STATE RHODE ISLAND O F

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2024

AN ACT

RELATING TO TOWNS AND CITIES -- LOW- AND MODERATE-INCOME HOUSING

SECTION 1. Chapter 45-53 of the General Laws entitled "Low- and Moderate-Income

Introduced By: Representatives Casey, Phillips, and J. Brien

Date Introduced: March 04, 2024

Referred To: House Finance

It is enacted by the General Assembly as follows:

2 Housing" is hereby amended by adding thereto the following section: 3 45-53-16. Education aid to be indexed to achieving low- and moderate-income housing levels. 4 5 (a) Effective January 1, 2025, a community's receipt of permanent foundation education 6 aid pursuant to chapter 7.2 of title 16 shall be indexed to a municipality's ability to successfully 7 meet its low- and moderate-income housing goals as provided for in this chapter, in the following 8 manner: 9 (1) For purposes of this section, commencing on January 1, 2025, and for each successive 10 year thereafter, every community shall have a five (5) year period to meet the goal of ten percent 11 (10%) of the year-round units or, in the case of certain urban towns or cities, fifteen percent (15%) 12 of the occupied rental housing units as being low- and moderate-income housing, as provided for 13 in § 45-53-3. If a community's minimum percentage requirements of low- or moderate-income 14 housing are adjusted by statute, then the provisions of this section shall be indexed and tied to those 15 adjustments such that whether a community's education aid is increased or decreased will be dependent upon the adjusted minimum amount of low- and moderate-income housing that is 16 17 required; 18 (2) After the five (5) year period provided for in subsection (a)(1) of this section, and for each year thereafter, any community that exceeds the required minimum goals identified in

1	subsection (a)(1) of this section for low- and moderate-income housing shall have its education aid
2	increased in a percentage amount equal to the percentage by which the community exceeds its
3	required minimum goals of ten percent (10%) or fifteen percent (15%) whichever is applicable.
4	Any community which receives an increase in education aid pursuant to the provisions of this
5	section shall be eligible to receive increases as long as the community maintains an amount of low-
6	and moderate-income housing in excess of the community's statutory minimum requirements.
7	(3) The statewide planning program within the department of administration shall certify
8	to the general assembly on or before April 1 of each year as to the percentage and amount of low-
9	and moderate-income housing in a municipality as of the previous year, for purposes of
10	implementing this section.
11	(b) As used herein:
12	(1) "Community" means the municipality or municipalities serviced by, a part of, or in a
13	given school district; and
14	(2) "Education aid" means the permanent foundation education aid received by each school
15	district established pursuant to the provisions of chapter 7.2 of title 16, "The Education Equity and
16	Property Tax Relief Act."
17	SECTION 2. Section 16-7.2-3 of the General Laws in Chapter 16-7.2 entitled "The
18	Education Equity and Property Tax Relief Act" is hereby amended to read as follows:
19	16-7.2-3. Permanent foundation education aid established.
20	(a) Beginning in the 2012 fiscal year, the following foundation education-aid formula shall
21	take effect. The foundation education aid for each district shall be the sum of the core instruction
22	amount in subdivision (a)(1) and the amount to support high-need students in subdivision (a)(2),
23	which shall be multiplied by the district state-share ratio calculated pursuant to § 16-7.2-4 to
24	determine the foundation aid.
25	(1) The core-instruction amount shall be an amount equal to a statewide, per-pupil core-
26	instruction amount as established by the department of elementary and secondary education,
27	derived from the average of northeast regional expenditure data for the states of Rhode Island,
28	Massachusetts, Connecticut, and New Hampshire from the National Center for Education Statistics
29	(NCES) that will adequately fund the student instructional needs as described in the basic education
30	program and multiplied by the district average daily membership as defined in § 16-7-22.
31	Expenditure data in the following categories: instruction and support services for students,
32	instruction, general administration, school administration, and other support services from the
33	
,,	National Public Education Financial Survey, as published by NCES, and enrollment data from the

instruction amount. The core-instruction amount will be updated annually. For the purpose of calculating this formula, school districts' resident average daily membership shall exclude charter school and state-operated school students.

- (2) The amount to support high-need students beyond the core-instruction amount shall be determined by multiplying a student success factor of forty percent (40%) by the core instruction per-pupil amount described in subdivision (a)(1) and applying that amount for each resident child whose family income is at or below one hundred eighty-five percent (185%) of federal poverty guidelines, hereinafter referred to as "poverty status." By October 1, 2022, as part of its budget submission pursuant to § 35-3-4 relative to state fiscal year 2024 and thereafter, the department of elementary and secondary education shall develop and utilize a poverty measure that in the department's assessment most accurately serves as a proxy for the poverty status referenced in this subsection and does not rely on the administration of school nutrition programs. The department shall utilize this measure in calculations pursuant to this subsection related to the application of the student success factor, in calculations pursuant to § 16-7.2-4 related to the calculation of the state share ratio, and in the formulation of estimates pursuant to subsection (b) below. The department may also include any recommendations which seek to mitigate any disruptions associated with the implementation of this new poverty measure or improve the accuracy of its calculation. Beginning with the FY 2024 calculation, students whose family income is at or below one hundred eightyfive percent (185%) of federal poverty guidelines will be determined by participation in the supplemental nutrition assistance program (SNAP). The number of students directly certified through the department of human services shall be multiplied by a factor of 1.6.
 - (b) The department of elementary and secondary education shall provide an estimate of the foundation education aid cost as part of its budget submission pursuant to § 35-3-4. The estimate shall include the most recent data available as well as an adjustment for average daily membership growth or decline based on the prior year experience.
- (c) In addition, the department shall report updated figures based on the average daily membership as of October 1 by December 1.
- (d) Local education agencies may set aside a portion of funds received under subsection
 (a) to expand learning opportunities such as after school and summer programs, full-day
 kindergarten and/or multiple pathway programs, provided that the basic education program and all
 other approved programs required in law are funded.
 - (e) The department of elementary and secondary education shall promulgate such regulations as are necessary to implement fully the purposes of this chapter.
- 34 (f)(1) By October 1, 2023, as part of its budget submission pursuant to § 35-3-4 relative to

state fiscal year 2025, the department of elementary and secondary education shall evaluate the
number of students by district who qualify as multilingual learner (MLL) students and MLL
students whose family income is at or below one hundred eighty-five percent (185%) of federal
poverty guidelines. The submission shall also include segmentation of these populations by levels
as dictated by the WIDA multilingual learner assessment tool used as an objective benchmark for
English proficiency. The department shall also prepare and produce expense data sourced from the
uniform chart of accounts to recommend funding levels required to support students at the various
levels of proficiency as determined by the WIDA assessment tool. Utilizing this information, the
department shall recommend a funding solution to meet the needs of multilingual learners; this may
include but not be limited to inclusion of MLL needs within the core foundation formula amoun
through one or multiple weights to distinguish different students of need or through categorical
means.

(2) By October 1, 2024, as part of its budget submission pursuant to § 35-3-4 relative to state fiscal year 2026, the department of elementary and secondary education shall develop alternatives to identify students whose family income is at or below one hundred eighty-five percent (185%) of federal poverty guidelines through participation in state-administered programs, including, but not limited to, the supplemental nutrition assistance program (SNAP), and RIteCare and other programs that include the collection of required supporting documentation. The department may also include any recommendations that seek to mitigate any disruptions associated with implementation of this new poverty measure or improve the accuracy of its calculation.

(3) The department shall also report with its annual budget request information regarding local contributions to education aid and compliance with §§ 16-7-23 and 16-7-24. The report shall also compare these local contributions to state foundation education aid by community. The department shall also report compliance to each city or town school committee and city or town council.

(g) The provisions of § 45-53-16 indexing education aid to achieving low- and moderate-income housing levels shall be applied after the yearly amount of education aid provided for under subsection (a) of this section is calculated.

SECTION 3. This act shall take effect on January 1, 2025.

LC005184

EXPLANATION

BY THE LEGISLATIVE COUNCIL

OF

AN ACT

RELATING TO TOWNS AND CITIES -- LOW- AND MODERATE-INCOME HOUSING

This act would provide for increases or decreases in the amount of foundation level school support that a community would receive, based upon a community's ability to meet and surpass its minimum low- and moderate-income housing requirements.

This act would take effect on January 1, 2025.
