

115TH CONGRESS  
1ST SESSION

# H. R. 353

---

## AN ACT

To improve the National Oceanic and Atmospheric Administration's weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes.

1        *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

2 (a) SHORT TITLE.—This Act may be cited as the  
 3 “Weather Research and Forecasting Innovation Act of  
 4 2017”.

5 (b) TABLE OF CONTENTS.—The table of contents for  
 6 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Definitions.

TITLE I—UNITED STATES WEATHER RESEARCH AND  
 FORECASTING IMPROVEMENT

- Sec. 101. Public safety priority.
- Sec. 102. Weather research and forecasting innovation.
- Sec. 103. Tornado warning improvement and extension program.
- Sec. 104. Hurricane forecast improvement program.
- Sec. 105. Weather research and development planning.
- Sec. 106. Observing system planning.
- Sec. 107. Observing system simulation experiments.
- Sec. 108. Annual report on computing resources prioritization.
- Sec. 109. United States Weather Research program.
- Sec. 110. Authorization of appropriations.

TITLE II—SUBSEASONAL AND SEASONAL FORECASTING  
 INNOVATION

- Sec. 201. Improving subseasonal and seasonal forecasts.

TITLE III—WEATHER SATELLITE AND DATA INNOVATION

- Sec. 301. National Oceanic and Atmospheric Administration satellite and data management.
- Sec. 302. Commercial weather data.
- Sec. 303. Unnecessary duplication.

TITLE IV—FEDERAL WEATHER COORDINATION

- Sec. 401. Environmental Information Services Working Group.
- Sec. 402. Interagency weather research and forecast innovation coordination.
- Sec. 403. Office of Oceanic and Atmospheric Research and National Weather Service exchange program.
- Sec. 404. Visiting fellows at National Weather Service.
- Sec. 405. Warning coordination meteorologists at weather forecast offices of National Weather Service.
- Sec. 406. Improving National Oceanic and Atmospheric Administration communication of hazardous weather and water events.
- Sec. 407. National Oceanic and Atmospheric Administration Weather Ready All Hazards Award Program.
- Sec. 408. Department of Defense weather forecasting activities.
- Sec. 409. National Weather Service; operations and workforce analysis.

Sec. 410. Report on contract positions at National Weather Service.

Sec. 411. Weather impacts to communities and infrastructure.

Sec. 412. Weather enterprise outreach.

1 **SEC. 2. DEFINITIONS.**

2 In this Act:

3 (1) SEASONAL.—The term “seasonal” means  
4 the time range between 3 months and 2 years.

5 (2) STATE.—The term “State” means a State,  
6 a territory, or possession of the United States, in-  
7 cluding a Commonwealth, or the District of Colum-  
8 bia.

9 (3) SUBSEASONAL.—The term “subseasonal”  
10 means the time range between 2 weeks and 3  
11 months.

12 (4) UNDER SECRETARY.—The term “Under  
13 Secretary” means the Under Secretary of Commerce  
14 for Oceans and Atmosphere.

15 (5) WEATHER INDUSTRY AND WEATHER EN-  
16 TERPRISE.—The terms “weather industry” and  
17 “weather enterprise” are interchangeable in this Act,  
18 and include individuals and organizations from pub-  
19 lic, private, and academic sectors that contribute to  
20 the research, development, and production of weath-  
21 er forecast products, and primary consumers of  
22 these weather forecast products.

1 **TITLE I—UNITED STATES**  
2 **WEATHER RESEARCH AND**  
3 **FORECASTING IMPROVE-**  
4 **MENT**

5 **SEC. 101. PUBLIC SAFETY PRIORITY.**

6 In conducting research, the Under Secretary shall  
7 prioritize improving weather data, modeling, computing,  
8 forecasting, and warnings for the protection of life and  
9 property and for the enhancement of the national econ-  
10 omy.

11 **SEC. 102. WEATHER RESEARCH AND FORECASTING INNO-**  
12 **VATION.**

13 (a) PROGRAM.—The Assistant Administrator for the  
14 Office of Oceanic and Atmospheric Research shall conduct  
15 a program to develop improved understanding of and fore-  
16 cast capabilities for atmospheric events and their impacts,  
17 placing priority on developing more accurate, timely, and  
18 effective warnings and forecasts of high impact weather  
19 events that endanger life and property.

20 (b) PROGRAM ELEMENTS.—The program described  
21 in subsection (a) shall focus on the following activities:

22 (1) Improving the fundamental understanding  
23 of weather consistent with section 101, including the  
24 boundary layer and other processes affecting high  
25 impact weather events.

1           (2) Improving the understanding of how the  
2 public receives, interprets, and responds to warnings  
3 and forecasts of high impact weather events that en-  
4 danger life and property.

5           (3) Research and development, and transfer of  
6 knowledge, technologies, and applications to the Na-  
7 tional Weather Service and other appropriate agen-  
8 cies and entities, including the United States weath-  
9 er industry and academic partners, related to—

10           (A) advanced radar, radar networking  
11 technologies, and other ground-based tech-  
12 nologies, including those emphasizing rapid,  
13 fine-scale sensing of the boundary layer and  
14 lower troposphere, and the use of innovative,  
15 dual-polarization, phased-array technologies;

16           (B) aerial weather observing systems;

17           (C) high performance computing and infor-  
18 mation technology and wireless communication  
19 networks;

20           (D) advanced numerical weather prediction  
21 systems and forecasting tools and techniques  
22 that improve the forecasting of timing, track,  
23 intensity, and severity of high impact weather,  
24 including through—

1 (i) the development of more effective  
2 mesoscale models;

3 (ii) more effective use of existing, and  
4 the development of new, regional and na-  
5 tional cloud-resolving models;

6 (iii) enhanced global weather models;

7 and

8 (iv) integrated assessment models;

9 (E) quantitative assessment tools for meas-  
10 uring the impact and value of data and observ-  
11 ing systems, including Observing System Sim-  
12 ulation Experiments (as described in section  
13 107), Observing System Experiments, and  
14 Analyses of Alternatives;

15 (F) atmospheric chemistry and interactions  
16 essential to accurately characterizing atmos-  
17 pheric composition and predicting meteorolog-  
18 ical processes, including cloud microphysical,  
19 precipitation, and atmospheric electrification  
20 processes, to more effectively understand their  
21 role in severe weather; and

22 (G) additional sources of weather data and  
23 information, including commercial observing  
24 systems.

1           (4) A technology transfer initiative, carried out  
2 jointly and in coordination with the Director of the  
3 National Weather Service, and in cooperation with  
4 the United States weather industry and academic  
5 partners, to ensure continuous development and  
6 transition of the latest scientific and technological  
7 advances into operations of the National Weather  
8 Service and to establish a process to sunset outdated  
9 and expensive operational methods and tools to en-  
10 able cost-effective transfer of new methods and tools  
11 into operations.

12           (c) EXTRAMURAL RESEARCH.—

13           (1) IN GENERAL.—In carrying out the program  
14 under this section, the Assistant Administrator for  
15 Oceanic and Atmospheric Research shall collaborate  
16 with and support the non-Federal weather research  
17 community, which includes institutions of higher  
18 education, private entities, and nongovernmental or-  
19 ganizations, by making funds available through com-  
20 petitive grants, contracts, and cooperative agree-  
21 ments.

22           (2) SENSE OF CONGRESS.—It is the sense of  
23 Congress that not less than 30 percent of the funds  
24 for weather research and development at the Office  
25 of Oceanic and Atmospheric Research should be

1       made available for the purpose described in para-  
2       graph (1).

3       (d) ANNUAL REPORT.—Each year, concurrent with  
4 the annual budget request submitted by the President to  
5 Congress under section 1105 of title 31, United States  
6 Code, for the National Oceanic and Atmospheric Adminis-  
7 tration, the Under Secretary shall submit to Congress a  
8 description of current and planned activities under this  
9 section.

10 **SEC. 103. TORNADO WARNING IMPROVEMENT AND EXTEN-**  
11 **SION PROGRAM.**

12       (a) IN GENERAL.—The Under Secretary, in collabo-  
13 ration with the United States weather industry and aca-  
14 demic partners, shall establish a tornado warning improve-  
15 ment and extension program.

16       (b) GOAL.—The goal of such program shall be to re-  
17 duce the loss of life and economic losses from tornadoes  
18 through the development and extension of accurate, effec-  
19 tive, and timely tornado forecasts, predictions, and warn-  
20 ings, including the prediction of tornadoes beyond 1 hour  
21 in advance.

22       (c) PROGRAM PLAN.—Not later than 180 days after  
23 the date of the enactment of this Act, the Assistant Ad-  
24 ministrator for Oceanic and Atmospheric Research, in co-  
25 ordination with the Director of the National Weather

1 Service, shall develop a program plan that details the spe-  
2 cific research, development, and technology transfer activi-  
3 ties, as well as corresponding resources and timelines, nec-  
4 essary to achieve the program goal.

5 (d) ANNUAL BUDGET FOR PLAN SUBMITTAL.—Fol-  
6 lowing completion of the plan, the Under Secretary, acting  
7 through the Assistant Administrator for Oceanic and At-  
8 mospheric Research and in coordination with the Director  
9 of the National Weather Service, shall, not less frequently  
10 than once each year, submit to Congress a proposed budg-  
11 et corresponding with the activities identified in the plan.

12 **SEC. 104. HURRICANE FORECAST IMPROVEMENT PRO-**  
13 **GRAM.**

14 (a) IN GENERAL.—The Under Secretary, in collabo-  
15 ration with the United States weather industry and such  
16 academic entities as the Administrator considers appro-  
17 priate, shall maintain a project to improve hurricane fore-  
18 casting.

19 (b) GOAL.—The goal of the project maintained under  
20 subsection (a) shall be to develop and extend accurate hur-  
21 ricane forecasts and warnings in order to reduce loss of  
22 life, injury, and damage to the economy, with a focus on—

23 (1) improving the prediction of rapid inten-  
24 sification and track of hurricanes;

1           (2) improving the forecast and communication  
2 of storm surges from hurricanes; and

3           (3) incorporating risk communication research  
4 to create more effective watch and warning products.

5       (c) **PROJECT PLAN.**—Not later than 1 year after the  
6 date of the enactment of this Act, the Under Secretary,  
7 acting through the Assistant Administrator for Oceanic  
8 and Atmospheric Research and in consultation with the  
9 Director of the National Weather Service, shall develop  
10 a plan for the project maintained under subsection (a)  
11 that details the specific research, development, and tech-  
12 nology transfer activities, as well as corresponding re-  
13 sources and timelines, necessary to achieve the goal set  
14 forth in subsection (b).

15 **SEC. 105. WEATHER RESEARCH AND DEVELOPMENT PLAN-**  
16 **NING.**

17       Not later than 1 year after the date of the enactment  
18 of this Act, and not less frequently than once each year  
19 thereafter, the Under Secretary, acting through the As-  
20 sistant Administrator for Oceanic and Atmospheric Re-  
21 search and in coordination with the Director of the Na-  
22 tional Weather Service and the Assistant Administrator  
23 for Satellite and Information Services, shall issue a re-  
24 search and development and research to operations plan

1 to restore and maintain United States leadership in nu-  
2 merical weather prediction and forecasting that—

3 (1) describes the forecasting skill and tech-  
4 nology goals, objectives, and progress of the Na-  
5 tional Oceanic and Atmospheric Administration in  
6 carrying out the program conducted under section  
7 102;

8 (2) identifies and prioritizes specific research  
9 and development activities, and performance metrics,  
10 weighted to meet the operational weather mission of  
11 the National Weather Service to achieve a weather-  
12 ready Nation;

13 (3) describes how the program will collaborate  
14 with stakeholders, including the United States  
15 weather industry and academic partners; and

16 (4) identifies, through consultation with the Na-  
17 tional Science Foundation, the United States weath-  
18 er industry, and academic partners, research nec-  
19 essary to enhance the integration of social science  
20 knowledge into weather forecast and warning proc-  
21 esses, including to improve the communication of  
22 threat information necessary to enable improved se-  
23 vere weather planning and decisionmaking on the  
24 part of individuals and communities.

1 **SEC. 106. OBSERVING SYSTEM PLANNING.**

2 The Under Secretary shall—

3 (1) develop and maintain a prioritized list of  
4 observation data requirements necessary to ensure  
5 weather forecasting capabilities to protect life and  
6 property to the maximum extent practicable;

7 (2) consistent with section 107, utilize Observ-  
8 ing System Simulation Experiments, Observing Sys-  
9 tem Experiments, Analyses of Alternatives, and  
10 other appropriate assessment tools to ensure contin-  
11 uous systemic evaluations of the observing systems,  
12 data, and information needed to meet the require-  
13 ments of paragraph (1), including options to maxi-  
14 mize observational capabilities and their cost-effec-  
15 tiveness;

16 (3) identify current and potential future data  
17 gaps in observing capabilities related to the require-  
18 ments listed under paragraph (1); and

19 (4) determine a range of options to address  
20 gaps identified under paragraph (3).

21 **SEC. 107. OBSERVING SYSTEM SIMULATION EXPERIMENTS.**

22 (a) IN GENERAL.—In support of the requirements of  
23 section 106, the Assistant Administrator for Oceanic and  
24 Atmospheric Research shall undertake Observing System  
25 Simulation Experiments, or such other quantitative as-  
26 sessments as the Assistant Administrator considers appro-

1 (b) REQUIREMENTS.—Observing System Simulation  
2 Experiments shall quantitatively—

3 (1) determine the potential impact of proposed  
4 space-based, suborbital, and in situ observing sys-  
5 tems on analyses and forecasts, including potential  
6 impacts on extreme weather events across all parts  
7 of the Nation;

8 (2) evaluate and compare observing system de-  
9 sign options; and

10 (3) assess the relative capabilities and costs of  
11 various observing systems and combinations of ob-  
12 serving systems in providing data necessary to pro-  
13 tect life and property.

14 (c) IMPLEMENTATION.—Observing System Simula-  
15 tion Experiments—

16 (1) shall be conducted prior to the acquisition  
17 of major Government-owned or Government-leased  
18 operational observing systems, including polar-orbit-  
19 ing and geostationary satellite systems, with a  
20 lifecycle cost of more than \$500,000,000; and

21 (2) shall be conducted prior to the purchase of  
22 any major new commercially provided data with a  
23 lifecycle cost of more than \$500,000,000.

24 (d) PRIORITY OBSERVING SYSTEM SIMULATION EX-  
25 PERIMENTS.—

1           (1) GLOBAL NAVIGATION SATELLITE SYSTEM  
2           RADIO OCCULTATION.—Not later than 30 days after  
3           the date of the enactment of this Act, the Assistant  
4           Administrator for Oceanic and Atmospheric Re-  
5           search shall complete an Observing System Simula-  
6           tion Experiment to assess the value of data from  
7           Global Navigation Satellite System Radio Occulta-  
8           tion.

9           (2) GEOSTATIONARY HYPERSPECTRAL SOUND-  
10          ER GLOBAL CONSTELLATION.—Not later than 120  
11          days after the date of the enactment of this Act, the  
12          Assistant Administrator for Oceanic and Atmos-  
13          pheric Research shall complete an Observing System  
14          Simulation Experiment to assess the value of data  
15          from a geostationary hyperspectral sounder global  
16          constellation.

17          (e) RESULTS.—Upon completion of all Observing  
18          System Simulation Experiments, the Assistant Adminis-  
19          trator shall make available to the public the results an  
20          assessment of related private and public sector weather  
21          data sourcing options, including their availability, afford-  
22          ability, and cost-effectiveness. Such assessments shall be  
23          developed in accordance with section 50503 of title 51,  
24          United States Code.

1 **SEC. 108. ANNUAL REPORT ON COMPUTING RESOURCES**  
2 **PRIORITIZATION.**

3 Not later than 1 year after the date of the enactment  
4 of this Act and not less frequently than once each year  
5 thereafter, the Under Secretary, acting through the Chief  
6 Information Officer of the National Oceanic and Atmos-  
7 pheric Administration and in coordination with the Assist-  
8 ant Administrator for Oceanic and Atmospheric Research  
9 and the Director of the National Weather Service, shall  
10 produce and make publicly available a report that explains  
11 how the Under Secretary intends—

12 (1) to continually support upgrades to pursue  
13 the fastest, most powerful, and cost-effective high  
14 performance computing technologies in support of  
15 its weather prediction mission;

16 (2) to ensure a balance between the research to  
17 operations requirements to develop the next genera-  
18 tion of regional and global models as well as highly  
19 reliable operational models;

20 (3) to take advantage of advanced development  
21 concepts to, as appropriate, make next generation  
22 weather prediction models available in beta-test  
23 mode to operational forecasters, the United States  
24 weather industry, and partners in academic and  
25 Government research; and

1           (4) to use existing computing resources to im-  
2           prove advanced research and operational weather  
3           prediction.

4 **SEC. 109. UNITED STATES WEATHER RESEARCH PROGRAM.**

5           Section 108 of the Oceanic and Atmospheric Admin-  
6           istration Authorization Act of 1992 (Public Law 102-567;  
7           15 U.S.C. 313 note) is amended—

8           (1) in subsection (a)—

9                   (A) in paragraph (3), by striking “; and”  
10                  and inserting a semicolon;

11                  (B) in paragraph (4), by striking the pe-  
12                  riod at the end and inserting a semicolon; and

13                  (C) by inserting after paragraph (4) the  
14                  following:

15                  “(5) submit to the Committee on Commerce,  
16                  Science, and Transportation of the Senate and the  
17                  Committee on Science, Space, and Technology of the  
18                  House of Representatives, not less frequently than  
19                  once each year, a report, including—

20                          “(A) a list of ongoing research projects;

21                          “(B) project goals and a point of contact  
22                          for each project;

23                          “(C) the five projects related to weather  
24                          observations, short-term weather, or subsea-  
25                          sonal forecasts within Office of Oceanic and At-

1           mospheric Research that are closest to opera-  
2           tionalization;

3           “(D) for each project referred to in sub-  
4           paragraph (C)—

5                     “(i) the potential benefit;

6                     “(ii) any barrier to operationalization;

7                     and

8                     “(iii) the plan for operationalization,  
9                     including which line office will financially  
10                    support the project and how much the line  
11                    office intends to spend;

12           “(6) establish teams with staff from the Office  
13           of Oceanic and Atmospheric Research and the Na-  
14           tional Weather Service to oversee the operationaliza-  
15           tion of research products developed by the Office of  
16           Oceanic and Atmospheric Research;

17           “(7) develop mechanisms for research priorities  
18           of the Office of Oceanic and Atmospheric Research  
19           to be informed by the relevant line offices within the  
20           National Oceanic and Atmospheric Administration,  
21           the relevant user community, and the weather enter-  
22           prise;

23           “(8) develop an internal mechanism to track  
24           the progress of each research project within the Of-  
25           fice of Oceanic and Atmospheric Research and

1 mechanisms to terminate a project that is not ade-  
2 quately progressing;

3 “(9) develop and implement a system to track  
4 whether extramural research grant goals were ac-  
5 complished;

6 “(10) provide facilities for products developed  
7 by the Office of Oceanic and Atmospheric Research  
8 to be tested in operational simulations, such as test  
9 beds; and

10 “(11) encourage academic collaboration with  
11 the Office of Oceanic and Atmospheric Research and  
12 the National Weather Service by facilitating visiting  
13 scholars.”;

14 (2) in subsection (b), in the matter preceding  
15 paragraph (1), by striking “Not later than 90 days  
16 after the date of enactment of this Act, the” and in-  
17 serting “The”; and

18 (3) by adding at the end the following new sub-  
19 section:

20 “(c) SUBSEASONAL DEFINED.—In this section, the  
21 term ‘subseasonal’ means the time range between 2 weeks  
22 and 3 months.”.

23 **SEC. 110. AUTHORIZATION OF APPROPRIATIONS.**

24 (a) FISCAL YEARS 2017 AND 2018.—For each of fis-  
25 cal years 2017 and 2018, there are authorized to be ap-

1 appropriated to Office of Oceanic and Atmospheric Re-  
2 search—

3 (1) \$111,516,000 to carry out this title, of  
4 which—

5 (A) \$85,758,000 is authorized for weather  
6 laboratories and cooperative institutes; and

7 (B) \$25,758,000 is authorized for weather  
8 and air chemistry research programs; and

9 (2) an additional amount of \$20,000,000 for  
10 the joint technology transfer initiative described in  
11 section 102(b)(4).

12 (b) LIMITATION.—No additional funds are authorized  
13 to carry out this title and the amendments made by this  
14 title.

15 **TITLE II—SUBSEASONAL AND**  
16 **SEASONAL FORECASTING IN-**  
17 **NOVATION**

18 **SEC. 201. IMPROVING SUBSEASONAL AND SEASONAL FORE-**  
19 **CASTS.**

20 Section 1762 of the Food Security Act of 1985 (Pub-  
21 lic Law 99–198; 15 U.S.C. 313 note) is amended—

22 (1) in subsection (a), by striking “(a)” and in-  
23 serting “(a) FINDINGS.—”;

24 (2) in subsection (b), by striking “(b)” and in-  
25 serting “(b) POLICY.—”; and

1           (3) by adding at the end the following:

2           “(c) FUNCTIONS.—The Under Secretary, acting  
3 through the Director of the National Weather Service and  
4 the heads of such other programs of the National Oceanic  
5 and Atmospheric Administration as the Under Secretary  
6 considers appropriate, shall—

7           “(1) collect and utilize information in order to  
8 make usable, reliable, and timely foundational fore-  
9 casts of subseasonal and seasonal temperature and  
10 precipitation;

11           “(2) leverage existing research and models from  
12 the weather enterprise to improve the forecasts  
13 under paragraph (1);

14           “(3) determine and provide information on how  
15 the forecasted conditions under paragraph (1) may  
16 impact—

17           “(A) the number and severity of droughts,  
18 fires, tornadoes, hurricanes, floods, heat waves,  
19 coastal inundation, winter storms, high impact  
20 weather, or other relevant natural disasters;

21           “(B) snowpack; and

22           “(C) sea ice conditions; and

23           “(4) develop an Internet clearinghouse to pro-  
24 vide the forecasts under paragraph (1) and the in-

1           formation under paragraphs (1) and (3) on both na-  
2           tional and regional levels.

3           “(d) COMMUNICATION.—The Director of the Na-  
4           tional Weather Service shall provide the forecasts under  
5           paragraph (1) of subsection (c) and the information on  
6           their impacts under paragraph (3) of such subsection to  
7           the public, including public and private entities engaged  
8           in planning and preparedness, such as National Weather  
9           Service Core partners at the Federal, regional, State, trib-  
10          al, and local levels of government.

11          “(e) COOPERATION.—The Under Secretary shall  
12          build upon existing forecasting and assessment programs  
13          and partnerships, including—

14                 “(1) by designating research and monitoring ac-  
15                 tivities related to subseasonal and seasonal forecasts  
16                 as a priority in one or more solicitations of the Co-  
17                 operative Institutes of the Office of Oceanic and At-  
18                 mospheric Research;

19                 “(2) by contributing to the interagency Earth  
20                 System Prediction Capability; and

21                 “(3) by consulting with the Secretary of De-  
22                 fense and the Secretary of Homeland Security to de-  
23                 termine the highest priority subseasonal and sea-  
24                 sonal forecast needs to enhance national security.

25          “(f) FORECAST COMMUNICATION COORDINATORS.—

1           “(1) IN GENERAL.—The Under Secretary shall  
2 foster effective communication, understanding, and  
3 use of the forecasts by the intended users of the in-  
4 formation described in subsection (d). This may in-  
5 clude assistance to States for forecast communica-  
6 tion coordinators to enable local interpretation and  
7 planning based on the information.

8           “(2) REQUIREMENTS.—For each State that re-  
9 quests assistance under this subsection, the Under  
10 Secretary may—

11                 “(A) provide funds to support an indi-  
12 vidual in that State—

13                         “(i) to serve as a liaison among the  
14 National Oceanic and Atmospheric Admin-  
15 istration, other Federal departments and  
16 agencies, the weather enterprise, the State,  
17 and relevant interests within that State;  
18 and

19                         “(ii) to receive the forecasts and infor-  
20 mation under subsection (c) and dissemi-  
21 nate the forecasts and information  
22 throughout the State, including to county  
23 and tribal governments; and

24                 “(B) require matching funds of at least 50  
25 percent, from the State, a university, a non-

1 governmental organization, a trade association,  
2 or the private sector.

3 “(3) LIMITATION.—Assistance to an individual  
4 State under this subsection shall not exceed  
5 \$100,000 in a fiscal year.

6 “(g) COOPERATION FROM OTHER FEDERAL AGEN-  
7 CIES.—Each Federal department and agency shall cooper-  
8 ate as appropriate with the Under Secretary in carrying  
9 out this section.

10 “(h) REPORTS.—

11 “(1) IN GENERAL.—Not later than 18 months  
12 after the date of the enactment of the Weather Re-  
13 search and Forecasting Innovation Act of 2017, the  
14 Under Secretary shall submit to the Committee on  
15 Commerce, Science, and Transportation of the Sen-  
16 ate and the Committee on Science, Space, and Tech-  
17 nology of the House of Representatives a report, in-  
18 cluding—

19 “(A) an analysis of the how information  
20 from the National Oceanic and Atmospheric  
21 Administration on subseasonal and seasonal  
22 forecasts, as provided under subsection (c), is  
23 utilized in public planning and preparedness;

24 “(B) specific plans and goals for the con-  
25 tinued development of the subseasonal and sea-

1           sonal forecasts and related products described  
2           in subsection (c); and

3           “(C) an identification of research, moni-  
4           toring, observing, and forecasting requirements  
5           to meet the goals described in subparagraph  
6           (B).

7           “(2) CONSULTATION.—In developing the report  
8           under paragraph (1), the Under Secretary shall con-  
9           sult with relevant Federal, regional, State, tribal,  
10          and local government agencies, research institutions,  
11          and the private sector.

12          “(i) DEFINITIONS.—In this section:

13           “(1) FOUNDATIONAL FORECAST.—The term  
14           ‘foundational forecast’ means basic weather observa-  
15           tion and forecast data, largely in raw form, before  
16           further processing is applied.

17           “(2) NATIONAL WEATHER SERVICE CORE PART-  
18           NERS.—The term ‘National Weather Service core  
19           partners’ means government and nongovernment en-  
20           tities which are directly involved in the preparation  
21           or dissemination of, or discussions involving, haz-  
22           ardous weather or other emergency information put  
23           out by the National Weather Service.

24           “(3) SEASONAL.—The term ‘seasonal’ means  
25           the time range between 3 months and 2 years.

1           “(4) STATE.—The term ‘State’ means a State,  
2           a territory, or possession of the United States, in-  
3           cluding a Commonwealth, or the District of Colum-  
4           bia.

5           “(5) SUBSEASONAL.—The term ‘subseasonal’  
6           means the time range between 2 weeks and 3  
7           months.

8           “(6) UNDER SECRETARY.—The term ‘Under  
9           Secretary’ means the Under Secretary of Commerce  
10          for Oceans and Atmosphere.

11          “(7) WEATHER INDUSTRY AND WEATHER EN-  
12          TERPRISE.—The terms ‘weather industry’ and  
13          ‘weather enterprise’ are interchangeable in this sec-  
14          tion and include individuals and organizations from  
15          public, private, and academic sectors that contribute  
16          to the research, development, and production of  
17          weather forecast products, and primary consumers  
18          of these weather forecast products.

19          “(j) AUTHORIZATION OF APPROPRIATIONS.—For  
20          each of fiscal years 2017 and 2018, there are authorized  
21          out of funds appropriated to the National Weather Serv-  
22          ice, \$26,500,000 to carry out the activities of this sec-  
23          tion.”.

1 **TITLE III—WEATHER SATELLITE**  
2 **AND DATA INNOVATION**

3 **SEC. 301. NATIONAL OCEANIC AND ATMOSPHERIC ADMIN-**  
4 **ISTRATION SATELLITE AND DATA MANAGE-**  
5 **MENT.**

6 (a) SHORT-TERM MANAGEMENT OF ENVIRON-  
7 MENTAL OBSERVATIONS.—

8 (1) MICROSATELLITE CONSTELLATIONS.—

9 (A) IN GENERAL.—The Under Secretary  
10 shall complete and operationalize the Constella-  
11 tion Observing System for Meteorology,  
12 Ionosphere, and Climate–1 and Climate–2  
13 (COSMIC) in effect on the day before the date  
14 of the enactment of this Act—

15 (i) by deploying constellations of  
16 microsattellites in both the equatorial and  
17 polar orbits;

18 (ii) by integrating the resulting data  
19 and research into all national operational  
20 and research weather forecast models; and

21 (iii) by ensuring that the resulting  
22 data of National Oceanic and Atmospheric  
23 Administration’s COSMIC–1 and COS-  
24 MIC–2 programs are free and open to all  
25 communities.

1           (B) ANNUAL REPORTS.—Not less fre-  
2           quently than once each year until the Under  
3           Secretary has completed and operationalized the  
4           program described in subparagraph (A) pursu-  
5           ant to such subparagraph, the Under Secretary  
6           shall submit to Congress a report on the status  
7           of the efforts of the Under Secretary to carry  
8           out such subparagraph.

9           (2) INTEGRATION OF OCEAN AND COASTAL  
10          DATA FROM THE INTEGRATED OCEAN OBSERVING  
11          SYSTEM.—In National Weather Service Regions  
12          where the Director of the National Weather Service  
13          determines that ocean and coastal data would im-  
14          prove forecasts, the Director, in consultation with  
15          the Assistant Administrator for Oceanic and Atmos-  
16          pheric Research and the Assistant Administrator of  
17          the National Ocean Service, shall—

18                 (A) integrate additional coastal and ocean  
19                 observations, and other data and research, from  
20                 the Integrated Ocean Observing System (IOOS)  
21                 into regional weather forecasts to improve  
22                 weather forecasts and forecasting decision sup-  
23                 port systems; and

24                 (B) support the development of real-time  
25                 data sharing products and forecast products in

1 collaboration with the regional associations of  
2 such system, including contributions from the  
3 private sector, academia, and research institu-  
4 tions to ensure timely and accurate use of ocean  
5 and coastal data in regional forecasts.

6 (3) EXISTING MONITORING AND OBSERVATION-  
7 CAPABILITY.—The Under Secretary shall identify  
8 degradation of existing monitoring and observation  
9 capabilities that could lead to a reduction in forecast  
10 quality.

11 (4) SPECIFICATIONS FOR NEW SATELLITE SYS-  
12 TEMS OR DATA DETERMINED BY OPERATIONAL  
13 NEEDS.—In developing specifications for any sat-  
14 ellite systems or data to follow the Joint Polar Sat-  
15 ellite System, Geostationary Operational Environ-  
16 mental Satellites, and any other satellites, in effect  
17 on the day before the date of enactment of this Act,  
18 the Under Secretary shall ensure the specifications  
19 are determined to the extent practicable by the rec-  
20 ommendations of the reports under subsection (b) of  
21 this section.

22 (b) INDEPENDENT STUDY ON FUTURE OF NATIONAL  
23 OCEANIC AND ATMOSPHERIC ADMINISTRATION SAT-  
24 ELLITE SYSTEMS AND DATA.—

25 (1) AGREEMENT.—

1           (A) IN GENERAL.—The Under Secretary  
2 shall seek to enter into an agreement with the  
3 National Academy of Sciences to perform the  
4 services covered by this subsection.

5           (B) TIMING.—The Under Secretary shall  
6 seek to enter into the agreement described in  
7 subparagraph (A) before September 30, 2018.

8 (2) STUDY.—

9           (A) IN GENERAL.—Under an agreement  
10 between the Under Secretary and the National  
11 Academy of Sciences under this subsection, the  
12 National Academy of Sciences shall conduct a  
13 study on matters concerning future satellite  
14 data needs.

15           (B) ELEMENTS.—In conducting the study  
16 under subparagraph (A), the National Academy  
17 of Sciences shall—

18                   (i) develop recommendations on how  
19 to make the data portfolio of the Adminis-  
20 tration more robust and cost-effective;

21                   (ii) assess the costs and benefits of  
22 moving toward a constellation of many  
23 small satellites, standardizing satellite bus  
24 design, relying more on the purchasing of

1 data, or acquiring data from other sources  
2 or methods;

3 (iii) identify the environmental obser-  
4 vations that are essential to the perform-  
5 ance of weather models, based on an as-  
6 sessment of Federal, academic, and private  
7 sector weather research, and the cost of  
8 obtaining the environmental data;

9 (iv) identify environmental observa-  
10 tions that improve the quality of oper-  
11 ational and research weather models in ef-  
12 fect on the day before the date of enact-  
13 ment of this Act;

14 (v) identify and prioritize new envi-  
15 ronmental observations that could con-  
16 tribute to existing and future weather  
17 models; and

18 (vi) develop recommendations on a  
19 portfolio of environmental observations  
20 that balances essential, quality-improving,  
21 and new data, private and nonprivate  
22 sources, and space-based and Earth-based  
23 sources.

24 (C) DEADLINE AND REPORT.—In carrying  
25 out the study under subparagraph (A), the Na-

1           tional Academy of Sciences shall complete and  
2           transmit to the Under Secretary a report con-  
3           taining the findings of the National Academy of  
4           Sciences with respect to the study not later  
5           than 2 years after the date on which the Ad-  
6           ministrators enter into an agreement with the  
7           National Academy of Sciences under paragraph  
8           (1)(A).

9           (3) ALTERNATE ORGANIZATION.—

10           (A) IN GENERAL.—If the Under Secretary  
11           is unable within the period prescribed in sub-  
12           paragraph (B) of paragraph (1) to enter into  
13           an agreement described in subparagraph (A) of  
14           such paragraph with the National Academy of  
15           Sciences on terms acceptable to the Under Sec-  
16           retary, the Under Secretary shall seek to enter  
17           into such an agreement with another appro-  
18           priate organization that—

19                   (i) is not part of the Federal Govern-  
20                   ment;

21                   (ii) operates as a not-for-profit entity;

22                   and

23                   (iii) has expertise and objectivity com-  
24                   parable to that of the National Academy of  
25                   Sciences.

1 (B) TREATMENT.—If the Under Secretary  
2 enters into an agreement with another organi-  
3 zation as described in subparagraph (A), any  
4 reference in this subsection to the National  
5 Academy of Sciences shall be treated as a ref-  
6 erence to the other organization.

7 (4) AUTHORIZATION OF APPROPRIATIONS.—  
8 There are authorized to be appropriated, out of  
9 funds appropriated to National Environmental Sat-  
10 ellite, Data, and Information Service, to carry out  
11 this subsection \$1,000,000 for the period encom-  
12 passing fiscal years 2018 through 2019.

13 **SEC. 302. COMMERCIAL WEATHER DATA.**

14 (a) DATA AND HOSTED SATELLITE PAYLOADS.—  
15 Notwithstanding any other provision of law, the Secretary  
16 of Commerce may enter into agreements for—

17 (1) the purchase of weather data through con-  
18 tracts with commercial providers; and

19 (2) the placement of weather satellite instru-  
20 ments on cohosted government or private payloads.

21 (b) STRATEGY.—

22 (1) IN GENERAL.—Not later than 180 days  
23 after the date of the enactment of this Act, the Sec-  
24 retary of Commerce, in consultation with the Under  
25 Secretary, shall submit to the Committee on Com-

1 merce, Science, and Transportation of the Senate  
2 and the Committee on Science, Space, and Tech-  
3 nology of the House of Representatives a strategy to  
4 enable the procurement of quality commercial weath-  
5 er data. The strategy shall assess the range of com-  
6 mercial opportunities, including public-private part-  
7 nerships, for obtaining surface-based, aviation-based,  
8 and space-based weather observations. The strategy  
9 shall include the expected cost-effectiveness of these  
10 opportunities as well as provide a plan for procuring  
11 data, including an expected implementation timeline,  
12 from these nongovernmental sources, as appropriate.

13 (2) REQUIREMENTS.—The strategy shall in-  
14 clude—

15 (A) an analysis of financial or other bene-  
16 fits to, and risks associated with, acquiring  
17 commercial weather data or services, including  
18 through multiyear acquisition approaches;

19 (B) an identification of methods to address  
20 planning, programming, budgeting, and execu-  
21 tion challenges to such approaches, including—

22 (i) how standards will be set to ensure  
23 that data is reliable and effective;

24 (ii) how data may be acquired through  
25 commercial experimental or innovative

1 techniques and then evaluated for integra-  
2 tion into operational use;

3 (iii) how to guarantee public access to  
4 all forecast-critical data to ensure that the  
5 United States weather industry and the  
6 public continue to have access to informa-  
7 tion critical to their work; and

8 (iv) in accordance with section 50503  
9 of title 51, United States Code, methods to  
10 address potential termination liability or  
11 cancellation costs associated with weather  
12 data or service contracts; and

13 (C) an identification of any changes needed  
14 in the requirements development and approval  
15 processes of the Department of Commerce to  
16 facilitate effective and efficient implementation  
17 of such strategy.

18 (3) AUTHORITY FOR AGREEMENTS.—The As-  
19 sistant Administrator for National Environmental  
20 Satellite, Data, and Information Service may enter  
21 into multiyear agreements necessary to carry out the  
22 strategy developed under this subsection.

23 (c) PILOT PROGRAM.—

24 (1) CRITERIA.—Not later than 30 days after  
25 the date of the enactment of this Act, the Under

1 Secretary shall publish data and metadata standards  
2 and specifications for space-based commercial weath-  
3 er data, including radio occultation data, and, as  
4 soon as possible, geostationary hyperspectral sound-  
5 er data.

6 (2) PILOT CONTRACTS.—

7 (A) CONTRACTS.—Not later than 90 days  
8 after the date of enactment of this Act, the  
9 Under Secretary shall, through an open com-  
10 petition, enter into at least one pilot contract  
11 with one or more private sector entities capable  
12 of providing data that meet the standards and  
13 specifications set by the Under Secretary for  
14 providing commercial weather data in a manner  
15 that allows the Under Secretary to calibrate  
16 and evaluate the data for its use in National  
17 Oceanic and Atmospheric Administration mete-  
18 orological models.

19 (B) ASSESSMENT OF DATA VIABILITY.—

20 Not later than the date that is 3 years after the  
21 date on which the Under Secretary enters into  
22 a contract under subparagraph (A), the Under  
23 Secretary shall assess and submit to the Com-  
24 mittee on Commerce, Science, and Transpor-  
25 tation of the Senate and the Committee on

1 Science, Space, and Technology of the House of  
2 Representatives the results of a determination  
3 of the extent to which data provided under the  
4 contract entered into under subparagraph (A)  
5 meet the criteria published under paragraph (1)  
6 and the extent to which the pilot program has  
7 demonstrated—

8 (i) the viability of assimilating the  
9 commercially provided data into National  
10 Oceanic and Atmospheric Administration  
11 meteorological models;

12 (ii) whether, and by how much, the  
13 data add value to weather forecasts; and

14 (iii) the accuracy, quality, timeliness,  
15 validity, reliability, usability, information  
16 technology security, and cost-effectiveness  
17 of obtaining commercial weather data from  
18 private sector providers.

19 (3) AUTHORIZATION OF APPROPRIATIONS.—For  
20 each of fiscal years 2017 through 2020, there are  
21 authorized to be appropriated for procurement, ac-  
22 quisition, and construction at National Environ-  
23 mental Satellite, Data, and Information Service,  
24 \$6,000,000 to carry out this subsection.

1 (d) OBTAINING FUTURE DATA.—If an assessment  
2 under subsection (c)(2)(B) demonstrates the ability of  
3 commercial weather data to meet data and metadata  
4 standards and specifications published under subsection  
5 (c)(1), the Under Secretary shall—

6 (1) where appropriate, cost-effective, and fea-  
7 sible, obtain commercial weather data from private  
8 sector providers;

9 (2) as early as possible in the acquisition proc-  
10 ess for any future National Oceanic and Atmos-  
11 pheric Administration meteorological space system,  
12 consider whether there is a suitable, cost-effective,  
13 commercial capability available or that will be avail-  
14 able to meet any or all of the observational require-  
15 ments by the planned operational date of the system;

16 (3) if a suitable, cost-effective, commercial ca-  
17 pability is or will be available as described in para-  
18 graph (2), determine whether it is in the national in-  
19 terest to develop a governmental meteorological  
20 space system; and

21 (4) submit to the Committee on Commerce,  
22 Science, and Transportation of the Senate and the  
23 Committee on Science, Space, and Technology of the  
24 House of Representatives a report detailing any de-  
25 termination made under paragraphs (2) and (3).

1 (e) DATA SHARING PRACTICES.—The Under Sec-  
2 retary shall continue to meet the international meteorolog-  
3 ical agreements into which the Under Secretary has en-  
4 tered, including practices set forth through World Mete-  
5 orological Organization Resolution 40.

6 **SEC. 303. UNNECESSARY DUPLICATION.**

7 In meeting the requirements under this title, the  
8 Under Secretary shall avoid unnecessary duplication be-  
9 tween public and private sources of data and the cor-  
10 responding expenditure of funds and employment of per-  
11 sonnel.

12 **TITLE IV—FEDERAL WEATHER**  
13 **COORDINATION**

14 **SEC. 401. ENVIRONMENTAL INFORMATION SERVICES**  
15 **WORKING GROUP.**

16 (a) ESTABLISHMENT.—The National Oceanic and  
17 Atmospheric Administration Science Advisory Board shall  
18 continue to maintain a standing working group named the  
19 Environmental Information Services Working Group (in  
20 this section referred to as the “Working Group”)—

21 (1) to provide advice for prioritizing weather re-  
22 search initiatives at the National Oceanic and At-  
23 mospheric Administration to produce real improve-  
24 ment in weather forecasting;

1           (2) to provide advice on existing or emerging  
2 technologies or techniques that can be found in pri-  
3 vate industry or the research community that could  
4 be incorporated into forecasting at the National  
5 Weather Service to improve forecasting skill;

6           (3) to identify opportunities to improve—

7                 (A) communications between weather fore-  
8 casters, Federal, State, local, tribal, and other  
9 emergency management personnel, and the pub-  
10 lic; and

11                (B) communications and partnerships  
12 among the National Oceanic and Atmospheric  
13 Administration and the private and academic  
14 sectors; and

15           (4) to address such other matters as the  
16 Science Advisory Board requests of the Working  
17 Group.

18           (b) COMPOSITION.—

19                 (1) IN GENERAL.—The Working Group shall be  
20 composed of leading experts and innovators from all  
21 relevant fields of science and engineering including  
22 atmospheric chemistry, atmospheric physics, meteor-  
23 ology, hydrology, social science, risk communica-  
24 tions, electrical engineering, and computer sciences.

1 In carrying out this section, the Working Group may  
2 organize into subpanels.

3 (2) NUMBER.—The Working Group shall be  
4 composed of no fewer than 15 members. Nominees  
5 for the Working Group may be forwarded by the  
6 Working Group for approval by the Science Advisory  
7 Board. Members of the Working Group may choose  
8 a chair (or co-chairs) from among their number with  
9 approval by the Science Advisory Board.

10 (c) ANNUAL REPORT.—Not less frequently than once  
11 each year, the Working Group shall transmit to the  
12 Science Advisory Board for submission to the Under Sec-  
13 retary a report on progress made by National Oceanic and  
14 Atmospheric Administration in adopting the Working  
15 Group's recommendations. The Science Advisory Board  
16 shall transmit this report to the Under Secretary. Within  
17 30 days of receipt of such report, the Under Secretary  
18 shall submit to the Committee on Commerce, Science, and  
19 Transportation of the Senate and the Committee on  
20 Science, Space, and Technology of the House of Rep-  
21 resentatives a copy of such report.

22 **SEC. 402. INTERAGENCY WEATHER RESEARCH AND FORE-**  
23 **CAST INNOVATION COORDINATION.**

24 (a) ESTABLISHMENT.—The Director of the Office of  
25 Science and Technology Policy shall establish an Inter-

1 agency Committee for Advancing Weather Services to im-  
2 prove coordination of relevant weather research and fore-  
3 cast innovation activities across the Federal Government.

4 The Interagency Committee shall—

5           (1) include participation by the National Aero-  
6 nautics and Space Administration, the Federal Avia-  
7 tion Administration, National Oceanic and Atmos-  
8 pheric Administration and its constituent elements,  
9 the National Science Foundation, and such other  
10 agencies involved in weather forecasting research as  
11 the President determines are appropriate;

12           (2) identify and prioritize top forecast needs  
13 and coordinate those needs against budget requests  
14 and program initiatives across participating offices  
15 and agencies; and

16           (3) share information regarding operational  
17 needs and forecasting improvements across relevant  
18 agencies.

19       (b) CO-CHAIR.—The Federal Coordinator for Meteor-  
20 ology shall serve as a co-chair of this panel.

21       (c) FURTHER COORDINATION.—The Director of the  
22 Office of Science and Technology Policy shall take such  
23 other steps as are necessary to coordinate the activities  
24 of the Federal Government with those of the United States

1 weather industry, State governments, emergency man-  
2 agers, and academic researchers.

3 **SEC. 403. OFFICE OF OCEANIC AND ATMOSPHERIC RE-**  
4 **SEARCH AND NATIONAL WEATHER SERVICE**  
5 **EXCHANGE PROGRAM.**

6 (a) IN GENERAL.—The Assistant Administrator for  
7 Oceanic and Atmospheric Research and the Director of  
8 National Weather Service may establish a program to de-  
9 tail Office of Oceanic and Atmospheric Research personnel  
10 to the National Weather Service and National Weather  
11 Service personnel to the Office of Oceanic and Atmos-  
12 pheric Research.

13 (b) GOAL.—The goal of this program is to enhance  
14 forecasting innovation through regular, direct interaction  
15 between the Office of Oceanic and Atmospheric Research’s  
16 world-class scientists and the National Weather Service’s  
17 operational staff.

18 (c) ELEMENTS.—The program shall allow up to 10  
19 Office of Oceanic and Atmospheric Research staff and Na-  
20 tional Weather Service staff to spend up to 1 year on de-  
21 tail. Candidates shall be jointly selected by the Assistant  
22 Administrator for Oceanic and Atmospheric Research and  
23 the Director of the National Weather Service.

24 (d) ANNUAL REPORT.—Not less frequently than once  
25 each year, the Under Secretary shall submit to the Com-

1 mittee on Commerce, Science, and Transportation of the  
2 Senate and the Committee on Science, Space, and Tech-  
3 nology of the House of Representatives a report on partici-  
4 pation in such program and shall highlight any innova-  
5 tions that come from this interaction.

6 **SEC. 404. VISITING FELLOWS AT NATIONAL WEATHER**  
7 **SERVICE.**

8 (a) IN GENERAL.—The Director of the National  
9 Weather Service may establish a program to host  
10 postdoctoral fellows and academic researchers at any of  
11 the National Centers for Environmental Prediction.

12 (b) GOAL.—This program shall be designed to pro-  
13 vide direct interaction between forecasters and talented  
14 academic and private sector researchers in an effort to  
15 bring innovation to forecasting tools and techniques to the  
16 National Weather Service.

17 (c) SELECTION AND APPOINTMENT.—Such fellows  
18 shall be competitively selected and appointed for a term  
19 not to exceed 1 year.

20 **SEC. 405. WARNING COORDINATION METEOROLOGISTS AT**  
21 **WEATHER FORECAST OFFICES OF NATIONAL**  
22 **WEATHER SERVICE.**

23 (a) DESIGNATION OF WARNING COORDINATION ME-  
24 TEOROLOGISTS.—

1           (1) IN GENERAL.—The Director of the National  
2           Weather Service shall designate at least one warning  
3           coordination meteorologist at each weather forecast  
4           office of the National Weather Service.

5           (2) NO ADDITIONAL EMPLOYEES AUTHOR-  
6           IZED.—Nothing in this section shall be construed to  
7           authorize or require a change in the authorized  
8           number of full time equivalent employees in the Na-  
9           tional Weather Service or otherwise result in the em-  
10          ployment of any additional employees.

11          (3) PERFORMANCE BY OTHER EMPLOYEES.—  
12          Performance of the responsibilities outlined in this  
13          section is not limited to the warning coordination  
14          meteorologist position.

15          (b) PRIMARY ROLE OF WARNING COORDINATION  
16          METEOROLOGISTS.—The primary role of the warning co-  
17          ordination meteorologist shall be to carry out the respon-  
18          sibilities required by this section.

19          (c) RESPONSIBILITIES.—

20               (1) IN GENERAL.—Subject to paragraph (2),  
21               consistent with the analysis described in section 409,  
22               and in order to increase impact-based decision sup-  
23               port services, each warning coordination meteorolo-  
24               gist designated under subsection (a) shall—

1           (A) be responsible for providing service to  
2 the geographic area of responsibility covered by  
3 the weather forecast office at which the warning  
4 coordination meteorologist is employed to help  
5 ensure that users of products of the National  
6 Weather Service can respond effectively to im-  
7 prove outcomes from weather events;

8           (B) liaise with users of products and serv-  
9 ices of the National Weather Service, such as  
10 the public, media outlets, users in the aviation,  
11 marine, and agricultural communities, and for-  
12 estry, land, and water management interests, to  
13 evaluate the adequacy and usefulness of the  
14 products and services of the National Weather  
15 Service;

16           (C) collaborate with such weather forecast  
17 offices and State, local, and tribal government  
18 agencies as the Director considers appropriate  
19 in developing, proposing, and implementing  
20 plans to develop, modify, or tailor products and  
21 services of the National Weather Service to im-  
22 prove the usefulness of such products and serv-  
23 ices;

24           (D) ensure the maintenance and accuracy  
25 of severe weather call lists, appropriate office

1 severe weather policy or procedures, and other  
2 severe weather or dissemination methodologies  
3 or strategies; and

4 (E) work closely with State, local, and trib-  
5 al emergency management agencies, and other  
6 agencies related to disaster management, to en-  
7 sure a planned, coordinated, and effective pre-  
8 paredness and response effort.

9 (2) OTHER STAFF.—The Director may assign a  
10 responsibility set forth in paragraph (1) to such  
11 other staff as the Director considers appropriate to  
12 carry out such responsibility.

13 (d) ADDITIONAL RESPONSIBILITIES.—

14 (1) IN GENERAL.—Subject to paragraph (2), a  
15 warning coordination meteorologist designated under  
16 subsection (a) may—

17 (A) work with a State agency to develop  
18 plans for promoting more effective use of prod-  
19 ucts and services of the National Weather Serv-  
20 ice throughout the State;

21 (B) identify priority community prepared-  
22 ness objectives;

23 (C) develop plans to meet the objectives  
24 identified under paragraph (2); and

1           (D) conduct severe weather event pre-  
2           paredness planning and citizen education efforts  
3           with and through various State, local, and trib-  
4           al government agencies and other disaster man-  
5           agement-related organizations.

6           (2) OTHER STAFF.—The Director may assign a  
7           responsibility set forth in paragraph (1) to such  
8           other staff as the Director considers appropriate to  
9           carry out such responsibility.

10          (e) PLACEMENT WITH STATE AND LOCAL EMER-  
11          GENCY MANAGERS.—

12           (1) IN GENERAL.—In carrying out this section,  
13           the Director of the National Weather Service may  
14           place a warning coordination meteorologist des-  
15           ignated under subsection (a) with a State or local  
16           emergency manager if the Director considers doing  
17           so is necessary or convenient to carry out this sec-  
18           tion.

19           (2) TREATMENT.—If the Director determines  
20           that the placement of a warning coordination mete-  
21           orologist placed with a State or local emergency  
22           manager under paragraph (1) is near a weather  
23           forecast office of the National Weather Service, such  
24           placement shall be treated as designation of the

1 warning coordination meteorologist at such weather  
2 forecast office for purposes of subsection (a).

3 **SEC. 406. IMPROVING NATIONAL OCEANIC AND ATMOS-**  
4 **PHERIC ADMINISTRATION COMMUNICATION**  
5 **OF HAZARDOUS WEATHER AND WATER**  
6 **EVENTS.**

7 (a) PURPOSE OF SYSTEM.—For purposes of the as-  
8 sessment required by subsection (b)(1)(A), the purpose of  
9 National Oceanic and Atmospheric Administration system  
10 for issuing watches and warnings regarding hazardous  
11 weather and water events shall be risk communication to  
12 the general public that informs action to prevent loss of  
13 life and property.

14 (b) ASSESSMENT OF SYSTEM.—

15 (1) IN GENERAL.—Not later than 2 years after  
16 the date of the enactment of this Act, the Under  
17 Secretary shall—

18 (A) assess the National Oceanic and At-  
19 mospheric Administration system for issuing  
20 watches and warnings regarding hazardous  
21 weather and water events; and

22 (B) submit to Congress a report on the  
23 findings of the Under Secretary with respect to  
24 the assessment conducted under subparagraph  
25 (A).

1           (2) ELEMENTS.—The assessment required by  
2 paragraph (1)(A) shall include the following:

3           (A) An evaluation of whether the National  
4 Oceanic and Atmospheric Administration sys-  
5 tem for issuing watches and warnings regarding  
6 hazardous weather and water events meets the  
7 purpose described in subsection (a).

8           (B) Development of recommendations  
9 for—

10           (i) legislative and administrative ac-  
11 tion to improve the system described in  
12 paragraph (1)(A); and

13           (ii) such research as the Under Sec-  
14 retary considers necessary to address the  
15 focus areas described in paragraph (3).

16           (3) FOCUS AREAS.—The assessment required  
17 by paragraph (1)(A) shall focus on the following:

18           (A) Ways to communicate the risks posed  
19 by hazardous weather or water events to the  
20 public that are most likely to result in action to  
21 mitigate the risk.

22           (B) Ways to communicate the risks posed  
23 by hazardous weather or water events to the  
24 public as broadly and rapidly as practicable.

1           (C) Ways to preserve the benefits of the  
2 existing watches and warnings system.

3           (D) Ways to maintain the utility of the  
4 watches and warnings system for Government  
5 and commercial users of the system.

6           (4) CONSULTATION.—In conducting the assess-  
7 ment required by paragraph (1)(A), the Under Sec-  
8 retary shall—

9           (A) consult with such line offices within  
10 the National Oceanic and Atmospheric Admin-  
11 istration as the Under Secretary considers rel-  
12 evant, including the the National Ocean Serv-  
13 ice, the National Weather Service, and the Of-  
14 fice of Oceanic and Atmospheric Research;

15           (B) consult with individuals in the aca-  
16 demic sector, including individuals in the field  
17 of social and behavioral sciences, and other  
18 weather services;

19           (C) consult with media outlets that will be  
20 distributing the watches and warnings;

21           (D) consult with non-Federal forecasters  
22 that produce alternate severe weather risk com-  
23 munication products;

24           (E) consult with emergency planners and  
25 responders, including State and local emergency

1 management agencies, and other government  
2 users of the watches and warnings system, in-  
3 cluding the Federal Emergency Management  
4 Agency, the Office of Personnel Management,  
5 the Coast Guard, and such other Federal agen-  
6 cies as the Under Secretary determines rely on  
7 watches and warnings for operational decisions;  
8 and

9 (F) make use of the services of the Na-  
10 tional Academy of Sciences, as the Under Sec-  
11 retary considers necessary and practicable, in-  
12 cluding contracting with the National Research  
13 Council to review the scientific and technical  
14 soundness of the assessment required by para-  
15 graph (1)(A), including the recommendations  
16 developed under paragraph (2)(B).

17 (5) METHODOLOGIES.—In conducting the as-  
18 sessment required by paragraph (1)(A), the Under  
19 Secretary shall use such methodologies as the Under  
20 Secretary considers are generally accepted by the  
21 weather enterprise, including social and behavioral  
22 sciences.

23 (c) IMPROVEMENTS TO SYSTEM.—

24 (1) IN GENERAL.—The Under Secretary shall,  
25 based on the assessment required by subsection

1 (b)(1)(A), make such recommendations to Congress  
2 to improve the system as the Under Secretary con-  
3 siders necessary—

4 (A) to improve the system for issuing  
5 watches and warnings regarding hazardous  
6 weather and water events; and

7 (B) to support efforts to satisfy research  
8 needs to enable future improvements to such  
9 system.

10 (2) REQUIREMENTS REGARDING RECOMMENDA-  
11 TIONS.—In carrying out paragraph (1)(A), the  
12 Under Secretary shall ensure that any recommenda-  
13 tion that the Under Secretary considers a major  
14 change—

15 (A) is validated by social and behavioral  
16 science using a generalizable sample;

17 (B) accounts for the needs of various de-  
18 mographics, vulnerable populations, and geo-  
19 graphic regions;

20 (C) accounts for the differences between  
21 types of weather and water hazards;

22 (D) responds to the needs of Federal,  
23 State, and local government partners and media  
24 partners; and

1 (E) accounts for necessary changes to Fed-  
2 erally operated watch and warning propagation  
3 and dissemination infrastructure and protocols.

4 (d) WATCHES AND WARNINGS DEFINED.—

5 (1) IN GENERAL.—Except as provided in para-  
6 graph (2), in this section, the terms “watch” and  
7 “warning”, with respect to a hazardous weather and  
8 water event, mean products issued by the Adminis-  
9 tration, intended for consumption by the general  
10 public, to alert the general public to the potential for  
11 or presence of the event and to inform action to pre-  
12 vent loss of life and property.

13 (2) EXCEPTION.—In this section, the terms  
14 “watch” and “warning” do not include technical or  
15 specialized meteorological and hydrological forecasts,  
16 outlooks, or model guidance products.

17 **SEC. 407. NATIONAL OCEANIC AND ATMOSPHERIC ADMIN-**  
18 **ISTRATION WEATHER READY ALL HAZARDS**  
19 **AWARD PROGRAM.**

20 (a) PROGRAM.—The Director of the National Weath-  
21 er Service is authorized to establish the National Oceanic  
22 and Atmospheric Administration Weather Ready All Haz-  
23 ards Award Program. This award program shall provide  
24 annual awards to honor individuals or organizations that  
25 use or provide National Oceanic and Atmospheric Admin-

1 istration Weather Radio All Hazards receivers or trans-  
2 mitters to save lives and protect property. Individuals or  
3 organizations that utilize other early warning tools or ap-  
4 plications also qualify for this award.

5 (b) GOAL.—This award program draws attention to  
6 the life-saving work of the National Oceanic and Atmos-  
7 pheric Administration Weather Ready All Hazards Pro-  
8 gram, as well as emerging tools and applications, that pro-  
9 vide real-time warning to individuals and communities of  
10 severe weather or other hazardous conditions.

11 (c) PROGRAM ELEMENTS.—

12 (1) NOMINATIONS.—Nominations for this  
13 award shall be made annually by the Weather Field  
14 Offices to the Director of the National Weather  
15 Service. Broadcast meteorologists, weather radio  
16 manufacturers and weather warning tool and appli-  
17 cation developers, emergency managers, and public  
18 safety officials may nominate individuals or organi-  
19 zations to their local Weather Field Offices, but the  
20 final list of award nominees must come from the  
21 Weather Field Offices.

22 (2) SELECTION OF AWARDEES.—Annually, the  
23 Director of the National Weather Service shall  
24 choose winners of this award whose timely actions,  
25 based on National Oceanic and Atmospheric Admin-

1        istration Weather Radio All Hazards receivers or  
2        transmitters or other early warning tools and appli-  
3        cations, saved lives or property, or demonstrated  
4        public service in support of weather or all hazard  
5        warnings.

6            (3) AWARD CEREMONY.—The Director of the  
7        National Weather Service shall establish a means of  
8        making these awards to provide maximum public  
9        awareness of the importance of National Oceanic  
10       and Atmospheric Administration Weather Radio,  
11       and such other warning tools and applications as are  
12       represented in the awards.

13 **SEC. 408. DEPARTMENT OF DEFENSE WEATHER FORE-**  
14            **CASTING ACTIVITIES.**

15        Not later than 60 days after the date of the enact-  
16        ment of this Act, the Under Secretary shall submit to the  
17        Committee on Commerce, Science, and Transportation of  
18        the Senate and the Committee on Science, Space, and  
19        Technology of the House of Representatives a report ana-  
20        lyzing the impacts of the proposed Air Force divestiture  
21        in the United States Weather Research and Forecasting  
22        Model, including—

23            (1) the impact on—

24                    (A) the United States weather forecasting  
25            capabilities;

1 (B) the accuracy of civilian regional fore-  
2 casts;

3 (C) the civilian readiness for traditional  
4 weather and extreme weather events in the  
5 United States; and

6 (D) the research necessary to develop the  
7 United States Weather Research and Fore-  
8 casting Model; and

9 (2) such other analysis relating to the divesti-  
10 ture as the Under Secretary considers appropriate.

11 **SEC. 409. NATIONAL WEATHER SERVICE; OPERATIONS AND**  
12 **WORKFORCE ANALYSIS.**

13 The Under Secretary shall contract or continue to  
14 partner with an external organization to conduct a base-  
15 line analysis of National Weather Service operations and  
16 workforce.

17 **SEC. 410. REPORT ON CONTRACT POSITIONS AT NATIONAL**  
18 **WEATHER SERVICE.**

19 (a) REPORT REQUIRED.—Not later than 180 days  
20 after the date of the enactment of this Act, the Under  
21 Secretary shall submit to Congress a report on the use  
22 of contractors at the National Weather Service for the  
23 most recently completed fiscal year.

1 (b) CONTENTS.—The report required by subsection  
2 (a) shall include, with respect to the most recently com-  
3 pleted fiscal year, the following:

4 (1) The total number of full-time equivalent  
5 employees at the National Weather Service,  
6 disaggregated by each equivalent level of the General  
7 Schedule.

8 (2) The total number of full-time equivalent  
9 contractors at the National Weather Service,  
10 disaggregated by each equivalent level of the General  
11 Schedule that most closely approximates their du-  
12 ties.

13 (3) The total number of vacant positions at the  
14 National Weather Service on the day before the date  
15 of enactment of this Act, disaggregated by each  
16 equivalent level of the General Schedule.

17 (4) The five most common positions filled by  
18 full-time equivalent contractors at the National  
19 Weather Service and the equivalent level of the Gen-  
20 eral Schedule that most closely approximates the du-  
21 ties of such positions.

22 (5) Of the positions identified under paragraph  
23 (4), the percentage of full-time equivalent contrac-  
24 tors in those positions that have held a prior posi-  
25 tion at the National Weather Service or another en-

1       tity in National Oceanic and Atmospheric Adminis-  
2       tration.

3           (6) The average full-time equivalent salary for  
4       Federal employees at the National Weather Service  
5       for each equivalent level of the General Schedule.

6           (7) The average salary for full-time equivalent  
7       contractors performing at each equivalent level of  
8       the General Schedule at the National Weather Serv-  
9       ice.

10          (8) A description of any actions taken by the  
11       Under Secretary to respond to the issues raised by  
12       the Inspector General of the Department of Com-  
13       merce regarding the hiring of former National Oce-  
14       anic and Atmospheric Administration employees as  
15       contractors at the National Weather Service such as  
16       the issues raised in the Investigative Report dated  
17       June 2, 2015 (OIG–12–0447).

18       (c) ANNUAL PUBLICATION.—For each fiscal year  
19       after the fiscal year covered by the report required by sub-  
20       section (a), the Under Secretary shall, not later than 180  
21       days after the completion of the fiscal year, publish on  
22       a publicly accessible Internet website the information de-  
23       scribed in paragraphs (1) through (8) of subsection (b)  
24       for such fiscal year.

1 **SEC. 411. WEATHER IMPACTS TO COMMUNITIES AND IN-**  
2 **FRASTRUCTURE.**

3 (a) REVIEW.—

4 (1) IN GENERAL.—The Director of the National  
5 Weather Service shall review existing research, prod-  
6 ucts, and services that meet the specific needs of the  
7 urban environment, given its unique physical charac-  
8 teristics and forecasting challenges.

9 (2) ELEMENTS.—The review required by para-  
10 graph (1) shall include research, products, and serv-  
11 ices with the potential to improve modeling and fore-  
12 casting capabilities, taking into account factors in-  
13 cluding varying building heights, impermeable sur-  
14 faces, lack of tree canopy, traffic, pollution, and  
15 inter-building wind effects.

16 (b) REPORT AND ASSESSMENT.—Upon completion of  
17 the review required by subsection (a), the Under Secretary  
18 shall submit to Congress a report on the research, prod-  
19 ucts, and services of the National Weather Service, includ-  
20 ing an assessment of such research, products, and services  
21 that is based on the review, public comment, and recent  
22 publications by the National Academy of Sciences.

23 **SEC. 412. WEATHER ENTERPRISE OUTREACH.**

24 (a) IN GENERAL.—The Under Secretary may estab-  
25 lish mechanisms for outreach to the weather enterprise—

1           (1) to assess the weather forecasts and forecast  
2 products provided by the National Oceanic and At-  
3 mospheric Administration; and

4           (2) to determine the highest priority weather  
5 forecast needs of the community described in sub-  
6 section (b).

7           (b) OUTREACH COMMUNITY.—In conducting out-  
8 reach under subsection (a), the Under Secretary shall con-  
9 tact leading experts and innovators from relevant stake-  
10 holders, including the representatives from the following:

11           (1) State or local emergency management agen-  
12 cies.

13           (2) State agriculture agencies.

14           (3) Indian tribes (as defined in section 4 of the  
15 Indian Self-Determination and Education Assistance  
16 Act (25 U.S.C. 5304)) and Native Hawaiians (as de-  
17 fined in section 6207 of the Elementary and Sec-  
18 ondary Education Act of 1965 (20 U.S.C. 7517)).

19           (4) The private aerospace industry.

20           (5) The private earth observing industry.

21           (6) The operational forecasting community.

22           (7) The academic community.

23           (8) Professional societies that focus on meteor-  
24 ology.

1           (9) Such other stakeholder groups as the Under  
2           Secretary considers appropriate.

          Passed the House of Representatives January 9,  
2017.

Attest:

*Clerk.*

115<sup>TH</sup> CONGRESS  
1<sup>ST</sup> SESSION

**H. R. 353**

**AN ACT**

To improve the National Oceanic and Atmospheric Administration's weather research through a focused program of investment on affordable and attainable advances in observational, computing, and modeling capabilities to support substantial improvement in weather forecasting and prediction of high impact weather events, to expand commercial opportunities for the provision of weather data, and for other purposes.
