1 SEC. 2. FINDINGS.

2 Congress finds the following:

3 (1) In order to achieve domestic and inter-
4 national net-zero greenhouse gas emissions targets,
5 a rapid and substantial investment in clean energy
6 innovation is needed.

7 (2) Clean energy technologies face unique ob-
8 stacles to successful commercial application, includ-
9 ing high up-front capital costs, long development
10 times, and the need to displace incumbent tech-
11 nologies in highly regulated markets.

1 (3) Multiple technology development and fi-
2 nancing gaps exist in the clean energy innovation
3 and commercial application landscape that are not
4 currently met by private sector investment alone.

5 (4) Federal investments in technology transfer
6 and demonstration programs help fill existing gaps
7 in the innovation cycle and improve the likelihood of
8 successful and timely commercial application of
9 clean energy technologies.

10 (5) To maximize clean energy innovation’s posi-
11 tive impact on United States economic competitive-
12 ness and reach net-zero greenhouse gas emissions,
13 the Department of Energy must show significant
14 leadership in enabling the transfer of new tech-
15 nologies to the private sector, particularly through
16 the Office of Technology Transitions.
