EXPLANATION – Matter in *bolded italics* is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to school facilities; temporarily authorizing the boards of trustees of school districts with prior voter approval to issue general obligation bonds in certain circumstances; temporarily revising provisions governing the transfer of certain revenue to the fund for capital projects of such a school district; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

- 1 Existing law authorizes the board of trustees of a school district to issue general
- 2 obligation bonds to raise money for certain specified purposes related to school
- 3 facilities, including, but not limited to: (1) the construction, design or purchase of
- 4 new buildings for schools; (2) enlarging, remodeling or repairing existing buildings
- 5 or grounds for schools; and (3) acquiring sites for building schools. (NRS 387.335)
- 6 Under existing law, if a municipality proposes to issue or incur general
- 7 obligation bonds, the proposal is required to be submitted to the qualified electors
- 8 at an election. Existing law provides an exception from this requirement for the
- 9 issuance of general obligation bonds of a school district if: (1) the issuance of the
- 10 bonds is not expected to result in an increase in the existing property tax levy for
- 11 the payment of the bonds of the school district; and (2) the voters have approved a

12 question that authorizes the issuance of such bonds by the board of trustees of the
13 school district for 10 years after the date of approval under two conditions. First,
14 the board of trustees is required to make a finding that the existing tax for debt
15 service will at least equal the amount required to pay the principal and interest on
16 the outstanding general obligations of the school district and the general obligations
17 proposed to be issued. Second, the board of trustees is required to obtain approval
18 of each such bond issuance from the debt management commission in the county in
19 which the school district is located and, in counties whose population is 100,000 or
20 more (currently Clark and Washoe Counties), from the oversight panel for school
21 facilities. Existing law also provides that such a question may authorize the board
22 of trustees to transfer any excess revenue generated by the school district's property
23 tax for debt service to the fund for capital projects of the school district to pay for
24 certain capital projects, commonly known as "pay as you go" funding.
25 (NRS 350.020)

26 If such a question for the issuance of bonds of a school district has been
27 approved by the voters, existing law authorizes the board of trustees of the school
28 district to issue general obligation bonds for one additional period of 10 years,
29 without any further approval of the voters and regardless of whether the question
30 was approved more than 10 years before March 4, 2015. For each issuance of
31 bonds during that additional 10-year period, the board of trustees must make the
32 required finding regarding the sufficiency of the existing tax to pay debt service on
33 the bonds and obtain the approval of the debt management commission in the
34 county and, if applicable, the oversight panel for school facilities. During the
35 additional 10-year period, existing law also authorizes the board of trustees to use
36 excess revenue generated from the property tax for debt service of the school
37 district for "pay as you go" funding even though such authorization was not
38 specifically included in the question approved by the voters. (NRS 350.0201) This
39 bill authorizes the board of trustees of a school district to issue general obligation
40 bonds for a second additional period of 10 years, without any further approval of
41 the voters and regardless of whether the question was approved more than 10 years
42 before March 4, 2025.
