1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

2 (a) SHORT TITLE.—This Act may be cited as the
3 “Combating Sexual Harassment in Science Act of 2018”.

4 (b) TABLE OF CONTENTS.—The table of contents for
5 this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Findings.
- Sec. 3. Definitions.
- Sec. 4. Research grants.
- Sec. 5. Data collection.
- Sec. 6. Responsible conduct guide.
- Sec. 7. Interagency working group.
- Sec. 8. National academies assessment.
- Sec. 9. Authorization of appropriations.

6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) According to the report issued by the Na-
9 tional Academies of Sciences, Engineering, and Med-
10 icine in 2018 entitled “Sexual Harassment of
11 Women: Climate, Culture, and Consequences in Aca-
12 demic Sciences, Engineering, and Medicine”—

13 (A) sexual harassment is pervasive in insti-
14 tutions of higher education;

15 (B) the most common type of sexual har-
16 assment is gender harassment, which includes
17 verbal and nonverbal behaviors that convey in-
18 sulting, hostile, and degrading attitudes about
19 members of one gender;

20 (C) 58 percent of individuals in the aca-
21 demic workplace experience sexual harassment,

1 the second highest rate when compared to the
2 military, the private sector, and Federal, State,
3 and local government;

4 (D) women who are members of racial or
5 ethnic minority groups are more likely to expe-
6 rience sexual harassment and to feel unsafe at
7 work than White women, White men, or men
8 who are members of such groups;

9 (E) the training for each individual who
10 has a doctor of philosophy in the science, tech-
11 nology, engineering, and mathematics fields is
12 estimated to cost approximately \$500,000; and

13 (F) attrition of an individual so trained re-
14 sults in a loss of talent and money.

15 (2) Sexual harassment undermines career ad-
16 vancement for women.

17 (3) According to a 2017 study led by Dr. Kath-
18 ryn Clancy at the University of Illinois, among as-
19 tronomers and planetary scientists, 18 percent of
20 women who are members of racial or ethnic minority
21 groups and 12 percent of White women skipped pro-
22 fessional events because they did not feel safe at-
23 tending.

1 (4) Many women report leaving employment at
2 institutions of higher education due to sexual har-
3 assment.

4 (5) Research shows the majority of individuals
5 do not formally report experiences of sexual harass-
6 ment due to a justified fear of retaliation or other
7 negative professional or personal consequences.

8 (6) Reporting procedures with respect to such
9 harassment are inconsistent among Federal science
10 agencies and have varying degrees of accessibility.

11 (7) There is not adequate communication
12 among Federal science agencies and between such
13 agencies and grantees regarding reports of sexual
14 harassment, which has resulted in harassers receiv-
15 ing Federal funding after moving to a different in-
16 stitution.
