Sec. 3301.0710. The state board of education shall adopt rules establishing a statewide program to assess student achievement. The state board shall ensure that all assessments administered under the program are aligned with the academic standards and model curricula adopted by the state board and are created with input from Ohio parents, Ohio classroom teachers, Ohio school administrators, and other Ohio school personnel pursuant to section 3301.079 of the Revised Code.

The assessment program shall be designed to ensure that students who receive a high school diploma demonstrate at least high school levels of achievement in English language arts, mathematics, science, and social studies.

(A)(1) The state board shall prescribe all of the following:

(a) Two statewide achievement assessments, one each designed to measure the level of English language arts and mathematics skill expected at the end of third grade;

(b) Two statewide achievement assessments, one each designed to measure the level of English language arts and mathematics skill expected at the end of fourth grade;

(c) Three statewide achievement assessments, one each designed to measure the level of English language arts, mathematics, and science skill expected at the end of fifth grade;

(d) Two statewide achievement assessments, one each designed to measure the level of English language arts and mathematics skill expected at the end of sixth grade;

(e) Two statewide achievement assessments, one each designed to measure the level of English language arts and mathematics skill expected at the end of seventh grade;

(f) Three statewide achievement assessments, one each designed to measure the level of English language arts, mathematics, and science skill expected at the end of eighth grade.

(2) The state board shall determine and designate at least five ranges of scores on each of the achievement assessments described in divisions (A)(1) and (B)(1) of this section. Each range of scores shall be deemed to demonstrate a level of achievement so that any student attaining a score within such range has achieved one of the following:

- (a) An advanced level of skill;
- (b) An ~~accelerated~~ accomplished level of skill;
- (c) A proficient level of skill;
- (d) A basic level of skill;
- (e) A limited level of skill.

(3) For the purpose of implementing division (A) of section 3313.608 of the Revised Code, the state board shall determine and designate a level of achievement, not lower than the level designated in division (A)(2)(e) of this section, on the third grade English language arts assessment for a student to be promoted to the fourth grade. The state board shall review and adjust upward the level of achievement designated under this division each year the test is administered until the level is set equal to the level designated in division (A)(2)(c) of this section. The level of achievement designated under this division shall be equal to the level designated in division (A)(2)(c) of this section not later than July 1, 2024.

(4) Each school district or school shall teach and assess social studies in at least the fourth and sixth grades. Any assessment in such area shall be determined by the district or school and may be formative or summative in nature. The results of such assessment shall not be reported to the department of education.

(B)(1) The assessments prescribed under division (B)(1) of this section shall collectively be known as the Ohio graduation tests. The state board shall prescribe five statewide high school achievement assessments, one each designed to measure the level of reading, writing, mathematics, science, and social studies skill expected at the end of tenth grade. The state board shall designate a score in at least the range designated under division (A)(2)(c) of this section on each such assessment that shall be deemed to be a passing score on the assessment as a condition toward granting high school diplomas under sections 3313.61, 3313.611, 3313.612, and 3325.08 of the Revised Code until the assessment system prescribed by section 3301.0712 of the Revised Code is implemented in accordance with division (B)(2) of this section.

(2) The state board shall prescribe an assessment system in accordance with section 3301.0712 of the Revised Code that shall replace the Ohio graduation tests beginning with students who enter the ninth grade for the first time on or after July 1, 2014.

(3) The state board may enter into a reciprocal agreement with the appropriate body or agency of any other state that has similar statewide achievement assessment requirements for receiving high school diplomas, under which any student who has met an achievement assessment requirement of one state is recognized as having met the similar requirement of the other state for purposes of receiving a high school diploma. For purposes of this section and sections 3301.0711 and 3313.61 of the Revised Code, any student enrolled in any public high school in this state who has met an achievement assessment requirement specified in a reciprocal agreement entered into under this division shall be deemed to have attained at least the applicable score designated under this division on each assessment required by division (B)(1) or (2) of this section that is specified in the

agreement.

(C) The superintendent of public instruction shall designate dates and times for the administration of the assessments prescribed by divisions (A) and (B) of this section.

In prescribing administration dates pursuant to this division, the superintendent shall designate the dates in such a way as to allow a reasonable length of time between the administration of assessments prescribed under this section and any administration of the national assessment of educational progress given to students in the same grade level pursuant to section 3301.27 of the Revised Code or federal law.

(D) The state board shall prescribe a practice version of each Ohio graduation test described in division (B)(1) of this section that is of comparable length to the actual test.

(E) Any committee established by the department of education for the purpose of making recommendations to the state board regarding the state board's designation of scores on the assessments described by this section shall inform the state board of the probable percentage of students who would score in each of the ranges established under division (A)(2) of this section on the assessments if the committee's recommendations are adopted by the state board. To the extent possible, these percentages shall be disaggregated by gender, major racial and ethnic groups, English learners, economically disadvantaged students, students with disabilities, and migrant students.

Sec. 3301.0712. (A) The state board of education, the superintendent of public instruction, and the chancellor of higher education shall develop a system of college and work ready assessments as described in division (B) of this section to assess whether each student upon graduating from high school is ready to enter college or the workforce. Beginning with students who enter the ninth grade for the first time on or after July 1, 2014, the system shall replace the Ohio graduation tests prescribed in division (B)(1) of section 3301.0710 of the Revised Code as a measure of student academic performance and one determinant of eligibility for a high school diploma in the manner prescribed by rule of the state board adopted under division (D) of this section.

(B) The college and work ready assessment system shall consist of the following:

~~(1) Nationally—(a) Except as provided in division (B)(1)(b) of this section, nationally standardized assessments that measure college and career readiness and are used for college admission. The assessments shall be selected jointly by the state superintendent and the chancellor, and one of which shall be selected by each school district or school to administer to its students. The assessments prescribed under division (B)(1) of this section shall be administered to all eleventh-grade students in the spring of the school year.~~

(b) Beginning with students who enter the ninth grade for the first time on or after the first day of July immediately following the effective date of this amendment, the parent or guardian of a student may elect not to have a nationally standardized assessment administered to that student. In that event, the student's school district or school shall not administer the nationally standardized assessment to that student.

(2)(a) Except as provided in division (B)(2)(b) of this section, seven end-of-course examinations, one in each of the areas of English language arts I, English language arts II, science, Algebra I, geometry, American history, and American government. The end-of-course examinations shall be selected jointly by the state superintendent and the chancellor in consultation with faculty in the appropriate subject areas at institutions of higher education of the university system of Ohio.

Advanced placement examinations and international baccalaureate examinations, as prescribed under section 3313.6013 of the Revised Code, in the areas of science, American history, and American government may be used as end-of-course examinations in accordance with division (B)(4)(a)(i) of this section. Final course grades for courses taken under any other advanced standing program, as prescribed under section 3313.6013 of the Revised Code, in the areas of science, American history, and American government may be used in lieu of end-of-course examinations in accordance with division (B)(4)(a)(ii) of this section.

(b) Beginning with students who enter ninth grade for the first time on or after July 1, 2019, five end-of-course examinations, one in each areas of English language arts II, science, Algebra I, American history, and American government. However, only the end-of-course examinations in English language arts II and Algebra I shall be required for graduation.

The department of education shall, as necessary to implement division (B)(2)(b) of this section, seek a waiver from the United States secretary of education for testing requirements prescribed under federal law to allow for the use and implementation of Algebra I as the primary assessment of high school mathematics. If the department does not receive a waiver under this division, the end-of-course examinations for students described in division (B)(2)(b) of this section also shall include an end-of-course examination in the area of geometry. However, the geometry end-of-course examination shall not be required for graduation.

(3)(a) Not later than July 1, 2013, each school district board of education shall adopt interim end-of-course examinations that comply with the requirements of divisions (B)(3)(b)(i) and (ii) of this section to assess mastery of American history and American government standards adopted under division (A)(1)(b) of section 3301.079 of the Revised Code and the topics required under division (M) of section 3313.603 of the Revised Code. Each high school of the district shall use the interim examinations until the state superintendent and chancellor select end-of-course examinations in American history and American government under division (B)(2) of this section.

(b) Not later than July 1, 2014, the state superintendent and the chancellor shall select the end-of-course examinations in American history and American government.

(i) The end-of-course examinations in American history and American government shall require demonstration of mastery of the American history and American government content for social studies standards adopted under division (A)(1)(b) of section 3301.079 of the Revised Code and the topics required under division (M) of section 3313.603 of the Revised Code.

(ii) At least twenty per cent of the end-of-course examination in American government shall address the topics on American history and American government described in division (M) of section 3313.603 of the Revised Code.

(4)(a) Notwithstanding anything to the contrary in this section, beginning with the 2014-2015 school year, both of the following shall apply:

(i) If a student is enrolled in an appropriate advanced placement or international baccalaureate course, that student shall take the advanced placement or international baccalaureate examination in lieu of the science, American history, or American government end-of-course examinations prescribed under division (B)(2) of this section. The state board shall specify the score levels for each advanced placement examination and international baccalaureate examination for purposes of calculating the minimum cumulative performance score that demonstrates the level of

academic achievement necessary to earn a high school diploma.

(ii) If a student is enrolled in an appropriate course under any other advanced standing program, as described in section 3313.6013 of the Revised Code, that student shall not be required to take the science, American history, or American government end-of-course examination, whichever is applicable, prescribed under division (B)(2) of this section. Instead, that student's final course grade shall be used in lieu of the applicable end-of-course examination prescribed under that section. The state superintendent, in consultation with the chancellor, shall adopt guidelines for purposes of calculating the corresponding final course grades that demonstrate the level of academic achievement necessary to earn a high school diploma.

Division (B)(4)(a)(ii) of this section shall apply only to courses for which students receive transcribed credit, as defined in section 3365.01 of the Revised Code. It shall not apply to remedial or developmental courses.

(b) No student shall take a substitute examination or examination prescribed under division (B)(4)(a) of this section in place of the end-of-course examinations in English language arts I, English language arts II, Algebra I, or geometry prescribed under division (B)(2) of this section.

(c) The state board shall consider additional assessments that may be used, beginning with the 2016-2017 school year, as substitute examinations in lieu of the end-of-course examinations prescribed under division (B)(2) of this section.

(5) The state board shall do all of the following:

(a) Determine and designate at least five ranges of scores on each of the end-of-course examinations prescribed under division (B)(2) of this section, and substitute examinations prescribed under division (B)(4) of this section. Not later than sixty days after the designation of ranges of scores, the state superintendent, or the state superintendent's designee, shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider primary and secondary education legislation regarding the designated range of scores. Each range of scores shall be considered to demonstrate a level of achievement so that any student attaining a score within such range has achieved one of the following:

- (i) An advanced level of skill;
- (ii) An ~~accelerated~~ accomplished level of skill;
- (iii) A proficient level of skill;
- (iv) A basic level of skill;
- (v) A limited level of skill.

(b) Determine a method by which to calculate a cumulative performance score based on the results of a student's end-of-course examinations or substitute examinations;

(c) Determine the minimum cumulative performance score that demonstrates the level of academic achievement necessary to earn a high school diploma under division (A)(2) of section 3313.618 of the Revised Code. However, the state board shall not determine a new minimum cumulative performance score after the effective date of this amendment October 17, 2019.

(d) Develop a table of corresponding score equivalents for the end-of-course examinations and substitute examinations in order to calculate student performance consistently across the different examinations.

A score of two on an advanced placement examination or a score of two or three on an

international baccalaureate examination shall be considered equivalent to a proficient level of skill as specified under division (B)(5)(a)(iii) of this section.

(6)(a) A student who meets both of the following conditions shall not be required to take an end-of-course examination:

(i) The student received high school credit prior to July 1, 2015, for a course for which the end-of-course examination is prescribed.

(ii) The examination was not available for administration prior to July 1, 2015.

Receipt of credit for the course described in division (B)(6)(a)(i) of this section shall satisfy the requirement to take the end-of-course examination. A student exempted under division (B)(6)(a) of this section may take the applicable end-of-course examination at a later date.

(b) For purposes of determining whether a student who is exempt from taking an end-of-course examination under division (B)(6)(a) of this section has attained the cumulative score prescribed by division (B)(5)(c) of this section, such student shall select either of the following:

(i) The student is considered to have attained a proficient score on the end-of-course examination from which the student is exempt;

(ii) The student's final course grade shall be used in lieu of a score on the end-of-course examination from which the student is exempt.

The state superintendent, in consultation with the chancellor, shall adopt guidelines for purposes of calculating the corresponding final course grades and the minimum cumulative performance score that demonstrates the level of academic achievement necessary to earn a high school diploma.

(7)(a) Notwithstanding anything to the contrary in this section, the state board may replace the algebra I end-of-course examination prescribed under division (B)(2) of this section with an algebra II end-of-course examination, beginning with the 2016-2017 school year for students who enter ninth grade on or after July 1, 2016.

(b) If the state board replaces the algebra I end-of-course examination with an algebra II end-of-course examination as authorized under division (B)(7)(a) of this section, both of the following shall apply:

(i) A student who is enrolled in an advanced placement or international baccalaureate course in algebra II shall take the advanced placement or international baccalaureate examination in lieu of the algebra II end-of-course examination.

(ii) A student who is enrolled in an algebra II course under any other advanced standing program, as described in section 3313.6013 of the Revised Code, shall not be required to take the algebra II end-of-course examination. Instead, that student's final course grade shall be used in lieu of the examination.

(c) If a school district or school utilizes an integrated approach to mathematics instruction, the district or school may do either or both of the following:

(i) Administer an integrated mathematics I end-of-course examination in lieu of the prescribed algebra I end-of-course examination;

(ii) Administer an integrated mathematics II end-of-course examination in lieu of the prescribed geometry end-of-course examination.

(8)(a) For students entering the ninth grade for the first time on or after July 1, 2014, but prior

to July 1, 2015, the assessment in the area of science shall be physical science or biology. For students entering the ninth grade for the first time on or after July 1, 2015, the assessment in the area of science shall be biology.

(b) Until July 1, 2019, the department shall make available the end-of-course examination in physical science for students who entered the ninth grade for the first time on or after July 1, 2014, but prior to July 1, 2015, and who wish to retake the examination.

(c) Not later than July 1, 2016, the state board shall adopt rules prescribing the requirements for the end-of-course examination in science for students who entered the ninth grade for the first time on or after July 1, 2014, but prior to July 1, 2015, and who have not met the requirement prescribed by section 3313.618 of the Revised Code by July 1, 2019, due to a student's failure to satisfy division (A)(2) of section 3313.618 of the Revised Code.

(9) Neither the state board nor the department of education shall develop or administer an end-of-course examination in the area of world history.

(10) Not later than March 1, 2020, the department, in consultation with the chancellor and the governor's office of workforce transformation, shall determine a competency score for both of the Algebra I and English language arts II end-of-course examinations for the purpose of graduation eligibility.

(C) The state board shall convene a group of national experts, state experts, and local practitioners to provide advice, guidance, and recommendations for the alignment of standards and model curricula to the assessments and in the design of the end-of-course examinations prescribed by this section.

(D) Upon completion of the development of the assessment system, the state board shall adopt rules prescribing all of the following:

(1) A timeline and plan for implementation of the assessment system, including a phased implementation if the state board determines such a phase-in is warranted;

(2) The date after which a person shall meet the requirements of the entire assessment system as a prerequisite for a diploma of adult education under section 3313.611 of the Revised Code;

(3) Whether and the extent to which a person may be excused from an American history end-of-course examination and an American government end-of-course examination under division (H) of section 3313.61 and division (B)(3) of section 3313.612 of the Revised Code;

(4) The date after which a person who has fulfilled the curriculum requirement for a diploma but has not passed one or more of the required assessments at the time the person fulfilled the curriculum requirement shall meet the requirements of the entire assessment system as a prerequisite for a high school diploma under division (B) of section 3313.614 of the Revised Code;

(5) The extent to which the assessment system applies to students enrolled in a dropout recovery and prevention program for purposes of division (F) of section 3313.603 and section 3314.36 of the Revised Code.

(E) Not later than forty-five days prior to the state board's adoption of a resolution directing the department to file the rules prescribed by division (D) of this section in final form under section 119.04 of the Revised Code, the superintendent of public instruction shall present the assessment system developed under this section to the respective committees of the house of representatives and senate that consider education legislation.

(F)(1) Any person enrolled in a nonchartered nonpublic school or any person who has been excused from attendance at school for the purpose of home instruction under section 3321.04 of the Revised Code may choose to participate in the system of assessments administered under divisions (B)(1) and (2) of this section. However, no such person shall be required to participate in the system of assessments.

(2) The department shall adopt rules for the administration and scoring of any assessments under division (F)(1) of this section.

(G) Not later than December 31, 2014, the state board shall select at least one nationally recognized job skills assessment. Each school district shall administer that assessment to those students who opt to take it. The state shall reimburse a school district for the costs of administering that assessment. The state board shall establish the minimum score a student must attain on the job skills assessment in order to demonstrate a student's workforce readiness and employability. The administration of the job skills assessment to a student under this division shall not exempt a school district from administering the assessments prescribed in division (B) of this section to that student.

Sec. 3301.0714. (A) The state board of education shall adopt rules for a statewide education management information system. The rules shall require the state board to establish guidelines for the establishment and maintenance of the system in accordance with this section and the rules adopted under this section. (a) The numbers of students receiving each category of instructional service offered by the school district, such as regular education instruction, vocational education instruction, specialized instruction programs or enrichment instruction that is part of the educational curriculum, instruction for gifted students, instruction for students with disabilities, and remedial instruction. (2) If the department decides to sanction a school district under this division, the department shall take the following sequential actions:

(a) Notify the district in writing that the department has determined that data has not been reported as required under this section and require the district to review its data submission and submit corrected data by a deadline established by the department. The department also may require the district to develop a corrective action plan, which shall include provisions for the district to provide mandatory staff training on data reporting procedures.

(b) Withhold up to ten per cent of the total amount of state funds due to the district for the current fiscal year and, if not previously required under division (L)(2)(a) of this section, require the district to develop a corrective action plan in accordance with that division;

(viii) If the district is issued a report card under section 3302.03 of the Revised Code and incomplete or inaccurate data submitted by the district likely caused the district to receive a higher performance rating than it deserved under that section, issue a revised report card for the district;

(ix) Any other action designed to correct the district's data reporting problems.

(3) Any time the department takes an action against a school district under division (L)(2) of this section, the department shall make a report of the circumstances that prompted the action. The department shall send a copy of the report to the district superintendent or chief administrator and maintain a copy of the report in its files.

The department may withhold state funds due to the district for this purpose.

(6) Prior to issuing a revised report card for a school district under division (L)(2)(d)(viii) of this section, the department may hold a hearing to provide the district with an opportunity to demonstrate that it made a good faith effort to report data as required by this section. The hearing shall be conducted by a referee appointed by the department. Based on the information provided in the hearing, the referee shall recommend whether the department should issue a revised report card for the district. If the referee affirms the department's contention that the district did not make a good faith effort to report data as required by this section, the district shall bear the full cost of conducting the hearing and of issuing any revised report card.

(7) If the department determines that any inaccurate data reported under this section caused a school district to receive excess state funds in any fiscal year, the district shall reimburse the department an amount equal to the excess funds, in accordance with a payment schedule determined by the department. The department may withhold state funds due to the district for this purpose.

(8) Any school district that has funds withheld under division (L)(2) of this section may appeal the withholding in accordance with Chapter 119. of the Revised Code.

~~Beginning with the report card for the 2014-2015 school year, the performance indicators shall include an~~ Beginning with the report card issued under section 3302.03 of the Revised Code for the 2021-2022 school year, the performance indicators prescribed under division (A)(1) of this section regarding student performance on state assessments shall not require a school district or building to attain a proficiency percentage to meet an indicator. Rather, the performance indicators only shall report proficiency percentages, trends, and comparisons.

(2) ~~A~~ performance indicator that reflects the level of identification and services provided to, and the performance of, students identified as gifted under Chapter 3324. of the Revised Code. The indicator shall include the performance of students identified as gifted on state assessments and value-added growth measure disaggregated for students identified as gifted. be prescribed by rules adopted under Chapter 119. of the Revised Code by the state board. The state board shall consult with the gifted advisory council regarding all rules adopted under this section. Consultation with the state gifted advisory council shall occur not less than every three years.

The gifted performance indicator shall include:

(a) The performance of students on state assessments, as measured by a performance index score, disaggregated for students identified as gifted;

(b) Value-added growth measure under section 3302.021 of the Revised Code, disaggregated for students identified as gifted;

(c) The level of identification as measured by the percentage of students in each grade level identified as gifted and disaggregated by traditionally underrepresented and economically disadvantaged students;

(d) The level of services provided to students as measured by the percentage of students

provided services in each grade level and disaggregated by traditionally underrepresented and economically disadvantaged students.

(3) A performance indicator that measures chronic absenteeism, as determined by the department of education, in a school district or school building.

Beginning with the report card issued under section 3302.03 of the Revised Code for the 2021-2022 school year, the performance indicators prescribed in divisions (A)(2) and (3) of this section shall not be part of the performance indicator unit under division (A)(1) of this section.

(B) For the 2013-2014 school year, except as otherwise provided in this section, for any indicator based on the percentage of students attaining a proficient score on the assessments prescribed by divisions (A) and (B)(1) of section 3301.0710 of the Revised Code, a school district or building shall be considered to have met the indicator if at least eighty per cent of the tested students attain a score of proficient or higher on the assessment. A school district or building shall be considered to have met the indicator for the assessments prescribed by division (B)(1) of section 3301.0710 of the Revised Code and only as administered to eleventh grade students, if at least eighty-five per cent of the tested students attain a score of proficient or higher on the assessment.

The state board shall adopt rules, under Chapter 119. of the Revised Code, to establish proficiency percentages to meet each indicator that is based on a state assessment, prescribed under section 3301.0710 or 3301.0712 of the Revised Code, for the 2014-2015, 2015-2016, 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021 school year and thereafter years by the following dates:

~~(A)(1)~~ Not later than December 31, 2015, for the 2014-2015 school year;

~~(B)(2)~~ Not later than July 1, 2016, for the 2015-2016 school year;

~~(C)(3)~~ Not later than July 1, 2017, for the 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021 school year, and for each school year thereafter years.

Sec. 3302.021. (A) Not earlier than July 1, 2005, and not later than July 1, 2007, the department of education shall implement a value-added progress dimension for school districts and buildings and shall incorporate the value-added progress dimension into the report cards and performance ratings issued for districts and buildings under section 3302.03 of the Revised Code.

The state board of education shall adopt rules, pursuant to Chapter 119. of the Revised Code, for the implementation of the value-added progress dimension. The rules adopted under this division shall specify both of the following:

(1) A scale for describing the levels of academic progress in reading and mathematics relative to a standard year of academic growth in those subjects for each of grades three through eight;

(2) That the department shall maintain the confidentiality of individual student test scores and individual student reports in accordance with sections 3301.0711, 3301.0714, and 3319.321 of the Revised Code and federal law. The department may require school districts to use a unique identifier for each student for this purpose. Individual student test scores and individual student reports shall be made available only to a student's classroom teacher and other appropriate educational personnel and to the student's parent or guardian.

(B) The department shall explore the feasibility of using the value-added gain index and effect size to improve differentiation and interpretation of the measure. If the department determines that it is feasible, the state board may update the rules adopted under division (A) of this section to

implement the use of gain index and effect size. If rules are adopted under division (A) of this section that use the gain index and effect size, any prior method used to calculate letter grades or performance ratings under section 3302.03 of the Revised Code shall no longer apply. Rather, the state board shall update its rules to determine how letter grades or performance ratings for each level of performance are calculated under section 3302.03 of the Revised Code using gain index and effect size.

(C) The department shall use a system designed for collecting necessary data, calculating the value-added progress dimension, analyzing data, and generating reports, which system has been used previously by a nonprofit organization led by the Ohio business community for at least one year in the operation of a pilot program in cooperation with school districts to collect and report student achievement data via electronic means and to provide information to the districts regarding the academic performance of individual students, grade levels, school buildings, and the districts as a whole.

~~(C)~~(D) The department shall not pay more than two dollars per student for data analysis and reporting to implement the value-added progress dimension in the same manner and with the same services as under the pilot program described by division (B) of this section. However, nothing in this section shall preclude the department or any school district from entering into a contract for the provision of more services at a higher fee per student. Any data analysis conducted under this section by an entity under contract with the department shall be completed in accordance with timelines established by the superintendent of public instruction.

~~(D)~~(E) The department shall share any aggregate student data and any calculation, analysis, or report utilizing aggregate student data that is generated under this section with the chancellor of the Ohio board of regents. The department shall not share individual student test scores and individual student reports with the chancellor.

Sec. 3302.03. Not later than the thirty-first day of July of each year, the department of education shall submit preliminary report card data for overall academic performance and for each separate performance measure for each school district, and each school building, in accordance with this section.

Annually, not later than the fifteenth day of September or the preceding Friday when that day falls on a Saturday or Sunday, the department shall assign a letter grade or performance rating for overall academic performance and for each separate performance measure for each school district, and each school building in a district, in accordance with this section. The state board of education shall adopt rules pursuant to Chapter 119. of the Revised Code ~~to~~ implement this section. The state board's rules shall establish performance criteria for each letter grade or performance rating and prescribe a method by which the department assigns each letter grade or performance rating. For a school building to which any of the performance measures do not apply, due to grade levels served by the building, the ~~state board~~ department shall designate the performance measures that are applicable to the building and that must be calculated separately and used to calculate the building's overall grade or performance rating. The department shall issue annual report cards reflecting the performance of each school district, each building within each district, and for the state as a whole using the performance measures and letter grade or performance rating system described in this section. The department shall include on the report card for each district and each building within

each district the most recent two-year trend data in student achievement for each subject and each grade.

(A)(1) For the 2012-2013 school year, the department shall issue grades as described in division ~~(E)~~(F) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as adopted by the state board. In adopting benchmarks for assigning letter grades under division (A)(1)(b) of this section, the state board of education shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.02 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (A)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates.

In adopting benchmarks for assigning letter grades under division (A)(1)(d), (B)(1)(d), or (C)(1)(d) of this section, the department shall designate a four-year adjusted cohort graduation rate of ninety-three per cent or higher for an "A" and a five-year cohort graduation rate of ninety-five per cent or higher for an "A."

(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available. The letter grade assigned for this growth measure shall be as follows:

(i) A score that is at least one standard error of measure above the mean score shall be designated as an "A."

(ii) A score that is less than one standard error of measure above but greater than one standard error of measure below the mean score shall be designated as a "B."

(iii) A score that is less than or equal to one standard error of measure below the mean score but greater than two standard errors of measure below the mean score shall be designated as a "C."

(iv) A score that is less than or equal to two standard errors of measure below the mean score but is greater than three standard errors of measure below the mean score shall be designated as a "D."

(v) A score that is less than or equal to three standard errors of measure below the mean score shall be designated as an "F."

Whenever the value-added progress dimension is used as a graded performance measure in this division and divisions (B) and (C) of this section, whether as an overall measure or as a measure of separate subgroups, the grades for the measure shall be calculated in the same manner as prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(2) Not later than April 30, 2013, the state board of education shall adopt a resolution describing the performance measures, benchmarks, and grading system for the 2012-2013 school year and, not later than June 30, 2013, shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures under division (A)(1) of this section shall be assessed and assigned a letter grade, including performance benchmarks for each letter grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (A)(1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(3) There shall not be an overall letter grade for a school district or building for the 2012-2013 school year.

(B)(1) For the 2013-2014 ~~and 2014-2015~~ school ~~years~~year, the department shall issue grades as described in division ~~(E)~~(F) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (B)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (B)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;

(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to districts and buildings for purposes of division (B)(1)(g) of this section. In adopting benchmarks for assigning letter grades under divisions (B)(1)(g) and (C)(1)(g) of this section, the state board shall determine progress made based on the reduction in the total percentage of students scoring below grade level, or below proficient, compared from year to year on the reading and writing diagnostic assessments administered under section 3301.0715 of the Revised Code and the third grade English language arts

assessment under section 3301.0710 of the Revised Code, as applicable. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under divisions (B)(1)(g) and (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the diagnostic assessment administered to students in kindergarten under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (B)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter grade:

(a) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(b) The number of a district's or building's students who have earned at least three college credits through dual enrollment or advanced standing programs, such as the post-secondary enrollment options program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's transcript or other official document, either of which is issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and shall include those that count toward the curriculum requirements established for completion of a degree.

(c) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with standards adopted under division (F) of section 3345.061 of the Revised Code;

(d) The percentage of the district's or the building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code.

(e) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations.

(f) The percentage of the district's or building's students who receive an honors diploma under division (B) of section 3313.61 of the Revised Code.

(3) Not later than December 31, 2013, the state board shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures

under divisions (B)(1)(f) and (B)(1)(g) of this section will be assessed and assigned a letter grade, including performance benchmarks for each grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (B)(1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(4) There shall not be an overall letter grade for a school district or building for the 2013-2014, 2014-2015, 2015-2016, and 2016-2017 school years.

(C)(1) For the 2014-2015, 2015-2016, 2016-2017, 2017-2018, 2018-2019, 2019-2020, and 2020-2021 school year and each school year thereafter years, the department shall issue grades as described in division ~~(E)-(F)~~ of this section for each of the performance measures prescribed in division (C)(1) of this section. The graded measures are as follows:

(a) Annual measurable objectives. For the 2017-2018 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than twenty-five students. For the 2018-2019 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than twenty students. Beginning with the 2019-2020 school year, the department shall not include any subgroup data in the annual measurable objectives that includes data from fewer than fifteen students.

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (C)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (C)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;

(e) The overall score under the value-added progress dimension, or another measure of student academic progress if adopted by the state board, of a school district or building, for which the department shall use up to three years of value-added data as available.

In adopting benchmarks for assigning letter grades for overall score on value-added progress dimension under division (C)(1)(e) of this section, the state board shall prohibit the assigning of a grade of "A" for that measure unless the district's or building's grade assigned for value-added progress dimension for all subgroups under division (C)(1)(f) of this section is a "C" or higher.

For the metric prescribed by division (C)(1)(e) of this section, the state board may adopt a student academic progress measure to be used instead of the value-added progress dimension. If the state board adopts such a measure, it also shall prescribe a method for assigning letter grades for the new measure that is comparable to the method prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score of a school district or building disaggregated

for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board. Each subgroup shall be a separate graded measure.

The state board may adopt student academic progress measures to be used instead of the value-added progress dimension. If the state board adopts such measures, it also shall prescribe a method for assigning letter grades for the new measures that is comparable to the method prescribed in division (A)(1)(e) of this section.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to a district or building for purposes of division (C)(1)(g) of this section. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under division (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the kindergarten diagnostic assessment under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (C)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter grade:

(a) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with the standards adopted under division (F) of section 3345.061 of the Revised Code;

(b) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(c) The percentage of a district's or building's students who have earned at least three college credits through advanced standing programs, such as the college credit plus program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's college transcript issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and shall include those that count toward the curriculum requirements

established for completion of a degree.

(d) The percentage of the district's or building's students who receive an honor's diploma under division (B) of section 3313.61 of the Revised Code;

(e) The percentage of the district's or building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code;

(f) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations;

(g) The results of the college and career-ready assessments administered under division (B) (1) of section 3301.0712 of the Revised Code;

(h) Whether the school district or building has implemented a positive behavior intervention and supports framework in compliance with the requirements of section 3319.46 of the Revised Code, notated as a "yes" or "no" answer.

(3) The state board shall adopt rules pursuant to Chapter 119. of the Revised Code that establish a method to assign an overall grade for a school district or school building for the 2017-2018 school year and each school year thereafter. The rules shall group the performance measures in divisions (C)(1) and (2) of this section into the following components:

(a) Gap closing, which shall include the performance measure in division (C)(1)(a) of this section;

(b) Achievement, which shall include the performance measures in divisions (C)(1)(b) and (c) of this section;

(c) Progress, which shall include the performance measures in divisions (C)(1)(e) and (f) of this section;

(d) Graduation, which shall include the performance measure in division (C)(1)(d) of this section;

(e) Kindergarten through third-grade literacy, which shall include the performance measure in division (C)(1)(g) of this section;

(f) Prepared for success, which shall include the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. The state board shall develop a method to determine a grade for the component in division (C)(3)(f) of this section using the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. When available, the state board may incorporate the performance measure under division (C)(2)(g) of this section into the component under division (C)(3)(f) of this section. When determining the overall grade for the prepared for success component prescribed by division (C)(3)(f) of this section, no individual student shall be counted in more than one performance measure. However, if a student qualifies for more than one performance measure in the component, the state board may, in its method to determine a grade for the component, specify an additional weight for such a student that is not greater than or equal to 1.0. In determining the overall score under division (C)(3)(f) of this section, the state board shall ensure that the pool of students included in the performance measures aggregated under that division are all of the students included in the four- and five-year adjusted graduation cohort.

In the rules adopted under division (C)(3) of this section, the state board shall adopt a method for determining a grade for each component in divisions (C)(3)(a) to (f) of this section. The state

board also shall establish a method to assign an overall grade of "A," "B," "C," "D," or "F" using the grades assigned for each component. The method the state board adopts for assigning an overall grade shall give equal weight to the components in divisions (C)(3)(b) and (c) of this section.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods for calculating the overall grade for the report card, as required by this division, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing the format for the report card, weights that will be assigned to the components of the overall grade, and the method for calculating the overall grade.

(D) For the 2021-2022 school year and each school year thereafter, all of the following apply:

(1) The department shall include on a school district's or building's report card all of the following performance measures without an assigned performance rating:

(a) Whether the district or building meets the gifted performance indicator under division (A)(2) of section 3302.02 of the Revised Code and the extent to which the district or building meets gifted indicator performance benchmarks;

(b) The extent to which the district or building meets the chronic absenteeism indicator under division (A)(3) of section 3302.02 of the Revised Code;

(c) Performance index score percentage for a district or building, which shall be calculated by dividing the district's or building's performance index score according to the performance index system created by the department by the maximum performance index score for a district or building. The maximum performance index score shall be as follows:

(i) For a building, the average of the highest two per cent of performance index scores achieved by a building for the school year for which a report card is issued;

(ii) For a district, the average of the highest two per cent of performance index scores achieved by a district for the school year for which a report card is issued.

(d) The overall score under the value-added progress dimension of a district or building, for which the department shall use three consecutive years of value-added data. In using three years of value-added data to calculate the measure prescribed under division (D)(1)(d) of this section, the department shall assign a weight of fifty per cent to the most recent year's data and a weight of twenty-five per cent to the data of each of the other years. However, if three consecutive years of value-added data is not available, the department shall use prior years of value-added data to calculate the measure, as follows:

(i) If two consecutive years of value-added data is not available, the department shall use one year of value-added data to calculate the measure.

(ii) If two consecutive years of value-added data is available, the department shall use two consecutive years of value-added data to calculate the measure. In using two years of value-added data to calculate the measure, the department shall assign a weight of sixty-seven per cent to the most recent year's data and a weight of thirty-three per cent to the data of the other year.

(e) The four-year adjusted cohort graduation rate.

(f) The five-year adjusted cohort graduation rate.

(g) The percentage of students in the district or building who score proficient or higher on the reading segment of the third grade English language arts assessment under section 3301.0710 of the Revised Code.

To the extent possible, the department shall include the results of the summer administration of the third grade reading assessment under section 3301.0710 of the Revised Code in the performance measures prescribed under divisions (D)(1)(g) and (h) of this section.

(h) Whether a district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the department. The method shall determine progress made based on the reduction in the total percentage of students scoring below grade level, or below proficient, compared from year to year on the reading segments of the diagnostic assessments administered under section 3301.0715 of the Revised Code, including the kindergarten readiness assessment, and the third grade English language arts assessment under section 3301.0710 of the Revised Code, as applicable. The method shall not include a deduction for students who did not pass the third grade English language arts assessment under section 3301.0710 of the Revised Code and were not on a reading improvement and monitoring plan.

The performance measure prescribed under division (D)(1)(h) of this section shall not be included on the report card of a district or building in which less than ten per cent of students have scored below grade level on the diagnostic assessment administered to students in kindergarten under division (B)(1) of section 3313.608 of the Revised Code.

(i) The percentage of students in a district or building who are promoted to the fourth grade and not subject to retention under division (A)(2) of section 3313.608 of the Revised Code;

(j) A post-secondary readiness measure. (i) Beginning with the report card issued under this section for the 2022-2023 school year, a student opportunity profile measure that reports data regarding the opportunities provided to students by a district or building. To the extent possible, and when appropriate, the data shall be disaggregated by grade level and subgroup. The measure also shall include data regarding the statewide average, the average for similar school districts, and, for a building, the average for the district in which the building is located. The measure shall include all of the following data for the district or building:

 - (3) Except as provided in division (D)(3)(f) of this section, the department shall use the state

board's method prescribed under rules adopted under division (D)(4) of this section to assign performance ratings of "one star," "two stars," "three stars," "four stars," or "five stars," as described in division (F) of this section, for a district or building for the individual components prescribed under division (D)(3) of this section. The department also shall assign an overall performance rating for a district or building in accordance with division (D)(3)(g) of this section. The method shall use the performance measures prescribed under division (D)(1) of this section to calculate performance ratings for components. The method may report data under division (D)(2) of this section with corresponding components, but shall not use the data to calculate performance ratings for that component. The performance measures and reported data shall be grouped together into components as follows:

(a) Gap closing. In addition to other criteria determined appropriate by the department, performance ratings for the gap closing component shall reflect whether each of the following performance measures are met or not met:

(i) The gifted performance indicator as described in division (D)(1)(a) of this section;

(ii) The chronic absenteeism indicator as described in division (D)(1)(b) of this section;

(iii) For English learners, an English language proficiency improvement indicator established by the department;

(iv) The subgroup graduation targets;

(v) The subgroup achievement targets in both mathematics and English language arts;

(vi) The subgroup progress targets in both mathematics and English language arts.

Achievement and progress targets under division (D)(3)(a) of this section shall be calculated individually, and districts and buildings shall receive a status of met or not met on each measure. The department shall not require a subgroup of a district or building to meet both the achievement and progress targets at the same time to receive a status of met.

The department shall not include any subgroup data in this measure that includes data from fewer than fifteen students. Any penalty for failing to meet the required assessment participation rate must be partially in proportion to how close the district or building was to meeting the rate requirement.

(b) Achievement, which shall include the performance measure in division (D)(1)(c) of this section and the reported data in division (D)(2)(a) of this section. Performance ratings for the achievement component shall be awarded as a percentage of the maximum performance index score described in division (D)(1)(c) of this section.

(c) Progress, which shall include the performance measure in division (D)(1)(d) of this section and the reported data in divisions (D)(2)(b) and (c) of this amendment;

(d) Graduation, which shall include the performance measures in divisions (D)(1)(e) and (f) of this section and the reported data in divisions (D)(2)(d) and (j) of this section. The four-year adjusted cohort graduation rate shall be assigned a weight of sixty per cent and the five-year adjusted cohort graduation rate shall be assigned a weight of forty per cent;

(e) Early literacy, which shall include the performance measures in divisions (D)(1)(g), (h), and (i) of this section and the reported data in divisions (D)(2)(e) and (k) of this section.

If the measure prescribed under division (D)(1)(h) of this section is included in a report card, performance ratings for the early literacy component shall give a weight of forty per cent to the

measure prescribed under division (D)(1)(g) of this section, a weight of thirty-five per cent to the measure prescribed under division (D)(1)(i) of this section, and a weight of twenty-five per cent to the measure prescribed under division (D)(1)(h) of this section.

If the measure prescribed under division (D)(1)(h) of this section is not included in a report card of a district or building, performance ratings for the early literacy component shall give a weight of sixty per cent to the measure prescribed under division (D)(1)(g) of this section and a weight of forty per cent to the measure prescribed under division (D)(1)(i) of this section.

(f) College, career, workforce, and military readiness, which shall include the performance measure in division (D)(1)(j) of this section and the reported data in division (D)(2)(f) of this section.

For the 2021-2022, 2022-2023, and 2023-2024 school years, the department only shall report the data for, and not assign a performance rating to, the college, career, workforce, and military readiness component. The reported data shall include the percentage of students who demonstrate post-secondary readiness using any of the options described in division (D)(1)(j) of this section.

The department shall analyze the data included in the performance measure prescribed in division (D)(1)(j) of this section for the 2021-2022, 2022-2023, and 2023-2024 school years. Using that data, the department shall develop and propose rules for a method to assign a performance rating to the college, career, workforce, and military readiness component based on that measure. The method to assign a performance rating shall not include a tiered structure or per student bonuses. The rules shall specify that a district or building shall not receive lower than a performance rating of three stars for the component if the district's or building's performance on the component meets or exceeds a level of improvement set by the department. Notwithstanding division (D)(4)(b) of this section, more than half of the total districts and buildings may earn a performance rating of three stars on this component to account for the districts and buildings that earned a performance rating of three stars because they met or exceeded the level of improvement set by the department.

The department shall submit the rules to the joint committee on agency rule review. The committee shall conduct at least one public hearing on the proposed rules and approve or disapprove the rules. If the committee approves the rules, the state board shall adopt the rules in accordance with Chapter 119. of the Revised Code. If the rules are adopted, the department shall assign a performance rating to the college, career, workforce, and military readiness component under the rules beginning with the 2024-2025 school year, and for each school year thereafter. If the committee disapproves the rules, the component shall be included in the report card only as reported data for the 2024-2025 school year, and each school year thereafter.

(g)(i) Except as provided for in division (D)(3)(g)(ii) of this section, beginning with the 2022-2023 school year, under the state board's method prescribed under rules adopted in division (D)(4) of this section, the department shall use the performance ratings assigned for the components prescribed in divisions (D)(3)(a) to (e) of this section to determine and assign an overall performance rating of "one star," "one and one-half stars," "two stars," "two and one-half stars," "three stars," "three and one-half stars," "four stars," "four and one-half stars," or "five stars" for a district or building. The method shall give equal weight to the components in divisions (D)(3)(b) and (c) of this section. The method shall give equal weight to the components in divisions (D)(3)(a), (d), and (e) of this section. The individual weights of each of the components prescribed in divisions (D)(3)(a), (d), and (e) of this section shall be equal to one-half of the weight given to the component prescribed in

division (D)(3)(b) of this section.

(ii) If the joint committee on agency rule review approves the department's rules regarding the college, career, workforce, and military readiness component as described in division (D)(3)(f) of this section, for the 2024-2025 school year, and each school year thereafter, the state board's method shall use the components in divisions (D)(3)(a), (b), (c), (d), (e), and (f) of this section to calculate the overall performance rating. The method shall give equal weight to the components in divisions (D)(3)(b) and (c) of this section. The method shall give equal weight to the components prescribed in divisions (D)(3)(a), (d), (e), and (f) of this section. The individual weights of each of the components prescribed in divisions (D)(3)(a), (d), (e), and (f) of this section shall be equal to one-half the weight given to the component prescribed in division (D)(3)(b) of this section.

If the joint committee on agency rule review disapproves the department's rules regarding the college, career, workforce, and military readiness component as described in division (D)(3)(f) of this section, division (D)(3)(g)(ii) of this section does not apply.

(4)(a) The state board shall adopt rules in accordance with Chapter 119. of the Revised Code to establish the performance criteria, benchmarks, and rating system necessary to implement divisions (D) and (F) of this section, including the method for the department to assign performance ratings under division (D)(3) of this section.

(b) In establishing the performance criteria, benchmarks, and rating system, the state board shall consult with stakeholder groups and advocates that represent parents, community members, students, business leaders, and educators from different school typology regions. The state board shall use data from prior school years and simulations to ensure that there is meaningful differentiation among districts and buildings across all performance ratings and that, except as permitted in division (D)(3)(f) of this section, more than half of all districts or buildings do not earn the same performance rating in any component or overall performance rating.

(c) The state board shall adopt the rules prescribed by division (D)(4) of this section not later than March 31, 2022. However, the department shall notify districts and buildings of the changes to the report card prescribed in law not later than one week after the effective date of this amendment.

(d) Prior to adopting or updating rules under division (D)(4) of this section, the president of the state board and the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider primary and secondary education legislation describing the format for the report card and the performance criteria, benchmarks, and rating system, including the method to assign performance ratings under division (D)(3) of this section.

(E) On or after July 1, 2015, the state board may develop a measure of student academic progress for high school students using only data from assessments in English language arts and mathematics. If the state board develops this measure, each school district and applicable school building shall be assigned a separate letter grade for it not sooner than the 2017-2018 school year. The district's or building's grade for that measure shall not be included in determining the district's or building's overall letter grade.

(~~E~~)-(F)(1) The letter grades assigned to a school district or building under this section shall be as follows:

(~~1~~)-(a) "A" for a district or school making excellent progress;

- ~~(2)~~(b) "B" for a district or school making above average progress;
- ~~(3)~~(c) "C" for a district or school making average progress;
- ~~(4)~~(d) "D" for a district or school making below average progress;
- ~~(5)~~(e) "F" for a district or school failing to meet minimum progress.

(2) For the overall performance rating under division (D)(3) of this section, the department shall include a descriptor for each performance rating as follows:

- (a) "Significantly exceeds state standards" for a performance rating of five stars;
- (b) "Exceeds state standards" for a performance rating of four stars or four and one-half stars;
- (c) "Meets state standards" for a performance rating of three stars or three and one-half stars;
- (d) "Needs support to meet state standards" for a performance rating of two stars or two and one-half stars;
- (e) "Needs significant support to meet state standards" for a performance rating of one star or one and one-half stars.

(3) For performance ratings for each component under divisions (D)(3)(a) to (f) of this section, the state board shall include a description of each component and performance rating. The description shall include component-specific context to each performance rating earned, estimated comparisons to other school districts and buildings if appropriate, and any other information determined by the state board. The descriptions shall be not longer than twenty-five words in length when possible. In addition to such descriptions, the state board shall include the descriptors in division (F)(2) of this section for component performance ratings.

(4) Each report card issued under this section shall include all of the following:

- (a) A graphic that depicts the performance ratings of a district or school on a color scale. The color associated with a performance rating of three stars shall be green and the color associated with a performance rating of one star shall be red.
- (b) An arrow graphic that shows data trends for performance ratings for school districts or buildings. The state board shall determine the data to be used for this graphic, which shall include at least the three most recent years of data.
- (c) A description regarding the weights that are assigned to each component and used to determine an overall performance rating, as prescribed under division (D)(3)(g) of this section, which shall be included in the presentation of the overall performance rating on each report card.

~~(F)~~(G) When reporting data on student achievement and progress, the department shall disaggregate that data according to the following categories:

- (1) Performance of students by grade-level;
- (2) Performance of students by race and ethnic group;
- (3) Performance of students by gender;
- (4) Performance of students grouped by those who have been enrolled in a district or school for three or more years;
- (5) Performance of students grouped by those who have been enrolled in a district or school for more than one year and less than three years;
- (6) Performance of students grouped by those who have been enrolled in a district or school for one year or less;
- (7) Performance of students grouped by those who are economically disadvantaged;

(8) Performance of students grouped by those who are enrolled in a conversion community school established under Chapter 3314. of the Revised Code;

(9) Performance of students grouped by those who are classified as English learners;

(10) Performance of students grouped by those who have disabilities;

(11) Performance of students grouped by those who are classified as migrants;

(12) Performance of students grouped by those who are identified as gifted in superior cognitive ability and the specific academic ability fields of reading and math pursuant to Chapter 3324. of the Revised Code. In disaggregating specific academic ability fields for gifted students, the department shall use data for those students with specific academic ability in math and reading. If any other academic field is assessed, the department shall also include data for students with specific academic ability in that field as well.

(13) Performance of students grouped by those who perform in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board.

The department may disaggregate data on student performance according to other categories that the department determines are appropriate. To the extent possible, the department shall disaggregate data on student performance according to any combinations of two or more of the categories listed in divisions ~~(F)(1)-(G)(1)~~ to (13) of this section that it deems relevant.

In reporting data pursuant to division ~~(F)-(G)~~ of this section, the department shall not include in the report cards any data statistical in nature that is statistically unreliable or that could result in the identification of individual students. For this purpose, the department shall not report student performance data for any group identified in division ~~(F)-(G)~~ of this section that contains less than ten students. If the department does not report student performance data for a group because it contains less than ten students, the department shall indicate on the report card that is why data was not reported.

~~(G)-(H)~~ The department may include with the report cards any additional education and fiscal performance data it deems valuable.

~~(H)-(I)~~ The department shall include on each report card a list of additional information collected by the department that is available regarding the district or building for which the report card is issued. When available, such additional information shall include student mobility data disaggregated by race and socioeconomic status, college enrollment data, and the reports prepared under section 3302.031 of the Revised Code.

The department shall maintain a site on the world wide web. The report card shall include the address of the site and shall specify that such additional information is available to the public at that site. The department shall also provide a copy of each item on the list to the superintendent of each school district. The district superintendent shall provide a copy of any item on the list to anyone who requests it.

~~(I)(1)(a)-(J)(1)(a)~~ Except as provided in division ~~(I)(1)(b)-(J)(1)(b)~~ of this section, for any district that sponsors a conversion community school under Chapter 3314. of the Revised Code, the department shall combine data regarding the academic performance of students enrolled in the community school with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the report card issued for the district under this section or section 3302.033 of the Revised Code.

(b) The department shall not combine data from any conversion community school that a district sponsors if a majority of the students enrolled in the conversion community school are enrolled in a dropout prevention and recovery program that is operated by the school, as described in division (A)(4)(a) of section 3314.35 of the Revised Code. The department shall include as an addendum to the district's report card the ratings and performance measures that are required under section 3314.017 of the Revised Code for any community school to which division ~~(I)(1)(b)~~ ~~(J)(1)(b)~~ of this section applies. This addendum shall include, at a minimum, the data specified in divisions (C)(1)(a), (C)(2), and (C)(3) of section 3314.017 of the Revised Code.

(2) Any district that leases a building to a community school located in the district or that enters into an agreement with a community school located in the district whereby the district and the school endorse each other's programs may elect to have data regarding the academic performance of students enrolled in the community school combined with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the district report card. Any district that so elects shall annually file a copy of the lease or agreement with the department.

(3) Any municipal school district, as defined in section 3311.71 of the Revised Code, that sponsors a community school located within the district's territory, or that enters into an agreement with a community school located within the district's territory whereby the district and the community school endorse each other's programs, may exercise either or both of the following elections:

(a) To have data regarding the academic performance of students enrolled in that community school combined with comparable data from the schools of the district for the purpose of determining the performance of the district as a whole on the district's report card;

(b) To have the number of students attending that community school noted separately on the district's report card.

The election authorized under division ~~(I)(3)(a)~~ ~~(J)(3)(a)~~ of this section is subject to approval by the governing authority of the community school.

Any municipal school district that exercises an election to combine or include data under division ~~(I)(3)~~ ~~(J)(3)~~ of this section, by the first day of October of each year, shall file with the department documentation indicating eligibility for that election, as required by the department.

~~(J)~~ ~~(K)~~ The department shall include on each report card the percentage of teachers in the district or building who are properly certified or licensed teachers, as defined in section 3319.074 of the Revised Code, and a comparison of that percentage with the percentages of such teachers in similar districts and buildings.

(2) In calculating performance index scores, rates of achievement on the performance

indicators established by the state board under section 3302.02 of the Revised Code, and annual measurable objectives for determining adequate yearly progress for school districts and buildings under this section, the department shall do all of the following:

(a) Include for each district or building only those students who are included in the ADM certified for the first full school week of October and are continuously enrolled in the district or building through the time of the spring administration of any assessment prescribed by division (A) (1) or (B)(1) of section 3301.0710 or division (B) of section 3301.0712 of the Revised Code that is administered to the student's grade level;

(b) Include cumulative totals from both the fall and spring administrations of the third grade English language arts achievement assessment and, to the extent possible, the summer administration of that assessment;

(c) Except as required by the No Child Left Behind Act of 2001, exclude for each district or building any English learner who has been enrolled in United States schools for less than one full school year.

~~(L)-(M)~~ Beginning with the 2015-2016 school year and at least once every three years thereafter, the state board of education shall review and may adjust the benchmarks for assigning letter grades or performance ratings to the performance measures and components prescribed under divisions (C)(3) ~~and (D)~~, and (E) of this section.

Sec. 3302.035. (A) Not later than October 1, 2015, and not later than the first day of October each year thereafter, the department of education shall report for each school district, each community school established under Chapter 3314., each STEM school established under Chapter 3326., and each college-preparatory boarding school established under Chapter 3328. of the Revised Code, the following measures for students with disabilities enrolled in that school district or community, STEM, or college-preparatory boarding school:

(1) The value-added progress dimension score, ~~as disaggregated for that subgroup under division (C)(1)(f) of section 3302.03 of the Revised Code, as determined by the department;~~

(2) The performance index score for that subgroup, as defined under division (A) of section 3302.01 of the Revised Code;

(3) The four- and five-year adjusted cohort graduation rates, as defined under divisions (G)(1) and (2) of section 3302.01 of the Revised Code, for that subgroup.
