Research Analysis

The PCS to SB 131 creates the Oklahomans Caring for Oklahomans Act. The measure requires the Oklahoma Health Care Authority (OHCA) to implement the Oklahomans Caring for Oklahomans Act by developing a program that controls costs and improves health outcomes for Medicaid recipients. The measure directs the OHCA to include the following elements of the program:

- **Prevention** – enrollment and renewal in the program will include a standard baseline risk assessment identifying social health risks
- **Chronic care management** – a plan for chronic care coordination which includes medication therapy management, patient education, interaction between OHCA and beneficiaries, and development of long-term wellness plan
- **Payment reform** – OHCA to develop a transition care management plan, establish value-based payments for providers

The measure requires the OHCA to maximize the sharing of health information among providers to reduce redundancy. Additionally, any program for sharing data will also have the ability to screen for social determinants of health.

Partnerships with tribal nations will be maintained and enhanced under this measure. The measure directs the Oklahoma Health Care Authority to promulgate rules. Lastly, the measure declares an emergency.
