AN ACT relating to public health; revising requirements for various reports concerning the care provided by certain medical and related facilities; revising provisions relating to administrative fines collected by the Health Division of the Department of Health and Human Services; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

1 Existing law requires certain medical facilities to submit to the Health Division  
2 of the Department of Health and Human Services reports of sentinel events. (NRS  
3 439.835) The term “sentinel event” is defined for the purposes of these reports to  
4 mean an unexpected occurrence at the facility which involves facility-acquired  
5 infection, death or serious physical or psychological injury or the risk thereof,  
6 including, without limitation, any process variation for which a recurrence would  
7 carry a significant chance of a serious adverse outcome. (NRS 439.830) The Health  
8 Division is required to prepare annual reports concerning those reports which were  
9 submitted by medical facilities located in a county whose population is 100,000 or  
10 more (currently Clark and Washoe Counties). (NRS 439.840) **Section 5** of this bill  
11 requires the Health Division to prepare such annual reports for medical facilities in  
12 every county and to make those reports available on the Department’s website.  
13 **Section 5** also requires the Health Division to report that information publicly in a  
14 format which allows for comparisons of medical facilities.

15 Existing law requires medical facilities which provide care to 25 or more  
16 patients per day to submit information to the Internet-based surveillance system  
17 established and maintained by the Centers for Disease Control and Prevention of  
18 the United States Department of Health and Human Services and requires the  
19 Health Division to analyze that information. (NRS 439.847) **Section 9** of this bill  
20 requires the Health Division to report that information publicly in a format which  
21 allows for comparisons of medical facilities.

22 **Sections 15.3-17** of this bill require hospitals to submit, as part of the program  
23 to increase public awareness of health care information concerning hospitals, data

24 relating to the readmission of a patient if the readmission was potentially  
25 preventable and clinically related to the initial admission of the patient. **Section 20**  
26 of this bill requires the Department of Health and Human Services to post that  
27 information on an Internet website. **Section 16** also authorizes the Department to  
28 report certain information concerning the quality of care provided by hospitals if it  
29 can be determined from reports already submitted to the Department. Existing law  
30 authorizes the Department to seek injunctive relief or civil penalties against  
31 facilities that violate the reporting requirements. (NRS 439A.300, 439A.310)  
32 **Sections 21, 22, 24 and 25** of this bill authorize the Health Division to use  
33 money which is collected as administrative penalties to administer and carry out the  
34 provisions of chapter 449 of NRS and to protect the health and property of the  
35 patients and residents of facilities.  
36 **Section 35** of this bill repeals NRS 439.825 and 439.850.
