AN ACT relating to fire protection districts; providing for the consolidation of certain fire protection districts located in a county whose population is less than 700,000 under certain circumstances; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:
Existing law provides for the organization of a fire protection district by an ordinance adopted by a board of county commissioners or by the approval of the voters of a proposed fire protection district. (Chapter 474 of NRS) Section 3 of this bill authorizes a board of county commissioners of a county whose population is less than 700,000 (currently all counties other than Clark County) to consolidate two or more fire protection districts if: (1) each district is contiguous to at least one other district; (2) the territory of each district is located entirely within the county; and (3) the rates of certain taxes relating to fire protection levied by the board of county commissioners within each district are equal at the time of consolidation. Section 3 provides that a consolidation may be initiated by the filing of a petition with the board of county commissioners by a majority of the owners of property within each such district or the adoption of a resolution by the board proposing the consolidation of the districts. Section 3 requires the board of county commissioners upon receiving a petition or adopting a resolution to conduct a hearing and further requires the board to adopt an ordinance consolidating the fire protection districts if the board finds that the consolidation of the districts is feasible and in the best interests of the county and the districts. Upon the consolidation of two or more fire protection districts, section 3 provides that owners of real and personal property located within the consolidated district are entitled to certain partial tax abatements to which the owners were otherwise entitled prior to consolidation.

Existing law requires the treasurer of a fire protection district created by county ordinance to maintain a fire protection operating fund and a district emergency fund. (NRS 474.510) Section 9 of this bill prohibits the balance of the district emergency fund for a consolidated fire protection district organized pursuant to section 3 from exceeding the sum of $1,500,000.

   (a) A petition signed by a majority of the owners of property located within the district; or
   (b) A resolution of the board of county commissioners of the county in which the district is located.

3. If the board of county commissioners determines, after notice and hearing, that the reorganization is feasible and in the best interests of the county and the district, the board of county commissioners shall adopt an ordinance reorganizing the district pursuant to chapter 318 of NRS.

4. All debts, obligations, liabilities and assets of the former district must be assumed or taken over by the reorganized district.

Sec. 18. NRS 474.540 is hereby amended to read as follows:

474.540 The activities of each district organized in accordance with NRS 474.460 or section 3 of this act shall be separate and apart from county activities and any other political subdivision in this State.

Sec. 19. NRS 474.565 is hereby amended to read as follows:

474.565 1. The boundaries of two or more contiguous fire protection districts located within a county and organized pursuant
to NRS 474.010 to 474.450, inclusive, or 474.460 or section 3 of this act may be adjusted in the manner provided in this section so that all or any part of the area of one such fire protection district is excluded from that district and added to the area of another such fire protection district.

2. The adjustment of the boundaries of fire protection districts pursuant to this section must be approved by:
   (a) A majority of the owners of property located within the portions of those districts directly affected by the proposed adjustment of boundaries; and
   (b) Resolution of the board of county commissioners of the county in which the districts are located, which resolution must also be approved by the governing bodies of the fire protection districts whose boundaries are proposed to be adjusted.

For the purposes of this subsection, an owner of property located within a fire protection district is “directly affected” by a proposed adjustment of boundaries if the adjustment will cause that property, or other property immediately adjacent to that property, to be excluded from the district in which it is currently located and added to a district other than that in which it is currently located.

3. If, after notice and a hearing, the board of county commissioners determines that the proposed adjustment of boundaries is feasible and in the best interests of the county and the districts whose boundaries are proposed to be adjusted, the board of county commissioners shall adopt an ordinance adjusting the boundaries of those districts. The ordinance must include the name and boundaries of each district that will result from the adjustment.

4. For the purposes of subsection 3, a board of county commissioners shall not determine that a proposed adjustment of boundaries is feasible and in the best interests of the county and the districts whose boundaries are proposed to be adjusted unless the board concludes, after conducting a reasonable investigation, that:
   (a) The total assessed valuation of taxable property in the districts whose boundaries are proposed to be adjusted is substantially equivalent; and
   (b) The total ad valorem tax levied within the districts whose boundaries are proposed to be adjusted is substantially equivalent.

5. The board of county commissioners shall cause a copy of any ordinance adopted pursuant to subsection 3 to be certified by the clerk of the board and filed immediately for record in the office of the county recorder.

6. If an adjustment of boundaries pursuant to this section causes:
(a) Part of the area of one fire protection district to be excluded from that district and added to the area of another fire protection district, the districts may, but are not required to, enter into such an agreement as they determine equitable to address the apportionment of debts, obligations, liabilities and assets.

(b) All of the area of one fire protection district to be excluded from that district and added to the area of another fire protection district, the debts, obligations, liabilities and assets of the district from which the area is excluded must be assumed by the district to which the area is added.

Sec. 20. The amendatory provisions of this act do not apply to modify, directly or indirectly, any taxes levied or revenues pledged in such a manner as to impair adversely any outstanding obligations of a fire protection district, including, without limitation, bonds, medium-term financing, letters of credit and any other financial obligations, until all such obligations have been discharged in full or provisions for their payment and redemption have been fully made.

Sec. 21. This act becomes effective on July 1, 2015.
