

CHAPTER.....

AN ACT relating to the military; revising provisions of the Nevada Code of Military Justice governing certain offenses subject to court-martial proceedings; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law, as set forth in the Nevada Code of Military Justice, provides that a person may be tried or punished for certain offenses under the Code if the person committed the offense while the person was in a duty status. (NRS 412.452) **Section 1** of this bill removes the requirement that such an offense must be committed while the person was in a duty status. **Section 1** instead requires that the offense was committed while the person was subject to jurisdiction under certain provisions of the Code.

Existing law provides that a person who is subject to the Code commits the offense of waste, spoilage or destruction of property other than military property only if the person committed the offense while in a duty status. (NRS 412.532) **Section 2** of this bill removes the requirement that the offense must have been committed while the person was in a duty status. Thus, **section 2** provides that a person who is subject to the Code commits that offense regardless of whether the person was in a duty status at the time he or she committed the offense.
