

113TH CONGRESS
2D SESSION

H. R. 5010

To provide greater clarity in the regulation of electronic nicotine delivery systems, including electronic cigarettes, cigars, cigarillos, pipes, and hookahs, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JUNE 26, 2014

Ms. SPEIER (for herself, Mr. CÁRDENAS, Mr. RANGEL, and Ms. SCHAKOWSKY) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To provide greater clarity in the regulation of electronic nicotine delivery systems, including electronic cigarettes, cigars, cigarillos, pipes, and hookahs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Stop Selling and Mar-
5 keting to Our Kids E-Cigarettes Act” or the “SMOKE
6 Act”.

7 **SEC. 2. FINDINGS; SENSE OF CONGRESS.**

8 (a) FINDINGS.—Congress finds the following:

1 (1) According to the Food and Drug Adminis-
2 tration, because electronic cigarettes have not been
3 fully studied, consumers currently do not know—

4 (A) the potential risks of electronic ciga-
5 rettes when used as intended;

6 (B) how much nicotine or other potentially
7 harmful chemicals are being inhaled during use;
8 or

9 (C) if there are any benefits associated
10 with using these products.

11 (2) Use of electronic cigarettes has risen in
12 youth according to a study by the Centers for Dis-
13 ease Control and Prevention that was released in
14 September 2013, which found that in one year, from
15 2011 to 2012, the percentage of middle and high
16 school students who had ever used electronic ciga-
17 rettes more than doubled.

18 (3) Electronic cigarette use may lead children
19 to become addicted to nicotine and could be a gate-
20 way to various tobacco products.

21 (4) Additionally, according to the Centers for
22 Disease Control and Prevention, 1 in 5 middle
23 school students who reported ever using electronic
24 cigarettes had never tried conventional cigarettes.

1 (5) Marketing of electronic cigarettes to youth
2 is occurring in the form of advertising using car-
3 toons and sponsorships of events popular with youth
4 such as concerts and sporting events.

5 (6) According to the Centers for Disease Con-
6 trol and Prevention, Poison Control Centers reported
7 rapid increase in electronic cigarette-related expo-
8 sures, of which 51.1 percent were among young chil-
9 dren. Electronic cigarette exposure calls per month
10 increased from one in September 2010 to 215 in
11 February 2014.

12 (7) Due to the lack of long-term studies, we do
13 not know the viability of claims that electronic ciga-
14 rettes help to lessen dependence on regular ciga-
15 rettes.

16 (8) According to a paper entitled “E-Ciga-
17 rettes: A Scientific Review” published in the Amer-
18 ican Heart Association’s peer-reviewed journal Cir-
19 culation, electronic cigarettes contain particles small
20 enough to get into the lungs and then cross into the
21 systemic circulation just like cigarettes. Therefore,
22 electronic cigarettes do not only produce “water
23 vapor” as is claimed in the marketing of these prod-
24 ucts. Furthermore, the particle size distribution and
25 number of particles delivered by electronic cigarettes

1 are similar to those contained in conventional ciga-
2 rettes. There is already strong evidence that fre-
3 quent low or short-term levels of exposure to these
4 types of particles from tobacco smoke or air pollu-
5 tion can contribute to health problems such as the
6 increased risk of cardiovascular and respiratory dis-
7 ease and death.

8 (9) The e-liquids used in electronic cigarettes
9 may be toxic if ingested or absorbed through the
10 skin at relatively low quantities. The lack of
11 childproof containers makes this even more of a
12 safety risk for children.

13 (b) SENSE OF CONGRESS.—It is the sense of Con-
14 gress that—

15 (1) the Food and Drug Administration—

16 (A) has been authorized to regulate the
17 sale, labeling, packaging, marketing, and adver-
18 tising of electronic nicotine delivery systems and
19 e-liquids since the enactment of the Family
20 Smoking Prevention and Tobacco Control Act
21 on June 22, 2009; and

22 (B) should exercise this authority; and

23 (2) the Federal Trade Commission should pro-
24 hibit the advertising, promoting, and marketing in
25 commerce of electronic nicotine delivery systems and

1 e-liquids to children as an unfair or deceptive act or
2 practice, in order to protect the health of the youth
3 of the United States.

4 **SEC. 3. FDA REGULATION OF ELECTRONIC NICOTINE DE-**
5 **LIVERY SYSTEMS AND E-LIQUIDS.**

6 (a) DEFINITIONS.—Section 900 of the Federal Food,
