EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to classifications based on population; changing the population basis for the exercise of certain powers by local governments; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

1 Unless expressly provided otherwise or required by context, “population” is
2 defined under existing law for the entire Nevada Revised Statutes as “the number of
3 people in a specified area as determined by the last preceding national decennial
4 census conducted by the Bureau of the Census of the United States Department of
5 Commerce” pursuant to the United States Constitution and as reported by the
6 Secretary of Commerce to the Governor of Nevada. (NRS 0.050) The Nevada
7 Supreme Court has upheld classifications in statutes based on the population of
8 entities if the classification is rationally related to the subject matter and purpose of
9 the statute, applies prospectively to all such entities that might come within its
10 designated class and does not create an odious, absurd or bizarre distinction.
11 (*County of Clark v. City of Las Vegas*, 97 Nev. 260, 264 (1981)) This bill
12 constitutes the Legislature’s reconsideration of the population classifications in
13 existing law to determine whether those classifications continue to meet the
14 conditions expressed by the Nevada Supreme Court.

SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

17 Except as otherwise provided in subsection 3, the number of justices
18 of the peace in a township must be increased according to the
19 population of the township, as certified by the Governor in even-

1 which the population of the township provides for such an increase.

45 is more than one justice of the peace serving in any township, the

1 board, with the approval of the justices of the peace, may appoint
2 one or more additional deputy clerks.

3 6. If no deputy clerk is appointed for a township, the justice of

30 5. The compensation of each deputy marshal for his or her
31 services must be fixed by the board of county commissioners of the
32 county and the deputy marshal's salary paid by the county wherein
33 he or she is appointed, the same as the salaries of other county

20 expenses of constructing or substantially reconstructing a project,
21 the governing body may prepare and approve an estimate of the
22 expenditures required during the ensuing year for the extraordinary
23 maintenance, repair and improvement of the project.

24 2. The governing body may adopt a resolution, after a public
25 hearing, determining to levy and collect in any year upon and
26 against all of the assessable property within the district a special

2 circumstances relating to the project for which the assessment is
3 levied, including its use, location or operation and other
4 circumstances. If the governing body makes such a finding, a
5 statement of that finding must be included in the notice given
6 pursuant to subsection 2.

7 **Sec. 114.** NRS 271.650 is hereby amended to read as follows:

8 271.650 1. Except as otherwise provided in this section, the

14 pursuant to NRS 372.105 and 372.185 with regard to tangible
15 personal property sold at retail, or stored, used or otherwise
16 consumed, in the improvement district during a fiscal year, after the
17 deduction of a sum equal to 1.75 percent of the amount of those
18 proceeds;

19 (b) The amount of the proceeds of the taxes imposed pursuant to
20 NRS 374.110 and 374.190 with regard to tangible personal property
21 sold at retail, or stored, used or otherwise consumed, in the
22 improvement district during a fiscal year, after the deduction of 0.75
23 percent of the amount of those proceeds; and

24 (c) The amount of the proceeds of the tax imposed pursuant to
25 NRS 377.030 with regard to tangible personal property sold at retail,
26 or stored, used or otherwise consumed, in the improvement district
27 during a fiscal year, after the deduction of 1.75 percent of the
28 amount of those proceeds.

29 2. If any property within the boundaries of an improvement
30 district for which any money is pledged pursuant to this section is
31 also included within the boundaries of any other improvement
32 district for which any money is pledged pursuant to this section or
33 any tourism improvement district for which any money is pledged
34 pursuant to NRS 271A.070, the total amount of money pledged
35 pursuant to this section and NRS 271A.070 with respect to such
36 property by all such districts must not exceed the amount authorized
37 pursuant to this section.

38 3. The governing body of a municipality shall not include a
39 pledge authorized by subsection 1 in an assessment ordinance for a
40 project unless:

41 (a) The governing body determines that no retailers have
42 maintained a fixed place of business in the improvement district at
43 any time from the first day of the fiscal year in which the assessment
44 ordinance is adopted until the date of the adoption of the ordinance.

1 (b) The governing body determines, at a public hearing
2 conducted at least 15 days after providing notice of the hearing by
3 publication, that:

4 (1) As a result of the project:

5 (I) Retailers will locate their businesses as such in the
6 improvement district; and

7 (II) There will be a substantial increase in the proceeds
8 from sales and use taxes remitted by retailers with regard to tangible
9 personal property sold at retail, or stored, used or otherwise
10 consumed, in the improvement district; and

11 (2) A preponderance of that increase in the proceeds from
12 sales and use taxes will be attributable to transactions with tourists
13 who are not residents of this State.

14 (c) The Commission on Tourism determines, at a public hearing
15 conducted at least 15 days after providing notice of the hearing by
16 publication, that a preponderance of the increase in the proceeds
17 from sales and use taxes identified pursuant to paragraph (b) will be
18 attributable to transactions with tourists who are not residents of this
19 State.

20 (d) The Governor determines that the project and the pledge of
21 money authorized by subsection 1 will contribute significantly to
22 economic development and tourism in this State. Before making that
23 determination, the Governor:

24 (1) Must consider the fiscal effects of the pledge of money
25 on educational funding, including any fiscal effects described in
26 comments provided pursuant to NRS 271.670 by the school district
27 in which the improvement district is located, and for that purpose
28 may require the Department of Education or the Department of
29 Taxation, or both, to provide an appropriate fiscal report; and

30 (2) If the Governor determines that the pledge of money will
31 have a substantial adverse fiscal effect on educational funding, may
32 require a commitment from the municipality for the provision of
33 specified payments to the school district in which the improvement
34 district is located during the term of the pledge of money. The
35 payments may be provided pursuant to agreements authorized by
36 NRS 271.670 or from sources other than the owners of property
37 within the improvement district. Such a commitment by a
38 municipality is not subject to the limitations of subsection 1 of NRS
39 354.626 and, notwithstanding any other law to the contrary, is
40 binding on the municipality for the term of the pledge of money
41 authorized by subsection 1.

42 (e) If any property within the boundaries of the improvement
43 district is also included within the boundaries of any other
44 improvement district for which any money has been pledged
45 pursuant to this section or any tourism improvement district for

1 which any money has been pledged pursuant to NRS 271A.070, all
2 the governing bodies which created those districts have entered into
3 an interlocal agreement providing for:

4 (1) The apportionment of any money pledged pursuant to this

6 (2) The priority of the application of that money between:

7 (I) Bonds issued pursuant to this chapter; and

8 (II) Bonds and notes issued, and agreements entered into,
9 pursuant to NRS 271A.120.

10 ➔ Any such agreement for the priority of the application of that
11 money may be made irrevocable during the term of any bonds
12 issued pursuant to this chapter to which all or any portion of that
13 money is pledged, or during the term of any bonds or notes issued or
14 any agreements entered into pursuant to NRS 271A.120 to which all
15 or any portion of that money is pledged.

16 4. Any determination or approval made pursuant to subsection
17 3 is conclusive in the absence of fraud or gross abuse of discretion.

18 5. As used in this section, "retailer" has the meaning ascribed
19 to it in NRS 374.060.

21 follows:

1 approve or disapprove a second or subsequent parcel map for land
2 that has been divided by a parcel map which was recorded within
3 the 5 years immediately preceding the acceptance of the second or
4 subsequent parcel map as a complete application.

5 7. An applicant or other person aggrieved by a decision of the
6 governing body's authorized representative or by a final act of the
7 planning commission may appeal the decision in accordance with
8 the ordinance adopted pursuant to NRS 278.3195.

9 8. If a parcel map and the associated division of land are
10 approved or deemed approved pursuant to this section, the approval
11 must be noted on the map in the form of a certificate attached
12 thereto and executed by the clerk of the governing body, the
13 governing body's designated representative or the chair of the
14 planning commission. A certificate attached to a parcel map
15 pursuant to this subsection must indicate, if applicable, that the
16 governing body or planning commission determined that a public
17 street, easement or utility easement which will not remain in effect
18 after a merger and resubdivision of parcels conducted pursuant to
19 NRS 278.4925 has been vacated or abandoned in accordance with
20 NRS 278.480.

21 **Sec. 144.** NRS 278.4725 is hereby amended to read as
22 follows:

23 278.4725 1. Except as otherwise provided in this section, if
24 the governing body has authorized the planning commission to take
25 final action on a final map, the planning commission shall approve,
26 conditionally approve or disapprove the final map, basing its action
27 upon the requirements of NRS 278.472:

28 (a) In a county whose population is ~~400,000~~ 700,000 or more,
29 within 45 days; or

30 (b) In a county whose population is less than ~~400,000,~~
31 700,000, within 60 days,

32 ↪ after accepting the final map as a complete application. The
33 planning commission shall file its written decision with the
34 governing body. Except as otherwise provided in subsection 5, or
35 unless the time is extended by mutual agreement, if the planning
36 commission is authorized to take final action and it fails to take
37 action within the period specified in this subsection, the final map
38 shall be deemed approved unconditionally.

39 2. If there is no planning commission or if the governing body
40 has not authorized the planning commission to take final action, the
41 governing body or its authorized representative shall approve,
42 conditionally approve or disapprove the final map, basing its action
43 upon the requirements of NRS 278.472:

44 (a) In a county whose population is ~~400,000~~ 700,000 or more,
45 within 45 days; or

1 (b) In a county whose population is less than ~~[400,000,]~~
2 **700,000**, within 60 days,

3 ↪ after the final map is accepted as a complete application. Except
4 as otherwise provided in subsection 5 or unless the time is extended
5 by mutual agreement, if the governing body or its authorized
6 representative fails to take action within the period specified in this
7 subsection, the final map shall be deemed approved unconditionally.

8 3. An applicant or other person aggrieved by a decision of the
9 authorized representative of the governing body or by a final act of
10 the planning commission may appeal the decision in accordance
11 with the ordinance adopted pursuant to NRS 278.3195.

12 4. If the map is disapproved, the governing body or its
13 authorized representative or the planning commission shall return
14 the map to the person who proposes to divide the land, with the
15 reason for its action and a statement of the changes necessary to
16 render the map acceptable.

17 5. If the final map divides the land into 16 lots or more, the
18 governing body or its authorized representative or the planning
19 commission shall not approve a map, and a map shall not be deemed
20 approved, unless:

21 (a) Each lot contains an access road that is suitable for use by
22 emergency vehicles; and

23 (b) The corners of each lot are set by a professional land
24 surveyor.

25 6. If the final map divides the land into 15 lots or less, the
26 governing body or its authorized representative or the planning
27 commission may, if reasonably necessary, require the map to
28 comply with the provisions of subsection 5.

29 7. Upon approval, the map must be filed with the county
30 recorder. Filing with the county recorder operates as a continuing:

31 (a) Offer to dedicate for public roads the areas shown as
32 proposed roads or easements of access, which the governing body
33 may accept in whole or in part at any time or from time to time.

34 (b) Offer to grant the easements shown for public utilities,
35 which any public utility may similarly accept without excluding any
36 other public utility whose presence is physically compatible.

37 8. The map filed with the county recorder must include:

38 (a) A certificate signed and acknowledged by each owner of
39 land to be divided consenting to the preparation of the map, the
40 dedication of the roads and the granting of the easements.

41 (b) A certificate signed by the clerk of the governing body or
42 authorized representative of the governing body or the secretary to
43 the planning commission that the map was approved, or the affidavit
44 of the person presenting the map for filing that the time limited by
45 subsection 1 or 2 for action by the governing body or its authorized

1 representative or the planning commission has expired and that the
2 requirements of subsection 5 have been met. A certificate signed
3 pursuant to this paragraph must also indicate, if applicable, that the
4 governing body or planning commission determined that a public
5 street, easement or utility easement which will not remain in effect
6 after a merger and resubdivision of parcels conducted pursuant to
7 NRS 278.4925, has been vacated or abandoned in accordance with
8 NRS 278.480.

9 (c) A written statement signed by the treasurer of the county in
10 which the land to be divided is located indicating that all property
11 taxes on the land for the fiscal year have been paid.

12 9. A governing body may by local ordinance require a final
13 map to include:

14 (a) A report from a title company which lists the names of:

15 (1) Each owner of record of the land to be divided; and

16 (2) Each holder of record of a security interest in the land to
17 be divided, if the security interest was created by a mortgage or a
18 deed of trust.

19 (b) The signature of each owner of record of the land to be
20 divided.

21 (c) The written consent of each holder of record of a security
22 interest listed pursuant to subparagraph (2) of paragraph (a), to the
23 preparation and recordation of the final map. A holder of record
24 may consent by signing:

25 (1) The final map; or

26 (2) A separate document that is filed with the final map and
27 declares his or her consent to the division of land.

28 10. After a map has been filed with the county recorder, any lot
29 shown thereon may be conveyed by reference to the map, without
30 further description.

31 11. The county recorder shall charge and collect for recording
32 the map a fee set by the board of county commissioners of not more
33 than \$50 for the first sheet of the map plus \$10 for each additional
34 sheet.

35 12. A county recorder who records a final map pursuant to this
36 section shall, within 7 working days after he or she records the final
37 map, provide to the county assessor at no charge:

38 (a) A duplicate copy of the final map and any supporting
39 documents; or

40 (b) Access to the digital final map and any digital supporting
41 documents. The map and supporting documents must be in a form
42 that is acceptable to the county recorder and the county assessor.

43 **Sec. 145.** NRS 278.564 is hereby amended to read as follows:

44 278.564 1. Any deed restrictions in the unincorporated area
45 of a county whose population is 100,000 or more but less than

1 ~~[400,000,]~~ 700,000, recorded after July 1, 1973, may provide for the
2 establishment and operation, under appropriate rules and procedure,
3 of a construction committee.

4 2. As soon as a construction committee has been established
5 and organized pursuant to the provisions of subsection 1, and no
6 later than January 1 of each year thereafter, the officers of the
7 committee shall file an affidavit with the building official having
8 jurisdiction over the area within which the subdivision is situated,
9 identifying the committee as the constituted construction committee
10 empowered pursuant to recorded deed restrictions to determine
11 compliance with those restrictions on lots in the subdivision. The
12 affidavit must also set forth the names of the officers of the
13 committee, including the address of a particular officer designated
14 as the authorized representative of the committee for the purposes of
15 NRS 278.563 to 278.568, inclusive.

16 **Sec. 146.** NRS 278.565 is hereby amended to read as follows:

17 278.565 1. A copy of deed restrictions proposed for a
18 subdivision in a county whose population is 100,000 or more but
19 less than ~~[400,000]~~ 700,000 must be filed with the planning
20 commission or governing body with the tentative map.

21 2. Upon final approval of the subdivision, a copy of the
22 restrictions must be:

23 (a) Filed with the building official having jurisdiction over the
24 area within which the subdivision is situated.

25 (b) Presented to each prospective purchaser of real property
26 within the subdivision.

27 3. The original copy of the restrictions may be recorded with
28 the county recorder immediately following the recording of the final
29 map.

30 **Sec. 147.** NRS 278.566 is hereby amended to read as follows:

31 278.566 1. Except as provided in subsection 3, the building
32 official in a county whose population is 100,000 or more but less
33 than ~~[400,000,]~~ 700,000, shall not issue any building permit for the
34 construction, reconstruction, alteration or use of any building or
35 other structure on a lot subject to deed restrictions unless the
36 building official has received a written report thereon from the
37 construction committee.

38 2. An application for a written report must be made by certified
39 mail addressed to the authorized representative of the construction
40 committee. If the construction committee fails or refuses to submit
41 its written report to the building official within 20 days from the
42 date of its receipt of a written request therefor, the building official
43 must proceed as provided by law in cases where there is no
44 functioning construction committee.

1 3. This section does not apply if the cost of the construction,
2 reconstruction, alteration or use specified in subsection 1 is \$500 or
3 less.

4 **Sec. 148.** NRS 278B.100 is hereby amended to read as
5 follows:

6 278B.100 "Service area" means any specified area within the
7 boundaries of a local government in which new development
8 necessitates capital improvements or facility expansions and within
9 which new development is served directly and benefited by the
10 capital improvement or facility expansion as set forth in the capital
11 improvements plan. The term does not include any area that makes
12 up the entire area of a local government, unless the local
13 government is a city whose population is ~~10,000 or~~ less *than*
14 *15,000* or a county whose population is *less than* 15,000. ~~[or less.]~~

15 **Sec. 149.** NRS 278C.250 is hereby amended to read as
16 follows:

17 278C.250 1. After the effective date of the ordinance adopted
18 pursuant to NRS 278C.220, any taxes levied upon taxable property
19 in the tax increment area each year by or for the benefit of the State,
20 the municipality and any public body must be divided as follows:

21 (a) That portion of the taxes that would be produced by the rate
22 upon which the tax is levied each year by or for each of those taxing
23 agencies upon the total sum of the assessed value of the taxable
24 property in the tax increment area as shown upon the last equalized
25 assessment roll used in connection with the taxation of the property
26 by the taxing agency, must be allocated to and when collected must
27 be paid into the funds of the respective taxing agencies as taxes by
28 or for the taxing agencies on all other property are paid.

29 (b) Except as otherwise provided in this section, the portion of
30 the taxes levied each year in excess of the amount determined
31 pursuant to paragraph (a) must be allocated to, and when collected
32 must be paid into, the tax increment account pertaining to the
33 undertaking to pay the bond requirements of loans, money advanced
34 to, or indebtedness, whether funded, refunded, assumed or
35 otherwise, incurred by the municipality to finance or refinance, in
36 whole or in part, the undertaking. Unless the total assessed valuation
37 of the taxable property in the tax increment area exceeds the total
38 assessed value of the taxable property in the area as shown by the
39 last equalized assessment roll referred to in this subsection, all of the
40 taxes levied and collected upon the taxable property in the area must
41 be paid into the funds of the respective taxing agencies. When the
42 loans, advances and indebtedness, if any, and interest thereon, have
43 been paid, all money thereafter received from taxes upon the taxable
44 property in the tax increment area must be paid into the funds of the
45 respective taxing agencies as taxes on all other property are paid.

1 (c) The amount of the taxes levied each year which are paid into
2 the tax increment account pursuant to paragraph (b) must be limited
3 by the governing body to an amount not to exceed the combined
4 total amount required for annual debt service of the project or
5 projects acquired, improved or equipped, or any combination
6 thereof, as part of the undertaking.

7 (d) Any revenues generated within the tax increment district in
8 excess of the amount referenced in paragraph (c), if any, will be
9 paid into the funds of the respective taxing agencies in the same
10 proportion as their base amount was distributed.

11 2. Except as otherwise provided in this subsection, in any fiscal
12 year, the total revenue paid to a tax increment area in combination
13 with the total revenue paid to any other tax increment areas and any
14 redevelopment agencies of a municipality must not exceed:

15 (a) In a **[municipality] county** whose population is 100,000 or
16 more **[] or a city whose population is 150,000 or more**, an amount
17 equal to the combined tax rates of the taxing agencies for that fiscal
18 year multiplied by 10 percent of the total assessed valuation of the
19 municipality.

20 (b) In a **[municipality] county** whose population is less than
21 100,000 **[] or a city whose population is less than 150,000**, an
22 amount equal to the combined tax rates of the taxing agencies for
23 that fiscal year multiplied by 15 percent of the total assessed
24 valuation of the municipality.

25 ↪ Notwithstanding the provisions of this subsection, if a
26 **[municipality] county** has a population of less than 100,000 **or if a**
27 **city has a population of less than 150,000** at the time the
28 municipality issues securities for a tax increment area pursuant to
29 NRS 278C.280, the revenue limitation set forth in paragraph (b)
30 must remain the revenue limitation for the tax increment area until
31 such time as the securities issued for that tax increment area
32 pursuant to NRS 278C.280 have been paid in full, including any
33 securities issued to refund those securities, regardless of whether the
34 population of the municipality reaches or exceeds 100,000 after the
35 issuance of those securities.

36 3. If the revenue paid to a tax increment area must be limited
37 pursuant to paragraph (a) or (b) of subsection 2 and the municipality
38 has more than one redevelopment agency or tax increment area, or
39 one of each, the municipality shall determine the allocation to each
40 agency and area. Any revenue that would be allocated to a tax
41 increment area but for the provisions of this section must be paid
42 into the funds of the respective taxing agencies.

43 4. The portion of the taxes levied each year in excess of the
44 amount determined pursuant to paragraph (a) of subsection 1 which
45 is attributable to any tax rate levied by a taxing agency:

1 (a) To produce revenue in an amount sufficient to make annual
2 repayments of the principal of, and the interest on, any bonded
3 indebtedness that was approved by a majority of the registered
4 voters within the area of the taxing agency voting upon the question,
5 must be allocated to, and when collected must be paid into, the debt
6 service fund of that taxing agency.

7 (b) In excess of any tax rate of that taxing agency applicable to
8 the last taxation of the property before the effective date of the
9 ordinance, if that additional rate was approved by a majority of the
10 registered voters within the area of the taxing agency voting upon
11 the question, must be allocated to, and when collected must be paid
12 into, the appropriate fund of that taxing agency.

13 (c) Pursuant to NRS 387.3285 or 387.3287, if that rate was
14 approved by a majority of the registered voters within the area of the
15 taxing agency voting upon the question, must be allocated to, and
16 when collected must be paid into, the appropriate fund of that taxing
17 agency.

18 (d) For the support of the public schools within a county school
19 district pursuant to NRS 387.195, must be allocated to, and when
20 collected must be paid into, the appropriate fund of that taxing
21 agency.

22 5. The provisions of paragraph (a) of subsection 4 include,
23 without limitation, a tax rate approved for bonds of a county school
24 district issued pursuant to NRS 350.020, including, without
25 limitation, amounts necessary for a reserve account in the debt
26 service fund.

27 6. As used in this section, the term "last equalized assessment
28 roll" means the assessment roll in existence on the 15th day of
29 March immediately preceding the effective date of the ordinance.

30 **Sec. 150.** NRS 279.676 is hereby amended to read as follows:

31 279.676 1. Any redevelopment plan may contain a provision
32 that taxes, if any, levied upon taxable property in the redevelopment
33 area each year by or for the benefit of the State, any city, county,
34 district or other public corporation, after the effective date of the
35 ordinance approving the redevelopment plan, must be divided as
36 follows:

37 (a) That portion of the taxes which would be produced by the
38 rate upon which the tax is levied each year by or for each of
39 the taxing agencies upon the total sum of the assessed value of the
40 taxable property in the redevelopment area as shown upon the
41 assessment roll used in connection with the taxation of the property
42 by the taxing agency, last equalized before the effective date of the
43 ordinance, must be allocated to and when collected must be paid
44 into the funds of the respective taxing agencies as taxes by or for
45 such taxing agencies on all other property are paid. To allocate taxes

1 levied by or for any taxing agency or agencies which did not include
2 the territory in a redevelopment area on the effective date of the
3 ordinance but to which the territory has been annexed or otherwise
4 included after the effective date, the assessment roll of the county
5 last equalized on the effective date of the ordinance must be used in
6 determining the assessed valuation of the taxable property in the
7 redevelopment area on the effective date. If property which was
8 shown on the assessment roll used to determine the amount of taxes
9 allocated to the taxing agencies is transferred to the State and
10 becomes exempt from taxation, the assessed valuation of the exempt
11 property as shown on the assessment roll last equalized before the
12 date on which the property was transferred to the State must be
13 subtracted from the assessed valuation used to determine the amount
14 of revenue allocated to the taxing agencies.

15 (b) Except as otherwise provided in paragraphs (c) and (d) and
16 NRS 540A.265, that portion of the levied taxes each year in excess
17 of the amount set forth in paragraph (a) must be allocated to and
18 when collected must be paid into a special fund of the
19 redevelopment agency to pay the costs of redevelopment and to pay
20 the principal of and interest on loans, money advanced to, or
21 indebtedness, whether funded, refunded, assumed, or otherwise,
22 incurred by the redevelopment agency to finance or refinance, in
23 whole or in part, redevelopment. Unless the total assessed valuation
24 of the taxable property in a redevelopment area exceeds the total
25 assessed value of the taxable property in the redevelopment area as
26 shown by the assessment roll last equalized before the effective date
27 of the ordinance approving the redevelopment plan, less the
28 assessed valuation of any exempt property subtracted pursuant to
29 paragraph (a), all of the taxes levied and collected upon the taxable
30 property in the redevelopment area must be paid into the funds of
31 the respective taxing agencies. When the redevelopment plan is
32 terminated pursuant to the provisions of NRS 279.438 and 279.439
33 and all loans, advances and indebtedness, if any, and interest
34 thereon, have been paid, all money thereafter received from taxes
35 upon the taxable property in the redevelopment area must be paid
36 into the funds of the respective taxing agencies as taxes on all other
37 property are paid.

38 (c) That portion of the taxes in excess of the amount set forth in
39 paragraph (a) that is attributable to a tax rate levied by a taxing
40 agency to produce revenues in an amount sufficient to make annual
41 repayments of the principal of, and the interest on, any bonded
42 indebtedness that was approved by the voters of the taxing agency
43 on or after November 5, 1996, must be allocated to and when
44 collected must be paid into the debt service fund of that taxing
45 agency.

1 (d) That portion of the taxes in excess of the amount set forth in
2 paragraph (a) that is attributable to a new or increased tax rate levied
3 by a taxing agency and was approved by the voters of the taxing
4 agency on or after November 5, 1996, must be allocated to and
5 when collected must be paid into the appropriate fund of the taxing
6 agency.

7 2. Except as otherwise provided in subsection 3, in any fiscal
8 year, the total revenue paid to a redevelopment agency must not
9 exceed:

10 (a) In a ~~municipality~~ *county* whose population is 100,000 or
11 more ~~[]~~ *or a city whose population is 150,000 or more*, an amount
12 equal to the combined tax rates of the taxing agencies for that fiscal
13 year multiplied by 10 percent of the total assessed valuation of the
14 municipality.

15 (b) In a ~~municipality~~ *county whose population is 30,000 or*
16 *more but less than 100,000 or a city* whose population is 25,000 or
17 more but less than ~~[100,000,]~~ *150,000*, an amount equal to the
18 combined tax rates of the taxing agencies for that fiscal year
19 multiplied by 15 percent of the total assessed valuation of the
20 municipality.

21 (c) In a ~~municipality~~ *county* whose population is less than
22 *30,000 or a city whose population is less than* 25,000, an amount
23 equal to the combined tax rates of the taxing agencies for that fiscal
24 year multiplied by 20 percent of the total assessed valuation of the
25 municipality.

26 ↪ If the revenue paid to a redevelopment agency must be limited
27 pursuant to paragraph (a), (b) or (c) and the redevelopment agency
28 has more than one redevelopment area, the redevelopment agency
29 shall determine the allocation to each area. Any revenue which
30 would be allocated to a redevelopment agency but for the provisions
31 of this section must be paid into the funds of the respective taxing
32 agencies.

33 3. The taxing agencies shall continue to pay to a
34 redevelopment agency any amount which was being paid before
35 July 1, 1987, and in anticipation of which the agency became
36 obligated before July 1, 1987, to repay any bond, loan, money
37 advanced or any other indebtedness, whether funded, refunded,
38 assumed or otherwise incurred.

39 4. For the purposes of this section, the assessment roll last
40 equalized before the effective date of the ordinance approving the
41 redevelopment plan is the assessment roll in existence on March 15
42 immediately preceding the effective date of the ordinance.

43 **Sec. 151.** NRS 279.685 is hereby amended to read as follows:

44 279.685 1. Except as otherwise provided in this section, an
45 agency of a city whose population is ~~[300,000]~~ *500,000* or more that

* A B 5 4 5 R 2 *

1 receives revenue from taxes pursuant to paragraph (b) of subsection
2 1 of NRS 279.676 shall set aside not less than 15 percent of that
3 revenue received on or before October 1, 1999, and 18 percent of
4 that revenue received after October 1, 1999, to increase, improve
5 and preserve the number of dwelling units in the community for
6 low-income households.

7 2. The obligation of an agency to set aside not less than 15
8 percent of the revenue from taxes allocated to and received by the
9 agency pursuant to paragraph (b) of subsection 1 of NRS 279.676 is
10 subordinate to any existing obligations of the agency. As used in
11 this subsection, "existing obligations" means the principal and
12 interest, when due, on any bonds, notes or other indebtedness
13 whether funded, refunded, assumed or otherwise incurred by the
14 agency before July 1, 1993, to finance or refinance in whole or in
15 part, the redevelopment of a redevelopment area. For the purposes
16 of this subsection, obligations incurred by an agency after July 1,
17 1993, shall be deemed existing obligations if the net proceeds are
18 used to refinance existing obligations of the agency.

19 3. The obligation of an agency to set aside an additional 3
20 percent of the revenue from taxes allocated to and received by the
21 agency pursuant to paragraph (b) of subsection 1 of NRS 279.676 is
22 subordinate to any existing obligations of the agency. As used in
23 this subsection, "existing obligations" means the principal and
24 interest, when due, on any bonds, notes or other indebtedness
25 whether funded, refunded, assumed or otherwise incurred by the
26 agency before October 1, 1999, to finance or refinance in whole or
27 in part, the redevelopment of a redevelopment area. For the
28 purposes of this subsection, obligations incurred by an agency after
29 October 1, 1999, shall be deemed existing obligations if the net
30 proceeds are used to refinance existing obligations of the agency.

31 4. The agency may expend or otherwise commit money for the
32 purposes of subsection 1 outside the boundaries of the
33 redevelopment area.

34 **Sec. 152.** NRS 281A.270 is hereby amended to read as
35 follows:

36 281A.270 1. Each county whose population is ~~more than~~
37 10,000 *or more* and each city whose population is *15,000 or* more
38 ~~than 10,000~~ and that is located within such a county shall pay an
39 assessment for the costs incurred by the Commission each biennium
40 in carrying out its functions pursuant to this chapter. The total
41 amount of money to be derived from assessments paid pursuant to
42 this subsection for a biennium must be determined by the
43 Legislature in the legislatively approved budget of the Commission
44 for that biennium. The assessments must be apportioned among
45 each such city and county based on the proportion that the total

1 population of the city or the total population of the unincorporated
2 area of the county bears to the total population of all such cities and
3 the unincorporated areas of all such counties in this State.

4 2. On or before July 1 of each odd-numbered year, the
5 Executive Director shall, in consultation with the Budget Division
6 of the Department of Administration and the Fiscal Analysis
7 Division of the Legislative Counsel Bureau, determine for the next
8 ensuing biennium the amount of the assessments due for each city
9 and county that is required to pay an assessment pursuant to

25 a tax for infrastructure pursuant to this section and NRS 377B.110.

26 2. An ordinance enacted pursuant to this chapter may not
27 become effective before a question concerning the imposition of the
28 tax is approved by a two-thirds majority of the members of the
29 board of county commissioners. Any proposal to increase the rate of
30 the tax or change the previously approved uses for the proceeds of
31 the tax must be approved by a two-thirds majority of the members
32 of the board of county commissioners. The board of county
33 commissioners shall not change a previously approved use for the
34 proceeds of the tax to a use that is not authorized for that county
35 pursuant to NRS 377B.160.

36 3. An ordinance enacted pursuant to this section must:

37 (a) Specify the date on which the tax must first be imposed or on
38 which an increase in the rate of the tax becomes effective, which
39 must occur on the first day of the first month of the next calendar
40 quarter that is at least 120 days after the date on which a two-thirds
41 majority of the board of county commissioners approved the
42 question.

43 (b) In a county whose population is ~~400,000~~ 700,000 or more,
44 provide for the cessation of the tax not later than:

1 (1) The last day of the month in which the Department

3 imposed, exclusive of any penalties and interest, exceeds \$2.3
4 billion; or

5 (2) June 30, 2025,
6 ↪ whichever occurs earlier.

7 4. The board of county commissioners in a county whose
8 population is ~~[400,000]~~ 700,000 or more and in which a water
9 authority exists shall review the necessity for the continued
10 imposition of the tax authorized pursuant to this chapter at least
11 once every 10 years.

12 5. Before enacting an ordinance pursuant to this chapter, the
13 board of county commissioners shall hold a public hearing regarding
14 the imposition of a tax for infrastructure. In a county whose
15 population is ~~[400,000]~~ 700,000 or more and in which a water
16 authority exists, the water authority shall also hold a public hearing
17 regarding the tax for infrastructure. Notice of the time and place of
18 each hearing must be:

19 (a) Published in a newspaper of general circulation in the county

32 The plan may include a regional project for which two or more such
33 counties have entered into an interlocal agreement to expend jointly
34 all or a portion of the proceeds of a tax imposed in each county
35 pursuant to this chapter. Such a plan must include, without
36 limitation, the date on which the plan expires, a description of each
37 proposed project, the method of financing each project and the costs
38 related to each project. Before adopting a plan pursuant to this
39 subsection, the board of county commissioners of a county in which
40 a regional planning commission has been established pursuant to
41 NRS 278.0262 shall transmit to the regional planning commission a
42 list of the proposed projects for which a tax for infrastructure may
43 be imposed. The regional planning commission shall hold a public
44 hearing at which it shall rank each project in relative priority. The
45 regional planning commission shall transmit its rankings to the

1 board of county commissioners. The recommendations of the
2 regional planning commission regarding the priority of the proposed
3 projects are not binding on the board of county commissioners. The

13 of county commissioners determines that the tax must be continued
14 for a purpose set forth in NRS 377B.160, the board shall adopt, in
15 the manner prescribed in this subsection, a new plan for the
16 expenditure of the proceeds of the tax for such a purpose.

17 7. No ordinance imposing a tax which is enacted pursuant to
18 this chapter may be repealed or amended or otherwise directly or
19 indirectly modified in such a manner as to impair any outstanding
20 bonds or other obligations which are payable from or secured by a
21 pledge of a tax enacted pursuant to this chapter until those bonds or
22 other obligations have been discharged in full.

23 **Sec. 191.** NRS 377B.110 is hereby amended to read as

8 the dissolution of the hospital district. If there are no taxes currently
9 being levied for the hospital district or the taxes being levied are not
10 sufficient to repay the outstanding obligations of the hospital district

15 than one county, the board of county commissioners may levy a
16 property tax on all of the taxable property in the hospital district that
17 is sufficient, when combined with any revenue from taxes currently
18 being levied in the hospital district, to repay the outstanding

15 of Taxation pursuant to NRS 354.685 to 354.725, inclusive, at the
16 time of dissolution, the management ceases upon dissolution, but
17 the board of county commissioners of the county in which the
18 district hospital was located shall continue to make such financial

26 6. Any proceeds of the sale or other transfer of the property of
27 the dissolved hospital district and any proceeds from taxes which
28 had been levied and received by the hospital district before
29 dissolution, whether levied for operating purposes or for the
30 repayment of debt, must be used by the board of county
31 commissioners of the county in which the district hospital was

28 which had filed a general rate application with the Commission on
29 or after July 1, 2005, shall file a general rate application on or before
30 June 30, 2009, and at least once every 36 months thereafter unless
31 waived by the Commission pursuant to standards adopted by
32 regulation of the Commission. If a public utility furnishes both
33 water and services for the disposal of sewage, its annual gross
34 operating revenue for each service must be considered separately for
35 determining whether the public utility meets the requirements of this
36 paragraph for either service.

37 ↪ The Commission shall adopt regulations setting forth standards
38 for waivers pursuant to paragraphs (c) and (d) and for including the
39 costs incurred by the public utility in preparing and presenting the
40 general rate application before the effective date of any change in
41 rates.

42 4. In addition to submitting the statement required pursuant to
43 subsection 3, a public utility may submit with its general rate
44 application a statement showing the effects, on an annualized basis,
45 of all expected changes in circumstances. If such a statement is

1 filed, it must include all increases and decreases in revenue and
2 expenses which may occur within 210 days after the date on which
3 its general rate application is filed with the Commission if such
4 expected changes in circumstances are reasonably known and are
5 measurable with reasonable accuracy. If a public utility submits
6 such a statement, the public utility has the burden of proving that the
7 expected changes in circumstances set forth in the statement are
8 reasonably known and are measurable with reasonable accuracy.
9 The Commission shall consider expected changes in circumstances
10 to be reasonably known and measurable with reasonable accuracy if
11 the expected changes in circumstances consist of specific and
12 identifiable events or programs rather than general trends, patterns
13 or developments, have an objectively high probability of occurring
14 to the degree, in the amount and at the time expected, are primarily
15 measurable by recorded or verifiable revenues and expenses and are
16 easily and objectively calculated, with the calculation of the
17 expected changes relying only secondarily on estimates, forecasts,
18 projections or budgets. If the Commission determines that the public
19 utility has met its burden of proof:

20 (a) The Commission shall consider the statement submitted
21 pursuant to this subsection and evidence relevant to the statement,
22 including all reasonable projected or forecasted offsets in revenue
23 and expenses that are directly attributable to or associated with the
24 expected changes in circumstances under consideration, in addition
25 to the statement required pursuant to subsection 3 as evidence in
26 establishing just and reasonable rates for the public utility; and

27 (b) The public utility is not required to file with the Commission
28 the certification that would otherwise be required pursuant to
29 subsection 3.

30 5. If a public utility files with the Commission an application to
31 make changes in any schedule and the Commission does not issue a
32 final written order regarding the proposed changes within the time
33 required by this section, the proposed changes shall be deemed to be
34 approved by the Commission.

35 6. If a public utility files with the Commission a general rate
36 application, the public utility shall not file with the Commission
37 another general rate application until all pending general rate
38 applications filed by that public utility have been decided by the
39 Commission unless, after application and hearing, the Commission
40 determines that a substantial financial emergency would exist if the
41 public utility is not permitted to file another general rate application
42 sooner. The provisions of this subsection do not prohibit the public
43 utility from filing with the Commission, while a general rate
44 application is pending, an application to recover the increased cost
45 of purchased fuel, purchased power, or natural gas purchased for

1 resale pursuant to subsection 7, a quarterly rate adjustment pursuant
2 to subsection 8 or 9, any information relating to deferred accounting
3 requirements pursuant to NRS 704.185 or an annual deferred energy
4 accounting adjustment application pursuant to NRS 704.187, if the
5 public utility is otherwise authorized to so file by those provisions.

6 7. A public utility may file an application to recover the
7 increased cost of purchased fuel, purchased power, or natural gas
8 purchased for resale once every 30 days. The provisions of this
9 subsection do not apply to:

10 (a) An electric utility which is required to adjust its rates on a
11 quarterly basis pursuant to subsection 9; or

12 (b) A public utility which purchases natural gas for resale and
13 which adjusts its rates on a quarterly basis between annual rate
14 adjustment applications pursuant to subsection 8.

15 8. A public utility which purchases natural gas for resale must
16 request approval from the Commission to adjust its rates on a
17 quarterly basis between annual rate adjustment applications based
18 on changes in the public utility's recorded costs of natural gas
19 purchased for resale. If the Commission approves such a request:

20 (a) The public utility shall file written notice with the
21 Commission before the public utility makes a quarterly rate
22 adjustment between annual rate adjustment applications. A quarterly
23 rate adjustment is not subject to the requirements for notice and a
24 hearing pursuant to NRS 703.320 or the requirements for a
25 consumer session pursuant to subsection 1 of NRS 704.069.

26 (b) The public utility shall provide written notice of each
27 quarterly rate adjustment to its customers by including the written
28 notice with a customer's regular monthly bill. The public utility
29 shall begin providing such written notice to its customers not later
30 than 30 days after the date on which the public utility files its
31 written notice with the Commission pursuant to paragraph (a). The
32 written notice that is included with a customer's regular monthly
33 bill:

34 (1) Must be printed separately on fluorescent-colored paper
35 and must not be attached to the pages of the bill; and

36 (2) Must include the following:

37 (I) The total amount of the increase or decrease in the
38 public utility's revenues from the rate adjustment, stated in dollars
39 and as a percentage;

40 (II) The amount of the monthly increase or decrease in
41 charges for each class of customer or class of service, stated in
42 dollars and as a percentage;

43 (III) A statement that customers may send written
44 comments or protests regarding the rate adjustment to the
45 Commission; and

1 (IV) Any other information required by the Commission.

2 (c) The public utility shall file an annual rate adjustment
3 application with the Commission. The annual rate adjustment
4 application is subject to the requirements for notice and a hearing
5 pursuant to NRS 703.320 and the requirements for a consumer
6 session pursuant to subsection 1 of NRS 704.069.

7 (d) The proceeding regarding the annual rate adjustment
8 application must include a review of each quarterly rate adjustment
9 and a review of the transactions and recorded costs of natural gas
10 included in each quarterly rate adjustment and the annual rate
11 adjustment application. There is no presumption of reasonableness
12 or prudence for any quarterly rate adjustment or for any transactions
13 or recorded costs of natural gas included in any quarterly rate
14 adjustment or the annual rate adjustment application, and the public
15 utility has the burden of proving reasonableness and prudence in the
16 proceeding.

17 (e) The Commission shall not allow the public utility to recover
18 any recorded costs of natural gas which were the result of any
19 practice or transaction that was unreasonable or was undertaken,
20 managed or performed imprudently by the public utility, and the
21 Commission shall order the public utility to adjust its rates if the
22 Commission determines that any recorded costs of natural gas
23 included in any quarterly rate adjustment or the annual rate
24 adjustment application were not reasonable or prudent.

25 9. An electric utility shall adjust its rates on a quarterly basis
26 based on changes in the public utility's recorded costs of purchased
27 fuel or purchased power in the following manner:

28 (a) An electric utility shall file written notice with the
29 Commission on or before August 15, 2007, and every quarter
30 thereafter of the quarterly rate adjustment to be made by the electric
31 utility for the following quarter. The first quarterly rate adjustment
32 by the electric utility will take effect on October 1, 2007, and each
33 subsequent quarterly rate adjustment will take effect every quarter
34 thereafter. A quarterly rate adjustment is not subject to the
35 requirements for notice and a hearing pursuant to NRS 703.320 or
36 the requirements for a consumer session pursuant to subsection 1 of
37 NRS 704.069.

38 (b) Each electric utility shall provide written notice of each
39 quarterly rate adjustment to its customers by including the written
40 notice with a customer's regular monthly bill. The electric utility
41 shall begin providing such written notice to its customers not later
42 than 30 days after the date on which the electric utility files a written
43 notice with the Commission pursuant to paragraph (a). The written
44 notice that is included with a customer's regular monthly bill:

1 (1) Must be printed separately on fluorescent-colored paper
2 and must not be attached to the pages of the bill; and

3 (2) Must include the following:

4 (I) The total amount of the increase or decrease in the
5 electric utility's revenues from the rate adjustment, stated in dollars
6 and as a percentage;

7 (II) The amount of the monthly increase or decrease in
8 charges for each class of customer or class of service, stated in
9 dollars and as a percentage;

10 (III) A statement that customers may send written
11 comments or protests regarding the rate adjustment to the
12 Commission; and

13 (IV) Any other information required by the Commission.

14 (c) An electric utility shall file an annual deferred energy
15 accounting adjustment application pursuant to NRS 704.187 with
16 the Commission. The annual deferred energy accounting adjustment
17 application is subject to the requirements for notice and a hearing
18 pursuant to NRS 703.320 and the requirements for a consumer
19 session pursuant to subsection 1 of NRS 704.069.

20 (d) The proceeding regarding the annual deferred energy
21 accounting adjustment application must include a review of each
22 quarterly rate adjustment and a review of the transactions and
23 recorded costs of purchased fuel and purchased power included in
24 each quarterly rate adjustment and the annual deferred energy
25 accounting adjustment application. There is no presumption of
26 reasonableness or prudence for any quarterly rate adjustment or for
27 any transactions or recorded costs of purchased fuel and purchased
28 power included in any quarterly rate adjustment or the annual
29 deferred energy accounting adjustment application, and the electric
30 utility has the burden of proving reasonableness and prudence in the
31 proceeding.

32 (e) The Commission shall not allow the electric utility to recover
33 any recorded costs of purchased fuel and purchased power which
34 were the result of any practice or transaction that was unreasonable
35 or was undertaken, managed or performed imprudently by the
36 electric utility, and the Commission shall order the electric utility to
37 adjust its rates if the Commission determines that any recorded costs
38 of purchased fuel and purchased power included in any quarterly
39 rate adjustment or the annual deferred energy accounting adjustment
40 application were not reasonable or prudent.

41 10. If an electric utility files an annual deferred energy
42 accounting adjustment application pursuant to subsection 9 and
43 NRS 704.187 while a general rate application is pending, the
44 electric utility shall:

1 (a) Submit with its annual deferred energy accounting
2 adjustment application information relating to the cost of service
3 and rate design; and

4 (b) Supplement its general rate application with the same
5 information, if such information was not submitted with the general
6 rate application.

7 11. A utility facility identified in a 3-year plan submitted
8 pursuant to NRS 704.741 and accepted by the Commission for
9 acquisition or construction pursuant to NRS 704.751 and the
10 regulations adopted pursuant thereto shall be deemed to be a prudent
11 investment. The utility may recover all just and reasonable costs of
12 planning and constructing such a facility.

13 12. In regard to any rate or schedule approved or disapproved
14 pursuant to this section, the Commission may, after a hearing:

15 (a) Upon the request of the utility, approve a new rate but delay
16 the implementation of that new rate:

17 (1) Until a date determined by the Commission; and

18 (2) Under conditions as determined by the Commission,
19 including, without limitation, a requirement that interest charges be
20 included in the collection of the new rate; and

21 (b) Authorize a utility to implement a reduced rate for low-
22 income residential customers.

23 13. As used in this section:

24 (a) "Electric utility" has the meaning ascribed to it in
25 NRS 704.187.

26 (b) "Electric utility that primarily serves densely populated
27 counties" means an electric utility that, with regard to the provision
28 of electric service, derives more of its annual gross operating
29 revenue in this State from customers located in counties whose
30 population is ~~[400,000]~~ 700,000 or more than it does from
31 customers located in counties whose population is less than
32 ~~[400,000.]~~ 700,000.

33 (c) "Electric utility that primarily serves less densely populated
34 counties" means an electric utility that, with regard to the provision
35 of electric service, derives more of its annual gross operating
36 revenue in this State from customers located in counties whose
37 population is less than ~~[400,000]~~ 700,000 than it does from
38 customers located in counties whose population is ~~[400,000]~~
39 700,000 or more.

40 **Sec. 290.** NRS 704.230 is hereby amended to read as follows:

41 704.230 1. Except as otherwise provided in this section or in
42 any special law for the incorporation of a city, it is unlawful for any
43 public utility, for any purpose or object whatever, in any city or
44 town containing more than 7,500 inhabitants, to install, operate
45 or use, within such city or town, any mechanical water meters or

1 similar mechanical device, to measure the quantity of water
2 delivered to residential water users.

3 2. A public utility which furnishes water shall file with the
4 Commission a schedule establishing a separate individual and joint
5 rate or charge for residential users who have installed water meters
6 or similar devices to measure the consumption of water.

7 3. A water meter or similar device may be installed to measure
8 the consumption of water by a residential customer:

9 (a) With the consent of the customer; and

10 (b) To obtain information concerning a representative sample of
11 residential customers to determine what benefits, if any, would be
12 derived from the installation and use of water meters for residential
13 customers generally.

14 ➤ Unless the residential customer has agreed, in writing, to pay the
15 separate rate, the public utility shall charge the residential customer
16 for whom a meter is installed the same amount for water used as if
17 no meter had been installed.

18 4. A water meter or similar device may be installed to measure
19 the quantity of water delivered and determine the charge to
20 residential users of water if:

21 (a) The owner of the property on which it is installed consents in
22 writing to the installation, operation and use of the device; and

23 (b) The written consent is recorded with the county recorder of
24 the county in which the property is located.

25 ➤ The written consent binds any successor in interest to that
26 property to the provisions thereof.

27 5. Every newly constructed residential building which is
28 occupied for the first time after July 1, 1988, must be equipped with
29 a water meter.

7 through a subsidiary or affiliate, or otherwise directly or indirectly
8 obtain control of a public utility doing business in this State or an
9 entity that holds a controlling interest in such a public utility without
10 first submitting to the Commission an application for authorization
11 of the proposed transaction and obtaining authorization from the
12 Commission.

13 2. Any transaction that violates the provisions of this section is
14 void and unenforceable and is not valid for any purpose.

15 3. Before authorizing a proposed transaction pursuant to this
