**Bill Analysis**

SB 1718 requires licensed child care facilities to have at least 32 square feet of floor area per child. The measure directs the Department of Human Services to use basic rounding principles in which a number shall round up to the nearest whole number if the fractional part of the number is 0.5 or greater or shall round down to the nearest whole number if the fractional part of the number is 0.49 or fewer when determining square footage of a facility. Infants shall not be included in the calculation.
