Ms. ESCOBAR (for herself, Mr. TONY GONZALES of Texas, Mrs. KIRKPATRICK, Mr. GRIJALVA, Mr. VARGAS, Mr. VICENTE GONZALEZ of Texas, Mr. CUELLAR, and Mr. VELA) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To establish grant programs to improve the health of residents along the United States-Mexico and United States-Canada borders and for all hazards preparedness in the border areas, including with respect to bioterrorism, infectious disease, and other emerging biothreats, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Border Health Secu-
3 rity Act of 2021”.

4 **SEC. 2. FINDINGS.**

5 Congress makes the following findings:

6 (1) The United States-Mexico border is an
7 interdependent and dynamic region of approximately
8 15,000,000 residents and millions of border cross-
9 ings each year, with significant and unique public
10 health challenges.

11 (2) These challenges include low rates of health
12 insurance coverage, poor access to health care serv-
13 ices, lack of education or access to information, pov-
14 erty-related illness, including undernutrition, and
15 high rates of infectious diseases, such as tuber-
16 culosis, West Nile virus, and Zika virus, as well as
17 other noncommunicable diseases such as cardio-
18 vascular disease, asthma, diabetes, and obesity.

19 (3) As the COVID–19 pandemic has illustrated,
20 diseases do not respect international boundaries, and
21 a strong public health effort at and along the United
22 States, Mexico, and Canada borders is crucial to not
23 only protect and improve the health of Americans
24 but also to help secure the country against biosecu-
25 rity and other emerging threats.

1 (4) For over 20 years, the United States-Mex-
2 ico Border Health Commission has served as a cru-
3 cial binational institution to address these unique
4 and truly cross-border health issues.

5 (5) The COVID–19 pandemic has also high-
6 lighted the need for continued coordination of re-
7 sources, effective communication, and information
8 sharing between countries to address emerging pub-
9 lic health crises.
