

118TH CONGRESS  
1ST SESSION

# H. R. 752

---

## AN ACT

To require SelectUSA to coordinate with State-level economic development organizations to increase foreign direct investment in semiconductor-related manufacturing and production.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Securing Semicon-  
3 ductor Supply Chains Act of 2023”.

4 **SEC. 2. SELECTUSA DEFINED.**

5 In this Act, the term “SelectUSA” means the  
6 SelectUSA program of the Department of Commerce es-  
7 tablished by Executive Order No. 13577 (76 Fed. Reg.  
8 35,715).

9 **SEC. 3. FINDINGS.**

10 Congress makes the following findings:

11 (1) Semiconductors underpin the United States  
12 and global economies, including manufacturing sec-  
13 tors. Semiconductors are also essential to the na-  
14 tional security of the United States.

15 (2) A shortage of semiconductors, brought  
16 about by the COVID–19 pandemic and other com-  
17 plex factors impacting the overall supply chain, has  
18 threatened the economic recovery of the United  
19 States and industries that employ millions of United  
20 States citizens.

21 (3) Addressing current challenges and building  
22 resilience against future risks requires ensuring a se-  
23 cure and stable supply chain for semiconductors that  
24 will support the economic and national security  
25 needs of the United States and its allies.

1           (4) The supply chain for semiconductors is  
2 complex and global. While the United States plays  
3 a leading role in certain segments of the semicon-  
4 ductor industry, securing the supply chain requires  
5 onshoring, reshoring, or diversifying vulnerable seg-  
6 ments, such as for—

7                   (A) fabrication;

8                   (B) advanced packaging; and

9                   (C) materials and equipment used to man-  
10 ufacture semiconductor products.

11           (5) The Federal Government can leverage for-  
12 eign direct investment and private dollars to grow  
13 the domestic manufacturing and production capacity  
14 of the United States for vulnerable segments of the  
15 semiconductor supply chain.

16           (6) The SelectUSA program of the Department  
17 of Commerce, in coordination with other Federal  
18 agencies and State-level economic development orga-  
19 nizations, is positioned to boost foreign direct invest-  
20 ment in domestic manufacturing and to help secure  
21 the semiconductor supply chain of the United States.

22 **SEC. 4. COORDINATION WITH STATE-LEVEL ECONOMIC DE-**  
23 **VELOPMENT ORGANIZATIONS.**

24           Not later than 180 days after the date of the enact-  
25 ment of this Act, the Executive Director of SelectUSA

1 shall solicit comments from State-level economic develop-  
2 ment organizations—

3 (1) to review—

4 (A) what efforts the Federal Government  
5 can take to support increased foreign direct in-  
6 vestment in any segment of semiconductor-re-  
7 lated production;

8 (B) what barriers to such investment may  
9 exist and how to amplify State efforts to attract  
10 such investment;

11 (C) public opportunities those organiza-  
12 tions have identified to attract foreign direct in-  
13 vestment to help increase investment described  
14 in subparagraph (A);

15 (D) resource gaps or other challenges that  
16 prevent those organizations from increasing  
17 such investment; and

18 (2) to develop recommendations for—

19 (A) how SelectUSA can increase such in-  
20 vestment independently or through partnership  
21 with those organizations; and

22 (B) working with countries that are allies  
23 or partners of the United States to ensure that  
24 foreign adversaries (as defined in section  
25 8(e)(2) of the Secure and Trusted Communica-

1           tions Networks Act of 2019 (47 U.S.C.  
2           1607(c)(2))) do not benefit from United States  
3           efforts to increase such investment.

4 **SEC. 5. REPORT ON INCREASING FOREIGN DIRECT INVEST-**  
5                           **MENT IN SEMICONDUCTOR-RELATED MANU-**  
6                           **FACTURING AND PRODUCTION.**

7           Not later than 2 years after the date of the enact-  
8           ment of this Act, the Executive Director of SelectUSA,  
9           in coordination with the Federal Interagency Investment  
10          Working Group established by Executive Order No. 13577  
11          (76 Fed. Reg. 35,715; relating to establishment of the  
12          SelectUSA Initiative), shall submit to the Committee on  
13          Commerce, Science, and Transportation of the Senate and  
14          the Committee on Energy and Commerce of the House  
15          of Representatives a report that includes—

16                (1) a review of the comments SelectUSA re-  
17                ceived from State-level economic development organi-  
18                zations under section 4;

19                (2) a description of activities SelectUSA is en-  
20                gaged in to increase foreign direct investment in  
21                semiconductor-related manufacturing and produc-  
22                tion; and

23                (3) an assessment of strategies SelectUSA may  
24                implement to achieve an increase in such investment

1 and to help secure the United States supply chain  
2 for semiconductors, including by—

3 (A) working with other relevant Federal  
4 agencies; and

5 (B) working with State-level economic de-  
6 velopment organizations and implementing any  
7 strategies or recommendations SelectUSA re-  
8 ceived from those organizations.

9 **SEC. 6. NO ADDITIONAL FUNDS.**

10 No additional funds are authorized to be appro-  
11 priated for the purpose of carrying out this Act.

Passed the House of Representatives July 25, 2023.

Attest:

*Clerk.*
