11 *lows:*

12 **“SEC. 2. FINDINGS AND PURPOSES.**

13 “(a) *FINDINGS.—Congress makes the following find-*
14 *ings:*

15 “(1) *Lake Tahoe—*

16 “(A) *is one of the largest, deepest, and clear-*
17 *est fresh-water lakes in the world;*

1 “(B) has a distinctive cobalt blue color, a
2 biologically diverse alpine setting, and remarkable
3 water clarity; and

4 “(C) is recognized as a natural resource of
5 special significance, so that even world-traveler
6 Mark Twain called Lake Tahoe the ‘fairest pic-
7 ture the whole earth affords’.

8 “(2) In addition to being a scenic and ecological
9 treasure, the Lake Tahoe Basin is one of the out-
10 standing recreational resources of the United States,
11 which—

12 “(A) offers skiing, water sports, biking,
13 camping, and hiking to millions of visitors each
14 year; and

15 “(B) contributes significantly to the econo-
16 mies of California, Nevada, and the United
17 States.

18 “(3) The economy in the Lake Tahoe Basin is
19 dependent on the natural beauty and recreation op-
20 portunities of Lake Tahoe and the surrounding area.

21 “(4) Forests in the Lake Tahoe Basin suffer from
22 over a century of fire damage, periodic drought, and
23 mismanagement, which have resulted in—

24 “(A) high tree density and mortality;

25 “(B) the loss of biological diversity; and

1 “(C) a large quantity of combustible forest
2 fuels, which significantly increases the threat of
3 catastrophic fire and insect infestation.

4 “(5) The establishment of several aquatic and
5 terrestrial invasive species (including perennial
6 pepperweed, milfoil, and Asian clam) threatens the
7 ecosystem of the Lake Tahoe Basin, and the likelihood
8 exists for the introduction and establishment of other
9 invasive species (such as yellow starthistle, New Zea-
10 land mud snail, Zebra mussel, and quagga mussel).

11 “(6) 75 percent of the land in the Lake Tahoe
12 Basin is administered by the Federal Government,
13 which makes it a Federal responsibility to signifi-
14 cantly contribute to the restoration of the ecological
15 health of the Lake Tahoe Basin.

16 “(b) PURPOSES.—The purposes of this Act are as fol-
17 lows:

18 “(1) To identify ways and pursue options to ex-
19 pand the environmental threshold carrying capacity
20 of the Lake Tahoe Basin.

21 “(2) To enable the Chief of the Forest Service, the
22 Director of the United States Fish and Wildlife Serv-
23 ice, and the Administrator, in cooperation with the
24 Planning Agency and the States of California and
25 Nevada, to fund, plan, and implement significant for-

1 *est management and invasive species control activities*
2 *in the Lake Tahoe Basin.*

3 “(3) To ensure that Federal, State, local, re-
4 gional, tribal, and private entities continue to work
5 together to manage lands and forests in the Lake
6 Tahoe Basin.

7 “(4) To support local governments in the Lake
8 Tahoe Basin in efforts related fire risk reduction and
9 forest management activities.

10 “(5) To prioritize public recreational access to
11 public lands in the Lake Tahoe Basin.

12 “(6) To ensure that management of Federal land
13 and forests in the Lake Tahoe Basin is conducted
14 with the understanding that—

15 “(A) public forests are renewable assets that
16 should be managed, rather than neglected, and
17 that excess timber should be harvested to generate
18 continuing revenue for care of the public’s land,
19 in accordance with a good neighbor policy; and

20 “(B) the Federal Government will defer to
21 local communities whenever possible with regard
22 to land acquisition and land regulations or re-
23 strictions.”.

1 **SEC. 3. DEFINITIONS.**
