

CHAPTER.....

AN ACT relating to renewable energy facilities; requiring the recipients of certain partial tax abatements to create and retain certain records and submit an annual payroll report to the Office of Energy and the board of county commissioners of the county in which the facility receiving a partial tax abatement is located; providing that the wage used to determine eligibility for certain partial tax abatements does not include certain fringe benefits; authorizing the Director of the Office to charge and collect from an applicant for a certain partial abatement a fee in an amount established by regulation; requiring the proceeds of the fee to be used for specific activities set forth in a regulation adopted by the Director; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law authorizes certain renewable energy facilities to apply for a partial abatement of certain taxes. (NRS 701A.300-701A.390) For a renewable energy facility to be eligible for such a partial tax abatement, a certain number of full-time employees must be employed on the construction of the facility, including a certain percentage of employees who are Nevada residents, and the wages paid to employees of the facility or employees working on the construction of the facility must represent a certain percentage of the average statewide hourly wage, as established by the Employment Security Division of the Department of Employment, Training and Rehabilitation. (NRS 701A.365)

**Section 2** of this bill requires a recipient of such a partial tax abatement to keep or cause to be kept certain records regarding employees of the facility and employees who worked on the construction of the facility.

**Section 3** of this bill requires a recipient of a partial tax abatement to submit to the Office of Energy and the board of county commissioners of the county in which the facility receiving a partial tax abatement is located, on an annual basis, a certified payroll report containing certain information.

For the purpose of determining the wage that must be paid to employees of a facility and employees working on the construction of a facility in order for a facility to be eligible for a partial tax abatement, existing law defines “wage” as including the cost of certain bona fide fringe benefits which are provided to an employee, including pension and health benefits. (NRS 701A.365) **Section 4** of this bill provides that wages, for the purposes of determining eligibility for a partial tax abatement, do not include the amount of any health insurance plan, pension or other bona fide fringe benefits which are provided to an employee.

Existing law authorizes the Director of the Office of Energy to charge and collect a fee from each applicant who submits an application for a partial abatement of certain taxes that does not exceed the cost to the Director for processing and approving such applications. (NRS 701A.390) **Section 5** of this bill authorizes the Director to include in the fee charged to applicants an additional amount established by regulation. Under **section 5**, the Office is required to use the proceeds of the fee for activities of the Office that support and expand renewable

energy development in this State and that are set forth in a regulation adopted by the Director.
