9 WHEREAS, According to the most recent estimates of the
10 Centers for Disease Control and Prevention (CDC), there were
11 more than 250,000 individuals of various ethnic, racial,
12 religious and socioeconomic groups with Down syndrome living in
13 the United States; and

14 WHEREAS, Thanks to advances in medical treatments and
15 continuing research, life expectancy for individuals with Down
16 syndrome has increased from 10 years in 1960 to nearly 60 years
17 today according to the most recent CDC estimates; and

2 and steady birth rates, while not confirmed, some reports
3 suggest that the total population of individuals living with
4 Down syndrome stands closer to the upper 300,000 figure; and

5 WHEREAS, Early intervention, appropriate speech, physical and
6 occupational therapies and quality education programs enable
7 individuals with Down syndrome to adapt and thrive; and

8 WHEREAS, With interventions, programs and the support of

10 school and participate in postsecondary opportunities, with many
11 going on to college, obtaining full-time employment, entering
12 into marriage and fully participating in their communities;
13 therefore be it

14 RESOLVED, That the Senate recognize the month of October 2023
15 as "Down Syndrome Awareness Month" in Pennsylvania, recognizing
16 the positive contributions of individuals with Down syndrome and
