

Assembly Bill No. 38–Committee on Education

CHAPTER.....

AN ACT relating to education; revising requirements governing input from interested persons concerning a program of career and technical education; exempting an advisory technical skills committee for such a program from certain requirements governing the meetings of a public body; revising requirements relating to work-based learning programs; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law authorizes the board of trustees of a school district to establish a program of career and technical education and, if such a program has been established, requires the superintendent of the school district to appoint an advisory technical skills committee to perform certain duties relating to the program. (NRS 388.380, 388.385) Existing federal law makes federal funding for career and technical education contingent on a school district that has established such a program consulting with certain stakeholders concerning certain matters relating to the operation of the program. (20 U.S.C. § 2354) **Section 1** of this bill authorizes the superintendent of a school district or his or her designee to consult with such stakeholders as an alternative to establishing an advisory technical skills committee. **Section 1** also revises the membership of an advisory technical skills committee to include the stakeholders with whom a school district is required by federal law to consult. **Section 1** additionally revises the duties of an advisory technical skills committee and the subjects concerning which the superintendent of a school district is required to consult stakeholders, as applicable, in accordance with federal law. **Sections 1 and 3** of this bill exempt an advisory technical skills committee from provisions of law requiring meetings of a public body to be open and public.

Existing law authorizes the board of trustees of a school district or the governing body of a charter school to offer a work-based learning program upon the approval of the State Board of Education. (NRS 389.167) **Section 2** of this bill requires the application of a school district or charter school to offer a work-based learning program to include a description of the manner in which the performance of a participating pupil will be evaluated. **Section 2** also revises the required contents of a work-based learning program.

Existing law requires the board of trustees of a school district or the governing body of a charter school that offers a work-based learning program to submit to the State Board and the Legislature a report concerning the manner in which the program has been carried out. (NRS 389.167) **Section 2** requires that report to include: (1) the number of participating pupils disaggregated by certain subgroups; and (2) the types of work-based learning offered through the program.
