SUBJECT: Authorizing remediation of hemp under certain conditions

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY Section 4, Chapter 64, O.S.L. 2018, as amended by Section 5, Chapter 91, O.S.L. 2019 (2 O.S. Supp. 2020, Section 3-404), is amended to read as follows:

Section 3-404. A. B. The Department shall collect a nonrefundable fee from the applicant at the time of application. The Department shall set a fee schedule based on the size and use of the land area on which the licensee will conduct industrial hemp growing or cultivation operations and shall set the fee at a level sufficient to generate the amount of monies necessary to cover the Department's direct costs in implementing the Oklahoma Industrial Hemp Program. Denied applications for a license may be resubmitted within a twelve-month period. The Department may waive the fee for resubmitted applications.

C. A license issued pursuant to this section is valid for one (1) year. In order to continue engaging in industrial hemp growth and cultivation operations in Oklahoma, the licensee shall annually apply for a license in accordance with subsection A of this section. The Department may set a separate fee schedule for renewal of existing licenses in good standing.

D. All industrial hemp plant material shall be planted, grown and harvested under a valid license. Any plant material that is not harvested in the license period in which it was planted or volunteer plants that are not destroyed must be declared for inclusion in a subsequent license.

E. If the licensee wishes to alter the land area on which the licensee will conduct industrial hemp growth, cultivation, handling or processing operations within thirty (30) days of any new license, before altering the area, the licensee shall submit to the Department and the United States Department of Agriculture Farm Service Agency an updated legal description, global positioning system location, and map specifying the proposed alterations.

F. Each licensee shall report any changes to information provided in the license application within ten (10) days of such change to the Department and the United States Department of Agriculture Farm Service Agency.

G. A licensee shall maintain all records pertaining to the license and growing records for a minimum of three (3) years.

H. The Department shall promulgate rules necessary to implement the licensing program and to implement the Oklahoma Industrial Hemp Program.

I. The Department shall promulgate rules to facilitate transportation of industrial hemp.

SECTION 2. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 3-406.1 of Title 2, unless there is created a duplication in numbering, reads as follows:

The Department shall notify each licensee of the scope of the inspection and the process by which the inspection will be conducted. The Department shall promulgate rules regarding the procedures of inspection and sampling.

B. The Department may inspect and take samples from any licensee's plants during normal business hours.

C. Licenses for handling or processing shall be subject to at least annual inspections in addition to compliance inspections.

D. The Department shall ~~make a good-faith attempt to~~ have the licensee present at the time of inspection and sampling. The licensee or authorized representative shall provide the Department's inspector with complete and unrestricted access to all plants, parts and seeds, whether growing or harvested, and all land, buildings and other structures used for the growth, cultivation, harvesting, storage, handling or processing of industrial hemp, and all documents and records pertaining to the licensee's industrial hemp-growing, cultivation operation, handling and processing.

E. The licensee shall pay for any inspection and laboratory analysis costs that the Department deems necessary within thirty (30) days of the date of the receipt of an invoice for the costs. The Department shall waive all inspection or sampling costs if no inconsistencies or violations are identified during an inspection that is not part of the regular annual inspection process.
