A BILL

To ensure affordable abortion coverage and care for every person, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
 2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Equal Access to Abor-

5 tion Coverage in Health Insurance Act of 2023” or the

6 “EACH Act of 2023”.

7 **SEC. 2. FINDINGS.**

8 Congress makes the following findings:

9 (1) All people should have access to abortion

10 services regardless of actual or perceived race, color,

11 ethnicity, language, ancestry, citizenship, immigra-

12 tion status, sex (including a sex stereotype; preg-

13 nancy, childbirth, or a related medical condition;

1 sexual orientation or gender identity; and sex char-
2 acteristics), age, disability, or sex work status or be-
3 havior.

4 (2) A person's income level, wealth, or type of
5 insurance should not prevent them from having ac-
6 cess to a full range of pregnancy-related health care,
7 including abortion services.

8 (3) No person should have the decision to have,
9 or not to have, an abortion made for them based on
10 the ability or inability to afford the health care serv-
11 ice.

12 (4) Since 1976, the Federal Government has
13 banned the use of Federal funds to pay for abortion
14 services and allows for exceptions only in very nar-
15 row circumstances. This ban affects people of repro-
16 ductive age in the United States who are insured
17 through the Medicaid program, as well as individuals
18 who receive insurance or care through other feder-
19 ally funded health programs and plans.

20 (5) Women make up the majority of Medicaid
21 enrollees (54 percent) and, in 2019, approximately
22 14 million women of reproductive age relied on the
23 program for care. Due to systematic barriers and
24 discrimination, a disproportionately higher number
25 of women of color and Lesbian, Gay, Bisexual,

1 Transgender, or Queer (LGBTQ) individuals are en-
2 rolled in the program.

3 (6) Women of color are more likely to be in-
4 sured by the Medicaid program. Nationwide, 29 per-
5 cent of Black women and 25 percent of Hispanic
6 women aged 15–49 were enrolled in Medicaid in
7 2018, compared with 15 percent of White women.

8 (7) In the aggregate, nearly one-fifth (19 per-
9 cent) of Asian American and Pacific Islander women
10 are enrolled in the Medicaid program, while enroll-
11 ment rates for certain Asian ethnic subgroups are
12 much higher (at 62 percent of Bhutanese women, 43
13 percent of Hmong women and 32 percent of Paki-
14 stani women).

15 (8) Medicaid also provides coverage to more
16 than one in four (27 percent) nonelderly American
17 Indian and Alaska Native (AIAN) adults and half of
18 AIAN children.

19 (9) In a 2014 nationwide survey of LGBT peo-
20 ple with incomes less than 400 percent Federal Pov-
21 erty Level (FPL), 61 percent of all respondents had
22 incomes in the Medicaid expansion range—up to
23 138 percent of the FPL—including 73 percent of
24 African-American respondents, 67 percent of Latino
25 respondents, and 53 percent of White respondents.

1 Another survey found that 32 percent of Asian and
2 Native Hawaiian/Pacific Islander transgender people
3 were living in poverty.

4 (10) Of women aged 15–44 enrolled in Med-
5 icaid in 2018, 55 percent lived in the 34 States and
6 the District of Columbia where Medicaid does not
7 cover abortion services except in limited cir-
8 cumstances. This amounted to 7.2 million women of
9 reproductive age, including 3 million women living
10 below the FPL. Of this population, Black, Indige-
11 nous, and other People of Color (BIPOC) women ac-
12 counted for 51 percent of those enrolled.

13 (11) The Indian Health Service (IHS) is the
14 federally funded health program for American Indi-
15 ans and Alaska Natives. The IHS serves a popu-
16 lation of approximately 2.56 million and as a feder-
17 ally funded system, since 1988, it has been barred
18 from providing abortion services except for very lim-
19 ited cases. American Indians and Alaska Natives
20 often face higher levels of poverty and limited access
21 to health care for a number of intersecting oppres-
22 sions thus leaving them without recourse for the
23 Federal ban on abortion services.

24 (12) Moreover, 26 States also prohibit coverage
25 of abortion services in the marketplaces and 11 pro-

1 hibit coverage in private health insurance plans
2 under the Patient Protection and Affordable Care
3 Act of 2010 (Public Law 111–148).

4 (13) A recent report details how restrictions on
5 abortion services coverage interfere with a person’s
6 individual decisionmaking, with their health and
7 well-being, with their economic security, with their
8 vulnerability to intimate partner violence, and with
9 their constitutionally protected right to a safe and
10 normal health care service.

11 (14) About 25 percent of women covered by
12 Medicaid seeking abortion services must carry their
13 pregnancies to term because they are unable to ob-
14 tain funds for their care. Government-imposed bar-
15 riers to abortion services restrict people’s decisions
16 on if, when, and how to parent, and have long-last-
17 ing and life-altering harmful effects on the pregnant
18 person, their families and their communities. Those
19 who seek and are denied abortion services are more
20 likely to remain in or fall into poverty than those
21 who access the care they need.

22 (15) Restrictions on abortion service coverage
23 have a disproportionately harmful impact on women
24 with low incomes, women of color, immigrant
25 women, LGBTQ people, and young women. Addi-

1 tionally, numerous state-imposed barriers make it
2 disparately difficult for low-income people, people of
3 color, immigrants, LGBTQ people, and young people
4 to access the health care and resources necessary to
5 prevent unintended pregnancy or to assure that they
6 are able to carry healthy pregnancies to term. Fur-
7 thermore, young people of reproductive age (15–24)
8 are more likely to have a lower income than those
9 older than that, and this income gap is greater for
10 young BIPOC. More than 40 percent of youth and
11 children under age 19 and almost a quarter of
12 young people age 19 to 25 have health insurance
13 through government programs. Without insurance
14 coverage for abortion services, young people are at
15 greater risk of not having the economic means to af-
16 ford care outside of insurance. Young people face
17 disproportionate access barriers to abortion includ-
18 ing parental involvement requirement (notification
19 and consent) and cost, in addition to barriers to con-
20 traception and inadequate and incomplete sexual(ity)
21 education. These challenges, which are magnified for
22 BIPOC and queer, trans, and nonbinary youth, can
23 cause significant delays in access to needed care,
24 and could ultimately harm the life of the young per-
25 son seeking abortion services. These institutionalized

1 barriers deny young people’s right to bodily auton-
2 omy and can force young people to encounter an
3 abusive parent or guardian, ignores trusted relation-
4 ships young people may have with adults other than
5 a parent or legal guardian, and in the case of the
6 judicial bypass process, may force young BIPOC to
7 interact with a legal system that has historically tar-
8 geted and caused harm to communities of color.

9 (16) These and other government-created and
10 government-institutionalized barriers—including the
11 restriction on funding for abortion services in Fed-
12 eral programs—exacerbate and create poverty and
13 racial inequality in income, wealth-generation, and
14 access to services.

15 (17) Access to health care, including abortion
16 services, promotes the general welfare of people liv-
17 ing in the United States. Singling out abortion serv-
18 ices for funding restrictions in health care programs
19 otherwise designed to promote the health and well-
20 being of people in the United States has cost preg-
21 nant people their lives, their livelihoods, their ability
22 to obtain or maintain economic security for them-
23 selves and their families, their ability to meet their
24 family’s basic needs, their ability to continue their

1 education without disruption, and their ability to
2 break free of abusive relationships.

3 (18) Like other health care and health insur-
4 ance markets in the United States, abortion services
5 and public insurance programs are commercial ac-
6 tivities that affect interstate commerce. Providers
7 and patients travel across State lines, and otherwise
8 engage in interstate commerce, to provide and access
9 abortion services. Material goods, services, and fed-
10 erally regulated medications used in abortion serv-
11 ices circulate in interstate commerce.

12 (19) Congress has the authority to enact this
13 Act to ensure affordable coverage of abortion and
14 other services pursuant to—

15 (A) its powers under the necessary and
16 proper clause of section 8, article I of the Con-
17 stitution of the United States;

18 (B) its powers under the commerce clause
19 of section 8, article 1 of the Constitution of the
20 United States;

21 (C) its powers to tax and spend for the
22 general welfare under section 8, article 1 of the
23 Constitution of the United States; and

24 (D) its powers to enforce section 1 of the
25 Fourteenth Amendment under section 5 of the

1 Fourteenth Amendment to the Constitution of
2 the United States.

3 (20) Congress has exercised these constitutional
4 powers to create, expand, and insure health care ac-
5 cess for people in the United States for decades.
6 Pursuant to this constitutional authority, Congress
7 has enacted, and subsequently reauthorized, numer-
8 ous health care programs including but not limited
9 to title XVIII of the Social Security Act of 1965
10 (Medicare); title XIX of the Social Security Act of
11 1965 (Medicaid); and title XXI of the Social Secu-
12 rity Act (Children’s Health Insurance Program, en-
13 acted in 1997).
