**A BILL**

To enact section 5.294 of the Revised Code to 1  
designate April as "Autism Acceptance Month." 2

**BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:**

**Section 1.** That section 5.294 of the Revised Code be 3  
enacted to read as follows: 4

**Sec. 5.294.** The month of April is designated as "Autism 5  
Acceptance Month." 6

**Section 2.** Nationally, the first day of April is the 7  
beginning of Autism Acceptance Month, which is the month during 8  
which our nation recognizes all individuals around the world who 9  
live on the autism spectrum. On the first day of April, and 10  
every day, the General Assembly celebrates the numerous ways 11  
autistic individuals enhance the quality of our communities and 12  
enrich our world. As the General Assembly recognizes this 13

important day, the General Assembly reaffirms their fundamental 14  
rights to participate fully in society, be treated with dignity 15  
and respect, and fulfill their highest potential. 16

For decades, advocates have celebrated April as Autism 17  
Awareness Month. Since 2008, the second day of April has been 18  
known as "Autism Awareness Day," a designation bestowed by the 19  
United Nations, in collaboration with leading disability 20  
organizations and millions of advocates across the globe. Now, 21  
more than ever, the General Assembly knows that the choice of 22  
our words matter and that unity and acceptance are foundational 23  
values to move our society forward. The General Assembly now 24  
acknowledges the need to advance our language. Awareness 25  
provides education and understanding. Acceptance is what is 26  
needed to inspire inclusion and systems-wide changes to achieve 27  
full participation within society. Thus, the General Assembly is 28  
proud to stand alongside the autism community by designating 29  
April as "Autism Acceptance Month" in section 5.294 of the 30  
Revised Code as enacted by this act. 31

In the United States, one in fifty-four children are 32  
diagnosed with autism spectrum disorder, totaling over five 33  
million young people and adults. These individuals are our 34  
classmates, colleagues, friends, and loved ones, and they 35  
greatly contribute their strengths, talents, and abilities to 36  
the community around them. Across the nation, people with autism 37  
are able to achieve independence and live purposeful lives when 38  
afforded the support system and opportunities that each and 39  
every one of us deserves. 40

As many individuals and families living with autism know, 41  
acceptance is often one of the biggest barriers to finding and 42  
developing a strong support system. Ohio understands the 43

importance of fostering acceptance to lead to improved supports 44  
and to achieve equity in education, employment, housing, health 45  
care, and comprehensive long-term services and supports. Ohio 46  
believes that everyone should be treated with dignity and have a 47  
fair shot at getting ahead. 48

The General Assembly will continue to prioritize enacting 49  
and implementing policies that break down the barriers to access 50  
for people with autism and other disabilities living and 51  
succeeding in their chosen communities, which means good jobs 52  
and more opportunities for employment; affordable, accessible, 53  
and integrated housing; accessible and affordable 54  
transportation; inclusive voting processes; and any needed long- 55  
term services and supports. 56
