8 (1) The Department of Labor has asserted that
9 socially responsible investments meet the fiduciary

3 (2) Eighty-four percent of mutual fund inves-
4 tors would be more likely to invest in a fund if one
5 of its principles was to invest in companies that en-
6 gage in ethical business practices in terms of oper-
7 ations and reporting.

8 (3) Seventy-one percent of investors agree that
9 companies that operate with higher levels of integ-
10 rity carry less investment risk, and 67 percent of in-
11 vestors believe that these companies deliver better
12 investment returns.

13 (4) The United States National Research Coun-
14 cil has established that human activity is largely re-
15 sponsible for recent climate change and threatens
16 significant harm to our Nation's public health and
17 welfare, security, agriculture and forestry, natural
18 resources, infrastructure, and economy.

19 (5) In 2012, \$3,740,000,000,000 was invested
