

CHAPTER.....

AN ACT relating to educational programs; providing for the issuance of a special license plate indicating support for educational programs in science, technology, engineering and mathematics; imposing a fee for the issuance and renewal of such special license plates; revising provisions related to the promotion and recognition of educational programs in this State that teach science, technology, engineering and mathematics; making appropriations to the Office of Science, Innovation and Technology to fund certain programs and activities relating to science, technology, engineering and mathematics; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Section 1 of this bill requires the Department of Motor Vehicles to design, prepare and issue special license plates indicating support for educational programs in science, technology, engineering and mathematics, commonly referred to as “STEM.” The fees generated by the special license plates that are in addition to all other applicable registration and license fees and governmental services and taxes are required to be deposited with the State Treasurer, who must, on a quarterly basis, distribute the fees to the Director of the Office of Science, Innovation and Technology. The Director is required to consult with the Advisory Council on Science, Technology, Engineering and Mathematics to identify nonprofit corporations to assist in distributing the funds in a manner designed to encourage the study of science, technology, engineering and mathematics by pupils in this State. A person wishing to obtain the special license plates may also request that the plates be combined with personalized prestige plates if the person pays the additional fees for the personalized prestige plates.

Under existing law, certain special license plates: (1) must be approved by the Department, based on a recommendation from the Commission on Special License Plates; (2) are subject to a limitation on the number of separate designs of special license plates which the Department may issue at any one time; and (3) may not be designed, prepared or issued by the Department unless a certain number of applications for the plates are received. (NRS 482.367004, 482.367008, 482.36705) **Sections 6-8** of this bill exempt the special license plates indicating support for educational programs in science, technology, engineering and mathematics from each of the proceeding requirements. **Sections 2-5 and 9-12** of this bill make conforming changes.

Under existing law the Advisory Council on Science, Technology, Engineering and Mathematics is required to develop a plan for identifying and awarding recognition to not more than 15 schools in this State that demonstrate exemplary performance in the fields of science, technology, engineering and mathematics. The Council must also establish an event in southern Nevada and an event in northern Nevada to recognize students for similar exemplary performance, with the events required to be held at an institution of higher education in this State. Finally, the Council must establish a statewide event to be held in Carson City to recognize the not more than 15 schools in this State identified for exemplary performance. (NRS 223.650) **Section 13** of this bill removes the limitation of 15 schools, removes the

requirement that the northern and southern events be held at institutions of higher education, and removes the requirement that the statewide event be held in Carson City.

Finally, **section 14** of this bill makes two appropriations to the Office of Science, Innovation and Technology. The first is for awarding grants to elementary schools in this state to promote equitable access to and increase the quality of programs designed to introduce and teach science, technology, engineering and mathematics. The second is to create a regional grant program in each of three regions of this State through regional advisory boards, with the grants to be used to fund activities and programs designed to increase awareness of, promote the benefits of and carry out programs that reinforce education in science, technology, engineering and mathematics.

4. ↳ the Director shall, notwithstanding any other provision of law to the contrary, issue an order providing that the Department will no longer issue that particular design of special license plate. Except as otherwise provided in subsection 2 of NRS 482.265, such an order does not require existing holders of that particular design of special license plate to surrender their plates to the Department and does not prohibit those holders from renewing those plates.

Sec. 8. NRS 482.36705 is hereby amended to read as follows:

482.36705 1. Except as otherwise provided in subsection 2:

(a) If a new special license plate is authorized by an act of the Legislature after January 1, 2003, other than a special license plate that is authorized pursuant to NRS 482.379375, the Legislature will direct that the license plate not be designed, prepared or issued by the Department unless the Department receives at least 1,000 applications for the issuance of that plate within 2 years after the effective date of the act of the Legislature that authorized the plate.

(b) In addition to the requirements set forth in paragraph (a), if a new special license plate is authorized by an act of the Legislature after July 1, 2005, the Legislature will direct that the license plate not be issued by the Department unless its issuance complies with subsection 2 of NRS 482.367008.

Sec. 9. NRS 482.3824 is hereby amended to read as follows:

482.3824 1. Except as otherwise provided in NRS 482.38279, with respect to any special license plate that is issued pursuant to NRS 482.3667 to 482.3823, inclusive, *and section 1 of this act* and for which additional fees are imposed for the issuance of the special license plate to generate financial support for a charitable organization:

The Department may not issue a special license plate for such other types of vehicles if the Department determines that the design or manufacture of the plate for those other types of vehicles would not be feasible. In addition, if the Department incurs additional costs to manufacture a special license plate for such other types of vehicles, including, without limitation, costs associated with the purchase, manufacture or modification of dies or other equipment necessary to manufacture the special license plate for such other types of vehicles, those additional costs must be paid from private sources without any expense to the State of Nevada.

2. If, as authorized pursuant to paragraph (b) of subsection 1, the Department issues a special license plate for a trailer, motorcycle or other type of vehicle that is not a passenger car or light commercial vehicle, the Department shall charge and collect for the

issuance and renewal of such a plate the same fees that the Department would charge and collect if the other type of vehicle was a passenger car or light commercial vehicle. As used in this subsection, “fees” does not include any applicable registration or license fees or governmental services taxes.

3. As used in this section:

(a) “Additional fees” has the meaning ascribed to it in NRS 482.38273.

Except as otherwise provided in NRS 482.294, an application for transfer of registration must be made in person, if practicable, to any office or agent of the Department or to a registered dealer, and the license plate or plates may not be used upon a second vehicle until registration of that vehicle is complete.

3. In computing the governmental services tax, the Department, its agent or the registered dealer shall credit the portion of the tax paid on the first vehicle attributable to the remainder of the current registration period or calendar year on a pro rata monthly basis against the tax due on the second vehicle or on any other vehicle of which the person is the registered owner. If any person transfers ownership or interest in two or more vehicles, the Department or the registered dealer shall credit the portion of the tax paid on all of the vehicles attributable to the remainder of the current registration period or calendar year on a pro rata monthly basis against the tax due on the vehicle to which the registration is transferred or on any other vehicle of which the person is the registered owner. The certificates of registration and unused license plates of the vehicles from which a person transfers ownership or interest must be submitted before credit is given against the tax due on the vehicle to which the registration is transferred or on any other vehicle of which the person is the registered owner.

4. In computing the registration fee, the Department or its agent or the registered dealer shall credit the portion of the registration fee paid on each vehicle attributable to the remainder of the current calendar year or registration period on a pro rata basis against the registration fee due on the vehicle to which registration is transferred.

5. If the amount owed on the registration fee or governmental services tax on the vehicle to which registration is transferred is less than the credit on the total registration fee or governmental services tax paid on all vehicles from which a person transfers ownership or interest, the person may apply the unused portion of the credit to the registration of any other vehicle owned by the person. Any unused portion of such a credit expires on the date the registration of the vehicle from which the person transferred the registration was due to expire.

6. If the license plate or plates are not appropriate for the second vehicle, the plate or plates must be surrendered to the Department or registered dealer and an appropriate plate or plates must be issued by the Department. The Department shall not reissue the surrendered plate or plates until the next succeeding licensing period.

7. If application for transfer of registration is not made within 60 days after the destruction or transfer of ownership of or interest in any vehicle, the license plate or plates must be surrendered to the Department on or before the 60th day for cancellation of the registration.

8. Except as otherwise provided in subsection 2 of NRS 371.040, NRS 482.2155, subsections 7 and 8 of NRS 482.260 and subsection 3 of NRS 482.483, if a person cancels his or her registration and surrenders to the Department the license plates for a vehicle, the Department shall:

(b) If the person does not qualify for a refund in accordance with the provisions of subsection 9, issue to the person a credit in the amount of the portion of the registration fee and governmental services tax paid on the vehicle attributable to the remainder of the current calendar year or registration period on a pro rata basis. Such a credit may be applied by the person to the registration of any other vehicle owned by the person. Any unused portion of the credit expires on the date the registration of the vehicle from which the person obtained a refund was due to expire.

9. The Department shall issue a refund pursuant to subsection 8 only if the request for a refund is made at the time the registration is cancelled and the license plates are surrendered, the person requesting the refund is a resident of Nevada, the amount eligible for refund exceeds \$100, and evidence satisfactory to the Department is submitted that reasonably proves the existence of extenuating circumstances.
