3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “National Service Ani-  
5 mals Monument Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds that—

1           (1) service animals, such as dogs, horses, mules,  
2           homing pigeons, and other animals, have accom-  
3           panied and supported servicemembers throughout  
4           history;

5           (2) service animals have worked alongside law  
6           enforcement personnel and first responders in per-  
7           forming vital, heroic, and often life-saving support  
8           activities;

9           (3) shelter dogs are often trained as service ani-  
10          mals;

11          (4) many veterans and individuals with disabil-  
12          ities rely on the devotion, training, and care provided  
13          by companion, guide, assistance, and therapy ani-  
14          mals, which are increasingly important to improving  
15          the quality of life of the veterans and individuals  
16          with disabilities that rely on the animals;

17          (5) the Department of the Navy—

18                (A) uses sea lions, which have excellent  
19                eyesight—

20                   (i) to find and retrieve unarmed test  
21                   ordinance (including practice mines); and

22                   (ii) to secure port complexes; and

23                (B) uses dolphins—

24                   (i) to find and retrieve equipment lost  
25                   at sea;

1 (ii) to identify intruders in restricted  
2 areas; and

3 (iii) to detect underwater mines;

4 (6) rescue dogs and handlers have been used in  
5 many critical disaster settings, including—

6 (A) in the aftermath of avalanches or other  
7 natural disasters; and

8 (B) during search and rescue missions,  
9 such as the search and rescue missions after  
10 the 9/11 terrorist attacks;

11 (7) during World War I and World War II—

12 (A) homing pigeons served as critical mes-  
13 sengers with tiny message capsules attached to  
14 the legs of the pigeons that were used to send  
15 communications to save the lives of countless  
16 soldiers, resulting in many pigeons becoming  
17 the target of enemy fire; and

18 (B) donkeys and mules transported food,  
19 supplies, ammunition, and wounded soldiers  
20 during terrible hardships;

21 (8) the military working dog program in the  
22 United States—

24 gram known as “Dogs for Defense”; and

1 (B) continues to be an active program in  
2 the military;

3 (9) military working dogs—

4 (A) have saved tens of thousands of lives  
5 through the service and sacrifice of the dogs;  
6 and

7 (B) are one of the greatest assets of the  
8 military;

9 (10) servicemembers have served on horseback  
10 from the Revolutionary War to the war in Afghani-  
11 stan;

12 (11) horses have carried wounded  
13 servicemembers and critical supplies in support of  
14 various military operations;

15 (12) the purple poppy is the international sym-  
16 bol for the service and sacrifice of service animals;

17 (13) on February 24 of each year, National  
18 Service Animals Day is celebrated in the United  
19 States and throughout the world; and

20 (14) a National Service Animals Monument  
21 would represent a place of pride, introspection, and  
22 education to pay tribute to the contributions and  
23 sacrifices made by all service animals and handlers  
24 of service animals throughout history.
