11	BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:
12	SECTION 1. AMENDATORY 52 O.S. 2011, Section 87.6, as
13	last amended by Section 1, Chapter 400, O.S.L. 2014 (52 O.S. Supp.
14	2016, Section 87.6), is amended to read as follows:
15	Section 87.6. A. Sections 87.6 through 87.9 of this title
16	shall be known and may be cited as the "2011 Shale Reservoir
17	Extended Lateral Horizontal Well Development Act".
18	B. As used in the 2011 Shale Reservoir Development Act this
19	act:
20	1. "Allocation factor" means the percentage of costs,
21	production or proceeds allocated to a unit affected by a multiunit
22	horizontal well;
23	2. "Application" means a written request filed by an owner of
24	the right to drill seeking approval to drill, complete and produce a

1 multiunit horizontal well or to create a horizontal well 2 unitization;

- 3. "Associated common source of supply" means a common source of supply which is subject to a drilling and spacing unit formed by the Corporation Commission and located in all or a portion of the lands in which the completion interval of a multiunit horizontal well is located, or which is located within the boundaries of a unit created through a horizontal well unitization, and which is immediately adjoining the shale common source of supply in which the completion interval of the horizontal well is located, and which is inadvertently encountered in the drilling of the lateral of such horizontal well when such well is drilled out of or exits, whether on one or multiple occasions, such shale any common source of supply;
 - 4. "Commission" means the Corporation Commission;
- 5. "Completion interval" means, for an open hole completion in a horizontal well, the interval from the point of entry to the terminus and, for a cased and cemented completion in a horizontal well, the interval from the first perforations to the last perforations;
 - 6. "Horizontal well" means a well drilled, completed, or recompleted with one or more laterals which, for at least one lateral, the horizontal component of the completion interval exceeds the vertical component of the completion interval and the horizontal

component extends a minimum of one hundred fifty (150) feet in the formation;

- 7. "Horizontal well unitization" means a unitization for a shale reservoir created pursuant to Section 87.9 of this title;
- 8. "Horizontal component" means the calculated horizontal distance from the point of entry to the terminus;
- 9. "Lateral" means the portion of the wellbore of a horizontal well from the point of entry to the terminus;
- 10. "Marmaton common source of supply" means a common source of supply located within Texas and Beaver Counties and designated as the Marmaton by the Commission through rule or order;
- 11. "Multiunit horizontal well" means a horizontal well in a targeted reservoir wherein the completion interval of the well is located in more than one unit formed for the same targeted reservoir, with the well being completed in and producing from such targeted reservoir in two or more of such units;
- 12. "Plan of development" means the proposed plan for developing the shale reservoir unitized pursuant to Section 87.9 of this title, which plan, based upon the information and knowledge then available to the applicant, shall include:
 - a. a map or maps indicating the location of each existing well in the proposed unit and the anticipated location of each horizontal well proposed to be drilled in the proposed unit that is anticipated to be necessary,

based upon the information and knowledge then

available to the applicant, for the full and efficient

development and operation of the proposed unit for the

recovery of oil and gas from the shale reservoir

within the proposed unit,

- b. any applicable proposed allocation factor or factors for allocating the costs, production and proceeds from the proposed unit,
- c. the anticipated timing and anticipated sequence of drilling of each horizontal well in the proposed unit, and
- d. any other specific terms, provisions, conditions and requirements set forth in Section 87.9 of this title or determined by the Commission to be reasonably necessary or proper to effectuate or accomplish the purpose of Section 87.9 of this title;
- 13. "Point of entry" means the point at which the borehole of a horizontal well first intersects the top of the targeted reservoir;
 - 14. "PRSA" means the Production Revenue Standards Act;
- 15. "Shale reservoir" means a common source of supply which is a shale formation that is so designated by the Commission through rule or order, and shall may also for good cause shown, include any associated common source of supply in relation thereto, as defined in this section;

16. "Targeted reservoir" means any shale reservoir or any portion of the Marmaton common source of supply or any other common source of supply which has been:

- a. designated by the Commission through a rule or emergency rules a common source of supply that is suited for development through a multiunit horizontal well, or
- b. determined by the Commission as part of the order approving the multiunit horizontal well as a common source of supply that is appropriately suited for development through a multiunit horizontal well for that particular application.

In designating or determining whether a particular common source of supply should be considered a targeted reservoir, the Commission may limit its designation to certain geographical areas;

- 17. "Terminus" means the end point of the borehole of a horizontal well:
- 18. "Wellbore royalty interest" means, for each separate multiunit horizontal well, the sum of resulting products of each affected unit's royalty share for that unit, as defined by the PRSA, multiplied by that unit's allocation factor for production and proceeds;
- 19. "Wellbore royalty proceeds" means the proceeds or other revenue derived from or attributable to any production of oil and

gas from the multiunit horizontal well multiplied by the wellbore royalty interest;

3

4

5

- 20. "Unit" means a drilling and spacing unit for a single common source of supply created pursuant to Section 87.1 of this title or a horizontal well unitization an extended lateral horizontal unit created pursuant to Section 87.9 of this title;
- 7 21. "Unit's royalty contribution factor" means the royalty
 8 share for an affected unit, as defined by PRSA, multiplied by that
 9 unit's allocation factor, then divided by the total wellbore royalty
 10 interest; and
- SECTION 2. AMENDATORY 52 O.S. 2011, Section 87.7, is amended to read as follows:
- 15 Section 87.7. Corporation Commission Jurisdiction.
- The Corporation Commission shall have jurisdiction, upon the 16 filing of a proper application therefor, to permit the drilling, 17 completing and producing of a multiunit horizontal well in 18 conformity with Section 4 87.8 of this act title, or to create a 19 horizontal well unitization in conformity with Section 5 87.9 of 20 this act title, if the Commission finds that the multiunit 21 horizontal well or the horizontal well unitization will prevent 22 waste and will protect the correlative rights of the owners of oil 23 24 and gas rights.

1	SECTION 3. This act shall become effective November 1, 2017.
