ATTACHMENT TO REVENUE IMPACT - HB 2697 [Engrossed] Prepared 3/15/23

HB 2697 proposes to amend 68 O.S. § 2355 by adjusting the income levels in the top two income tax rate brackets for income tax returns with a filing status of married filing joint, head of household or surviving spouse filing for tax year 2024 and subsequent tax years.

The current law and proposed tax brackets¹ can be found on the final page of this revenue impact statement.

The effects of this proposal were estimated using the Oklahoma Individual Income Tax Microsimulation Model. The chart below shows the estimated impact by fiscal year.²

Withholding and estimated tax payments would change as a result of the enactment of this measure which would occur in part in FY24. It is expected the revenue impact for FY24 would be a decrease of \$5.9 million in income tax collections and for FY25 a decrease of \$14.7 million in income tax collections.

¹ Since this measure only changes the brackets for the filers using married filing joint, head of household or surviving spouse filing status, the single and married filing separate brackets are not included.

² The fiscal year impacts considered changes to the withholding tables and estimated tax payments due to the income tax rate reduction.
