IN THE HOUSE OF REPRESENTATIVES

JANUARY 30, 2024

Mrs. MILLER-MEEKS (for herself and Mr. CÁRDENAS) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To amend title XVIII of the Social Security Act to ensure appropriate access to non-opioid pain management drugs under part D of the Medicare program.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; FINDINGS.**

4 (a) **SHORT TITLE.**—This Act may be cited as the
5 “Alternatives to Prevent Addiction In the Nation Act” or
6 the “Alternatives to PAIN Act”.

7 (b) **FINDINGS.**—Congress finds the following:

1 (1) In 2019, approximately 10 million people
2 misused prescription opioids.

3 (2) 3 million U.S. citizens and 16 million indi-
4 viduals worldwide have had or currently suffer from
5 opioid use disorder (OUD).

6 (3) In 2021, the number of overdose deaths in-
7 volving opioids was 10 times the number in 1999,
8 and overdoses involving opioids killed more than
9 80,000 people in 2021 alone.

10 (4) Most Medicare beneficiaries are prescribed
11 opioids to manage post-surgical pain.

12 (5) Data from 2017 indicates that, of those
13 prescribed an abundance of opioids, 90% did not
14 properly dispose of the extra.

15 (6) A combination of opioid overreliance, im-
16 proper storage, and easy access to opioids can wors-
17 en the addiction crisis.

18 (7) 1 study from 2019 found that among young
19 people misusing opioids, over 55% obtained them
20 from friends or relatives.

21 (8) Some individuals require opioids to manage
22 their condition including for chronic pain and pallia-
23 tive care.

1 (9) Nothing should interfere with the ability of
2 a health care provider to prescribe or administer a
3 course of treatment that is medically appropriate.

5 **NON-OPIOID PAIN MANAGEMENT DRUGS**
