A BILL

To authorize appropriations for fiscal years 2010 through 2014 to promote long-term, sustainable rebuilding and development in Haiti, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Haiti Empowerment,
5 Assistance, and Rebuilding Act of 2010”.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

1 (1) On January 12, 2010, Haiti suffered an
2 earthquake measuring 7.0 on the Richter magnitude
3 scale, the greatest natural disaster in Haiti’s history,
4 which—

5 (A) devastated Port-au-Prince and the sur-
6 rounding areas;

7 (B) killed more than 230,000 people;

8 (C) injured hundreds of thousands more
9 people;

10 (D) left many hundreds of thousands of
11 people homeless;

12 (E) left many people with newly acquired
13 disabilities, including limb loss and other phys-
14 ical and mental trauma; and

15 (F) disrupted social structures and families
16 through death, injury, and relocation.

17 (2) The scale of the initial relief effort was un-
18 precedented, with many countries, hundreds of orga-
19 nizations, and thousands of people generously con-
20 tributing to a massive influx of supplies, resources,
21 and personnel to support search and rescue oper-
22 ations and humanitarian assistance, underlying one
23 of the most effective relief efforts in history.

24 (3) Prior to the earthquake, Haiti was the poor-
25 est country in the Western Hemisphere, with—

1 (A) an estimated 54 percent of its popu-
2 lation living on less than \$1 per day;

3 (B) approximately 120,000 people living
4 with HIV;

5 (C) 29,333 new cases of tuberculosis in
6 2007;

7 (D) nearly 50,000 children living in or-
8 phanages;

9 (E) 55 percent of school-aged children not
10 attending school; and

11 (F) an estimated 800,000 people with dis-
12 abilities.

13 (4) Despite these challenges, cautious signs of
14 developmental progress and stability were beginning
15 to emerge in Haiti before the earthquake after years
16 of security challenges and natural disasters that
17 weakened the economy and slowed the consolidation
18 of democracy and good governance.

19 (5) Although initial recovery efforts must con-
20 tinue to assist the people of Haiti struggling to se-
21 cure basic necessities, including food, water, health
22 care, shelter, and electricity, Haiti cannot afford to
23 only focus on its immediate needs.

24 (6) Haiti's leaders have advocated that—

1 (A) reconstruction should not follow the in-
2 efficient and poorly coordinated practices of the
3 past, but should build back better; and

4 (B) Haitians should be assisted and sup-
5 ported in accelerating and implementing long-
6 planned reforms and new ways of doing busi-
7 ness in every sector.

8 (7) Haiti enjoys several advantages that can fa-
9 cilitate its rebuilding, including—

10 (A) people committed to education and
11 hard work;

12 (B) proximity and duty-free access to
13 United States markets;

14 (C) a large, hardworking North American
15 diaspora, which remits generous amounts of
16 money back to Haiti every year; and

17 (D) many regional neighbors who are
18 peaceful, prosperous, and supportive of Haiti's
19 success.

20 (8) The experiences of other countries that have
21 successfully recovered from serious natural disasters
22 confirm that—

23 (A) when the people and other civil society
24 actors in an affected country play a significant
25 role in the design and execution of the rebuild-

1 ing efforts, the efforts are often more sustain-
2 able and more in line with the needs and aspi-
3 rations of local populations;

4 (B) when the government of the affected
5 country plays a leading role in the planning and
6 execution of the rebuilding efforts, there is a
7 higher probability of reforms being long-lasting
8 and coordinated with the long-term planning
9 and development efforts of the affected country;

10 (C) every effort should be made to incor-
11 porate, at the earliest time possible, market-
12 based employment and economic development
13 opportunities to allow people to take ownership
14 of their long-term self sufficiency;

15 (D) stability and security are essential pre-
16 conditions to longer-term development;

17 (E) education is critical to securing a bet-
18 ter future for the people in the affected coun-
19 try;

20 (F) removing gender disparities spurs mac-
21 roeconomic growth; and

22 (G) projects that integrate gender are
23 more likely to achieve their overall goals.

1 (9) Employment is essential to breaking the vi-
2 cious cycle of poverty, insecurity, and lack of faith
3 in democracy.

4 (10) In addition to providing emergency assist-
5 ance and relief, the Government of Haiti must grap-
6 ple with the longer-term issues of how to—

7 (A) provide permanent, sustainable shelter
8 to an estimated 1,300,000 Haitians displaced
9 by the earthquake;

10 (B) ensure that communities are at the
11 center of the rebuilding process, by employing
12 local labor and consulting with local leaders and
13 communities;

14 (C) provide health care in a sustainable
15 and comprehensive manner that is accessible to
16 all Haitians; and

17 (D) provide all children with access to edu-
18 cation.

19 (11) The impact of natural disaster on Haiti is
20 exacerbated by—

21 (A) the lack of enforcement of earthquake-
22 resistant construction procedures, weak building
23 codes, and massive private sector economic
24 losses that hinder the ability of people to pur-

1 chase materials of sufficient quality to rebuild
2 existing buildings;

3 (B) a government that has long struggled
4 to provide its people with minimal public serv-
5 ices, including security, clean water, shelter,
6 electricity, health care, and education; and

7 (C) underinvestment in infrastructure and
8 development in rural areas and secondary cities
9 outside of Port-au-Prince.

10 (12) Assistance to Haiti should be delivered in
11 a manner that enhances the ability of the Govern-
12 ment of Haiti to improve democratic, transparent
13 governance and to use credible government institu-
14 tions to provide services to its people.

15 (13) Local communities should play a central
16 role in the rebuilding of Haiti, while the national re-
17 covery process is led by the Government of Haiti in
18 such a way that foreign assistance upholds the pri-
19 macy of Haitian government institutions in the re-
20 building effort.

21 (14) International donors and nongovernmental
22 organizations—

23 (A) have a responsibility to support the
24 Government of Haiti in its rebuilding efforts;

1 (B) are critical to the success of the recov-
2 ery and reconstruction efforts;

3 (C) are key to the provision of services in
4 the near term;

5 (D) can build capacity for national institu-
6 tions, both governmental and nongovernmental,
7 to take over the management and provision of
8 essential services over the medium term;

9 (E) should support and encourage rebuild-
10 ing and development of programs which are en-
11 vironmentally sustainable and respectful and re-
12 storative of Haiti's natural resources;

13 (F) should work with the Government of
14 Haiti to improve the educational system and to
15 ensure that all children have access to an edu-
16 cation; and

17 (G) should work with the Government of
18 Haiti and the international community to better
19 predict, anticipate, and protect against future
20 disasters.

21 (15) The circumstances following the earth-
22 quake in Haiti provide a real opportunity for
23 Haiti—

1 (A) to break the cycle of poverty and unre-
2 alized expectations that has marked Haiti's his-
3 tory; and

4 (B) to establish a new framework for sus-
5 tained economic development through a commit-
6 ment of engagement from the United States,
7 other donors, and multilateral organizations to
8 support the Government of Haiti and the Hai-
9 tian people as they undertake the long rebuild-
10 ing process.
