24 operations including distribution bases or outlets of out-of-state manufacturers, and fabricating
25 processes incidental to warehousing or distribution of raw materials such as alteration of stock for
26 the convenience of a customer, are excluded from this definition.

27 (ii) For the purposes of sections 44-3-3, 44-4-10, and 44-5-38, the term "manufacturer's
28 inventory" or any similar term means and includes the manufacturer's raw materials, the
29 manufacturer's work in process, and finished products manufactured by the manufacturer in this
30 state, and not sold, leased, or traded by the manufacturer or its title or right to possession
31 divested; provided, that the term does not include any finished products held by the manufacturer
32 in any retail store or other similar selling place operated by the manufacturer whether or not the
33 retail establishment is located in the same building in which the manufacturer operates the
34 manufacturing plant.

1 (iii) For the purpose of section 44-11-2, a "manufacturer" is a person whose principal
2 business in this state consists of transforming raw materials into a finished product for trade
3 through any or all of the operations described in paragraph (i) of this subdivision. A person will
4 be deemed to be principally engaged if the gross receipts which that person derived from the
5 manufacturing operations in this state during the calendar year or fiscal year mentioned in section
6 44-11-1 amounted to more than fifty percent (50%) of the total gross receipts which that person
7 derived from all the business activities in which that person engaged in this state during the
8 taxable year. For the purpose of computing the percentage, gross receipts derived by a
9 manufacturer from the sale, lease, or rental of finished products manufactured by the
10 manufacturer in this state, even though the manufacturer's store or other selling place may be at a
11 different location from the location of the manufacturer's manufacturing plant in this state, are
12 deemed to have been derived from manufacturing.

13 (iv) Within the meaning of the preceding paragraphs of this subdivision, the term
14 "manufacturer" also includes persons who are principally engaged in any of the general activities
15 coded and listed as establishments engaged in manufacturing in the standard industrial
16 classification manual prepared by the technical committee on industrial classification, office of
17 statistical standards, executive office of the president, United States bureau of the budget, as
18 revised from time to time, but eliminating as manufacturers those persons, who, because of their
19 limited type of manufacturing activities, are classified in the manual as falling within the trade
20 rather than an industrial classification of manufacturers. Among those thus eliminated, and
21 accordingly also excluded as manufacturers within the meaning of this paragraph, are persons
22 primarily engaged in selling, to the general public, products produced on the premises from which
23 they are sold, such as neighborhood bakeries, candy stores, ice cream parlors, shade shops, and
24 custom tailors, except, that a person who manufactures bakery products for sale primarily for
25 home delivery, or through one or more non-baking retail outlets, and whether or not retail outlets
26 are operated by person, is a manufacturer within the meaning of this paragraph.

27 (v) The term "Person" means and includes, as appropriate, a person, partnership, or
28 corporation.

29 (vi) The department of revenue shall provide to the local assessors any assistance that is
30 necessary in determining the proper application of the definitions in this subdivision.

32 used primarily to control the pollution or contamination of the waters or the air of the state, as
33 defined in chapter 12 of title 46 and chapter 25 of title 23, respectively, the facility having been
34 constructed, reconstructed, erected, installed, or acquired in furtherance of federal or state

1 requirements or standards for the control of water or air pollution or contamination, and certified
2 as approved in an order entered by the director of environmental management. The property is
3 exempt as long as it is operated properly in compliance with the order of approval of the director
4 of environmental management; provided, that any grant of the exemption by the director of
5 environmental management in excess of ten (10) years is approved by the city or town in which
6 the property is situated. This provision applies only to water and air pollution control properties
7 and facilities installed for the treatment of waste waters and air contaminants resulting from
8 industrial processing; furthermore, it applies only to water or air pollution control properties and
9 facilities placed in operation for the first time after April 13, 1970;

15 subdivision (20) of this section, and machinery, fixtures, and equipment used exclusively by a
16 manufacturer for research and development or for quality assurance of its manufactured products;

17 (ii) Machinery and equipment which is partially used in the actual manufacture or
18 conversion of raw materials or goods in process of manufacture by a manufacturer as defined in
19 subdivision (20) of this section, and machinery, fixtures, and equipment used by a manufacturer
20 for research and development or for quality assurance of its manufactured products, to the extent
21 to which the machinery and equipment is used for the manufacturing processes, research and
22 development or quality assurance. In the instances where machinery and equipment is used in
23 both manufacturing and/or research, and development, and/or quality assurance activities and
24 non-manufacturing activities, the assessment on machinery and equipment is prorated by
25 applying the percentage of usage of the equipment for the manufacturing, research, and
26 development and quality assurance activity to the value of the machinery and equipment for
27 purposes of taxation, and the portion of the value used for manufacturing, research, and
28 development, and quality assurance is exempt from taxation. The burden of demonstrating this
29 percentage usage of machinery and equipment for manufacturing and for research, and
30 development and/or quality assurance of its manufactured products rests with the manufacturer;
31 and

32 (iii) Machinery and equipment described in section 44-18-30(7) and (22) that was
33 purchased after July 1, 1997; provided that the city or town council of the city or town in which
34 the machinery and equipment is located adopts an ordinance exempting the machinery and

1 equipment from taxation. For purposes of this subsection, city councils and town councils of any
2 municipality may by ordinance wholly or partially exempt from taxation the machinery and
3 equipment discussed in this subsection for the period of time established in the ordinance and
4 may by ordinance establish the procedures for taxpayers to avail themselves of the benefit of any
5 exemption permitted under this section; provided, that the ordinance does not apply to any
6 machinery or equipment of a business, subsidiary or any affiliated business which locates or
7 relocates from a city or town in this state to another city or town in the state.

8 ~~(23)~~ (22) Precious metal bullion, meaning any elementary metal which has been put
9 through a process of melting or refining, and which is in a state or condition that its value
10 depends upon its content and not its form. The term does not include fabricated precious metal
11 which has been processed or manufactured for some one or more specific and customary
12 industrial, professional, or artistic uses;

13 ~~(24)~~ (23) Hydroelectric power generation equipment, which includes, but is not limited
14 to, turbines, generators, switchgear, controls, monitoring equipment, circuit breakers,
15 transformers, protective relaying, bus bars, cables, connections, trash racks, headgates, and

28 and (iii)), from or the treatment of "hazardous wastes", as defined in section 23-19.1-4, where the
29 "hazardous wastes" are generated primarily by the same taxpayer and where the personal property
30 is located at, in, or adjacent to a generating facility of the taxpayer. The taxpayer may, but need
31 not, procure an order from the director of the department of environmental management
32 certifying that the tangible personal property has this function, which order effects a conclusive
33 presumption that the tangible personal property qualifies for the exemption under this
34 subdivision. If any information relating to secret processes or methods of manufacture,

1 production, or treatment is disclosed to the department of environmental management only to
2 procure an order, and is a "trade secret" as defined in section 28-21-10(b), it shall not be open to

4 title 28 or chapter 24.4 of title 23;
