EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [~~omitted material~~] is material to be omitted.

AN ACT relating to air pollution; revising provisions governing the frequency of required inspections of the emissions of certain motor vehicles; revising the fees charged by the Department of Motor Vehicles for certain forms; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the State Environmental Commission, in cooperation with
2 the Department of Motor Vehicles and any local air pollution control agency, to
3 adopt regulations for the control of emissions from motor vehicles in areas
4 designated by the Commission. (NRS 445B.770) Existing law also imposes
5 limitations on compulsory inspection programs established by the Commission.
6 (NRS 445B.795)

7 **Section 1** of this bill further limits the authority of the State Environmental
8 Commission by requiring that the regulations adopted by the Commission require:
9 (1) the initial inspection of a new passenger car or new light-duty motor vehicle 3
10 years after the initial registration of the vehicle; and (2) the subsequent inspection
11 of a passenger car or light-duty motor vehicle not more often than every 2 years,
12 except that if a vehicle fails a required inspection, the regulations must provide for
13 annual inspections of the vehicle thereafter.

14 Existing law requires the Department of Motor Vehicles to charge a fee for the
15 forms distributed to certify emission control compliance in the amount of \$6 per
16 form and \$150 per set of forms. (NRS 445B.830) Because **section 1** specifies that
17 inspections for emission control compliance must not be conducted more often than
18 every 2 years, **section 2** of this bill raises the fees to \$12 per form and \$300 per set
19 in order to not affect the funding of the Pollution Control Account.
