7 ondary Education Act of 1965 (20 U.S.C. 6301 et seq.).

8 SEC. 4. FINDINGS.

9 Congress finds the following:

10 (1) Research conclusively shows that children’s
11 experiences in the early years of life influence the
12 developing brain and have a significant and lasting

1 impact upon their ability to succeed in school and in
2 life.

3 (2) All children deserve access to high-quality
4 early childhood education programs that support
5 their social, emotional, and cognitive development
6 and help prepare them to enter school ready to
7 learn.

8 (3) Research conclusively shows that high-quality
9 early childhood education programs lead to an in-
10 crease in positive outcomes for children in multiple
11 arenas, including—

12 (A) improved socialization skills;

13 (B) higher early reading and early mathe-
14 matics skills;

15 (C) decreased grade retention;

16 (D) decreased special education or reme-
17 dial education services, or both;

18 (E) decreased involvement with the juve-
19 nile justice system;

20 (F) increased likelihood that children will
21 graduate from high school; and

22 (G) increased likelihood of employment,
23 thus helping support America's long-term na-
24 tional economic strength.

1 (4) High-quality early childhood education pro-
2 grams provide parents the means to work and be fi-
3 nancially responsible for their families.

4 (5) Research conclusively shows the cost-effec-
5 tiveness of investments in high-quality early child-
6 hood education programs, with cost savings ranging
7 from \$7 to \$17 for every dollar invested.

8 (6) Aligning and connecting Federal and State
9 early education efforts with the Elementary and Sec-
10 ondary Education Act of 1965 (20 U.S.C. 6301 et
11 seq.) is critical to establishing quality care and
12 learning opportunities for children, beginning at
13 birth and continuing through adulthood, thereby
14 closing the achievement gap, and improving high
15 school graduation rates and college enrollment rates.

16 (7) Utilizing existing partnerships, as well as
17 instituting new partnerships, between high-quality
18 early childhood education programs, particularly in
19 high-need communities, and elementary schools will
20 provide opportunities for meaningful transitions for
21 children and result in a successful elementary and
22 secondary education experience.

23 (8) Under section 1112(b)(1)(K) of the Ele-
24 mentary and Secondary Education Act of 1965 (20
25 U.S.C. 6312(b)(1)(K)), local educational agencies

1 may, but are not required to, support preschool-age
2 and younger children through direct services or sub-
3 contracts with Head Start or other early childhood
4 programs, but more effort is required to ensure that
5 early learning programs and elementary schools are
6 meeting the educational needs of young children.

7 (9) There is widespread acknowledgment among
8 experts on child education that prior to entrance in
9 kindergarten, and in the early grades, children re-
10 main on a path of development that requires atten-
11 tion to and support for their emotional, social, and
12 physical development and their creativity, curiosity
13 and tenacity.

14 (10) Better alignment between early childhood
15 education programs and elementary schools, and
16 greater support for elementary school leadership in
17 instituting more developmentally appropriate and
18 comprehensive learning approaches for young chil-
19 dren, are widely acknowledged within the education
20 community as areas ripe for improvement that would
21 lead to better outcomes for children.

22 (11) Through several laws enacted in the past
23 2 decades, Congress has signified its interest in en-
24 suring that young children's learning opportunities
25 are enhanced by requiring States to develop and im-

1 plement guidelines and standards to support devel-
2 opmentally appropriate instruction across com-
3 prehensive domains of learning.
