Version: As Passed by the House

Primary Sponsors: Reps. Hillyer and K. Miller

Local Impact Statement Procedure Required: No

Jared Cape, Budget Analyst

Highlights

- The Ohio Department of Transportation (ODOT) will incur costs of approximately \$1,400 to produce and install each set of signs for 24 of the 31 designated highways or bridges in the bill. Seven municipalities may incur some costs for installing the signs. Signs usually need to be replaced every 12 to 15 years.

Detailed Analysis

The table below summarizes details about the highways designated by the bill, including the location and the entity responsible for installing the signs. The cost of producing and installing signs is approximately \$1,400. Signs usually need to be replaced every 12 to 15 years. ODOT produces the signs and is often responsible for the installation. However, if the highway is located within municipal boundaries, as is the case with four of the highways designated by this bill, the municipality may install the signs and may need to reimburse ODOT for the production costs.

Highway Designations			
Designation	Roadway	County	Entity Responsible for Installation
John P. Lennon Memorial Highway	State Route 87	Geauga	ODOT
LCpl Gerald Subler Memorial Highway	State Route 185	Darke	Village of Versailles

Highway Designations			
Designation	Roadway	County	Entity Responsible for Installation
