IN THE HOUSE OF REPRESENTATIVES

OCTOBER 6, 2020

Ms. PRESSLEY (for herself and Mrs. CAROLYN B. MALONEY of New York) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend the Public Health Service Act to support the development and implementation of programs using data analysis to identify and facilitate strategies to improve outcomes for children in geographic areas with a high prevalence of trauma from exposure to adverse childhood experiences, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Services and Trauma-
5 informed Research of Outcomes in Neighborhoods Grants

1 for Support for Children Act of 2020” or the “STRONG
2 Support for Children Act of 2020”.

3 **SEC. 2. FINDINGS.**

4 Congress finds that—

5 (1) childhood trauma is a pervasive public
6 health issue with long-term negative effects that
7 costs the United States thousands of lives and bil-
8 lions of dollars;

9 (2) addressing childhood and adolescent trauma
10 requires a comprehensive Federal approach that rec-
11 ognizes its severe impact and prioritizes trauma-in-
12 formed prevention and treatment that is reparative,
13 healing-centered, gender-responsive, culturally spe-
14 cific, and community-based;

15 (3) adults who have suffered from adverse
16 childhood experiences are at much greater risk of
17 death, including as the result of heart disease, lung
18 disease, cancer, substance use disorder, and suicide;

19 (4) childhood and adolescent exposures to ad-
20 verse childhood experiences are generational and
21 persistent and can lead to complex trauma and toxic
22 stress impacting brain development and triggering
23 epigenetics;

24 (5) any Federal effort to prevent and treat
25 trauma must acknowledge and address the impact of

1 historic and systemic causal factors, which include,
2 but are not limited to, the trauma of—

3 (A) historical and ongoing systemic racism,
4 sexism, xenophobia, homophobia, transphobia,
5 and ableism that have led to generations of vio-
6 lence and injustice and have robbed commu-
7 nities of their health, freedom, and peace of
8 mind;

9 (B) police brutality, racial profiling, and
10 criminalization, as well as heightened police ac-
11 tivity and surveillance in some areas with high-
12 er police-reported crime, whether as a result of
13 community violence or of racial profiling;

14 (C) poverty and other systemic inequities,
15 including lack of health care, housing insta-
16 bility, poor housing conditions, hunger and food
17 instability and the accompanying malnutrition,
18 and environmental injustice resulting from gen-
19 erations of racist policies, historic redlining,
20 lending discrimination, and workplace discrimi-
21 nation;

22 (D) gender-based violence, including sexual
23 harassment and assault and discriminatory
24 school discipline policies, especially for Black
25 girls and girls of color;

1 (E) western colonization and systemic di-
2 vestment in native communities;

3 (F) family separation policies, including
4 “zero-tolerance” immigration enforcement poli-
5 cies that have resulted in the deportation or the
6 threat of deportation for countless immigrant
7 families and have led to community mistrust
8 and fear of reporting injustices; and

9 (G) war and military presence, including
10 the increased militarization of local, State, and
11 Federal law enforcement agencies; and

12 (6) the COVID–19 global health pandemic has
13 increased and exacerbated the trauma inflicted on
14 young people, specifically young people who—

15 (A) live in communities with higher rates
16 of infection and mortality;

17 (B) have parents who are essential workers
18 or first responders;

19 (C) have parents who have lost their
20 sources of income;

21 (D) have witnessed death;

22 (E) have had their education interrupted;

23 (F) are living without access to green
24 space and space for physical exercise;

1 (G) have become housing insecure and lack
2 access to nutritious food; and

3 (H) are isolated amidst increased domestic
4 violence and sexual assault.

5 **SEC. 3. DATA ANALYSIS AND STRATEGY IMPLEMENTATION**
6 **TO PREVENT AND MITIGATE CHILDHOOD**
7 **TRAUMA.**

8 Title XXXI of the Public Health Service Act (42
