special plates. (NRS 482.3753, 482.3754) **Sections 2 and 3** of this bill eliminate the requirement to include such documentation in an application for the renewal of such special license plates.

Notwithstanding any other provision of law to the contrary, and except as otherwise provided in subsection 3, the Department shall not, at any one time, issue more than 30 separate designs of special license plates. Whenever the total number of separate designs of special license plates issued by the Department at any one time is less than 30, the Department shall issue a number of additional designs of special license plates that have been authorized by an act of the Legislature or the application for which has been approved by the Department pursuant to NRS 482.367002, not to exceed a total of 30 designs issued by the Department at any one time. 4. Except as otherwise provided in this subsection, on October 1 of each year the Department shall assess the viability of each separate design of special license plate that the Department is currently issuing by determining the total number of validly registered motor vehicles to which that design of special license

plate is affixed. The Department shall not determine the total number of validly registered motor vehicles to which a particular design of special license plate is affixed if:
